The Yellow and Blue

Sing to the colors that float in the light;  
Hurrah for the Yellow and Blue!  
Yellow the stars as they ride through the night  
And reel in a rollicking crew;  
Yellow the field where ripens the grain  
And yellow the moon on the harvest wain;  
Hail!  
Hail to the colors that float in the light  
Hurrah for the Yellow and Blue!

The Victors

Hail! to the victors valiant  
Hail! to the conqu’ring heroes  
Hail! Hail! to Michigan  
the leaders and best  
Hail! to the victors valiant  
Hail! to the conqu’ring heroes  
Hail! Hail! to Michigan,  
the champions of the West
This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies ................................................................. 21
College of Literature, Science, and the Arts ..................................................................... 33

Professor, Electrical Engineering and Computer Science  
College of Engineering  
Assistant Chief Marshal
Honorary Degree Recipient

John Dingell

John Dingell, the longest-serving member of the U.S. House of Representatives when he retired in January 2015, exemplifies the best of American political leadership. In an illustrious career spanning almost 60 years, Michigan’s former 12th Congressional District representative and Presidential Medal of Freedom recipient is renowned throughout Michigan and the nation for being a caring, honest, and straight-speaking legislator who fought for civil rights, clean air, Medicare, American workers’ rights, and consumer product safety. Born in Colorado Springs, Colorado, he grew up in Detroit and Washington, D.C., where his father served in the House of Representatives for 22 years and he was a House page. Mr. Dingell, a World War II Army veteran, earned a B.S. degree (1949) from Georgetown University and a J.D. degree (1952) from Georgetown Law School. He worked as a forest ranger, prosecuting attorney, and private practice lawyer before winning a special election in 1955 to succeed his father, who died in office. At the beginning of each Congressional session, Mr. Dingell would introduce the national health insurance bill his father had sponsored. A life-long advocate of health care issues, he co-authored the Affordable Care Act, Patient's Bill of Rights, Children's Health Insurance Program, Food and Drug Administration Food Safety Modernization Act, and Prescription Drug User Fee Act. An avid conservationist and outdoorsman and senior member of the Migratory Bird Conservation Commission, he co-wrote the Endangered Species Act, the 1990 Clean Air Act, Safe Drinking Water Act, and legislation to create North America's first international wildlife refuge, protecting thousands of acres of natural habitat in Michigan and Canada. In the 1980s and early 1990s, he chaired the Energy and Commerce Committee during the most productive period of its history. Many of his important accomplishments were in the areas of oversight and investigations. He uncovered malfeasance in the Environmental Protection Agency in the early 1980s; pursued waste, fraud, and abuse in the Pentagon; and uncovered fraud by generic drug manufacturers and medical device companies. He also led the House investigation of no-bid defense contracts in Iraq and worked tirelessly to limit importation of Canadian waste into Michigan. He was a strong and relentless advocate for the automobile industry in Detroit and the United States. Mr. Dingell has been a loyal supporter of the University and mentor to faculty and students, dozens of whom who have worked as interns in his office. In addition to supporting higher education nationally, he engaged with students frequently over the years, generously sharing his knowledge of the political process, elections, the separation of power, ethics in government and the private sector, lobbying, political parties, and international commitments.

Mr. Dingell, you are renowned as one of the most knowledgeable and thoughtful policy advocates in Congress. As dean of the House, you earned the respect and gratitude of constituents and colleagues for your leadership, courage, and dedicated public service. Throughout your career you worked collaboratively with others in Congress and the executive branch to secure affordable and accessible health care for all Americans, a sustainable environment, and honest government, leaving a remarkable legacy of achievement as a legislator and public steward. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.
Honorary Degree Recipient

Sanford R. Robertson

Silicon Valley legend and University of Michigan alumnus Sanford Robertson, founder of the pioneering investment firm Robertson Stephens and a founding partner of Francisco Partners, is renowned for his foresight and leadership. At Robertson Stephens he helped create the financial infrastructure that has powered the nation’s rapidly growing technology sector. Born and raised in Chicago, Illinois, Mr. Robertson earned two degrees from Michigan, a B.B.A. (1953) and an M.B.A. (1954) with distinction. Among the first to recognize the high-tech industry’s potential, he launched Robertson, Colman & Siebel in 1969, one of several investment firms he led. Robertson Stephens, the largest, took more than 500 technology and biotechnology companies public, including America Online, Applied Materials, Ascend, Dell Computer, E*Trade, Pixar Animation, and Sun Microsystems. Bank of America Corporation acquired Robertson Stephens in 1997. Two years later he co-founded Francisco Partners, a $10 billion private equity firm, which has made more than 100 investments in technology. He is a director of several public companies, including being the lead independent director of the $5 billion Salesforce.com, the world’s largest cloud software company and fastest growing large company on the New York Stock Exchange. He also is a director of Dolby Laboratories Inc., JustAnswer, Pain Therapeutics Inc., and RPX Corporation. He serves on the boards of the Kamehameha Schools Endowment Investment Advisory Committee and the University of California, San Francisco Global Health Initiative. Additionally, Mr. Robertson chairs the W.M. Keck Observatory Advancement Advisory Council. He is deeply committed to the University and is a longtime member of the President’s Advisory Group. He has served on U-M’s Investment Advisory Committee since it was founded in 1990. During that time the University’s endowment has grown from less than $1 billion to $9.7 billion in 2014. He served on the Campaign for Michigan National Leadership Committee in the 1980s and co-chaired the Michigan Difference campaign, which raised a record-breaking $3.2 billion. He and his wife Jeanne currently serve on the steering committee of the $4 billion Victors for Michigan fundraising campaign. Mr. Robertson was class president as a graduate student and has continued to contribute to the Stephen M. Ross School of Business as a member of its visiting committee, technology advisory board, and dean’s advisory board. He endowed the Sanford R. Robertson Assistant Professor in Business Administration position and the football offensive coordinator post in the Athletic Department. The Robertsons also created the Jeanne and Sanford Robertson Scholarship Fund for musical theater students at the School of Music, Theatre & Dance. Mr. Robertson has received many accolades, including U-M's David B. Hermelin Award for Fundraising Volunteer Leadership and lifetime achievement awards from the University of California, Berkeley Haas School of Business Lester Center for Entrepreneurship and the National Venture Capital Association.

