

UNIVERSITY OF MICHIGAN

Spring Commencement

May 2, 2015 | Michigan Stadium

SPRING COMMENCEMENT UNIVERSITY OF MICHIGAN

May 2, 2015
10:00 a.m.

This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies	21
College of Literature, Science, and the Arts.....	33
Medical School	54
Law School	55
School of Dentistry	57
College of Pharmacy	59
College of Engineering	60
A. Alfred Taubman College of Architecture and Urban Planning	70
School of Education.....	72
Stephen M. Ross School of Business.....	73
School of Natural Resources and Environment	80
School of Music, Theatre & Dance	81
School of Nursing	84
School of Public Health	86
School of Social Work	88
University of Michigan-Flint	89
University of Michigan-Dearborn.....	96
School of Information	103
Penny W. Stamps School of Art & Design.....	105
School of Kinesiology.....	106
Gerald R. Ford School of Public Policy.....	107

A preliminary list of August 2015 degree candidates begins on page 109.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

ORDER OF EXERCISES

***Processional**

Crown Imperial

Composed by Sir William Walton

The University of Michigan Commencement Band

Courtney Snyder

*Associate Director of Bands and Assistant Professor of Music
Conductor*

***The National Anthem**

The Star Spangled Banner

Antonina Chekhovskaya

Soloist

Master's Candidate, School of Music, Theatre & Dance

Welcome

Martha E. Pollack

Provost and Executive Vice President for Academic Affairs

Opening Remarks

Andrew D. Martin

Dean, College of Literature, Science, and the Arts

Remarks on Behalf of the Graduates

Catherine Huang

Senior

College of Literature, Science, and the Arts

Ari Weinzweig

Doctor of Laws

Robin Wright

Doctor of Humane Letters

Tadataka Yamada

Doctor of Science

Commencement Address	Paul Saginaw and Ari Weinzweig <i>Zingerman's Community of Businesses Co-Owners and Founding Partners</i>
Conferring of Undergraduate Degrees and Recognition of Graduates	Mark S. Schlissel
Commissioning of Reserve Officers' Training Corps	Katherine E. White <i>Lieutenant Colonel U.S. Army, Michigan Army National Guard, Deputy Staff Judge Advocate, 46th Military Police Command</i>
Congratulations	Janey Lack <i>Chair of the Board of Directors, Alumni Association</i>
*The Alma Mater	The Yellow and Blue <i>Composed by Michael W. Balfe</i> The University of Michigan Commencement Band and the audience (see words on back cover)
*Closing Remarks	Mark S. Schlissel
*The Victors	The University of Michigan Commencement Band and the audience
*Recessional	Proud Heritage <i>Composed by William Latham</i> The University of Michigan Commencement Band

Those who are able are asked to stand for the portions of the program asterisked (). At the conclusion of the program, the audience will please remain standing until the platform party has left the stage.

REGENTS OF THE UNIVERSITY

Michael J. Behm	Grand Blanc
Mark J. Bernstein	Ann Arbor
Laurence B. Deitch	Bloomfield Hills
Shauna Ryder Diggs	Grosse Pointe
Denise Ilitch	Bingham Farms
Andrea Fischer Newman	Ann Arbor
Andrew C. Richner	Grosse Pointe Park
Katherine E. White	Ann Arbor
Mark S. Schlissel	<i>ex officio</i>

EXECUTIVE OFFICERS

Mark S. Schlissel	<i>President</i>
Martha E. Pollack	<i>Provost and Executive Vice President for Academic Affairs</i>
Sally J. Churchill	<i>Vice President and Secretary of the University</i>
E. Royster Harper	<i>Vice President for Student Life</i>
Kevin P. Hegarty	<i>Executive Vice President and Chief Financial Officer</i>
S. Jack Hu	<i>Interim Vice President for Research</i>
Timothy G. Lynch	<i>Vice President and General Counsel</i>
Jerry A. May	<i>Vice President for Development</i>
Lisa M. Rudgers	<i>Vice President for Global Communications and Strategic Initiatives</i>
Marschall S. Runge	<i>Executive Vice President for Medical Affairs</i>
Cynthia H. Wilbanks	<i>Vice President for Government Relations</i>
Susan E. Borrego	<i>Chancellor University of Michigan-Flint</i>
Daniel Little	<i>Chancellor University of Michigan-Dearborn</i>

DEANS AND REPRESENTATIVES

Deborah Loewenberg Ball	<i>Dean, School of Education</i>
Susan M. Collins	<i>Joan and Sanford Weill Dean of Public Policy, Gerald R. Ford School of Public Policy</i>
James T. Dalton	<i>Dean, College of Pharmacy (represented by Associate Dean Bruce Mueller)</i>
Alison Davis-Blake	<i>Edward J. Frey Dean of Business, Stephen M. Ross School of Business</i>
James L. Hilton	<i>University Librarian and Dean of University Libraries (not represented)</i>
Christopher Kendall	<i>Dean, School of Music, Theatre & Dance</i>
Laura Lein	<i>Dean, School of Social Work (represented by Associate Dean Jorge Delva)</i>
Jeffrey MacKie-Mason	<i>Dean, School of Information</i>
Andrew D. Martin	<i>Dean, College of Literature, Science, and the Arts</i>
Laurie K. McCauley	<i>Dean, School of Dentistry</i>
Marie Lynn Miranda	<i>Samuel A. Graham Dean, School of Natural Resources and Environment</i>
David C. Munson	<i>Robert J. Vlasic Dean of Engineering, College of Engineering</i>
Gunalan Nadarajan	<i>Dean, Penny W. Stamps School of Art & Design</i>
Martin Philbert	<i>Dean, School of Public Health</i>
Monica Ponce de Leon	<i>Dean, A. Alfred Taubman College of Architecture and Urban Planning</i>
Kathleen Potempa	<i>Dean, School of Nursing</i>
Janet A. Weiss	<i>Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs—Graduate Studies</i>
Mark D. West	<i>Dean, Law School</i>
James O. Woolliscroft	<i>Dean, Medical School</i>
Ronald F. Zernicke	<i>Dean, School of Kinesiology</i>

MARSHALS OF THE UNIVERSITY

Mika LaVaque-Manty

*Arthur F. Thurnau Professor
Associate Professor, Political
Science and Philosophy,
College of Literature, Science,
and the Arts
Chief Marshal*

Valeria Bertacco

*Professor, Electrical Engineering
and Computer Science
College of Engineering
Assistant Chief Marshal*

Leigh A. Woods

*Professor, Theatre and Drama
School of Music, Theatre & Dance
Assistant Chief Marshal*

HONORARY DEGREE HOODERS

Scott E. Masten

*Professor of Business Economics
and Public Policy
Stephen M. Ross School of Business
Chair, Senate Advisory Committee
on University Affairs*

Valeria Bertacco

*Professor, Electrical Engineering
and Computer Science
College of Engineering
Assistant Chief Marshal*

HONORARY DEGREE RECIPIENT

John Dingell

John Dingell, the longest-serving member of the U.S. House of Representatives when he retired in January 2015, exemplifies the best of American political leadership. In an illustrious career spanning almost 60 years, Michigan's former 12th Congressional District representative and Presidential Medal of Freedom recipient is renowned throughout Michigan and the nation for being a caring, honest, and straight-speaking legislator who fought for civil rights, clean air, Medicare, American workers' rights, and consumer product safety. Born in Colorado Springs, Colorado, he grew up in Detroit and Washington, D.C., where his father served in the House of Representatives for 22 years and he was a House page. Mr. Dingell, a World War II Army veteran, earned a B.S. degree (1949) from Georgetown University and a J.D. degree (1952) from Georgetown Law School. He worked as a forest ranger, prosecuting attorney, and private practice lawyer before winning a special election in 1955 to succeed his father, who died in office. At the beginning of each Congressional session, Mr. Dingell would introduce the national health insurance bill his father had sponsored. A life-long advocate of health care issues, he co-authored the Affordable Care Act, Patient's Bill of Rights, Children's Health Insurance Program, Food and Drug Administration Food Safety Modernization Act, and Prescription Drug User Fee Act. An avid conservationist and outdoorsman and senior member of the Migratory Bird Conservation Commission, he co-wrote the Endangered Species Act, the 1990 Clean Air Act, Safe Drinking Water Act, and legislation to create North America's first international wildlife refuge, protecting thousands of acres of natural habitat in Michigan and Canada. In the 1980s and early 1990s, he chaired the Energy and Commerce Committee during the most productive period of its history. Many of his important accomplishments were in the areas of oversight and investigations. He uncovered malfeasance in the Environmental Protection Agency in the early 1980s; pursued waste, fraud, and abuse in the Pentagon; and uncovered fraud by generic drug manufacturers and medical device companies. He also led the House investigation of no-bid defense contracts in Iraq and worked tirelessly to limit importation of Canadian waste into Michigan. He was a strong and relentless advocate for the automobile industry in Detroit and the United States. Mr. Dingell has been a loyal supporter of the University and mentor to faculty and students, dozens of whom who have worked as interns in his office. In addition to supporting higher education nationally, he engaged with students frequently over the years, generously sharing his knowledge of the political process, elections, the separation of power, ethics in government and the private sector, lobbying, political parties, and international commitments.

Mr. Dingell, you are renowned as one of the most knowledgeable and thoughtful policy advocates in Congress. As dean of the House, you earned the respect and gratitude of constituents and colleagues for your leadership, courage, and dedicated public service. Throughout your career you worked collaboratively with others in Congress and the executive branch to secure affordable and accessible health care for all Americans, a sustainable environment, and honest government, leaving a remarkable legacy of achievement as a legislator and public steward. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.

HONORARY DEGREE RECIPIENT

Sanford R. Robertson

Silicon Valley legend and University of Michigan alumnus Sanford Robertson, founder of the pioneering investment firm Robertson Stephens and a founding partner of Francisco Partners, is renowned for his foresight and leadership. At Robertson Stephens he helped create the financial infrastructure that has powered the nation's rapidly growing technology sector. Born and raised in Chicago, Illinois, Mr. Robertson earned two degrees from Michigan, a B.B.A. (1953) and an M.B.A. (1954) with distinction. Among the first to recognize the high-tech industry's potential, he launched Robertson, Colman & Siebel in 1969, one of several investment firms he led. Robertson Stephens, the largest, took more than 500 technology and biotechnology companies public, including America Online, Applied Materials, Ascend, Dell Computer, E*Trade, Pixar Animation, and Sun Microsystems. Bank of America Corporation acquired Robertson Stephens in 1997. Two years later he co-founded Francisco Partners, a \$10 billion private equity firm, which has made more than 100 investments in technology. He is a director of several public companies, including being the lead independent director of the \$5 billion Salesforce.com, the world's largest cloud software company and fastest growing large company on the New York Stock Exchange. He also is a director of Dolby Laboratories Inc., JustAnswer, Pain Therapeutics Inc., and RPX Corporation. He serves on the boards of the Kamehameha Schools Endowment Investment Advisory Committee and the University of California, San Francisco Global Health Initiative. Additionally, Mr. Robertson chairs the W.M. Keck Observatory Advancement Advisory Council. He is deeply committed to the University and is a longtime member of the President's Advisory Group. He has served on U-M's Investment Advisory Committee since it was founded in 1990. During that time the University's endowment has grown from less than \$1 billion to \$9.7 billion in 2014. He served on the Campaign for Michigan National Leadership Committee in the 1980s and co-chaired the Michigan Difference campaign, which raised a record-breaking \$3.2 billion. He and his wife Jeanne currently serve on the steering committee of the \$4 billion Victors for Michigan fundraising campaign. Mr. Robertson was class president as a graduate student and has continued to contribute to the Stephen M. Ross School of Business as a member of its visiting committee, technology advisory board, and dean's advisory board. He endowed the Sanford R. Robertson Assistant Professor in Business Administration position and the football offensive coordinator post in the Athletic Department. The Robertsons also created the Jeanne and Sanford Robertson Scholarship Fund for musical theater students at the School of Music, Theatre & Dance. Mr. Robertson has received many accolades, including U-M's David B. Hermelin Award for Fundraising Volunteer Leadership and lifetime achievement awards from the University of California, Berkeley Haas School of Business Lester Center for Entrepreneurship and the National Venture Capital Association.

