Winter Commencement

University of Michigan

December 14, 2014

Crisler Center
This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies ................................ 21
College of Literature, Science, and the Arts. .................................... 30
Medical School ............................................................................ 35
Law School .................................................................................. 35
School of Dentistry ....................................................................... 36
College of Pharmacy ..................................................................... 36
College of Engineering ............................................................... 37
A. Alfred Taubman College of Architecture and Urban Planning .......... 42
School of Education ..................................................................... 42
Stephen M. Ross School of Business ............................................ 43
School of Natural Resources and Environment ......................... 44
School of Music, Theatre & Dance ............................................. 44
School of Nursing ......................................................................... 45
School of Public Health ............................................................... 46
School of Social Work ................................................................. 47
University of Michigan-Flint ....................................................... 48
University of Michigan-Dearborn ................................................. 54
School of Information ................................................................. 61
Penny W. Stamps School of Art & Design ...................................... 61
School of Kinesiology ................................................................. 61
Gerald R. Ford School of Public Policy .......................................... 62

A list of August 2014 degree candidates begins on page 63.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

ORDER OF EXERCISES

*Processional

*The National Anthem

Welcome and Introductions

Remarks on Behalf of the Students

Musical Selections

Statement to the Class of 2014

Conferring of Honorary Degrees

Commencement Address

Presentation and Hooding of Doctoral Candidates in the Horace H. Rackham School of Graduate Studies
Baccalaureate, Master’s, and Other Degrees in Course

The order of presentation of the schools and colleges is by the year of founding:

Andrew D. Martin, Dean, College of Literature, Science, and the Arts
James O. Woolliscroft, Dean, Medical School
(represented by Associate Dean Rajesh Mangrulkar)
Mark D. West, Dean, Law School
(not represented)
Laurie K. McCauley, Dean, School of Dentistry
James T. Dalton, Dean, College of Pharmacy
David C. Munson, Robert J. Vlasic Dean of Engineering, College of Engineering
Monica Ponce de Leon, Dean, A. Alfred Taubman College of Architecture and Urban Planning
(represented by Associate Dean Milton Curry)
Deborah Loewenberg Ball, Dean, School of Education
Alison Davis-Blake, Edward J. Frey Dean of Business, Stephen M. Ross School of Business
(represented by Associate Dean Lynn Wooten)
Marie Lynn Miranda, Samuel A. Graham Dean, School of Natural Resources and Environment
Christopher Kendall, Dean, School of Music, Theatre & Dance
Kathleen Potempa, Dean, School of Nursing
(represented by Associate Dean Janean Holden)
Martin Philbert, Dean, School of Public Health
(represented by Associate Dean Jane Banaszak-Holl)
Laura Lein, Dean, School of Social Work

Jeffrey MacKie-Mason, Dean, School of Information
(represented by Senior Associate Dean Thomas A. Finholt)
Gunalan Nadarajan, Dean, Penny W. Stamps School of Art & Design
(represented by Associate Dean Elona Van Gent)
Ronald F. Zernicke, Dean, School of Kinesiology
Susan M. Collins, Joan and Sanford Weill Dean of Public Policy, Gerald R. Ford School of Public Policy

Recognition of Graduates

Congratulations

Mark S. Schlissel
Chair of the Board of Directors, Alumni Association

Closing

Martha E. Pollack

*The Alma Mater

The Yellow and Blue
Composed by Michael W. Balfe
The University of Michigan Commencement Band and the Audience
(see words on back cover)

*The Victors

Composed by Louis Elbel
The University of Michigan Commencement Band and the Audience
(see words on back cover)

*Recessional

Proud Heritage
Composed by William Latham
The University of Michigan Commencement Band

*Those who are able are asked to stand for the portions of the program asterisked (*). At the conclusion of the program, the audience will please remain standing until the platform party has left the arena. This program will last approximately two hours.
REGENTS OF THE UNIVERSITY

Mark J. Bernstein Ann Arbor
Julia Donovan Darlow Ann Arbor
Laurence B. Deitch Bloomfield Hills
Shauna Ryder Diggs Grosse Pointe
Denise Ilitch Bingham Farms
Andrea Fischer Newman Ann Arbor
Andrew C. Richner Grosse Pointe Park
Katherine E. White Ann Arbor
Mark S. Schlissel ex officio