Mr. Robertson, you are renowned in the investment banking field and beyond for your vision and indomitable spirit. By providing the resources, expertise, and encouragement entrepreneurs need to bring their ideas to market, you play a crucial role in launching new technologies that change the way we work and live. You also inspire students, faculty, and fellow Michigan alumni with your generous support of higher education and long-standing commitment to your alma mater. The University of Michigan is proud to welcome you back and to award you the honorary degree, Doctor of Laws.
Honorary Degree Recipient

Paul Saginaw

Social entrepreneur and University of Michigan alumnus Paul Saginaw is famous for his mentorship and spiritual leadership shared freely with 21 partners and more than 700 employees in nine thriving businesses as the co-founder and co-chief executive officer of the Zingerman’s Community of Businesses (ZCoB). Sharing a dream for a great corned beef and an organization with soul, he and Ari Weinzweig partnered to open Zingerman’s Delicatessen in 1982, in an asymmetric, historic building with a $20,000 loan and two other employees. Mr. Saginaw, who was born and grew up in Detroit and earned a Bachelor of Science degree (1976) in zoology from U-M, managed restaurants and worked as a fish monger in his own fish market with longtime friend Mike Monahan before launching the delicatessen. Since then, many business case studies have described Zingerman’s unique growth, corporate visioning, open book management, sustainability, and equity efforts. In its January 2003 cover story by Bo Burlingham, Inc. magazine showcased Zingerman’s as the “Coolest Small Company in America,” which led to Burlingham’s book Small Giants: Companies That Choose to Be Great Instead of Big, telling Zingerman’s story. Leading the effort to grow the ZCoB, Mr. Saginaw works with every employee who has declared interest in opening a new business and becoming a ZCoB partner. Active in local and regional business communities, Mr. Saginaw has served on the boards of United Bank & Trust, Crystal Mountain Resort and, currently, Priority Health. He believes that a business earns its right to conduct commerce in a community by being a good corporate citizen and has pursued a parallel career volunteering in the nonprofit sector. Aware of food loss in the restaurant industry, Mr. Saginaw envisioned the feasibility of a nonprofit addressing hunger by rescuing nutritious food that otherwise would be tossed. Food Gatherers, initially staffed and heavily supported by Zingerman’s and guided by its business principles, has become a national model for hunger relief with Mr. Saginaw as founding president and board member from 1988 to 2012. He also was a founding director of the Washtenaw Housing Alliance, a collaborative of nonprofits dealing directly and tangentially with homelessness, and a board member of the Business Alliance for Local Living Economies, which catalyzes networks of locally owned and controlled businesses to drive economic development. He is a director of Dawn Farm, a nationally recognized recovery program, and a past-president of Ann Arbor’s NEW Center, which provides training resources to nonprofits. A vocal advocate for raising the minimum wage, Mr. Saginaw received the Obama administration’s Champion of Change award at the White House. Of late, drawn to the abundance of opportunity in Detroit, Mr. Saginaw dedicates himself to supporting many city-based organizations, including the Detroit Food Academy, FoodLab Detroit, Keep Detroit Growing, Merit’s Fate Program, and Restaurant Opportunities Centers United.

Mr. Saginaw, you exemplify how knowledge gained from study of the liberal arts can prepare graduates for professional and personal success and promote the common good. You have created a world-class, sustainable business model founded on integrity, employee empowerment, civic responsibility, and philanthropy and, in the process, have delighted millions of appreciative guests with Zingerman’s unforgettable food and legendary service. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.
Robert J. Shiller

Nobel Prize winning economist, best-selling author, and University of Michigan alumnus Robert Shiller has reframed long-held tenets of financial market volatility and the dynamics of asset prices with his pioneering theories and research. Among the first to demonstrate that market behavior frequently is not logical, he helped found behavioral economics, the melding of psychology, sociology, and political science with economics. In 2013, Professor Shiller, along with Eugene Fama, and Lars Peter Hansen, shared the Nobel Prize in Economic Sciences for their empirical analysis of asset prices. Born in Detroit, he grew up in Southfield, Michigan, and earned a B.A. degree (1967) in economics from U-M and an S.M. (1968) and a Ph.D. (1972), both in economics, from the Massachusetts Institute of Technology. He taught at the University of Pennsylvania Wharton School and the University of Minnesota before joining the Yale University faculty in 1982, where he is the Sterling Professor of Economics, a Cowles Foundation for Research in Economics staff member, and professor of finance at the Yale School of Management. He has been a research associate at the nonpartisan National Bureau of Economic Research since 1980. Professor Shiller writes about behavioral economics, macroeconomics, financial markets, financial innovation, real estate, and statistical methods, as well as public attitudes, opinions, and moral judgments regarding markets. He is the author of six books, including The New York Times bestseller Irrational Exuberance (2000); an updated third edition was published early this year. Professor Shiller demonstrated his prescience in the mid-2000s, when he warned that market bubbles could lead to declines in the financial markets, collapse in the U.S. housing market, and financial panic. In Animal Spirits: How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism (2009), he and co-author George Akerlof, also a Nobel Prize winning economist, assert the need for active government leadership in economic policymaking. In Professor Shiller’s newest book, Finance and the Good Society (2012), he posits that finance is one of the most powerful tools available to promote the common good. He created the widely used Cyclically Adjusted Price-Earnings Ratio to predict stock market returns over several years and, with Karl Case, the Standard & Poor’s Case-Shiller Home Price Indices, one of the best known indicators of the strength of the housing market and the overall economy. He also contributes regularly to The New York Times “Economic View” column and to Project Syndicate, which distributes his commentary worldwide. Professor Shiller, president-elect of the American Economic Association, maintains close ties to Michigan, frequently returning to lecture and participate in conferences. He has received many accolades, including the Deutsche Bank Prize in Financial Economics, and has been listed among Foreign Policy magazine’s top 100 global thinkers twice and Bloomberg Markets’ Most Influential 50 in global finance.