Mr. Robertson, you are renowned in the investment banking field and beyond for your vision and indomitable spirit. By providing the resources, expertise, and encouragement entrepreneurs need to bring their ideas to market, you play a crucial role in launching new technologies that change the way we work and live. You also inspire students, faculty, and fellow Michigan alumni with your generous support of higher education and long-standing commitment to your alma mater. The University of Michigan is proud to welcome you back and to award you the honorary degree, Doctor of Laws.

HONORARY DEGREE RECIPIENT

Paul Saginaw

Social entrepreneur and University of Michigan alumnus Paul Saginaw is famous for his mentorship and spiritual leadership shared freely with 21 partners and more than 700 employees in nine thriving businesses as the co-founder and co-chief executive officer of the Zingerman's Community of Businesses (ZCoB). Sharing a dream for a great corned beef and an organization with soul, he and Ari Weinzweig partnered to open Zingerman's Delicatessen in 1982, in an asymmetric, historic building with a \$20,000 loan and two other employees. Mr. Saginaw, who was born and grew up in Detroit and earned a Bachelor of Science degree (1976) in zoology from U-M, managed restaurants and worked as a fish monger in his own fish market with longtime friend Mike Monahan before launching the delicatessen. Since then, many business case studies have described Zingerman's unique growth, corporate visioning, open book management, sustainability, and equity efforts. In its January 2003 cover story by Bo Burlingham, *Inc.* magazine showcased Zingerman's as the "Coolest Small Company in America," which led to Burlingham's book *Small Giants: Companies That Choose to Be Great Instead of Big*, telling Zingerman's story. Leading the effort to grow the ZCoB, Mr. Saginaw works with every employee who has declared interest in opening a new business and becoming a ZCoB partner. Active in local and regional business communities, Mr. Saginaw has served on the boards of United Bank & Trust, Crystal Mountain Resort and, currently, Priority Health. He believes that a business earns its right to conduct commerce in a community by being a good corporate citizen and has pursued a parallel career volunteering in the nonprofit sector. Aware of food loss in the restaurant industry, Mr. Saginaw envisioned the feasibility of a nonprofit addressing hunger by rescuing nutritious food that otherwise would be tossed. Food Gatherers, initially staffed and heavily supported by Zingerman's and guided by its business principles, has become a national model for hunger relief with Mr. Saginaw as founding president and board member from 1988 to 2012. He also was a founding director of the Washtenaw Housing Alliance, a collaborative of nonprofits dealing directly and tangentially with homelessness, and a board member of the Business Alliance for Local Living Economies, which catalyzes networks of locally owned and controlled businesses to drive economic development. He is a director of Dawn Farm, a nationally recognized recovery program, and a past-president of Ann Arbor's NEW Center, which provides training resources to nonprofits. A vocal advocate for raising the minimum wage, Mr. Saginaw received the Obama administration's Champion of Change award at the White House. Of late, drawn to the abundance of opportunity in Detroit, Mr. Saginaw dedicates himself to supporting many city-based organizations, including the Detroit Food Academy, FoodLab Detroit, Keep Detroit Growing, Merit's Fate Program, and Restaurant Opportunities Centers United.

Mr. Saginaw, you exemplify how knowledge gained from study of the liberal arts can prepare graduates for professional and personal success and promote the common good. You have created a world-class, sustainable business model founded on integrity, employee empowerment, civic responsibility, and philanthropy and, in the process, have delighted millions of appreciative guests with Zingerman's unforgettable food and legendary service. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.

HONORARY DEGREE RECIPIENT

Robert J. Shiller

Nobel Prize winning economist, best-selling author, and University of Michigan alumnus Robert Shiller has reframed long-held tenets of financial market volatility and the dynamics of asset prices with his pioneering theories and research. Among the first to demonstrate that market behavior frequently is not logical, he helped found behavioral economics, the melding of psychology, sociology, and political science with economics. In 2013, Professor Shiller, along with Eugene Fama, and Lars Peter Hansen, shared the Nobel Prize in Economic Sciences for their empirical analysis of asset prices. Born in Detroit, he grew up in Southfield, Michigan, and earned a B.A. degree (1967) in economics from U-M and an S.M. (1968) and a Ph.D. (1972), both in economics, from the Massachusetts Institute of Technology. He taught at the University of Pennsylvania Wharton School and the University of Minnesota before joining the Yale University faculty in 1982, where he is the Sterling Professor of Economics, a Cowles Foundation for Research in Economics staff member, and professor of finance at the Yale School of Management. He has been a research associate at the nonpartisan National Bureau of Economic Research since 1980. Professor Shiller writes about behavioral economics, macroeconomics, financial markets, financial innovation, real estate, and statistical methods, as well as public attitudes, opinions, and moral judgments regarding markets. He is the author of six books, including *The New York Times* bestseller *Irrational Exuberance* (2000); an updated third edition was published early this year. Professor Shiller demonstrated his prescience in the mid-2000s, when he warned that market bubbles could lead to declines in the financial markets, collapse in the U.S. housing market, and financial panic. In *Animal Spirits: How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism* (2009), he and co-author George Akerlof, also a Nobel Prize winning economist, assert the need for active government leadership in economic policymaking. In Professor Shiller's newest book, *Finance and the Good Society* (2012), he posits that finance is one of the most powerful tools available to promote the common good. He created the widely used Cyclically Adjusted Price-Earnings Ratio to predict stock market returns over several years and, with Karl Case, the Standard & Poor's Case-Shiller Home Price Indices, one of the best known indicators of the strength of the housing market and the overall economy. He also contributes regularly to *The New York Times* "Economic View" column and to Project Syndicate, which distributes his commentary worldwide. Professor Shiller, president-elect of the American Economic Association, maintains close ties to Michigan, frequently returning to lecture and participate in conferences. He has received many accolades, including the Deutsche Bank Prize in Financial Economics, and has been listed among *Foreign Policy* magazine's top 100 global thinkers twice and *Bloomberg Markets'* Most Influential 50 in global finance.

Professor Shiller, in an acclaimed career as a scholar and public intellectual, you have exerted profound influence on economics and public policy, earning the respect and admiration of economists and other academics, policymakers, and the public for your research, including insights into market dynamics and innovative financial tools. We celebrate your accomplishments and many contributions to U-M and higher education. The University of Michigan is proud to welcome you back to campus and to present to you the honorary degree, Doctor of Science.

HONORARY DEGREE RECIPIENT

Ari Weinzweig

Ari Weinzweig, an inventive food historian, food and business writer, and University of Michigan alumnus, is co-founder and co-chief executive officer of Zingerman's Community of Businesses (ZCoB). He is renowned as an inspirational and trusted thought leader of progressive business practices, sharing the Zingerman's approach with forward-thinking organizations nationally and around the world. Mr. Weinzweig, who was born in Cleveland and grew up in Chicago, earned a Bachelor of Arts degree (1978) in Russian history from the University. As a recent college graduate, he was hired as a restaurant dishwasher, was promptly promoted to line cook, and discovered his culinary passion and future business partner, Paul Saginaw, the restaurant's manager. Together, as friends and food pioneers, they opened Zingerman's Delicatessen in 1982. Over three decades later it is a destination for more than half a million people annually and an exemplar of innovative business practices. Eschewing offers to replicate the deli elsewhere, Mr. Weinzweig and Mr. Saginaw created a model for incubating new businesses that provides ownership opportunities for entrepreneurial employees. Today they share ownership with 21 partners across nine businesses that employ over 700 people and generate more than \$55 million in annual sales—Zingerman's Delicatessen, Zingerman's Bakehouse, Zingerman's Mail Order, ZingTrain, Zingerman's Creamery, Zingerman's Roadhouse, Zingerman's Coffee Company, Zingerman's Candy Company, Zingerman's Service Network, and Zingerman's Cornman Farms, an event venue as well as a working farm. Mr. Weinzweig has shared the Zingerman's story in numerous magazine articles and through his influential books, including *Zingerman's Guide to Giving Great Service* (2004), *Zingerman's Guide to Better Bacon* (2009), *Zingerman's Guide to Good Leading, Part 1: A Lapsed Anarchist's Approach to Building a Great Business* (2010), *Zingerman's Guide to Good Leading, Part 2: A Lapsed Anarchist's Approach to Being a Better Leader* (2012), and *Zingerman's Guide to Good Leading, Part 3: A Lapsed Anarchist's Approach to Managing Ourselves* (2013). Mr. Weinzweig teaches ZingTrain leadership courses at universities, businesses, and nonprofit organizations throughout the world. He has served as president of the American Cheese Society and has also played a key role in global efforts to revive and preserve traditional food production methods. Under his leadership, since the mid-90s, the ZCoB has practiced open book management, a system that invites all employees to become involved in making decisions to help run the business. The James Beard Foundation recognized Mr. Weinzweig with a Who's Who of Food & Beverage in America award in 2006. Among other honors, Mr. Weinzweig and Mr. Saginaw received the first Humanitarian Award from the Jewish Federation of Washtenaw County in 1995 and *Bon Appétit* magazine's Lifetime Achievement Award in 2007 for their contributions to the industry. The National Association for the Specialty Food Trade inducted them into its Specialty Food Hall of Fame in 2015.

Mr. Weinzweig, you are renowned for your vision, business acumen, and servant leadership. By successfully enlarging the Zingerman's experience from a single business to an ever-growing community of businesses you have created opportunities for new entrepreneurs, provided a model for other organizations of all sizes, both for profit and nonprofit, and demonstrated the value of a liberal arts education. You inspire your colleagues, students, and others with your energy and passion for your work and your philanthropy. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.

HONORARY DEGREE RECIPIENT

Robin Wright

Award-winning journalist, author, foreign correspondent, and University of Michigan alumna Robin Wright is renowned for her in-depth knowledge of the Middle East acquired over four decades of reporting. Born in Ann Arbor, Michigan, Ms. Wright, *The Michigan Daily's* first female sports editor, earned a B.A. degree (1970) and an M.A. (1971) before commencing a reportorial odyssey that has taken her to more than 140 countries in Africa, Asia, Europe, and the Middle East. She has covered a dozen wars and several revolutions, often at great personal risk. Ms. Wright has written thousands of articles for leading periodicals, including *The New Yorker*, *The Washington Post*, *TIME*, the *Los Angeles Times*, *The New York Times*, *The Sunday Times of London*, *The Atlantic*, and many others. She also is a frequent television commentator on programs such as "Meet the Press," "Face the Nation," "PBS NewsHour," "Charlie Rose," and "The Colbert Report," among others. Ms. Wright has written eight books, including *Sacred Rage: The Wrath of Militant Islam* (1985); *In the Name of God: the Khomeini Decade* (1989); *The Last Great Revolution: Turmoil and Transformation in Iran* (2000); and *Dreams and Shadows: The Future of the Middle East* (2008). Her most recent, *Rock the Casbah: Rage and Rebellion Across the Islamic World* (2011), won the Overseas Press Club award for best book on international affairs and was selected by *The New York Times* and *The Washington Post* as one of the top nonfiction books of 2011. Ms. Wright has been a fellow at the Brookings Institution, Carnegie Endowment for International Peace, U.S. Institute of Peace, Woodrow Wilson International Center for Scholars, Yale University, Duke University, Dartmouth College, and the University of Southern California. Among other honors, she received the United Nations Correspondents Gold Medal for international reporting, National Magazine Award, National Press Club Award, and Overseas Press Club Award for exceptional courage and initiative in covering African wars. The American Academy of Diplomacy selected her journalist of the year; she also received a John D. and Catherine T. MacArthur Foundation grant and, in 2012, the Association for Diplomatic Studies and Training presented her the Cyrus R. Vance Award for Advancing Knowledge of Diplomacy. A loyal alumna and winner of the 1978 Alumnae Council Athena Award, Ms. Wright frequently returns to campus to lecture. Committed to improving educational opportunities for women, especially those from Africa and the Islamic world, she created the Robin Wright Research Fellowship at U-M's Center for the Education of Women. She also helped establish the L. Hart Wright Collegiate Professorship and a teaching award at the Law School in memory of her father, who taught there from 1946 to 1983, and the Phyllis B. Wright Scholarship in Theatre at the School of Music, Theatre & Dance, in memory of her mother, an actress, patron of the arts, and longtime supporter of U-M's theater program.