EXECUTIVE OFFICERS

Mark S. Schlissel President
Martha E. Pollack Provost and Executive Vice President for Academic Affairs
Sally J. Churchill Vice President and Secretary of the University
E. Royster Harper Vice President for Student Life
S. Jack Hu Interim Vice President for Research
Michael M.E. Johns Interim Executive Vice President for Medical Affairs
Timothy G. Lynch Vice President and General Counsel
Jerry A. May Vice President for Development
Lisa M. Rudgers Vice President for Global Communications and Strategic Initiatives
Douglas L. Strong Interim Executive Vice President and Chief Financial Officer
Cynthia H. Wilbanks Vice President for Government Relations
Susan E. Borrego Chancellor
University of Michigan-Flint
Daniel Little Chancellor
University of Michigan-Dearborn
Deans

Deborah Loewenberg Ball  Dean, School of Education
Susan M. Collins  Joan and Sanford Weill Dean of Public Policy, Gerald R. Ford School of Public Policy
James T. Dalton  Dean, College of Pharmacy
Alison Davis-Blake  Edward J. Frey Dean of Business, Stephen M. Ross School of Business
James L. Hilton  University Librarian and Dean of University Libraries
Christopher Kendall  Dean, School of Music, Theatre & Dance
Laura Lein  Dean, School of Social Work
Jeffrey MacKie-Mason  Dean, School of Information
Andrew D. Martin  Dean, College of Literature, Science, and the Arts
Laurie K. McCauley  Dean, School of Dentistry
Marie Lynn Miranda  Samuel A. Graham Dean, School of Natural Resources and Environment
David C. Munson  Robert J. Vlasic Dean of Engineering, College of Engineering
Gunalan Nadarajan  Dean, Penny W. Stamps School of Art & Design
Martin Philbert  Dean, School of Public Health
Monica Ponce de Leon  Dean, A. Alfred Taubman College of Architecture and Urban Planning
Kathleen Potempa  Dean, School of Nursing
Janet A. Weiss  Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs–Graduate Studies
Mark D. West  Dean, Law School
James O. Woolliscroft  Dean, Medical School
Ronald F. Zernicke  Dean, School of Kinesiology
**Marshals of the University**

**Mika LaVaque-Manty**  
Arthur F. Thurnau Professor  
Associate Professor of Political Science and Philosophy  
College of Literature, Science, and the Arts  
Chief Marshal

**Valeria Bertacco**  
Professor of Electrical Engineering and Computer Science  
College of Engineering  
Assistant Chief Marshal

**Robert M. Ortega**  
Associate Professor of Social Work  
School of Social Work  
Assistant Chief Marshal

**Leigh A. Woods**  
Professor of Theatre and Drama  
School of Music, Theatre & Dance  
Assistant Chief Marshal

**Honorary Degree Hooders**

**Scott E. Masten**  
Professor of Business Economics and Public Policy  
Stephen M. Ross School of Business  
Chair, Senate Advisory Committee on University Affairs

**Sally Oey**  
Professor of Astronomy  
College of Literature, Science, and the Arts  
Vice Chair, Senate Advisory Committee on University Affairs
Dissertation Chairs

Doctoral dissertation research is conducted in consultation with a committee of faculty members selected by the candidate. The dissertation chair leads the committee and works closely with the student to guide the research. This collaboration is a fundamental relationship in the formation of scholars, and so it is fitting that dissertation chairs of the doctoral graduates be asked to attend the ceremony and hood their students.