Professor Shiller, in an acclaimed career as a scholar and public intellectual, you have exerted profound influence on economics and public policy, earning the respect and admiration of economists and other academics, policymakers, and the public for your research, including insights into market dynamics and innovative financial tools. We celebrate your accomplishments and many contributions to U-M and higher education. The University of Michigan is proud to welcome you back to campus and to present to you the honorary degree, Doctor of Science.
Ari Weinzweig

Ari Weinzweig, an inventive food historian, food and business writer, and University of Michigan alumnus, is co-founder and co-chief executive officer of Zingerman’s Community of Businesses (ZCoB). He is renowned as an inspirational and trusted thought leader of progressive business practices, sharing the Zingerman’s approach with forward-thinking organizations nationally and around the world. Mr. Weinzweig, who was born in Cleveland and grew up in Chicago, earned a Bachelor of Arts degree (1978) in Russian history from the University. As a recent college graduate, he was hired as a restaurant dishwasher, was promptly promoted to line cook, and discovered his culinary passion and future business partner, Paul Saginaw, the restaurant’s manager. Together, as friends and food pioneers, they opened Zingerman’s Delicatessen in 1982. Over three decades later it is a destination for more than half a million people annually and an exemplar of innovative business practices. Eschewing offers to replicate the deli elsewhere, Mr. Weinzweig and Mr. Saginaw created a model for incubating new businesses that provides ownership opportunities for entrepreneurial employees. Today they share ownership with 21 partners across nine businesses that employ over 700 people and generate more than $55 million in annual sales—Zingerman’s Delicatessen, Zingerman’s Bakehouse, Zingerman’s Mail Order, ZingTrain, Zingerman’s Creamery, Zingerman’s Roadhouse, Zingerman’s Coffee Company, Zingerman’s Candy Company, Zingerman’s Service Network, and Zingerman’s Cornman Farms, an event venue as well as a working farm. Mr. Weinzweig has shared the Zingerman’s story in numerous magazine articles and through his influential books, including Zingerman’s Guide to Giving Great Service (2004), Zingerman’s Guide to Better Bacon (2009), Zingerman’s Guide to Good Leading, Part 1: A Lapsed Anarchist’s Approach to Building a Great Business (2010), Zingerman’s Guide to Good Leading, Part 2: A Lapsed Anarchist’s Approach to Being a Better Leader (2012), and Zingerman’s Guide to Good Leading, Part 3: A Lapsed Anarchist’s Approach to Managing Ourselves (2013). Mr. Weinzweig teaches ZingTrain leadership courses at universities, businesses, and nonprofit organizations throughout the world. He has served as president of the American Cheese Society and has also played a key role in global efforts to revive and preserve traditional food production methods. Under his leadership, since the mid-90s, the ZCoB has practiced open book management, a system that invites all employees to become involved in making decisions to help run the business. The James Beard Foundation recognized Mr. Weinzweig with a Who’s Who of Food & Beverage in America award in 2006. Among other honors, Mr. Weinzweig and Mr. Saginaw received the first Humanitarian Award from the Jewish Federation of Washtenaw County in 1995 and Bon Appétit magazine’s Lifetime Achievement Award in 2007 for their contributions to the industry. The National Association for the Specialty Food Trade inducted them into its Specialty Food Hall of Fame in 2015.

Mr. Weinzweig, you are renowned for your vision, business acumen, and servant leadership. By successfully enlarging the Zingerman’s experience from a single business to an ever-growing community of businesses you have created opportunities for new entrepreneurs, provided a model for other organizations of all sizes, both for profit and nonprofit, and demonstrated the value of a liberal arts education. You inspire your colleagues, students, and others with your energy and passion for your work and your philanthropy. The University of Michigan is proud to present to you the honorary degree, Doctor of Laws.
Robin Wright