Ms. Wright, as one of the most informed journalists covering international affairs, you are greatly admired for your thoroughness and impeccable professional standards. Through your vivid writing and reporting on complex international issues, you foster deeper understanding of humanity, politics, and the challenges that divide people and nations. The University of Michigan is delighted to welcome you back to campus and to present to you the honorary degree, Doctor of Humane Letters.

HONORARY DEGREE RECIPIENT

Tadataka Yamada

Global health expert Tadataka Yamada, executive vice president and chief medical and scientific officer at Takeda Pharmaceutical Company and past-president of the Bill and Melinda Gates Foundation Global Health Program, is internationally renowned for his numerous contributions as a physician, scientist, and leader in drug discovery and development. Born in Tokyo, he earned a B.A. degree in history from Stanford University (1967) and M.D. (1971) from the New York University School of Medicine. He completed a gastroenterology residency at the University of California Los Angeles School of Medicine and taught and conducted research there before joining U-M's Medical School faculty in 1983. He played a transformative role in the Division of Gastroenterology, resulting in the U-M Health System being one of nation's highest performing hospitals in gastroenterology and gastrointestinal surgery. Dr. Yamada has published more than 150 original manuscripts and edited *The Textbook of Gastroenterology* (now in its fifth edition). He cloned the histamine H₂ receptor—a molecule that stimulates gastric acid and intestinal secretions—at Michigan, where he served as the John G. Searle Professor of Internal Medicine, chair of the Department of Internal Medicine, and physician-in-chief at the Medical Center from 1990 until 1996. Dr. Yamada, who received a Distinguished Faculty Achievement Award in 1992, visits the University several times a year. He presented an invited lecture at the 2014 Life Sciences Institute Symposium. Named chairman of research and development at GlaxoSmithKline in 1999, he expanded the British firm's multi-billion dollar product pipeline and facilitated discovery and development of medicines for malaria and tuberculosis for dissemination in low-income countries. His life-saving efforts were recognized with his appointment as Knight Commander of the Most Excellent Order of the British Empire. In 2006, he joined the Bill and Melinda Gates Foundation, where he addressed major health challenges in the developing world, including tuberculosis, HIV, malaria and other infectious diseases, malnutrition, and maternal and child health. In 2011, Dr. Yamada returned to Japan to oversee research and development at Takeda Pharmaceuticals, the largest pharmaceutical firm in Asia. Dr. Yamada, past-president of the Association of American Physicians and the American Gastroenterological Association, is a fellow of the Academy of Medical Sciences in the United Kingdom and a member of the National Academy of Medicine in Mexico. In addition to serving on the Council of the Institute of Medicine of the National Academies, he is a member of the Clinton Health Access Initiative board. He previously served on the U.S. President's Council of Advisors on Science and Technology. Among many accolades, he has received the American Physiological Society SmithKline & French Prize in Gastrointestinal Research, the Julius Friedenwald Medal from the American Gastroenterological Association, and the first August M. Watanabe Prize in Translational Research from Indiana University and Eli Lilly & Co.

Dr. Yamada, throughout your illustrious career as a physician, academic leader, researcher, and developer of pharmaceuticals you have used your intellect, vision, and scientific acumen to advance the common good. A model for students and others who seek to improve the human condition through science, you inspire us with your commitment to improve lives by developing new ways to diagnose and treat life-threatening infectious diseases. The University of Michigan is delighted to welcome you back to campus and proud to present to you the honorary degree, Doctor of Science.

UNIVERSITY FLAGS AND FLAG BEARERS

The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

College of Literature, Science, and the Arts	Kendall Gayle Johnson
Medical School	Daniel Jacob Reiss
Law School	Charles Ramsey
School of Dentistry	Rachel M. Swanson
College of Pharmacy	Ronak Bharat Shah
College of Engineering	Hannah Grace Cheriyan
Horace H. Rackham School of Graduate Studies	TaShara Cornelia Bailey
A. Alfred Taubman College of Architecture and Urban Planning	Coco Ke Shi
School of Education	Haya Bacharouch
Stephen M. Ross School of Business	Sreenidhi Kolli
President's flag	<i>on stage</i>
University flag	<i>on stage</i>
Regents' flag	<i>on stage</i>
School of Natural Resources and Environment	Sara Hadavi
School of Music, Theatre & Dance	Isabelle Joan McCalla
School of Nursing	Sara Taylor Szutkowski
School of Public Health	Charles Lu Zhou
School of Social Work	Olivia VanSickle
University of Michigan-Flint	Amged Hassan Eidelsafy
University of Michigan-Dearborn	Aida Al Jahdhami
School of Information	Siddharth Soni
Penny W. Stamps School of Art & Design	Terence Gerard Harp II
School of Kinesiology	Kylie Jo Taphouse
Gerald R. Ford School of Public Policy	Chelsea A. Davis

THE UNIVERSITY MACE

The University's mace, a symbol of authority, is carried at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

ACADEMIC COLORS

The colors of the various disciplines are as follows:

Architecture and Urban Planning	<i>blue violet</i>
Business Administration	<i>drab</i>
Dentistry	<i>lilac</i>
Education	<i>light blue</i>
Engineering	<i>orange</i>
Fine Arts	<i>brown</i>
Information	<i>lemon</i>
Kinesiology	<i>sage green</i>
Law	<i>purple</i>
Literature and Arts	<i>white</i>
Medicine	<i>green</i>
Music	<i>pink</i>
Natural Resources and Environment	<i>russet</i>
Nursing	<i>apricot</i>
Pharmacy	<i>olive green</i>
Philosophy	<i>dark blue</i>
Public Health	<i>salmon pink</i>
Public Policy	<i>peacock blue</i>
Science	<i>golden yellow</i>
Social Work	<i>citron</i>

Mingled colors distinguish combined curriculums.

ACADEMIC DRESS AND CUSTOM

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

Gowns

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

Hoods

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor's, master's, and doctor's hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor's hood and the widest for the doctor's hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

Caps

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.

SCHOOLS AND COLLEGES OF THE UNIVERSITY

The order of presentation is by the year of founding.

College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.

College of Engineering

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people's lives around the world.

Horace H. Rackham School of Graduate Studies

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

A. Alfred Taubman College of Architecture and Urban Planning

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

School of Education

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

Stephen M. Ross School of Business

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor's, master's, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

School of Natural Resources and Environment

The School of Natural Resources and Environment's overarching objective is to contribute to the protection of the Earth's resources and the achievement of a sustainable society. Through research, teaching, and outreach, faculty, staff, and students are devoted to generating new knowledge and developing policies, techniques, and skills to help practitioners manage and conserve natural resources to meet the full range of human needs on a sustainable basis. The school jointly administers the undergraduate Program in the Environment, and it offers master's and doctoral programs in ecological, social, and design sciences.

School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

School of Nursing

The School of Nursing has held an unsurpassed reputation of excellence for more than 100 years. It has been a national leader in the advancement of nursing knowledge and the promotion of new trends in health care. The School's baccalaureate programs include a four-year B.S.N. program, a second career nursing program, and an R.N.-B.S.N. completion program. At the master's level, the School of Nursing, through the Horace H. Rackham School of Graduate Studies, offers advanced study in clinical specialist, nurse practitioner, and management roles. The school's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

The history of the School of Public Health dates back to 1881, when the first course in sanitary science was taught in the College of Literature, Science, and the Arts. Established in 1941, the school has awarded master of public health, master of science, master of health services administration, and doctor of public health degrees to more than 13,000 students. Doctor of philosophy programs were established in 1947 and now include concentrations in biostatistics, environmental health sciences, epidemiology, health behavior and health education, and health management and policy. Key areas of research include vaccine development, air and water quality, reproductive and women's health, and health care costs, quality, and access.

School of Social Work

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

**Penny W. Stamps
School of Art & Design**

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

School of Kinesiology

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

**Gerald R. Ford School
of Public Policy**

The Gerald R. Ford School of Public Policy prepares graduates for distinguished careers in policy analysis and management, and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Janet A. Weiss, Dean and Vice Provost for Academic Affairs–Graduate Studies

Candidates for degrees granted May 1, 2015

Doctor of Musical Arts

Dustin Ryan Fingal Barr, Field of Specialization: Conducting (Band).

Katherine Therese Calcamuggio Donner, Field of Specialization: Music Performance.

Grace Jung-Min Han, Field of Specialization: Music Performance.

Jaclyn Michael Johnson, Field of Specialization: Conducting (Choral).

Do Yeon Kim, Field of Specialization: Music Performance.

Matthew Leslie Santana, Field of Specialization: Music Performance. Dissertation: Music, Identity, and Affect: New Performances of Women's, Gender, and Sexuality Studies.

Kyoo Hye Lim, Field of Specialization: Music Performance.

Benjamin W. Rous, Field of Specialization: Conducting (Orchestral).

Garrett Sanders Schumann, Field of Specialization: Music Composition. Dissertation: Bound.

Monte Duran Thomas, Field of Specialization: Music Performance.

Francis Yong Yun, Field of Specialization: Music Performance. Dissertation: The Handelian Keyboard Fugue.

Doctor of Philosophy

Fariz Bin Abdul Rahman, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Deterministic Methods for Multi-Control Fuel Loading Optimization.

Oluwasegun Oluwasina Adegoke, Field of Specialization: Chemical Engineering. Dissertation: Investigation of the Optical Properties of Novel Organic Macromolecules for Solar Cell Applications.

Robert Lewis Alexander, Field of Specialization: Design Science. Dissertation: The Bird's Ear View: Audification for the Spectral Analysis of Heliospheric Time Series Data.

Alison Leigh Althaus, Field of Specialization: Neuroscience. Dissertation: The Role of Dentate Granule Cell Age and Morphology in Seizure-induced Plasticity.

Catherine Marie Amodeo, Field of Specialization: Mechanical Engineering. Dissertation: Mechanical Behavior of Gas Metal Arc Welds and Lithium-Ion Battery Modules.

David Alexander Anderson, Field of Specialization: Applied Physics. Dissertation: Rydberg Molecules and Circular Rydberg states in Cold Atom Clouds.

Isaac Mendel Asher, Field of Specialization: Aerospace Engineering. Dissertation: Building Fully Adaptive Stochastic Models for Multiphase Blowdown Simulations.