The Honorable Susanne Baer, Federal Constitutional Court of Germany justice and professor of public law and gender studies at Humboldt University of Berlin, is a highly respected scholar, teacher, and jurist. She chairs public law and gender studies at Humboldt and co-founded the university’s Center for Transdisciplinary Gender Studies. The Berlin resident was born in Saarbrücken, Germany, studied law and political science at the Free University of Berlin from 1983 to 1987, and clerked in law offices, courts, and a civil rights organization before passing the bar exam in Berlin in 1991. She earned a master of laws degree (1993) from the University of Michigan and has taught comparative constitutional law in many places, including Linz, Austria; Budapest, Hungary; and Toronto, Canada. She also has been a regular and engaged visitor to the U-M Law School. A Humboldt University faculty member since 2002, Justice Baer directs Humboldt’s Law and Society Institute and has served as vice president for academic and international affairs and as the law faculty’s dean of academic affairs. She co-directs the Law in Context project at the Institute for Advanced Study in Berlin. Justice Baer works at the forefront of gender equality scholarship and law against all forms of discrimination internationally, advancing feminist legal theory with her teaching and prodigious writing. Publishing in English and German, she has proposed allowing women’s groups to file suit against degrading pornographic subordination of women and men, and she has championed sexual harassment protection in the workplace. The casebook Comparative Constitutionalism (second edition, 2011), which she coauthored with colleagues from France, Hungary, Italy, and the United States, is one of two top casebooks in the field. She also wrote Rechtssoziologie (second edition, 2014), a pathbreaking textbook on interdisciplinary and critical legal studies. A popular and respected teacher, she brings an international perspective, personal warmth, and a sharp, analytical mind to the classroom. The German parliament elected Justice Baer to a 12-year term on the Federal Constitutional Court, the country’s highest, in 2011. She is one of five women on the 16-member court and the court’s first openly gay member. The Federal Constitutional Court rules on questions of constitutional law. The court hears all cases brought to it by individuals who believe their rights have been violated under the German constitution. Germany’s federal government, states, members of parliament, and political parties also may bring cases before the court, which handles several thousand cases each year. Many have substantial political impact. A dedicated Michigan alumnus, Justice Baer maintains close ties to the University and inspires students, faculty, and fellow alumni in the United States and Europe. She also has created opportunities for U-M Law School graduates to clerk at the Federal Constitutional Court of Germany.

Justice Baer, as an internationally renowned scholar of comparative constitutional law and gender studies, feminist thought leader, academic administrator, public servant, and University alumnus, you exemplify Michigan’s unequivocal commitment to international and interdisciplinary scholarship and to social justice and the common good. You are a role model for students, other scholars, and all those who aspire to make the world a better, fairer place. In recognition of your myriad contributions, the University of Michigan is proud to present to you the honorary degree, Doctor of Laws.
Honorary Degree Recipient

Charles F. Bolden Jr.

Major General Charles F. Bolden Jr., U.S. Marine Corps (retired), the 12th administrator of the National Aeronautics and Space Administration (NASA), and first African American to serve in that role, has excelled at the forefront of America’s space program for more than three decades. A veteran of four spaceflights, he logged over 680 hours in space between 1986 and 1994. He commanded two missions, including the first U.S. space shuttle with a Russian cosmonaut as a crew member, and piloted the space shuttle Discovery, which deployed the Hubble Space Telescope in 1990. A resident of Alexandria, Virginia, Major General Bolden was born in Columbia, South Carolina. As a youth, he was enthralled by the adventures of fiction hero Buck Rogers and inspired by Dr. Martin Luther King, Jr., and other civil rights leaders. After earning a B.S. degree (1968) in electrical science from the U.S. Naval Academy, he was commissioned a second lieutenant in the Marine Corps. He flew more than 100 combat missions in Southeast Asia in 1972 and 1973. Upon returning to the United States, he earned an M.S. degree (1977) in systems management at the University of Southern California, trained at the Naval Test Pilot School, and was a pilot at the Naval Air Test Center's Systems Engineering and Strike Aircraft Test Directorates prior to becoming an astronaut in 1980. Among his many roles at NASA, Major General Bolden served as technical assistant to the director of Flight Crew Operations, chief of the Safety Division at the Johnson Space Center, lead astronaut for vehicle test and checkout at the Kennedy Space Center, and assistant deputy administrator. In 1994, he returned to active duty with the Marine Corps, where he served as deputy commandant of midshipmen at the Naval Academy, commanding general of the 1st Marine Expeditionary Force Forward, deputy commander of U.S. Forces in Japan, and commanding general of 3rd Marine Aircraft Wing at the Marine Corps Air Station Miramar in California. Major General Bolden retired from the Marine Corps in 2003, having served 34 years. He received the Defense Superior Service Medal and the Distinguished Flying Cross, among other honors, and was inducted into the U.S. Astronaut Hall of Fame in 2006. He was chief executive officer of the consulting firm JackandPanther LLC prior to being appointed NASA administrator in 2009. Under his leadership, NASA has landed a Mars rover, launched a spacecraft to Jupiter, and enhanced Earth-observing satellites. NASA also is progressing toward manufacturing a new generation of U.S.-made vehicles to travel to the International Space Station by 2017 and is slated to launch the James Webb Space Telescope in 2018. Major General Bolden courageously speaks about disparities in education, health, income, and employment and, in 2003, was among those who supported U-M in the Grutter v. Bollinger and Gratz v. Bollinger affirmative action lawsuits before the U.S. Supreme Court.