Award-winning journalist, author, foreign correspondent, and University of Michigan alumna Robin Wright is renowned for her in-depth knowledge of the Middle East acquired over four decades of reporting. Born in Ann Arbor, Michigan, Ms. Wright, The Michigan Daily’s first female sports editor, earned a B.A. degree (1970) and an M.A. (1971) before commencing a reportorial odyssey that has taken her to more than 140 countries in Africa, Asia, Europe, and the Middle East. She has covered a dozen wars and several revolutions, often at great personal risk. Ms. Wright has written thousands of articles for leading periodicals, including The New Yorker, The Washington Post, TIME, the Los Angeles Times, The New York Times, The Sunday Times of London, The Atlantic, and many others. She also is a frequent television commentator on programs such as “Meet the Press,” “Face the Nation,” “PBS NewsHour,” “Charlie Rose,” and “The Colbert Report,” among others. Ms. Wright has written eight books, including Sacred Rage: The Wrath of Militant Islam (1985); In the Name of God: the Khomeini Decade (1989); The Last Great Revolution: Turmoil and Transformation in Iran (2000); and Dreams and Shadows: The Future of the Middle East (2008). Her most recent, Rock the Casbah: Rage and Rebellion Across the Islamic World (2011), won the Overseas Press Club award for best book on international affairs and was selected by The New York Times and The Washington Post as one of the top nonfiction books of 2011. Ms. Wright has been a fellow at the Brookings Institution, Carnegie Endowment for International Peace, U.S. Institute of Peace, Woodrow Wilson International Center for Scholars, Yale University, Duke University, Dartmouth College, and the University of Southern California. Among other honors, she received the United Nations Correspondents Gold Medal for international reporting, National Magazine Award, National Press Club Award, and Overseas Press Club Award for exceptional courage and initiative in covering African wars. The American Academy of Diplomacy selected her journalist of the year; she also received a John D. and Catherine T. MacArthur Foundation grant and, in 2012, the Association for Diplomatic Studies and Training presented her the Cyrus R. Vance Award for Advancing Knowledge of Diplomacy. A loyal alumna and winner of the 1978 Alumnae Council Athena Award, Ms. Wright frequently returns to campus to lecture. Committed to improving educational opportunities for women, especially those from Africa and the Islamic world, she created the Robin Wright Research Fellowship at U-M’s Center for the Education of Women. She also helped establish the L. Hart Wright Collegiate Professorship and a teaching award at the Law School in memory of her father, who taught there from 1946 to 1983, and the Phyllis B. Wright Scholarship in Theatre at the School of Music, Theatre & Dance, in memory of her mother, an actress, patron of the arts, and longtime supporter of U-M’s theater program.

Ms. Wright, as one of the most informed journalists covering international affairs, you are greatly admired for your thoroughness and impeccable professional standards. Through your vivid writing and reporting on complex international issues, you foster deeper understanding of humanity, politics, and the challenges that divide people and nations. The University of Michigan is delighted to welcome you back to campus and to present to you the honorary degree, Doctor of Humane Letters.
Tadataka Yamada

Global health expert Tadataka Yamada, executive vice president and chief medical and scientific officer at Takeda Pharmaceutical Company and past-president of the Bill and Melinda Gates Foundation Global Health Program, is internationally renowned for his numerous contributions as a physician, scientist, and leader in drug discovery and development. Born in Tokyo, he earned a B.A. degree in history from Stanford University (1967) and M.D. (1971) from the New York University School of Medicine. He completed a gastroenterology residency at the University of California Los Angeles School of Medicine and taught and conducted research there before joining U-M’s Medical School faculty in 1983. He played a transformative role in the Division of Gastroenterology, resulting in the U-M Health System being one of nation’s highest performing hospitals in gastroenterology and gastrointestinal surgery. Dr. Yamada has published more than 150 original manuscripts and edited The Textbook of Gastroenterology (now in its fifth edition). He cloned the histamine H2 receptor—a molecule that stimulates gastric acid and intestinal secretions—at Michigan, where he served as the John G. Searle Professor of Internal Medicine, chair of the Department of Internal Medicine, and physician-in-chief at the Medical Center from 1990 until 1996. Dr. Yamada, who received a Distinguished Faculty Achievement Award in 1992, visits the University several times a year. He presented an invited lecture at the 2014 Life Sciences Institute Symposium. Named chairman of research and development at GlaxoSmithKline in 1999, he expanded the British firm’s multi-billion dollar product pipeline and facilitated discovery and development of medicines for malaria and tuberculosis for dissemination in low-income countries. His life-saving efforts were recognized with his appointment as Knight Commander of the Most Excellent Order of the British Empire. In 2006, he joined the Bill and Melinda Gates Foundation, where he addressed major health challenges in the developing world, including tuberculosis, HIV, malaria and other infectious diseases, malnutrition, and maternal and child health. In 2011, Dr. Yamada returned to Japan to oversee research and development at Takeda Pharmaceuticals, the largest pharmaceutical firm in Asia. Dr. Yamada, past-president of the Association of American Physicians and the American Gastroenterological Association, is a fellow of the Academy of Medical Sciences in the United Kingdom and a member of the National Academy of Medicine in Mexico. In addition to serving on the Council of the Institute of Medicine of the National Academies, he is a member of the Clinton Health Access Initiative board. He previously served on the U.S. President’s Council of Advisors on Science and Technology. Among many accolades, he has received the American Physiological Society SmithKline & French Prize in Gastrointestinal Research, the Julius Friedenwald Medal from the American Gastroenterological Association, and the first August M. Watanabe Prize in Translational Research from Indiana University and Eli Lilly & Co.

Dr. Yamada, throughout your illustrious career as a physician, academic leader, researcher, and developer of pharmaceuticals you have used your intellect, vision, and scientific acumen to advance the common good. A model for students and others who seek to improve the human condition through science, you inspire us with your commitment to improve lives by developing new ways to diagnose and treat life-threatening infectious diseases. The University of Michigan is delighted to welcome you back to campus and proud to present to you the honorary degree, Doctor of Science.
UNIVERSITY FLAGS AND FLAG BEARERS

The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

| College of Literature, Science, and the Arts | Kendall Gayle Johnson |
| Medical School | Daniel Jacob Reiss |
| Law School | Charles Ramsey |
| School of Dentistry | Rachel M. Swanson |
| College of Pharmacy | Ronak Bharat Shah |
| College of Engineering | Hannah Grace Cheriyan |
| Horace H. Rackham School of Graduate Studies | TaShara Cornelia Bailey |
| A. Alfred Taubman College of Architecture and Urban Planning | Coco Ke Shi |
| School of Education | Haya Bucharouch |
| Stephen M. Ross School of Business | Sreenidhi Kolli |
| President’s flag | on stage |
| University flag | on stage |
| Regents’ flag | on stage |
| School of Natural Resources and Environment | Sara Hadavi |
| School of Music, Theatre & Dance | Isabelle Joan McCalla |
| School of Nursing | Sara Taylor Szutkowski |
| School of Public Health | Charles Lu Zhou |
| School of Social Work | Olivia VanSickle |
| University of Michigan-Flint | Amged Hassan Eidelsafy |
| University of Michigan-Dearborn | Aida Al Jahdhami |
| School of Information | Siddharth Soni |
| Penny W. Stamps School of Art & Design | Terence Gerard Harp II |
| School of Kinesiology | Kylie Jo Taphouse |
| Gerald R. Ford School of Public Policy | Chelsea A. Davis |