Derya Ayril Cinar, Field of Specialization: Environmental Engineering. Dissertation: Impact of Clay-DNAPL Interactions on the Transport of Chlorinated Solvents in Low Permeability Subsurface Zones.

Krista Katherine Badiane, Field of Specialization: Natural Resources and Environment. Dissertation: Beyond Myth and Ceremony?: An Examination of Corporate Responses to Climate Change.

TaShara C. Bailey, Field of Specialization: Higher Education. Dissertation: Organizational Support, Satisfaction, and STEM Research Career Plans in Pipeline Interventions: A Strengths-Based Approach Among Underrepresented Students.

Kiersten Marie Batzli, Field of Specialization: Materials Science and Engineering. Dissertation: Insulin-based Nanowire Structures: Production, Characterization and Catalysis Potential.

Alparslan Emrah Bayrak, Field of Specialization: Mechanical Engineering. Dissertation: Topology Considerations in Hybrid Electric Vehicle Powertrain Architecture Design.

Melanie L. Beaulieu, Field of Specialization: Kinesiology. Dissertation: On the Fatigue Life of the Human Anterior Cruciate Ligament: Experimental Studies of the Effects of Limited Internal Femoral Rotation and Microscopic Enteseal Anatomy.

Dana Lynne Begun, Field of Specialization: Anthropology and Biomedical Engineering. Dissertation: Age-Related Changes in Bone: Variation and Factors Influencing Bone Fragility.

David T. Benson-Putnins, Field of Specialization: Mathematics. Dissertation: Volumes and Integer Points of Multi-Index Transportation Polytopes.

Inger M. Bergom, Field of Specialization: Higher Education. Dissertation: The Professor Behind the Screen: Four Case Studies of Online Teaching in Business.

Timm Betz, Field of Specialization: Political Science. Dissertation: Trading Interests: Domestic Institutions, International Negotiations, and the Politics of Trade.

Andrew Scott Bielen, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Sensitivity and Uncertainty Analysis of Multiphysics Nuclear Reactor Core Depletion.

Allison Chelsa Billi, Field of Specialization: Human Genetics. Dissertation: Biogenesis and Stability of Germline Small RNAs in *C. elegans*.

Russell Edward Bornschein, Field of Specialization: Chemistry. Dissertation: Development of Charge Manipulation Nanoelectrospray Ion Mobility-Mass Spectrometry Techniques for Multiprotein Complex Analysis.