Major General Bolden, you have been an exemplar of leadership and courage throughout your illustrious career as a public servant. You also are admired and respected for your unwavering support of diversity, social justice, and programs that encourage students to study science, technology, engineering, and mathematics. In recognition of your significant contributions to national defense, science, and space exploration, and the stellar example of achievement you provide for others, the University of Michigan is proud to present to you the honorary degree, Doctor of Science.
Ralph J. Cicerone, president of the National Academy of Sciences (NAS) and one of the world’s foremost atmospheric scientists, has made fundamental contributions to the understanding of greenhouse gases and ozone depletion in the Earth’s stratosphere. He often testifies before Congress and advises U.S. presidential administrations on scientific issues, answering complex questions with aplomb and skill. Dr. Cicerone was born in New Castle, Pennsylvania, and earned a B.S. degree (1965) in electrical engineering from the Massachusetts Institute of Technology and an M.S. degree (1967) and a Ph.D. (1970) in electrical engineering (minor in physics), both from the University of Illinois, Champaign-Urbana. A U-M researcher in electrical engineering from 1970 to 1978, he and colleague Richard Stolarski identified chlorine’s impact on the Earth’s ozone layer in 1973, a research milestone cited in the 1995 Nobel Prize in chemistry awarded to F. Sherwood Rowland and Mario Molina. Dr. Cicerone has contributed to scientists’ understanding of the role of trace gases and sources of atmospheric methane, nitrous oxide, and methyl halide gases in climate change. He served as a research chemist at the Scripps Institution of Oceanography at the University of California, San Diego from 1978 to 1980 and as a senior scientist and director of the Atmospheric Chemistry Division at the National Center for Atmospheric Research in Boulder, Colorado from 1980 to 1989, before being appointed the Daniel G. Aldrich Professor at the University of California, Irvine. He founded the university’s Department of Earth System Science, which he chaired from 1989 to 1994. The department’s researchers have earned high rankings through their analyses of atmospheric, oceanic, terrestrial, and climate issues while involving hundreds of graduate and undergraduate students in the research. Dr. Cicerone served as dean of Irvine’s School of Physical Sciences from 1994 to 1998 and as chancellor from 1998 to 2005. He led the 2001 NAS climate study confirming the role of human activities in global warming and was elected NAS president and chair of the National Research Council in 2005. The NAS has provided independent, objective advice to the nation on scientific matters and technology since 1863. Dr. Cicerone also is a member of the American Academy of Arts and Sciences and American Philosophical Society as well as the Accademia Nazionale dei Lincei, the Russian Academy of Sciences, the Korean Academy of Science and Technology, and the Royal Society, among others. He is a trustee of the Carnegie Corporation of New York and past-president of the American Geophysical Union (AGU). Among many honors, he has received the AGU’s James B. Macelwane Award and Roger Revelle Medal, the Franklin Institute Bower Award and Prize for Achievement in Science, the World Cultural Council Albert Einstein World Award in Science, and the United Nations Environment Program Ozone Award. U-M established the Ralph J. Cicerone Distinguished University Professorship of Atmospheric Science in his honor in 2007.

Dr. Cicerone, in a long and distinguished career as a scientist and academic leader you have made pioneering contributions to our understanding of climate change and to science and environmental policy. A visionary and consensus builder, you work with scientists and policymakers to meld scientific discovery and sound public policy, all while asking and answering challenging and at times contentious research questions with great integrity and courage. The University of Michigan is proud to present to you the honorary degree, Doctor of Science.
Hamilton O. Smith