THE UNIVERSITY MACE

The University’s mace, a symbol of authority, is carried at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

**ACADEMIC COLORS**

The colors of the various disciplines are as follows:

- Architecture and Urban Planning: blue violet
- Business Administration: drab
- Dentistry: lilac
- Education: light blue
- Engineering: orange
- Fine Arts: brown
- Information: lemon
- Kinesiology: sage green
- Law: purple
- Literature and Arts: white
- Medicine: green
- Music: pink
- Natural Resources and Environment: russet
- Nursing: apricot
- Pharmacy: olive green
- Philosophy: dark blue
- Public Health: salmon pink
- Public Policy: peacock blue
- Science: golden yellow
- Social Work: citron

Mingled colors distinguish combined curriculums.

**ACADEMIC DRESS AND CUSTOM**

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

**Gowns**

Bachelor’s or master’s degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor’s gown has long, pointed sleeves while the master’s gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

**Hoods**

The hood most precisely describes the wearer’s level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood’s shape and size and the width of its velvet or velveteen trimming. The bachelor’s, master’s, and doctor’s hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor’s hood and the widest for the doctor’s hood. The color of trim denotes the field or discipline in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

**Caps**

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.
SCHOOLS AND COLLEGES OF THE UNIVERSITY

The order of presentation is by the year of founding.

College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University’s schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master’s and doctoral degrees in the basic medical sciences. The school established the nation’s first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school’s graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school’s graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master’s degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master’s programs in dental hygiene.

College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.
Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people's lives around the world.

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the “science and art of teaching.” The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master’s degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor’s, master’s, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.
School of Natural Resources and Environment

The School of Natural Resources and Environment’s overarching objective is to contribute to the protection of the Earth’s resources and the achievement of a sustainable society. Through research, teaching, and outreach, faculty, staff, and students are devoted to generating new knowledge and developing policies, techniques, and skills to help practitioners manage and conserve natural resources to meet the full range of human needs on a sustainable basis. The school jointly administers the undergraduate Program in the Environment, and it offers master’s and doctoral programs in ecological, social, and design sciences.

School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor’s, master’s, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

School of Nursing

The School of Nursing has held an unsurpassed reputation of excellence for more than 100 years. It has been a national leader in the advancement of nursing knowledge and the promotion of new trends in health care. The School’s baccalaureate programs include a four-year B.S.N. program, a second career nursing program, and an R.N.-B.S.N. completion program. At the master’s level, the School of Nursing, through the Horace H. Rackham School of Graduate Studies, offers advanced study in clinical specialist, nurse practitioner, and management roles. The school’s prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

The history of the School of Public Health dates back to 1881, when the first course in sanitary science was taught in the College of Literature, Science, and the Arts. Established in 1941, the school has awarded master of public health, master of science, master of health services administration, and doctor of public health degrees to more than 13,000 students. Doctor of philosophy programs were established in 1947 and now include concentrations in biostatistics, environmental health sciences, epidemiology, health behavior and health education, and health management and policy. Key areas of research include vaccine development, air and water quality, reproductive and women’s health, and health care costs, quality, and access.

School of Social Work

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master’s level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.
School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

Penny W. Stamps School of Art & Design

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, “The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country.” The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

School of Kinesiology

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master’s and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

Gerald R. Ford School of Public Policy

The Gerald R. Ford School of Public Policy prepares graduates for distinguished careers in policy analysis and management, and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.
Candidates for degrees granted May 1, 2015

Doctor of Musical Arts

Dustin Ryan Fingal Barr, Field of Specialization: Conducting (Band).
Katherine Therese Calcammugio Donner, Field of Specialization: Music Performance.
Grace Jung-Min Kwon, Field of Specialization: Music Performance.
Jaclyn Michael Johnson, Field of Specialization: Conducting (Choral).
Do Yeon Kim, Field of Specialization: Music Performance.

Kyoo Hye Lim, Field of Specialization: Music Performance.
Benjamin W. Rous, Field of Specialization: Conducting (Orchestral).
Monte Duran Thomas, Field of Specialization: Music Performance.

Doctor of Philosophy

Catherine Marie Amodeo, Field of Specialization: Mechanical Engineering. Dissertation: Mechanical Behavior of Gas Metal Arc Welds and Lithium-Ion Battery Modules.
Krista Katherine Badiane, Field of Specialization: Natural Resources and Environment. Dissertation: Beyond Myth and Ceremony?: An Examination of Corporate Responses to Climate Change.

Dana Lynne Begun, Field of Specialization: Anthropology and Biomedical Engineering. Dissertation: Age-Related Changes in Bone: Variation and Factors Influencing Bone Fragility.
David T. Benson-Puttnins, Field of Specialization: Mathematics. Dissertation: Volumes and Integer Points of Multi-Index Transportation Polytopes.
Doctor of Philosophy

Brittany Marie Bowman, Field of Specialization: Biological Chemistry. Dissertation: FADD and its Phosphorylation Mediate Mitogenic Signaling in Mutant Kras Tumors.

Elizabeth J. Bridges, Field of Specialization: Anthropology. Dissertation: Vijayanagara Imperialism and the Emergence of the Keladi-Ikkkeri Nayaka State, 1499–1763 C.E.