Clara Rae Marie Bosak-Schroeder, Field of Specialization: Classical Studies. Dissertation: Ecology, History, and the Other in Ancient Greece.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Emily Adlin Bosk**, Field of Specialization: Social Work and Sociology. Dissertation: All Unhappy Families: Standardization and Child Welfare Decision-Making.
- Brittany Marie Bowman**, Field of Specialization: Biological Chemistry. Dissertation: FADD and its Phosphorylation Mediate Mitogenic Signaling in Mutant *Kras* Tumors.
- Elizabeth J. Bridges**, Field of Specialization: Anthropology. Dissertation: Beyond Empire: Vijayanagara Imperialism and the Emergence of the Keladi-Ikkeri Nayaka State, 1499–1763 C.E.
- John Alden Broderick**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Energy and Mobility Management of a Ground Robot to Increase Operational Capacity.
- Denise Nicole Bronner**, Field of Specialization: Microbiology and Immunology. Dissertation: Cells on Fire: Regulation of the NLRP3 Inflammasome via Endoplasmic Reticulum and Mitochondrial Crosstalk.
- Andrew Frederick Brouwer**, Field of Specialization: Applied and Interdisciplinary Mathematics. Dissertation: Models of HPV as an Infectious Disease and as an Etiological Agent of Cancer.
- Brandon Robert Bruhn**, Field of Specialization: Biomedical Engineering. Dissertation: Nanopore-Based Methods for Characterizing Single Proteins.
- Nicolette Isabel Bruner**, Field of Specialization: English Language and Literature. Dissertation: Corporate Impersonation: The Possibilities of Personhood in American Literature, 1886–1917.
- Joseph Patrick Burnett**, Field of Specialization: Pharmaceutical Sciences. Dissertation: The Natural Product Sulforaphane Inhibits Breast Cancer Stem Cell Targets in Triple Negative and Trastuzumab-resistant Breast Cancers.
- Matt Burton**, Field of Specialization: Information. Dissertation: Blogs as Infrastructure for Scholarly Communication.
- Ayse Guliz Buyuktur**, Field of Specialization: Information. Dissertation: Temporality and Information Work in Bone Marrow Transplant.
- Nicholas David Carlevaris-Bianco**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Long-Term Simultaneous Localization and Mapping in Dynamic Environments.
- Alison Leigh Carr**, Field of Specialization: English Language and Literature. Dissertation: American Interiors: Beneath the Surfaces of Natural History in Early U.S. Writing.
- Denise C. Carty**, Field of Specialization: Health Behavior and Health Education. Dissertation: Adverse Birth Outcomes in U.S.- and Foreign-Born Black Women: A Conceptual and Empirical Analysis.
- Stephen Cavnar**, Field of Specialization: Biomedical Engineering. Dissertation: Engineering Systems to Study Cancer Metastasis.
- Sergio Andres Celis Guzman**, Field of Specialization: Higher Education. Dissertation: How Intellectual Movements among External and Internal Actors Shape the College Curriculum: The Case of Entrepreneurship Education in Engineering.
- Eun Jung Chae**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Dynamic Response and Stability of Flexible Hydrofoils in Incompressible and Viscous Flow.
- Victor Wing Lam Chan**, Field of Specialization: Materials Science and Engineering. Dissertation: An In-Depth Examination of a Thermodynamic Framework for the Phase-Field Crystal Model.
- S. Laura Chang**, Field of Specialization: Chemical Engineering. Dissertation: Mechanistic and Statistical Models to Understand CXCL12/CXCR4/CXCR7 in Breast Cancer.
- Chihyu Chen**, Field of Specialization: Applied Physics. Dissertation: ZnTeO and Oxygen Doped II-VI Ternary Alloys for Intermediate Band Solar Cells.
- Yuntao Chen**, Field of Specialization: Aerospace Engineering. Dissertation: Investigation of Partially Premixed Combustion Instabilities through Experimental, Theoretical, and Computational Methods.
- William Joseph Chopik**, Field of Specialization: Psychology. Dissertation: Changes in Attachment Orientation Over a 59-year Period: Determinants of Change and Implications for Health.
- Jason Chua**, Field of Specialization: Neuroscience. Dissertation: Characterizing Molecular Modifiers of Pathogenesis in Spinobulbar Muscular Atrophy.
- Joseph Stanhope Cialdella**, Field of Specialization: American Culture. Dissertation: Gardens in the Machine: Cultural and Environmental Change in Detroit, 1879–2010.
- Tara Marie Clancy**, Field of Specialization: Environmental Engineering. Dissertation: Biogeochemical Evaluation of Disposal Options for Arsenic-bearing Wastes Generated During Drinking Water Treatment.
- Jenna Coalson**, Field of Specialization: Epidemiological Science. Dissertation: "Silent" Malaria: Defining the Infectious Reservoirs of *Plasmodium falciparum* in Communities of Southern Malawi.
- Gerardo Evaristo Cruz**, Field of Specialization: Aerospace Engineering. Dissertation: Retrospective Cost-based Adaptive Spacecraft Attitude Control.
- Allison Laine Dale-Riddle**, Field of Specialization: Political Science. Dissertation: Geography, Partisanship, and the Politics of Group Threat.
- Sonia DeLuca Fernandez**, Field of Specialization: Higher Education. Dissertation: Becoming Professorial: Graduate Student Socialization and the Reproduction of Inequality.
- Dong-Ling Deng**, Field of Specialization: Physics. Dissertation: Topological Phases of Matter: Classification, Realization and Application.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Saniya Vilas Deshpande**, Field of Specialization: Electrical Engineering. Dissertation: III-Nitride Based Visible Single-Photon Sources.
- Vanessa J. Díaz**, Field of Specialization: Anthropology. Dissertation: Manufacturing Celebrity and Marketing Fame: An Ethnographic Study of Celebrity Media Production.
- Martino Dibeltulo**, Field of Specialization: Asian Languages and Cultures. Dissertation: The Revival of Tantrism: Tibetan Buddhism and Modern China.
- Justin Kelly Dimmel**, Field of Specialization: Educational Studies. Dissertation: How Do Teachers Expect Students to Represent Mathematical Work? A Study of Teachers' Recognition of Routine Ways that Proofs are Presented and Checked in High School Geometry.
- Devan Ray Donaldson**, Field of Specialization: Information. Dissertation: Development of a Scale for Measuring Perceptions of Trustworthiness for Digitized Archival Documents.
- Tao Dong**, Field of Specialization: Information. Dissertation: Designing Reflective User Experience with Social and Ubiquitous Computing Technologies.
- Joseph Donohoe**, Field of Specialization: Bioinformatics. Dissertation: Evaluating the Methodology and Clinical Utility of Spatial Access to Health Care Measures in Appalachia.
- Charles Joseph Doriean**, Field of Specialization: Political Science. Dissertation: A Dynamic Theory of Party Discipline, Legislator Roll-Call Voting & Electoral Accountability in the U.S. House.
- Josef Adrian Dunbar**, Field of Specialization: Biophysics. Dissertation: Vibrational Probe and Methods Development for Studying the Ultrafast Dynamics of Preferential Solvation of Biomolecules by 2D-IR.
- Alexander Paul Duryea**, Field of Specialization: Biomedical Engineering. Dissertation: Cavitation Control for Enhanced Comminution of Renal Calculi.
- Meghan Kathleen Eagen-Torkko**, Field of Specialization: Nursing. Dissertation: Compliance and Concordance: Prevalence and Predictors of Breastfeeding in Survivors of Childhood Abuse.
- Remy Andre Elbez**, Field of Specialization: Applied Physics. Dissertation: Nanoparticle Induced Cell Magneto-Rotation for the Multiplexed Monitoring of Morphology, Stress and Drug Sensitivity of Suspended Single Cancer Cells.
- Katrina Renee Ellis**, Field of Specialization: Health Behavior and Health Education. Dissertation: Dyadic Analyses of the Influence of Chronic Conditions on the Biopsychosocial Wellbeing and Health-Promoting Behaviors of Individuals with Advanced Cancer and Their Family Caregivers.
- Alexandra Christine Emly**, Field of Specialization: Materials Science and Engineering. Dissertation: Thermodynamic and Kinetic Properties of Materials for Next-Generation Rechargeable Batteries from First-Principles.
- David L. Epstein**, Field of Specialization: Urban and Regional Planning. Dissertation: Fostering Participation and Capacity Building with Neighborhood Information Systems.
- Ander Willard Erickson**, Field of Specialization: Educational Studies. Dissertation: Counting on the Knowledge of Others: Rational Dependence in the Mathematics Classroom.
- Christopher Estrada**, Field of Specialization: Anthropology and History. Dissertation: Caboclos of Nazareth: Improvisation and Renovation in *Maracatu de Baque Solto* of Pernambuco.
- Margery Lee Evans**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Molecular Modulators of Bacterial Functional Amyloid Assembly.
- Sean Patrick Ferris**, Field of Specialization: Biological Chemistry. Dissertation: UDP-Glucose: Glycoprotein Glucosyltransferase (UGGT1) Promotes Substrate Solubility in the Endoplasmic Reticulum.
- Aaron Benjamin Flaaen**, Field of Specialization: Economics. Dissertation: Essays on Multinational Production and the Propagation of Shocks.
- Balin Kyle Fleming**, Field of Specialization: Mathematics. Dissertation: Arc Schemes in Logarithmic Algebraic Geometry.
- Sommer Helweh Forrester**, Field of Specialization: Music: Music Education. Dissertation: Music Teacher Knowledge: An Examination of the Intersections Between Instrumental Music Teaching and Conducting.
- Mallory Ann Freeberg**, Field of Specialization: Bioinformatics. Dissertation: Computational Analysis of the Post-Transcriptional Gene Regulatory Network.
- James Anson Fuller**, Field of Specialization: Epidemiological Science. Dissertation: Emerging Issues in Sanitation: Herd Protection, Sharing Between Households, and Joint Effects.
- Joseph Coy Furgal**, Field of Specialization: Chemistry. Dissertation: Synthesis and Structure-Photophysical Property Relationships of T_8 , T_{10} , T_{12} and Oligomeric Organic Functionalized Silsesquioxanes.
- Mahesh Ganesan**, Field of Specialization: Chemical Engineering. Dissertation: Polymeric and Microrheological Characterization of the *Staphylococcus epidermidis* Biofilm Polysaccharide.
- Harish Ganesh**, Field of Specialization: Mechanical Engineering. Dissertation: Bubbly Shock Propagation as a Cause of Sheet to Cloud Transition of Partial Cavitation and Stationary Cavitation Bubbles Forming on a Delta Wing Vortex.
- Nicholas James Geller**, Field of Specialization: Classical Studies. Dissertation: Roman Architecture: The Idea of the Monument in the Roman Imagination of the Augustan Age.
- Anna Genina**, Field of Specialization: Anthropology. Dissertation: Claiming Ancestral Homelands: Mongolian Kazakh Migration in Inner Asia.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Robert Louis Gillezeau**, Field of Specialization: Economics. Dissertation: Empowerment and Exploitation: Essays in Economic History.
- Luis Javier Gomez**, Field of Specialization: Electrical Engineering. Dissertation: Computational Electromagnetic Methods for Transcranial Magnetic Stimulation.
- Alix Malka Gould-Werth**, Field of Specialization: Social Work and Sociology. Dissertation: Public Benefits and Private Safety Nets: Demographic Disparities in Resources Following Job Loss.
- Mayurachat Ning Gulari**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: An Optofluidic Lens Biochip and an x-ray Readable Blood Pressure Microsensor: Versatile Tools for *in vitro* and *in vivo* Diagnostics.
- Selin Gulgoz**, Field of Specialization: Psychology. Dissertation: Developing a Concept of Social Power Relationships.
- Ping Guo**, Field of Specialization: Chemistry. Dissertation: Water Interaction with Microporous Coordination Polymers: Energy Efficient Dehumidification, Antimatter Probing and Polymer Coating.
- Qianru Guo**, Field of Specialization: Civil Engineering. Dissertation: Structural Reliability Assessment under Fire.
- Melanie Josephine Gupte**, Field of Specialization: Biomedical Engineering. Dissertation: Scaffold Pore Size and Calcium Phosphate Coating Control Chondrogenesis and Endochondral Ossification.
- Andrew Walter Gurstelle**, Field of Specialization: Anthropology. Dissertation: The House of Oduduwa: An Archaeological Study of Economy and Kingship in the Savè Hills of West Africa.
- Anthony T. Gutierrez**, Field of Specialization: Computer Science and Engineering. Dissertation: Physically Dense Server Architectures.
- Andrew Jon Haak**, Field of Specialization: Pharmacology. Dissertation: Rho/MRTF Pathway Signaling and Small-Molecule Inhibitor Development in Systemic Sclerosis and Metastatic Melanoma.
- Sara Hadavi**, Field of Specialization: Landscape Architecture. Dissertation: Nearby Nature and Mental Wellbeing: A Designer's Perspective.
- Candice Jane Haddad**, Field of Specialization: Communication. Dissertation: Being Young in Arab Detroit: Media and Identity in Post-9/11 America.
- Jennifer Lee Hall**, Field of Specialization: Anthropology. Dissertation: Debating Darija: Language Ideology and the Written Representation of Moroccan Arabic in Morocco.
- Douglas Andrew Hansen**, Field of Specialization: Medicinal Chemistry. Dissertation: Type I Polyketide Synthases: Methodology, Biocatalysis, and Evaluation of Substrate Promiscuity.
- Kentaro Hara**, Field of Specialization: Aerospace Engineering. Dissertation: Development of Grid-Based Direct Kinetic Method and Hybrid Kinetic-Continuum Modeling of Hall Thruster Discharge Plasmas.
- Andromeda Lee Hartwick**, Field of Specialization: English Language and Literature. Dissertation: Serial Selves: Identity, Genre, and Form in the Eighteenth Century.
- Jaclynn Marie Hawkins**, Field of Specialization: Social Work and Sociology. Dissertation: Social Determinants of Diabetes Self-Management, and Diabetes Health Care Utilization in African American and Latino Men with Type 2 Diabetes.
- Qixin He**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Inferring Histories of Adaptive Divergence with Gene Flow: Genetic, Demographic and Geographic Effects.
- Heidi Lynn Phillips Hendrickson**, Field of Specialization: Chemistry. Dissertation: An Electronic Structure Approach to Charge Transfer and Transport in Molecular Building Blocks for Organic Optoelectronics.
- Efrain Hernandez**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Development of Hybrid Deterministic-Statistical Models for Irradiation Influenced Microstructural Evolution.
- Kyle Anthony Heslip**, Field of Specialization: Medicinal Chemistry. Dissertation: Inhibiting the Actions of Essential Biomolecule Phosphopantetheine.
- Cassandra Gianna Hoffman-Luca**, Field of Specialization: Pharmacology. Dissertation: Investigation of Resistant Mechanisms of Apoptosis-inducing Anticancer Agents.
- Jeremy Milton Holzwarth**, Field of Specialization: Biomedical Engineering. Dissertation: Enhancing the Neuronal Differentiation of Mouse Embryonic Stem Cells Using Biomaterials.
- Jun Young Hong**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Potential Role of Early-life Rhinovirus Infection in the Development of Asthma.
- Kai-Yuan Hou**, Field of Specialization: Computer Science and Engineering. Dissertation: Resource-Efficient Replication and Migration of Virtual Machines.
- Layla Houshmand**, Field of Specialization: Biomedical Engineering. Dissertation: Optimized Targeting in Deep Brain Stimulation for Movement Disorders.
- Simon Huang**, Field of Specialization: Materials Science and Engineering. Dissertation: Formation, Structure, and Properties of InAs/GaAs Quantum Dots.
- L. E. Hunter**, Field of Specialization: Psychology and Women's Studies. Dissertation: Exiting the Ivory Tower Before and After Graduation: Attrition and Pursuit of Non-Faculty Career Goals Among Diverse Students.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- John Tae Hyeon Hwang**, Field of Specialization: Aerospace Engineering. Dissertation: A Modular Approach to Large-scale Design Optimization of Aerospace Systems.
- Ashley Miranda Ingiosi**, Field of Specialization: Neuroscience. Dissertation: Deconstructing Neuronal and Astroglial Contributions to Sleep and Inflammatory Immune Responses.
- Shafat Jahangir**, Field of Specialization: Electrical Engineering. Dissertation: III-Nitride Self-assembled Nanowire Light Emitting Diodes and Lasers on (001) Silicon.
- Min A. Jhun**, Field of Specialization: Epidemiological Science. Dissertation: Epidemiologic Approaches to Understanding Mechanisms of Cardiovascular Diseases: Genes, Environment, and DNA Methylation.
- Dayna Ashley Johnson**, Field of Specialization: Epidemiological Science. Dissertation: The Social Patterning in a Multi-ethnic Population: Associations of Socioeconomic Position, Neighborhood Characteristics and Psychosocial Stressors with Sleep.
- Emily Coldwell Johnston**, Field of Specialization: English and Women's Studies. Dissertation: Poisoned Subjects: Testimonial Justice in Toxic Life Narrative.
- Morgan Alexander Jones**, Field of Specialization: Cellular and Molecular Biology. Dissertation: New Insights into the Regulation of Hematopoietic Stem Cell Self-Renewal.
- Matthew Lee Kahlscueuer**, Field of Specialization: Chemistry. Dissertation: Characterization of pre-mRNA Dynamics and Structure throughout Spliceosome Assembly and Catalysis.
- Tae Hoon Kang**, Field of Specialization: Electrical Engineering. Dissertation: Optimization of Signal-to-Noise Ratio in Semiconductor Sensors via On-Chip Signal Amplification and Interface-Induced Noise Suppression.
- Yu-Chun Kao**, Field of Specialization: Natural Resources and Environment. Dissertation: Modeling the Effects of Climate Change, Nutrients, and Invasive Species on Lake Huron Food Webs.
- Zachary Tyler Kier**, Field of Specialization: Aerospace Engineering. Dissertation: Modeling 3D Fiber Reinforced Foam Core Sandwich Structures Using a Multi-Scale Finite Element Approach.
- Byung-Joo Kim**, Field of Specialization: Mechanical Engineering. Dissertation: Optimal Vehicle Motion Control to Mitigate Secondary Crashes after an Initial Impact.
- Eric Kim**, Field of Specialization: Psychology. Dissertation: Purpose in Life and Cardiovascular Health.
- Kamin Kim**, Field of Specialization: Psychology. Dissertation: Cholinergic Modulation of Attention.
- Matthew H. Kim**, Field of Specialization: Psychology. Dissertation: Motivation and Error Processing During the Transition to School.
- Soojeong Kim**, Field of Specialization: Chemistry. Dissertation: Electrochemical and Structural Analysis of Li-ion battery Materials by *in-situ* X-ray Absorption Spectroscopy.
- Yejoong Kim**, Field of Specialization: Electrical Engineering. Dissertation: Robust Circuit Design for Low-Voltage VLSI.
- Brian Bruce Kitchen**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Investigation of the Solid Electrolyte Interface on LiMn_2O_4 through Neutron Reflectometry.
- Benjamin Michael Klepser**, Field of Specialization: Chemistry. Dissertation: Solar Activation of Molecular Water Oxidation Catalysts Using Semiconductors.
- Andrew Joseph Kocab**, Field of Specialization: Immunology. Dissertation: Regulation of Intracellular Signaling by the Inhibitor of Apoptosis (IAP) Proteins.
- Andrew Samuel Kohler**, Field of Specialization: Music: Musicology. Dissertation: "Grey C", Acceptable": Carl Orff's Professional and Artistic Responses to the Third Reich.
- Moshe Harris Gedalyah Kornfeld**, Field of Specialization: Anthropology. Dissertation: The Chosen Universalists: Jewish Philanthropy and Youth Activism in Post-Katrina New Orleans.
- Brian Joseph Krieg**, Field of Specialization: Pharmaceutical Sciences. Dissertation: In Vivo Predictive Dissolution: Analyzing the Impact of Bicarbonate Buffer and Hydrodynamics on Dissolution.
- Adam Michael Kriesberg**, Field of Specialization: Information. Dissertation: The Changing Landscape of Digital Access: Public-Private Partnerships in U.S. State and Territorial Archives.
- Anna Julia Kroth**, Field of Specialization: Higher Education. Dissertation: The Effects of the Introduction of Tuition on College Enrollment in Germany: Results from a Natural Experiment With Special Reference to Students from Low Parental Education Backgrounds.
- Chaoyuan Kuang**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Establishing the *Drosophila* Larval Neuroblast as a System to Study Regulated Cell Death *in vivo*.
- Girish Shrinivas Kulkarni**, Field of Specialization: Electrical Engineering. Dissertation: Carbon Nanoelectronic Heterodyne Sensors: A New Paradigm for Chemical and Biological Detection.
- Ye-Sheng Kuo**, Field of Specialization: Electrical Engineering. Dissertation: Software-Defined Lighting.
- Alicja W. Kusiak-Brownstein**, Field of Specialization: History. Dissertation: "Faithful Highlanders": Constructions of Peasant Masculinity and Citizenship in Modern Polish Popular and Academic History (1840-1914).