Honorary Degree Recipient

Hamilton O. Smith, distinguished professor at the J. Craig Venter Institute, adjunct professor of medicine at the University of California, San Diego School of Medicine, and winner of the 1978 Nobel Prize in Medicine, has worked on the cutting-edge of modern biology for more than half a century. He, along with Werner Arber and Daniel Nathans, received the Nobel Prize for discovering restriction enzymes and their application to problems of molecular genetics. Restriction enzymes, which act like molecular scissors to cut deoxyribonucleic acid (DNA), have enabled researchers to elucidate the structure and coding of DNA molecules, construct genetic maps of organisms, and pursue treatments for genetic illnesses. Born in New York City, Dr. Smith received an A.B. degree (1952) in mathematics at the University of California, Berkeley and M.D. (1956) from Johns Hopkins University. He interned at Barnes Jewish Hospital in St. Louis, Missouri, served two years in the Navy, and completed his medical residency at Henry Ford Hospital in Detroit. In 1962, with National Institutes of Health support, he began his research career as a postdoctoral fellow in U-M’s Department of Human Genetics, working with the late Professor Myron Levine on a series of studies demonstrating the sequential action of P22 C-genes, which controlled lysogenization, the process by which a bacterium acquires a phage that becomes integrated into its genome. In 1965, they discovered the gene controlling prophage attachment, now known as the int gene. Dr. Smith joined the Hopkins faculty in 1967, where he discovered the first type II restriction enzyme and determined its cleavage site. In 1975 and 1976, he collaborated with Max Birnstiel at the University of Zurich in Switzerland on histone gene arrangement and sequence. In 1995, Dr. Smith collaborated with the Institute for Genomic Research team that sequenced the first genome of a self-replicating, free-living organism—the Haemophilus influenzae bacterium. The team demonstrated that random “shotgun” sequencing, using computational software to assemble short overlapping DNA fragments, could be applied to whole genomes. The method has been used to sequence the genomes of many other organisms. Dr. Smith joined Celera Genomics Corporation in 1998, where he participated in sequencing of the fruit fly and human genomes. He left Celera in 2002 to become part of the J. Craig Venter Institute. As the institute’s scientific director of synthetic biology and bioenergy, Dr. Smith works with his team of scientists to design, build, and test synthetic bacterial genomes. In 2010, the institute announced it had created the first bacterial cell running entirely from a chemically synthesized genome. Among other accolades, Dr. Smith has received a Guggenheim Fellowship and was inducted into U-M’s Medical Center Alumni Society Hall of Honor in 2006.

Dr. Smith, as an internationally acclaimed microbiologist, you sparked and have helped shape the fields of genomics and molecular genetics with your brilliant research, from discovering restriction enzymes and developing more efficient genomic sequencing methods to creating the first synthetic cell. Your scientific insights inspire young people, fellow scientists, and the public while offering hope to families suffering from genetic diseases and to all who look forward to a world powered by clean, abundant biofuel. The University of Michigan is proud to present to you the honorary degree, Doctor of Science.
The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

- College of Literature, Science, and the Arts
  - Carissa F. Flocken
- Medical School
  - Danielle Dougherty
- Law School
  - Joseph Molina Flynn
- School of Dentistry
  - not represented
- College of Pharmacy
  - Meghan Elizabeth Breen
- College of Engineering
  - Natalie Suzanne Eyke
- Horace H. Rackham School of Graduate Studies
  - M. Taylor Haynes II
- A. Alfred Taubman College of Architecture and Urban Planning
  - Tolulope Olorode
- School of Education
  - Stefan Michael Turcic II
- Stephen M. Ross School of Business
  - Jiani Xiong

  - Sean Wahl

The University Mace

The University’s mace, a symbol of authority, is carried at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.
**ACADEMIC COLORS**

The colors of the various disciplines are as follows:

<table>
<thead>
<tr>
<th>Discipline</th>
<th>Color</th>
</tr>
</thead>
<tbody>
<tr>
<td>Architecture and Urban Planning</td>
<td>blue violet</td>
</tr>
<tr>
<td>Business Administration</td>
<td>drab</td>
</tr>
<tr>
<td>Dentistry</td>
<td>lilac</td>
</tr>
<tr>
<td>Education</td>
<td>light blue</td>
</tr>
<tr>
<td>Engineering</td>
<td>orange</td>
</tr>
<tr>
<td>Fine Arts</td>
<td>brown</td>
</tr>
<tr>
<td>Information</td>
<td>lemon</td>
</tr>
<tr>
<td>Kinesiology</td>
<td>sage green</td>
</tr>
<tr>
<td>Law</td>
<td>purple</td>
</tr>
<tr>
<td>Literature and Arts</td>
<td>white</td>
</tr>
<tr>
<td>Medicine</td>
<td>green</td>
</tr>
<tr>
<td>Music</td>
<td>pink</td>
</tr>
<tr>
<td>Natural Resources and Environment</td>
<td>russet</td>
</tr>
<tr>
<td>Nursing</td>

</table>

Mingled colors distinguish combined curriculums.