Denise Nicole Bronner, Field of Specialization: Microbiology and Immunology. Dissertation: Cells on Fire: Regulation of the NLRP3 Inflammasome via Endoplasmic Reticulum and Mitochondrial Crosstalk.

Andrew Frederick Brouwer, Field of Specialization: Applied and Interdisciplinary Mathematics. Dissertation: Models of HPV as an Infectious Disease and as an Etiological Agent of Cancer.

Nicolette Isabel Bruner, Field of Specialization: English Language and Literature. Dissertation: Corporate Impersonation: The Possibilities of Personhood in American Literature, 1886–1917.

Ayse Guliz Buyuktur, Field of Specialization: Information. Dissertation: Temporality and Information Work in Bone Marrow Transplant.

Gerardo Evaristo Cruz, Field of Specialization: Aerospace Engineering. Dissertation: Retrospective Cost-based Adaptive spacecraft Attitude Control.

Doctor of Philosophy

Martino Dibeltulo, Field of Specialization: Asian Languages and Cultures. Dissertation: The Revival of Tantrism: Tibetan Buddhism and Modern China.

Jofsef Adrian Dunbar, Field of Specialization: Biophysics. Dissertation: Vibrational Probe and Methods Development for Studying the Ultrafast Dynamics of Preferential Solvation of Biomolecules by 2D-IR.

Katrina Renee Ellis, Field of Specialization: Health Behavior and Health Education. Dissertation: Dyadic Analyses of the Influence of Chronic Conditions on the Biopsychosocial Wellbeing and Health-Promoting Behaviors of Individuals with Advanced Cancer and Their Family Caregivers.

Christopher Estrada, Field of Specialization: Anthropology and History. Dissertation: Caboclos of Nazareth: Improvisation and Renovation in Maracatu de Baque Solto of Pernambuco.

Margery Lee Evans, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Molecular Modulators of Bacterial Functional Amyloid Assembly.

Doctor of Philosophy

Douglas Andrew Hansen, Field of Specialization: Medicinal Chemistry. Dissertation: Type I Polyketide Synthases: Methodology, Biocatalysis, and Evaluation of Substrate Promiscuity.

Jeremy Milton Holzwarth, Field of Specialization: Biomedical Engineering. Dissertation: Enhancing the Neuronal Differentiation of Mouse Embryonic Stem Cells Using Biomaterials.

Simon Huang, Field of Specialization: Materials Science and Engineering. Dissertation: Formation, Structure, and Properties of InAs/GaAs Quantum Dots.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Ashley Miranda Ingiosi, Field of Specialization: Neuroscience. Dissertation: Deconstructing Neuronal and Astroglial Contributions to Sleep and Inflammatory Immune Responses.

Matthew Lee Kahlscheuer, Field of Specialization: Chemistry. Dissertation: Characterization of pre-mRNA Dynamics and Structure throughout Spliceosome Assembly and Catalysis.

Yu-Chun Kao, Field of Specialization: Natural Resources and Environment. Dissertation: Modeling the Effects of Climate Change, Nutrients, and Invasive Species on Lake Huron Food Webs.

Matthew H. Kim, Field of Specialization: Psychology. Dissertation: Motivation and Error Processing During the Transition to School.

Soojeong Kim, Field of Specialization: Chemistry. Dissertation: Electrochemical and Structural Analysis of Li-ion battery Materials by in-situ X-ray Absorption Spectroscopy.

Yejoong Kim, Field of Specialization: Electrical Engineering. Dissertation: Robust Circuit Design for Low-Voltage VLSI.

Brian Bruce Kitchen, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Investigation of the Solid Electrolyte Interface on LiMnO₂ through Neutron Reflectometry.

Anna Julia Kroth, Field of Specialization: Higher Education. Dissertation: The Effects of the Introduction of Tuition on College Enrollment in Germany: Results from a Natural Experiment With Special Reference to Students from Low Parental Education Backgrounds.

Doctor of Philosophy

Gay Laray Landstrom, Field of Specialization: Nursing. Dissertation: An Examination of Hospital Safety Climate.

Alana M.W. LeBron, Field of Specialization: Health Behavior and Health Education. Dissertation: Racialization of Latinos and Implications for Health Following September 11th: Findings From a Northern Border Community.

Kyuhasang Lee, Field of Specialization: Electrical Engineering. Dissertation: Compound Semiconductor-Based Thin-Film and Flexible Optoelectronics.

Dingsheng Li, Field of Specialization: Environmental Health Sciences. Dissertation: A Physiologically Based Pharmacokinetic Model Study of the Biological Fate, Transport and Behavior of Engineered Nanoparticles.

Zeyu Li, Field of Specialization: Geology. Dissertation: Melting and Structural Transformations of Carbonates and Hydrous Phases in Earth’s Mantle.

Zhuobin Liang, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Rejoining of DNA Double-Strand Breaks and Genome Stability: From Host-Pathogen Interactions to Break-Induced Mutagenesis.

Danielle Marie Lillge, Field of Specialization: English Education. Dissertation: When Does Literacy Professional Development Work? Understanding How Instructors Learn to Teach Writing in their Disciplinary Classrooms.

Po-Ju Lin, Field of Specialization: Kinesiology. Dissertation: Effects of Repeat Exercise Under Different Prandial States and Diet Composition on Glucoregulation and Appetite.

Jing Liu, Field of Specialization: Chemical Engineering. Dissertation: Characterizing Metal/Oxygen Batteries with Multiphase Continuum-Scale Models.

Lulu Liu, Field of Specialization: Physics. Dissertation: Evidence for Electroweak Production of $W^+W^-$ in Proton-Proton Collisions at $\sqrt{s} = 8$ TeV with the ATLAS Detector at the LHC.