Doctor of Philosophy

- Sindhu Krishnan Kutty**, Field of Specialization: Computer Science and Engineering. Dissertation: All Men Count with You, but None Too Much: Information Aggregation and Learning in Prediction Markets.
- Inyong Kwon**, Field of Specialization: Electrical Engineering. Dissertation: Integrated Circuit Design for Radiation Sensing and Hardening.
- Elaine M. Lande**, Field of Specialization: Educational Studies. Dissertation: Instructional Decision Making and Agency of Community College Mathematics Faculty.
- Gay Laray Landstrom**, Field of Specialization: Nursing. Dissertation: An Examination of Hospital Safety Climate.
- Jonathan Christophe Las Fargeas**, Field of Specialization: Aerospace Engineering. Dissertation: Monitoring using Heterogeneous Autonomous Agents.
- Alana M.W. LeBron**, Field of Specialization: Health Behavior and Health Education. Dissertation: Racialization of Latinos and Implications for Health Following September 11th: Findings From a Northern Border Community.
- Dongwook Lee**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Amorphous Metal-Free Organic Phosphors for Sensor Applications.
- Insu Lee**, Field of Specialization: Mechanical Engineering. Dissertation: An Experimental and Numerical Study of Confined Non-reacting and Reacting Turbulent Jets to Facilitate Homogeneous Combustion in Industrial Furnaces.
- Joon Sung Lee**, Field of Specialization: Kinesiology. Dissertation: Athlete Endorser's Transgression and Sport Consumer's Moral Reasoning Strategy: Moral Coupling and Boundary Conditions.
- Kyusang Lee**, Field of Specialization: Electrical Engineering. Dissertation: Compound Semiconductor-Based Thin-Film and Flexible Optoelectronics.
- Malisa Lee**, Field of Specialization: Higher Education. Dissertation: Hmong American College Students: A Qualitative Study on the Factors that Influence and Motivate College Going.
- Seung Yup Lee**, Field of Specialization: Biomedical Engineering. Dissertation: Theoretical and Experimental Tools for Clinical Translation of Quantitative Tissue Optical Sensing.
- Yoon Koo Lee**, Field of Specialization: Mechanical Engineering. Dissertation: Effects of Transition Metal Dissolution and Deposition on LI-Ion Batteries: A Multi-Scale Approach.
- Ryan Charles Lewis**, Field of Specialization: Environmental Health Sciences. Dissertation: Exposure Science Issues Concerning 60 Hz Magnetic Fields.
- Dingsheng Li**, Field of Specialization: Environmental Health Sciences. Dissertation: A Physiologically Based Pharmacokinetic Model Study of the Biological Fate, Transport and Behavior of Engineered Nanoparticles
- Zeyu Li**, Field of Specialization: Geology. Dissertation: Melting and Structural Transformations of Carbonates and Hydrous Phases in Earth's Mantle.
- Zhuobin Liang**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Rejoining of DNA Double-Strand Breaks and Genome Stability: From Host-Pathogen Interactions to Break-Induced Mutagenesis.
- Danielle Marie Lillge**, Field of Specialization: English and Education. Dissertation: When Does Literacy Professional Development Work? Understanding How Instructors Learn to Teach Writing in their Disciplinary Classrooms.
- Po-Ju Lin**, Field of Specialization: Kinesiology. Dissertation: Effects of Repeat Exercise Under Different Prandial States and Diet Composition on Glucoregulation and Appetite.
- Maya Pandit Lipert**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Predicting the Influence of Drug Solubilizing Agents on Cocrystal Solubility, Stability, and Transition Points.
- Jiachao Liu**, Field of Specialization: Geology. Dissertation: Crystal Chemistry, Elastic Properties and Melting Behaviors of Iron-Bearing Materials in Earth and Planetary Interiors.
- Jing Liu**, Field of Specialization: Chemical Engineering. Dissertation: Characterizing Metal/Oxygen Batteries with Multiphase Continuum-Scale Models.
- Langechuan Liu**, Field of Specialization: Physics. Dissertation: Design Optimization Studies for Active Matrix Flat Panel Imagers Based on Segmented Crystalline Scintillators for Radiotherapy Imaging.
- Lulu Liu**, Field of Specialization: Physics. Dissertation: Evidence for Electroweak Production of $W^{\pm}W^{\pm}jj$ in Proton-Proton Collisions at $\sqrt{s} = 8$ TeV with the ATLAS Detector at the LHC.
- Mingnan Liu**, Field of Specialization: Survey Methodology. Dissertation: Response Style of Rating Scales: The Effects of Data Collection Mode, Scale Format, and Acculturation.
- Yidan Liu**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Genetic Study of Endoplasmic Reticulum-mediated Protein Quality Control in *Arabidopsis*.
- Yuxuan Liu**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: A Full Core Resonance Self-shielding Method Accounting for Temperature-dependent Fuel Subregions and Resonance Interference.
- Charles Leonard Lord**, Field of Specialization: Higher Education. Dissertation: Staying the *Course*: Persistence and Opportunities to Learn Sociology in a Community College Classroom.
- Yingda Lu**, Field of Specialization: Chemical Engineering. Dissertation: Advances in Transporting and Processing Fuel Resources with Long-chain Hydrocarbons and Fatty Acids.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Beth Ann Lubeck**, Field of Specialization: Immunology. Dissertation: The Ras GTPase Activating Protein p120 RasGAP as a Regulator of Cardiovascular System Development, Lymphatic System Maintenance, and a T Cell Lineage Tumor Suppressor.
- Xin Luo**, Field of Specialization: Mechanical Engineering. Dissertation: Microtechnologies for Discharge-based Sensors.
- Xiao Ma**, Field of Specialization: Materials Science and Engineering. Dissertation: Computational Design and Modeling of Molecular Organic Semiconductors for Solar Cell and Lighting Applications.
- Xiaoya Ma**, Field of Specialization: Kinesiology. Dissertation: Systemic Iron Regulation and Adipose Tissue Inflammation in Health and Disease.
- Ryan Malosh**, Field of Specialization: Epidemiological Science. Dissertation: Acute Respiratory Illness in Households with Children: Factors associated with Influenza Vaccine Receipt and Viral Interference.
- Kevin Kroggel McDonough**, Field of Specialization: Aerospace Engineering. Dissertation: Developments in Stochastic Fuel Efficient Cruise Control and Constrained Control with Applications to Aircraft.
- Thomas Patrick McGuinness**, Field of Specialization: Higher Education. Dissertation: Creating a Whole Greater than the Sum of Its Parts: Fostering Integrative Learning with a Reflective ePortfolio Process.
- Jonathan James McLaughlin**, Field of Specialization: Greek and Roman History. Dissertation: The Transformation of the Roman Auxiliary Soldier in Thought and Practice.
- Lorena Medina Luna**, Field of Specialization: Geology. Dissertation: Constraints on Crustal Stress from Coseismic Slip Models and Focal Mechanisms.
- Helen Carmon Spink Meier**, Field of Specialization: Epidemiological Science. Dissertation: Life Course Socioeconomic Status and Immune Response to Persistent Infection in Mexican Americans.
- Dattatreya Mellacheruvu**, Field of Specialization: Bioinformatics. Dissertation: A Computational and Informatics Framework for the Analysis of Affinity Purification Mass Spectrometry Data and Reconstruction of Protein Interaction Networks.
- Rostom Mesli**, Field of Specialization: Comparative Literature. Dissertation: In Defense of Identity Politics: A Queer Reclamation of a Radical Concept.
- Pascal Meyer**, Field of Specialization: Aerospace Engineering. Dissertation: Experimental and Numerical Investigation of the Damage Response of Ceramic Matrix Composites.
- Jaime Andres Millan**, Field of Specialization: Materials Science and Engineering. Dissertation: Self-Assembly of Complex Structures through Competing Entropic and Enthalpic Patchiness.
- Zachary Miller**, Field of Specialization: Chemistry. Dissertation: New Strategies for Stereo- and Regiocontrol in Allene Hydrosilylation.
- Sarah Banas Mills**, Field of Specialization: Urban and Regional Planning. Dissertation: Preserving Agriculture through Wind Energy Development: A Study of the Social, Economic, and Land Use Effects of Windfarms on Rural Landowners and Their Communities.
- Faiza Moatasim**, Field of Specialization: Architecture. Dissertation: Making Exceptions: Politics of Nonconforming Spaces in the Planned Modern City of Islamabad.
- Shiwali Mohan**, Field of Specialization: Computer Science and Engineering. Dissertation: From Verbs to Tasks: An Integrated Account of Learning Tasks from Situated Interactive Instruction.
- Tyler Elliot Moss**, Field of Specialization: Materials Science and Engineering. Dissertation: Stress Corrosion Crack Initiation of Alloy 600 and Alloy 690 in Hydrogenated Supercritical Water.
- Woo Chul Nam**, Field of Specialization: Mechanical Engineering. Dissertation: Dynamics of Intracellular Nano-Transport by Kinesins.
- Katawut Namdee**, Field of Specialization: Biomedical Engineering. Dissertation: Exploring the Impact of Hemodynamic and Hemorheology in the Design of Carrier for Vascular-Targeted Drug Delivery in Atherosclerosis.
- Emily G. Nelson**, Field of Specialization: Chemistry. Dissertation: Understanding Magnesium-ion Electrochemistry through Modification of Lewis Acid/Base Pairs.
- Michelle Reicher Newstadt**, Field of Specialization: Educational Studies. Dissertation: The Complexities, Persistence, and Relationships among Middle School Students' Climate Change Stances and Knowledge.
- Matt Oches**, Field of Specialization: English Language and Literature. Dissertation: The Skin of Modernity: Primitivism and Tattooing in Literature.
- Tadeusz Leslaw Ogorzalek**, Field of Specialization: Chemical Biology. Dissertation: Examining the Behavior of Surface Tethered Enzymes.
- Peter John Onyskiw, Jr.**, Field of Specialization: Chemical Engineering. Dissertation: Particle-Blood Dynamics: Adhesion of Vascular-Targeted Pegylated Particles and Blood Cells in Flow.
- Alexander Morgan Pankonien**, Field of Specialization: Aerospace Engineering. Dissertation: Smart Material Wing Morphing for Unmanned Aerial Vehicles.
- Srinivas Parinandi**, Field of Specialization: Political Science. Dissertation: Devolution and Policy Experimentation under Federalism: Essays on Innovation and Emulation in the American States.
- Kyung Seo Park**, Field of Specialization: Natural Resources and Environment. Dissertation: Comparability and Transferability in Ecosystem-Assessment Techniques and Tools: An International Case Study.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Daniel James Parrish**, Field of Specialization: Higher Education. Dissertation: What's the Story Here? How Catholic University Leaders are Making Sense of Undocumented Student Access.
- Janki Jayesh Patel**, Field of Specialization: Biomedical Engineering. Dissertation: Single and Dual Growth Factor Delivery from Poly- ϵ -caprolactone Scaffolds for Pre-Fabricated Bone Flap Engineering.
- Paras Rajni Patel**, Field of Specialization: Biomedical Engineering. Dissertation: Carbon Fiber Microelectrode Arrays for Neuroprosthetic and Neuroscience Applications.
- Carl Robert Pfeiffer**, Field of Specialization: Electrical Engineering. Dissertation: Polarizable Particles and their Two-Dimensional Arrays: Advances in Small Antenna and Metasurface Technologies.
- Laura Yvonne Pfund**, Field of Specialization: Chemistry. Dissertation: Accelerating Solid Form Discovery for Pharmaceuticals.
- Davin Lanier Phoenix**, Field of Specialization: Public Policy and Political Science. Dissertation: Anger (Mis)Management? Racial Differences in the Emotional Foundations of Political Action.
- Amy Pond**, Field of Specialization: Political Science. Dissertation: The Political Economy of Market Liberalization.
- Ajay Prakash**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Development and Pathology of the Mammalian Pylorus.
- Aaron P. Proffitt**, Field of Specialization: Asian Languages and Cultures. Dissertation: Mysteries of Speech and Breath: Dohan's (1179–1252) *Himitsu nenbutsu shō* and Esoteric Pure Land Buddhism.
- Sahar Rahmani**, Field of Specialization: Biomedical Engineering. Dissertation: Multifunctional Drug Carriers with Programmable Properties.
- Mozhgon Rajaei**, Field of Specialization: Environmental Health Sciences. Dissertation: Mercury Exposure, Cardiovascular Health, and Pulmonary Function in a Small-Scale Gold Mining Community in Northeast Ghana.
- Xu Ran**, Field of Specialization: Medicinal Chemistry. Dissertation: Peptide and Nonpeptide Approaches to Target Protein-protein Interactions for the Treatment of Cancer.
- Jennifer Nicole Rauch**, Field of Specialization: Biological Chemistry. Dissertation: Regulation of Human Hsp70 by its Nucleotide Exchange Factors (NEFs).
- Julia Golden Raz**, Field of Specialization: Communication. Dissertation: *Make Room for Video Games: Exergames & the "Ideal Woman."*
- Joshua Regal**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Characterization of MRE11 Mutants Provides Insight into Human Genetic Disease, Cancer, and Clinical Intervention.
- Daniel Jacob Reiss**, Field of Specialization: Microbiology and Immunology. Dissertation: Investigating Reciprocal Control of Adherence and Motility through the Lens of PapX, a Non-structural Fimbrial Repressor of Flagellar Synthesis.
- Rebecca Rhodes**, Field of Specialization: Psychology. Dissertation: The Influence of Reductionist Information on Perceptions of Scientific Validity.
- Robert James Riggs**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Modeling and Optimization of Disassembly Systems with a High Variety of End of Life States.
- Gabriel David Roman Melendez**, Field of Specialization: Chemistry. Dissertation: Studies on the Radical Enzymes Glutamate Mutase and Viperin.
- Katherine Elizabeth Ryland**, Field of Specialization: Pharmacology. Dissertation: The Epigenetic Regulation of KCNA5 in Pediatric Solid Tumors and its Role in Cancer Biology.
- Amir Sabet Sarvestani**, Field of Specialization: Design Science. Dissertation: Designing Task Shifting Medical Devices for Low-Resource Settings.
- Ali Sanaei**, Field of Specialization: Political Science. Dissertation: Domestic Politics of Asymmetric Wars.
- Ryoko Sato**, Field of Specialization: Economics. Dissertation: Barriers to and Incentives for Health Behaviors among African Women.