**ACADEMIC DRESS AND CUSTOM**

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

**Gowns**

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

**Hoods**

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor’s, master’s, and doctor’s hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor’s hood and the widest for the doctor’s hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

**Caps**

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.
# Schools and Colleges of the University

The order of presentation is by the year of founding.

## College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the university's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

## Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

## Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

## School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

## College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.
COLLEGE OF ENGINEERING

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people’s lives around the world.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the university as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

A. ALFRED TAUBMAN COLLEGE OF ARCHITECTURE AND URBAN PLANNING

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

SCHOOL OF EDUCATION

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the “science and art of teaching.” The school prepares students for professional careers in teaching and administration and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master’s degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

STEPHEN M. ROSS SCHOOL OF BUSINESS

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor’s, master’s, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new Ross School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

SCHOOL OF NATURAL RESOURCES AND ENVIRONMENT

The School of Natural Resources and Environment’s overarching objective is to contribute to the protection of the Earth’s resources and the achievement of a sustainable society. Through research, teaching, and outreach, faculty, staff, and students are devoted to generating new knowledge and developing policies, techniques, and skills to help practitioners manage and conserve natural resources to meet the full range of human needs on a sustainable basis. The school jointly administers the undergraduate Program in the Environment, and it offers master’s and doctoral programs in ecological, social, and design sciences.
School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor’s, master’s, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

School of Nursing

The School of Nursing has held an unsurpassed reputation for excellence for more than 100 years. It has been a national leader in the advancement of nursing knowledge and the promotion of new trends in health care. The school’s baccalaureate programs include a four-year B.S.N. program, a second career nursing program, and an R.N.-B.S.N. completion program. At the master’s level, the School of Nursing, through the Horace H. Rackham School of Graduate Studies, offers advanced study in clinical specialist, nurse practitioner, and management roles. The school’s prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

The history of the School of Public Health dates back to 1881, when the first course in sanitary science was taught in the College of Literature, Science, and the Arts. Established in 1941, the school has awarded master of public health, master of science, master of health services administration, and doctor of public health degrees to more than 13,000 students. Doctor of philosophy programs were established in 1947 and now include concentrations in biostatistics, environmental health sciences, epidemiology, health behavior and health education, and health management and policy. Key areas of research include vaccine development, air and water quality, reproductive and women’s health, and health care costs, quality, and access.

School of Social Work

The program in social work began in 1921 and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master’s level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate, and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.
The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, “The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country.” The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master’s and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

**Candidates for Degrees and Certificates**

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. A candidate is listed alphabetically by degree, and in some cases also by field of specialization, under the school or college which awards the degree. In the commencement ceremony, candidates are presented in the order of which their respective schools or colleges were founded.

The Executive Board of the Horace H. Rackham School of Graduate Studies awards doctoral, master’s, and some graduate professional degrees (e.g., master of public policy, master of urban planning), although most graduate professional degrees, such as doctor of medicine, master of social work, etc., are awarded by the respective schools or colleges. The Graduate School does not offer course work, and advanced studies are conducted within the school or college of a candidate’s area of specialization.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.
Doctor of Philosophy

Amy E. Baek, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Transcriptional and Translational Regulation of the Ectoenzyme CD39 and its Role in In Vivo Thromboregulation.

Jonggyu Baek, Field of Specialization: Biostatistics. Dissertation: Statistical Models to Assess Associations between the Built Environment and Health: Examining Food Environment Contributions to the Childhood Obesity Epidemic.

Christopher A. Barnes, Field of Specialization: English Language and Literature. Dissertation: Reading Methodist Characters the Figure and Politics of Popular Evangelicalism in American Fiction, 1790–1860.

Paul Bierdz, Field of Specialization: Physics. Dissertation: Measuring the Orbital Angular Momentum of Light with Time Mapping and Using it to Probe Higher Dimensional States.