Yuxuan Liu, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: A Full Core Resonance Self-shielding Method Accounting for Temperature-dependent Fuel Subregions and Resonance Interference.

Charles Leonard Lord, Field of Specialization: Higher Education. Dissertation: Staying the Course: Persistence and Opportunities to Learn Sociology in a Community College Classroom.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Beth Ann Lubeck, Field of Specialization: Immunology. Dissertation: The Ras GTPase Activating Protein p120 RasGAP as a Regulator of Cardiovascular System Development, Lymphatic System Maintenance, and a T Cell Lineage Tumor Suppressor.

Xiaoya Ma, Field of Specialization: Kinesiology. Dissertation: Systemic Iron Regulation and Adipose Tissue Inflammation in Health and Disease.

Helen Carmon Spink Meier, Field of Specialization: Epidemiological Science. Dissertation: Life Course Socioeconomic Status and Immune Response to Persistent Infection in Mexican Americans.

Tyler Elliot Moss, Field of Specialization: Materials Science and Engineering. Dissertation: Stress Corrosion Crack Initiation of Alloy 600 and Alloy 690 in Hydrogenated Supercritical Water.

Tadeusz Leslaw Ogorzalek, Field of Specialization: Chemical Biology. Dissertation: Examining the Behavior of Surface Tethered Enzymes.

Doctor of Philosophy

Laura Yvonne Pfund, Field of Specialization: Chemistry. Dissertation: Accelerating Solid Form Discovery for Pharmaceuticals.

Aaron P. Proffitt, Field of Specialization: Asian Languages and Cultures. Dissertation: Mysteries of Speech and Breath: Dohan’s (1179–1252) Himitsu nembutsu shō and Esoteric Pure Land Buddhism.

Xu Ran, Field of Specialization: Medicinal Chemistry. Dissertation: Peptide and Nonpeptide Approaches to Target Protein-protein Interactions for the Treatment of Cancer.

Jennifer Nicole Rauch, Field of Specialization: Biological Chemistry. Dissertation: Regulation of Human Hsp70 by its Nucleotide Exchange Factors (NEFs).

Joshua Regal, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Characterization of MRE11 Mutants Provides Insight into Human Genetic Disease, Cancer, and Clinical Intervention.

Daniel Jacob Reiss, Field of Specialization: Microbiology and Immunology. Dissertation: Investigating Reciprocal Control of Adherence and Motility through the Lens of PapX, a Non-structural Fimbrial Repressor of Flagellar Synthesis.

Michael Marie Schofield, Field of Specialization: Microbiology and Immunology. Dissertation: Accessing Bioactive Natural Products from Cultured and Uncultured Microorganisms.

Katherine Marie Sebeck, Field of Specialization: Materials Science and Engineering. Dissertation: Molecular Dynamic Simulation of Structures and Interfaces in Amorphous/Ordered Composites.

Doctor of Philosophy

Yash Shailesh Shah, Field of Specialization: Biomedical Engineering. Dissertation: Methods and Applications of Multivariate Pattern Analysis in Functional MRI Data Analysis.

Beth Louise Sparks-Jackson, Field of Specialization: Natural Resources and Environment. Dissertation: Ecological Units and Spatial Pattern in River Ecosystems.

Shane Gray Stimpson, Field of Specialization: Nuclear Engineering and Radiological Sciences and Scientific Computing. Dissertation: An Azimuthal, Fourier Moment-Based Axial S_n Solver for the 2D/1D Scheme.

Tyler Nash Tallman, Field of Specialization: Mechanical Engineering. Dissertation: Conductivity-Based Nanocomposite Structural Health Monitoring via Electrical Impedance Tomography.

Stephanie Ann Jimenez Temme, Field of Specialization: Neuroscience. Dissertation: Maladaptive Fear and L-type Voltage Gated Calcium Channel Subtypes.

Kathryn Quinn Thirolf, Field of Specialization: Higher Education. Dissertation: Community College Faculty Identities.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Hong Tu Tran, Field of Specialization: Chemical Biology. Dissertation: Comparative Investigation of Key Biosynthetic Transformations in Fungal Indole Alkaloid Natural Product Pathways.

Nicole Marie Tysvaer, Field of Specialization: Educational Studies. Dissertation: Summer Enrichment in a Community of Practice: A Case Study of Three Urban Programs for Economically-Disadvantaged Middle Schoolers.

Brandon Aundre Valentine, Field of Specialization: Psychology. Dissertation: ‘Daring to Be Ourselves’: Explorations of Authenticity, Compassion, and Discrimination for Lesbian, Gay, Bisexual, and Queer People of Color.

Caren Weinhouse, Field of Specialization: Environmental Health Sciences. Dissertation: Putative Early Life Epigenetic Biomarkers of Hepatocellular Carcinoma in Mice Perinatally Exposed to Bisphenol A.

Jordan James Wright, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Rescued Secretion of Misfolded Mutant Prolactin.

Terri Denise Wright, Field of Specialization: Health Behavior and Health Education. Dissertation: School-Based Health Care and Adolescent Sexual-Risk Behaviors.

Xi Xia, Field of Specialization: Biostatistics. Dissertation: Robust and Efficient Methods for Bayesian Finite Population Inference.

Yehua Xie, Field of Specialization: Pharmaceutical Sciences. Dissertation: Role and Relevance of PEPT1 in Intestinal Absorption and Pharmacokinetics of 5-Aminolevulinic Acid.
Doctor of Philosophy

Jia Xu, Field of Specialization: Physics. Dissertation: Searching For Neutral Kaon Rare Decay $K_L \rightarrow \pi^0\nu\bar{\nu}$.

Artem Yankov, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Analysis of Reactor Simulations Using Surrogate Models.