- Kapil Umesh Sawlani**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Effects of Secondary Electron Emission on the Plasma Sheath and Local Electron Energy Distribution with Application to Hall Thrusters.
- Greggory John Schell**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Personalized Medicine in Chronic Disease Management.
- Stephen Matthew Schmitt**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Fast Variance Prediction for Iteratively Reconstructed CT with Applications to Tube Current Modulation.
- Michael Marie Schofield**, Field of Specialization: Microbiology and Immunology. Dissertation: Accessing Bioactive Natural Products from Cultured and Uncultured Microorganisms.
- Kee William Scholten**, Field of Specialization: Applied Physics. Dissertation: Microfabricated Optofluidic Ring Resonators for Sensitive, High-Speed Detection of Volatile Organic Compounds.
- Benjamin Arthur Schultz**, Field of Specialization: Physics. Dissertation: Role of Shape in the Self-Assembly of Anisotropic Colloids.
- Katherine Marie Sebeck**, Field of Specialization: Materials Science and Engineering. Dissertation: Molecular Dynamic Simulation of Structures and Interfaces in Amorphous/Ordered Composites.
- Charles Thorne Sebens**, Field of Specialization: Philosophy. Dissertation: Locating Oneself in a Quantum World.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Brandon Micheal Seward**, Field of Specialization: Mathematics. Dissertation: Krieger's Finite Generator Theorem for Ergodic Actions of Countable Groups.
- Ronak Bharatbhai Shah**, Field of Specialization: Pharmaceutical Sciences. Dissertation: A Biomimetic Approach to Active Self-Microencapsulation of Proteins in Poly (DL)-Lactic-Co-Glycolic Acid.
- Yash Shailesh Shah**, Field of Specialization: Biomedical Engineering. Dissertation: Methods and Applications of Multivariate Pattern Analysis in Functional MRI Data Analysis.
- Neha Narendra Sheth**, Field of Specialization: Epidemiological Science. Dissertation: Investigation of the Relationship of Statin Medication Use, Fasting Blood Glucose Levels and Type 2 Diabetes Mellitus.
- Hosop Shin**, Field of Specialization: Mechanical Engineering. Dissertation: Degradation Mechanisms of Electrode/Electrolyte Interfaces in Li-Ion Batteries.
- Tepei Shirakura**, Field of Specialization: Biophysics. Dissertation: Development of Drug-loaded Nanoparticles for Targeted Chemotherapy.
- Mejdule B. Shomali**, Field of Specialization: American Culture. Dissertation: Moving Femininities: Queer Critique and Transnational Arab Culture.
- Nijika Shrivastwa**, Field of Specialization: Epidemiological Science. Dissertation: Understanding Disparities in Vaccination Coverage among Indian Children.
- Elizabeth Ahuva Shtrahman**, Field of Specialization: Applied Physics. Dissertation: Emergence of Spatio-Temporal Pattern Formation and Information Processing in the Brain.
- Rahul Kumar Singh**, Field of Specialization: Biomedical Engineering. Dissertation: The Role of Endothelial Mechanosensing in Capillary Development and Organization.
- Thomas Stefan Skuzinski**, Field of Specialization: Urban and Regional Planning. Dissertation: Risk, Rationality, and Regional Governance.
- Fabiana Naomi Soki**, Field of Specialization: Oral Health Sciences. Dissertation: Contributions of the Bone Marrow Microenvironment to Bone and Skeletal Metastasis.
- Hanna Song**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Cellular Pathways for Productive HIV-1 Entry and Molecular Mechanisms of its Inhibition.
- Beth Louise Sparks-Jackson**, Field of Specialization: Natural Resources and Environment. Dissertation: Ecological Units and Spatial Pattern in River Ecosystems.
- Scott Ivan Stephenson**, Field of Specialization: Physics. Dissertation: Probing Spin-Independent WIMP-Nucleon Interactions with the PandaX-I Detector.
- Elizabeth Jeanne Stewart**, Field of Specialization: Chemical Engineering. Dissertation: Staphylococcal Biofilms: Microstructure, Mechanics, Self-assembly, and Multispecies Communities.
- Pamela A. V. Stewart**, Field of Specialization: History of Art. Dissertation: Devotion to the Passion in Milanese Confraternities, 1500–1630: Image, Ritual, Performance.
- Shane Gray Stimpson**, Field of Specialization: Nuclear Engineering and Radiological Sciences and Scientific Computing. Dissertation: An Azimuthal, Fourier Moment-Based Axial S_N Solver for the 2D/1D Scheme.
- Kendra Dee Strand**, Field of Specialization: Asian Languages and Cultures. Dissertation: Aesthetics of Space: Representations of Travel in Medieval Japan.
- Hao Sun**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Topics in Steady-state MRI Sequences and RF Pulse Optimization.
- Shuwen Sun**, Field of Specialization: Chemistry. Dissertation: High Throughput Screening for Enzyme Modulators Using Segmented Flow Coupled to Electrospray Ionization-Mass Spectrometry.
- Sarang Dilip Supekar**, Field of Specialization: Mechanical Engineering. Dissertation: Environmental and Economic Assessment of Carbon Dioxide Recovery and Mitigation in the Industrial and Energy Sectors.
- Tyler Nash Tallman**, Field of Specialization: Mechanical Engineering. Dissertation: Conductivity-Based Nanocomposite Structural Health Monitoring via Electrical Impedance Tomography.
- Xi Tan**, Field of Specialization: Social and Administrative Sciences. Dissertation: The Impact of Access to Cancer Care on Adjuvant Endocrine Therapy Use Among Breast Cancer Survivors in Appalachia.
- Xueming Tang**, Field of Specialization: Chemical Engineering. Dissertation: Multi-Scale Modeling and Rheological Approaches for Understanding the Structure-Property Relationships of Surfactant Solutions.
- Stephanie Ann Jimenez Temme**, Field of Specialization: Neuroscience. Dissertation: Maladaptive Fear and L-type Voltage Gated Calcium Channel Subtypes.
- Dylan Walker Temple**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: A Multi-Objective Collaborative Optimization Framework to Understand Trade-offs Between Naval Lifetime Costs Considering Production, Operation, and Maintenance.
- Kathryn Quinn Thiroff**, Field of Specialization: Higher Education. Dissertation: Community College Faculty Identities.
- Alex Jon Thompson**, Field of Specialization: Chemical Engineering. Dissertation: The Design of Vascular-Targeted Carriers for Enhanced Interactions with Diseased Endothelium via Blood Flow.
- Edward Eric Timke**, Field of Specialization: Communication. Dissertation: *Cherchez la femme*: Franco-American Relations through Popular Magazines' Representations of French and American Women, 1945–1965.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Timeka Nicol Tounsel**, Field of Specialization: Communication. Dissertation: The Black Woman That Media Built: Content Creation, Interpretation, and the Making of the Black Female Self.
- Hong Tu Tran**, Field of Specialization: Chemical Biology. Dissertation: Comparative Investigation of Key Biosynthetic Transformations in Fungal Indole Alkaloid Natural Product Pathways.
- Nicole Marie Tysvaer**, Field of Specialization: Educational Studies. Dissertation: Summertime Enrichment in a Community of Practice: A Case Study of Three Urban Programs for Economically-Disadvantaged Middle Schoolers.
- Brooke Susanna Ullery**, Field of Specialization: Mathematics. Dissertation: Tautological Bundles on the Hilbert Scheme of Points and the Normality of Secant Varieties.
- Leslie Nicole Upton**, Field of Specialization: Applied Physics. Dissertation: Towards Molecular Control and Rational Design of Molecules with Enhanced Entangled Two-Photon Absorption.
- Brandon Andre Valentine**, Field of Specialization: Psychology. Dissertation: 'Daring to Be Ourselves': Explorations of Authenticity, Compassion, and Discrimination for Lesbian, Gay, Bisexual, and Queer People of Color.
- Adam M. Vaughan**, Field of Specialization: Mechanical Engineering. Dissertation: Adaptive Machine Learning for Modeling and Control of Non-Stationary, Near Chaotic Combustion in Real-Time.
- Ashley Marie Verhoff**, Field of Specialization: Aerospace Engineering. Dissertation: Numerical Simulation of Transitional, Hypersonic Flows using a Hybrid Particle-Continuum Method.
- Alexandra Sergeyevna Voloshina**, Field of Specialization: Kinesiology and Mechanical Engineering. Dissertation: Biomechanics and Energetics of Bipedal Locomotion on Uneven Terrain.
- Jordan Thomas Walk**, Field of Specialization: Chemistry. Dissertation: Sugar Silanes: Versatile Reagents for Stereocontrolled Glycosylation via Intramolecular Delivery.
- Hanxiao Wang**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Molecular Mechanisms of Therapeutic Resistance in Cancer.
- Jack Dong Wang**, Field of Specialization: Biomedical Engineering. Dissertation: Development of a 3D *In Vitro* Model of the Blood-Brain Barrier in Layered Microfluidic Devices.
- James Wang**, Field of Specialization: Economics. Dissertation: Essays on Information Asymmetries in Lending.
- Takanori Watanabe**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Scalable Machine Learning Methods for Massive Biomedical Data Analysis.
- Caren Weinhouse**, Field of Specialization: Environmental Health Sciences. Dissertation: Putative Early Life Epigenetic Biomarkers of Hepatocellular Carcinoma in Mice Perinatally Exposed to Bisphenol A.
- Seth Alexander Wescott**, Field of Specialization: Neuroscience. Dissertation: Genetic Regulation of Nicotine-Responsive Behaviors in the Nematode, *C. elegans*.
- Jonathan Brett Wierschke**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Evaluation of Aluminum-Boron Carbide Neutron Absorbing Materials for Interim Storage of Used Nuclear Fuel.
- Daniel Edward Wilcox**, Field of Specialization: Physics. Dissertation: Chasing Charge Transfer in Organic Systems.
- Jeffrey James Wing**, Field of Specialization: Epidemiological Science. Dissertation: Air Pollution and Stroke in a Bi-Ethnic Community: Associations with Incidence, Recurrence and Stroke Severity.
- Akilah Wise**, Field of Specialization: Health Behavior and Health Education. Dissertation: Educational Advantage and Unintended Pregnancy.
- Chun-Shu Wong**, Field of Specialization: Immunology. Dissertation: The Role of Adenomatous Polyposis Coli in T cell biology: Development, Naïve T cell maintenance, and T cell Homeostatic Proliferation.
- Jordan James Wright**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Rescued Secretion of Misfolded Mutant Proinsulin.
- Lindsay Kay Wright**, Field of Specialization: Chemistry. Dissertation: Single- and Multi-Transducer Arrays Employing Nanoparticle Interface Layers as Vapor Detectors for a Microfabricated Gas Chromatograph.
- Terri Denice Wright**, Field of Specialization: Health Behavior and Health Education. Dissertation: School-Based Health Care and Adolescent Sexual-Risk Behaviors.
- Fan Wu**, Field of Specialization: Electrical Engineering. Dissertation: Implantable Neural Probes for Electrical Recording and Optical Stimulation of Cellular Level Neural Circuitry in Behaving Animals.
- Aaron John Wysocki**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Investigation of Limit Cycle Behavior in BWRs with Time-Domain Analysis.
- Xi Xia**, Field of Specialization: Biostatistics. Dissertation: Robust and Efficient Methods for Bayesian Finite Population Inference.
- Qi Xiao**, Field of Specialization: Cell and Developmental Biology. Dissertation: It Takes a "Village of Stem Cells and Progenitor Cells" to Build a Brain.
- Yehua Xie**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Role and Relevance of PEPT1 in Intestinal Absorption and Pharmacokinetics of 5-Aminolevulinic Acid.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Jia Xu**, Field of Specialization: Physics. Dissertation: Searching For Neutral Kaon Rare Decay $K_{L \rightarrow \pi^0 \nu \bar{\nu}}$.
- Artem Yankov**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Analysis of Reactor Simulations Using Surrogate Models.
- Weiyi Yao**, Field of Specialization: Atmospheric, Oceanic and Space Sciences and Scientific Computing. Dissertation: An Assessment of the Quasi-Biennial Oscillation (QBO) and Sudden Stratospheric Warmings (SSWs) with Idealized General Circulation Models.
- Thomas Man'Ning Yeh**, Field of Specialization: Chemical Engineering. Dissertation: Hydrothermal Catalytic Deoxygenation of Fatty Acids and Upgrading Algae Biocrude.
- Dongmin Yoon**, Field of Specialization: Electrical Engineering. Dissertation: Ultra Low Power Analog Circuits for Wireless Sensor Node System.
- Eric Kai-Hsiang Yu**, Field of Specialization: Electrical Engineering. Dissertation: Amorphous In-Ga-Zn-O Thin-Film Transistors for Next Generation Ultra-High Definition Active-Matrix Liquid Crystal Displays.
- Ping Yu**, Field of Specialization: Communication. Dissertation: When the Personal Becomes the Political: Examining Political Engagement on Social Media.
- Shi Yu**, Field of Specialization: Chemical Engineering. Dissertation: Experimental and Theoretical Studies of DNA-Macroion Interactions.
- Robert Alohimakalani Yuen**, Field of Specialization: Statistics. Dissertation: Topics on Estimation, Prediction and Bounding Risk for Multivariate Extremes.
- Bo Zhang**, Field of Specialization: Physics. Dissertation: Low Dimensional Polariton Systmes in Subwavelength-Grating Based Microcavities.
- Kui Zhang**, Field of Specialization: Materials Science and Engineering. Dissertation: Epitaxial CaTi5O11 and TiO2-B Thin Films for High Rate Lithium-Ion Batteries.
- Lei Zhang**, Field of Specialization: Physics. Dissertation: Top-Down Etched Site-Controlled InGaN/GaN Quantum Dots.
- Xiangyun Zhang**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Source, Evolution, and Properties of Non-Parker-spiral IMF and Its Role on Geomagnetic Activity.
- Yuchong Zhang**, Field of Specialization: Applied and Interdisciplinary Mathematics. Dissertation: Problems in Mathematical Finance Related to Transaction Costs and Model Uncertainty.
- Zhanpeng Zhang**, Field of Specialization: Biomedical Engineering. Dissertation: Advanced Microspheres as Injectable Cell Carriers for Tissue Engineering.
- Yan Zhou**, Field of Specialization: Biostatistics. Dissertation: Statistical Methods for High Dimensional Networked Data Analysis.
- Zhou Zhou**, Field of Specialization: Applied and Interdisciplinary Mathematics. Dissertation: Topics in Optimal Stopping and Fundamental Theorem of Asset Pricing.