Sasha Brodsky, Field of Specialization: Business Administration. Dissertation: Two Essays on Medicaid Dental Care Coverage.

Ariel Ray Brumbaugh, Field of Specialization: Microbiology and Immunology. Dissertation: The Yersiniabactin System is a Uropathogenic Escherichia coli Virulence Factor and Novel Vaccine Target to Prevent Urinary Tract Infection.

Kelsey King Carter, Field of Specialization: Chemistry. Dissertation: Streamlined Gelator Discovery through the Analysis of Intermolecular Interactions in the Solid State.
Doctor of Philosophy

W Graham Claytor VI, Field of Specialization: Greek and Roman History. Dissertation: Mechanics of Empire: the Karanis Register and the Writing Offices of Roman Egypt.

Conor Harreld Doss, Field of Specialization: Chemical Biology. Dissertation: Dissecting the Roles of the Transcriptional Coactivator p300 Regulating the Oncogenic Self-Renewal Gene NAMOG.

Doctor of Philosophy

Kanika Alake Harris, Field of Specialization: Health Behavior and Health Education. Dissertation: Who Will Care For Me: HIV-Positive Mothers of Color, Social Support, Family Factors, and Retention in Care.

Angela McClain Heetderks, Field of Specialization: English Language and Literature. Dissertation: Witty Fools and Foolish Wits: Performing Cognitive Disability in English Literature, c. 1380–c. 1602

Jenna Marie Hendershot, Field of Specialization: Biological Chemistry. Dissertation: Mechanism of Nucleotide Flipping by Human Alkyladenine DNA Glycosylase.

Lucy Ho, Field of Specialization: Psychology. Dissertation: Factors Contributing to Behavioral Variation in Two Species of *Alouatta* and Their Hybrids.

Elizabeth Carol Homan, Field of Specialization: English and Education. Dissertation: Digital Pedagogies and Teacher Networks: How Teachers' Professional Learning and Interpersonal Relationships Shape Classroom Digital Practices.

Ming-Chi Hsu, Field of Specialization: Statistics. Dissertation: Contributions to Effect Size Analysis with Large Scale Data.

Stephanie Huang, Field of Specialization: Biomedical Engineering. Dissertation: Continuous Proportional Myoelectric Control of an Experimental Powered Lower Limb Prosthesis During Walking Using Residual Muscles.

Shan Kang, Field of Specialization: Biostatistics. Dissertation: Treatment Effect Estimation for Randomized Clinical Trials Subject to Noncompliance and Missing Outcomes.

Doctor of Philosophy

Byung Chul Kim, Field of Specialization: Chemical Biology. Dissertation: Probing the Determinants of the Molecular Recognition in Metal-Dependent Deacetylase.

Lisa Langdon Koch, Field of Specialization: Political Science. Dissertation: Explaining the Path and Pace of Nuclear Weapons Programs.

Jamie E. Lane, Field of Specialization: Cellular and Molecular Biology. Dissertation: Transforming Growth Factor-β3 Signaling during Palatogenesis.

Christopher Courtney Lawrence, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Neutron Spectrum Unfolding with Organic Scintillators for Arms-control Verification.

Bo Li, Field of Specialization: Bioinformatics. Dissertation: Development and Application of Novel Methods to Study Tumor Heterogeneity and Cancer Genome Evolution.

Yanning Li, Field of Specialization: Biostatistics. Dissertation: High-Dimensional Variable Selection for Multivariate and Survival Data with Applications to Brain Imaging and Genetic Association Studies.

Zhichao Liu, Field of Specialization: Civil Engineering. Dissertation: Frost Deterioration in Concrete Due to Deicing Salt Exposure: Mechanism, Mitigation and Conceptual Surface Scaling Model.

Clement Ma, Field of Specialization: Biostatistics. Dissertation: Statistical Methods for Low-frequency and Rare Genetic Variants.
Doctor of Philosophy

Katherine Boulden Martineau, Field of Specialization: Anthropology. Dissertation: Marginal Freedoms: Journalism, Participation and Moral Multiplicity in Odisha, India.

Mary Katherine McCarthy, Field of Specialization: Microbiology and Immunology. Dissertation: Host Inflammatory Responses to Adenovirus Respiratory Infection.