Weiye Yao, Field of Specialization: Atmospheric, Oceanic and Space Sciences and Scientific Computing. Dissertation: An Assessment of the Quasi-Biennial Oscillation (QBO) and Sudden Stratospheric Warmings (SSWs) with Idealized General Circulation Models.

Thomas Man'Ning Yeh, Field of Specialization: Chemical Engineering. Dissertation: Hydrothermal Catalytic Deoxygenation of Fatty Acids and Upgrading Algae Biocrude.

Ping Yu, Field of Specialization: Communication. Dissertation: When the Personal Becomes the Political: Examining Political Engagement on Social Media.

Zhanpeng Zhang, Field of Specialization: Biomedical Engineering. Dissertation: Advanced Microspheres as Injectable Cell Carriers for Tissue Engineering.

Certificate of Graduate Studies

**Complex Systems**
- Hassan Bukhari
- George Cowan Carter
- Dana K. Jackman

**Computational Discovery and Engineering**
- Khalid Ahmed
- Chuanfei Dong
- Suyash Tandon
- Adam M. Vaughan
- Hongyu Wang
- Zhaorong Wang

**Industrial Ecology**
- Luis Humberto Cecco Vazquez de Mercado

**Museum Studies**
- Abigail Eugenia Celis
- Molly Lee Sarvis Malcolm
- Nicholas William Malzahn

**Real Estate Development**
- Joshua Stephen Bails
- Fan Fan
- Seul Lee
- Clarke Graham Lewis
- Robin Y. Liu
- Gregg T. May

**Survey Methodology**
- Sarah Banas Mills
- Abram Wagner

Master of Science

**Applied and Interdisciplinary Mathematics**
- Joseph Joaquin Borja
- Bryan Louis Nevarez
- Luojiao Shen
- Ismael Juan Xique

**Chemical Biology**
- Marwa Ayyash
- Benjamin Donald Bouchard
- Katarina Lorraine Fabre
- Erin Margaret Gray
- Vikram Kapila
- Joseph Gregory Lundgren
- Resiola Neli

**Survey Methodology**
- Saram Han
- Brian Thomas Hunscher
- Colleen Ann McClain
- Ji Qi
- Michael Sadowsky
- Zhe Wang

Dear Graduate:

On behalf of the Alumni Association of the University of Michigan, congratulations on your momentous achievement.

You may be leaving the University of Michigan, but the ties that bind alumni—across the miles and the years—are strong and enduring. Whether you are on the other side of the country or the other side of the world, you are part of something greater than yourself. You are now part of a community of more than 550,000+ Michigan alumni in 180 countries across the globe.

The Alumni Association is your connection to U-M. As a graduation gift, we give you a complimentary one-year membership to help you maintain the bonds you’ve created over the course of your time on campus. Use it to remind yourself of the place that you hail from, the place that has shaped you into the person you are today. Visit umalumni.com to keep the spirit of U-M close and connect to the powerful global network of U-M alumni.

So as you toss your mortarboard and venture out into the world, celebrate all that you have achieved and remember that you are never far from the University of Michigan.

Again, our congratulations and very best wishes for your future.

Sincerely,

Janey Lack, ’62
Chair of the Board of Directors
Alumni Association of the University of Michigan

Steve Grafton
President and CEO
Alumni Association of the University of Michigan

For those who leave Michigan, but for whom Michigan never leaves, this is where you belong.
Statement on Freedom of Speech and Artistic Expression

Thank you for attending this program. The University of Michigan strives to create a truly open forum, one in which diverse opinions can be expressed and heard. It is the right of members of the University community, speakers, artists, and other invited guests to express their views and opinions at the University. We will protect the right of individuals to speak or perform, and the rights of those members of the University community who wish to hear and communicate with an invited speaker or artist.

Protesters also have a right to express their opposition to a speaker in appropriate ways, both within the confines of this building and outside the facility. However, protesters must not interfere unduly with communication between a speaker or artist and members of the audience.

If the hosts of this event or University representatives believe that protesters are interfering unduly with a speaker or performer’s freedom of expression, those protesters will be warned. If the warnings are not heeded and the interference continues, the individuals responsible may be removed from the building.

We reaffirm these policies in order to most fully protect the rights of free expression for speakers, performers, and protesters alike, as set forth by our Civil Liberties Board in our Student Handbook, and in accordance with the U-M Standard Practice Guide; Regents’ Ordinance Article XII, Section 1; and state statutes.

Nondiscrimination Policy Statement

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of Michigan is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be addressed to the Senior Director for Institutional Equity, and Title IX/Section 504/ADA Coordinator, Office for Institutional Equity, 2072 Administrative Services Building, Ann Arbor, Michigan 48109-1432, 734-763-0235, TTY 734-647-1388, institutional.equity@umich.edu.

For other University of Michigan information call 734-764-1817.

Comments? Contact us at spring commencement@umich.edu

Entry to the field is for commencement staff only. At the end of the ceremony, graduates and then families will be directed to exit up the aisles and to the north and south ends of the stadium. Graduates and families are asked to meet at the north or south end of the stadium after exiting the stands.

This book is printed with vegetable-based ink on paper stock that is certified to the environmental and social standards of the Forest Stewardship Council® (FSC®).
The Yellow and Blue

Sing to the colors that float in the light;
   Hurrah for the Yellow and Blue!
Yellow the stars as they ride through the night
   And reel in a rollicking crew;
Yellow the field where ripens the grain
   And yellow the moon on the harvest wain;
Hail!
Hail to the colors that float in the light
   Hurrah for the Yellow and Blue!

The Victors

Hail to the victors valiant
   Hail to the conqu'ring heroes
Hail! Hail to Michigan
   the leaders and best
Hail! to the victors valiant
   Hail! to the conqu'ring heroes
Hail! Hail! to Michigan,
   the champions of the West