UNIVERSITY OF MICHIGAN GRADUATES

August 2015

The following is a preliminary list of the candidates for degrees
to be granted upon completion of formal requirements.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Janet A. Weiss, Dean and Vice Provost for Academic Affairs–Graduate Studies

Certificate of Graduate Studies

Complex Systems

Hua Cai

Spatial Analysis

Kevin Li

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Founded in 1841, Andrew D. Martin, Dean

Bachelor in General Studies

Heather L. Beaudoin
Joshua Michael Berus
Laqueria Asean Brisco
Allison Laura Giniel

Jackson Lawrence Glines
Jasper James Hanifi
Hubbard Tyler Humphrey
Zain Khan Soofi

Emily Alane Swift
Kalee Tsoi
Jarrod Arthur Lee Wilson

Bachelor of Arts

Zaineb Kais Al-Kalby
Mallak Ali Anani
Neil R. Anderson
Byron Andronik
Andre' Miller Barbour
Ashley La'Shirl Barnes
Nicholas M. Battishill
Nathaniel James Beck
Hallie Sarah Berger
Phil A. Bianco
Francis Andrew Bituin
Zoe Michaela Bohrer
Asia Keirra Bond
Eric Lee Brockschmidt
Alexandrea Nicole Burchfield
Erisa Caka
Maegan Louise Campbell
Jennifer Anne Cantrick
Steven Eric Carson
Fuk-Ying Cheng
Jade Cheng
Ming Cheng
Jennifer Chow
Erica Lynne Christopher
In Kwon Chung
Jake Ochberg Cinti
Brittany Ann Clausman
Pedro Alejandro Hernandez Lee
Cooper
Robert Allen Corbidge II
Leah Brianna Counts
Minzhe Dai
Billy Joseph Darr
Haley Elizabeth Davis
Justin Dawes
Leland Jonathon Dawson
Zachary John Determan

Sarah Marlyse Dittrich
Kerry Edwards
Ariella Michal Eisen
William James Ellis
Leah Michele Elliott
Megan J. Erskine
Izhak M. Farha
Dylan Robert Feiner
Michael James Flinn
Benjamin David Fry
Michelle Elizabeth Garcia
Rachel Leah Gerson
Joshua James Thomas Gibert
Avery Adam Gleason
Andrea Kim Goldwasser
German Gonzalez
Kerstin Graziadei Graham
Motoya K. Grier
Hawa A. Haji-Hassan
Erika Catherine Harwood
DaShuane L. Hawkins
Caitlin C. Heath
Sarah Ann Hedin-Holden
John Michael Henby
Amanda Marie Hessling
Sarah Lindsay Hill

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Bachelor of Science in Chemistry

Brandon Jon Yik

RESIDENTIAL COLLEGE

Bachelor of Arts

Vashti Jael Jazmine Armstrong
Jacob Daniel Gorski

Theo Paul Munch
Megan Graham Neary

Taylor-Ryan Isabelle Nedd
Clarence Jerome Stone

Bachelor of Science

Ryan K. Flynn

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Arts

Asian Studies: China

David Patrick Lundquist

Master of Science

Psychology

Babe Kawaii-Bogue

MEDICAL SCHOOL

Founded in 1850, James O. Woolliscroft, Dean

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Biological Chemistry

Xu Han

Health and Health Care Research

Lindsey B. De Lott

Pharmacology

Mah Jabeen
Natalie Nancy Mardrossian
Makeda Mesquitta
Zoey Tang

Physiology

Kyle David Anderson
Amar Thenappan Arunachalam

Dear Graduate:

On behalf of the Alumni Association of the University of Michigan, congratulations on your momentous achievement.

You may be leaving the University of Michigan, but the ties that bind alumni—across the miles and the years—are strong and enduring. Whether you are on the other side of the country or the other side of the world, you are part of something greater than yourself. You are now part of a community of more than 550,000+ Michigan alumni in 180 countries across the globe.

The Alumni Association is your connection to U-M. As a graduation gift, we give you a complimentary one-year membership to help you maintain the bonds you've created over the course of your time on campus. Use it to remind yourself of the place that you hail from, the place that has shaped you into the person you are today. Visit umalumni.com to keep the spirit of U-M close and connect to the powerful global network of U-M alumni.

So as you toss your mortarboard and venture out into the world, celebrate all that you have achieved and remember that you are never far from the University of Michigan.

Again, our congratulations and very best wishes for your future.

Sincerely,

Janey Lack, '62
Chair of the Board of Directors
Alumni Association of the University of Michigan

Steve Grafton
President and CEO
Alumni Association of the University of Michigan

Alumni Association of the University of Michigan
200 Fletcher St., Ann Arbor, MI 48109-1007 | 800.847.4762 | umalumni.com

For those who leave Michigan, but for whom Michigan never leaves, this is where you belong.

The Yellow and Blue

Sing to the colors that float in the light;
Hurrah for the Yellow and Blue!
Yellow the stars as they ride through the night
And reel in a rollicking crew;
Yellow the field where ripens the grain
And yellow the moon on the harvest wain;
Hail!
Hail to the colors that float in the light
Hurrah for the Yellow and Blue!

The Victors

Hail! to the victors valiant
Hail! to the conqu'ring heroes
Hail! Hail! to Michigan
the leaders and best
Hail! to the victors valiant
Hail! to the conqu'ring heroes
Hail! Hail! to Michigan,
the champions of the West