Steven Erik Morris, Field of Specialization: Chemical Engineering. Dissertation: Interface Engineering in SubPc/C60 based Organic Photovoltaics.

Christoph Karl Elmar Nolte, Field of Specialization: Natural Resources and Environment. Dissertation: Governance, Management, and Conservation Success of Protected Areas in Brazil and Colombia.
Doctor of Philosophy

Christopher R. Oliver, Field of Specialization: Mechanical Engineering. Dissertation: High Throughput Photopatterning and Interactive Manipulation of Microparticles and Microorganisms.

Kristopher Josef Swanka Purens, Field of Specialization: Geology. Dissertation: Comatulid Crinoids in the Fossil Record: Methods and Results for the Extremely Imperfect.

Penny Lynn Riley, Field of Specialization: Nursing. Dissertation: Spatial Memory Performance in Chronic Heart Failure.

Janice Sindac, Field of Specialization: Medicinal Chemistry. Dissertation: Development of Small Molecule Replication Inhibitors Against Western Equine Encephalitis Virus.

Benjamin Philip Sinder, Field of Specialization: Biomedical Engineering. Dissertation: Sclerostin Antibody as a Treatment for Osteogenensis Imperfecta.

Frederick William Stull, Field of Specialization: Chemical Biology. Dissertation: Substrate Recognition and Activation by Two Flavoenzymes Involved in Pyrimidine Metabolism: Flavin-Dependent Thymidylate Synthase and tRNA-Dihydouridine Synthase.

Elizabeth Anne Tanis, Field of Specialization: Earth and Environmental Sciences. Dissertation: Constraints on the Ability of Cl- and F- Bearing Aqueous Fluid to Dissolve and Transport Trace Elements (Y, Nb, Zr) in Subduction Zone Environments.

Cookie Woolner, Field of Specialization: History and Women’s Studies. Dissertation: “The Famous Lady Lovers:” African American Women and Same-Sex Desire from Reconstruction to World War II.

Kristina Marie Workman, Field of Specialization: Business Administration. Dissertation: Toward a Theory of Sharing and Responding to Good and Bad News at Work.

Cheng Xu, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: In-Situ Proton Irradiation Creep of FM Steel T91.

Yaxuan Yang, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: A T-box Protein Interacting with the TCF Transcriptional Switch of Wnt Signaling in Xenopus Dorsal Axis Development.

Alison Anne Ziegler, Field of Specialization: Psychology and Women’s Studies. Dissertation: Explaining Sexual Fantasy: What Predicts Submissive Fantasies for Women?

School of Dentistry

Founded in 1875, Laurie K. McCauley, Dean

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Juris Doctor
- Carl Dion Seymour
- Asa Frank Smith
- Kathryn Elizabeth Staples
- Emiko Catherine Suzuki
- Cory Szczepanik
- Andrea Marie Taylor
- Shanti Suzanne Tharayil
- Sarah L. Thompson
- Julia Kaplan Toce
- Jennifer Leigh Utrecht
- Breanna Lee Enger Van Engelen
- Mark C. Viera
- Nathaniel Fuller West
- Daniel R. Wojciak
- Jonathan Zane
- Lynn Zheng

Master of Science

Dental Hygiene
- Iwonka Theresa Eagle
- Heather Lynn Messenger

Pediatric Dentistry
- Kristin Kay Auer
- Kara Kimberly Jo Banner

Periodontics
- Nickie Rose Hosseini
- Jonathan Hung
- Hiba Faisal A. Kattan
- Stephanie J. Kloostra

Prosthodontics
- Areej Ibrahim M. Al Hawarini
- Abdulaziz Fahad A. Binrayes

Restorative Dentistry
- Solafah Trabzouni

College of Pharmacy

Founded in 1876, James T. Dalton, Dean

Doctor of Pharmacy
- Matthew N. Lau

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Medicinal Chemistry
- Will P. Kaplan
- Elizabeth Perkins Rowland-Fisher

Pharmaceutical Sciences
- Kanokwan Sansanaphongpricha
**College of Engineering**

Founded in 1895, David C. Munson, Robert J. Vlasic Dean of Engineering

62
The following is a list of candidates granted degrees in August 2014.
Horace H. Rackham School of Graduate Studies

Founded in 1912, Janet A. Weiss, Dean and Vice Provost for Academic Affairs—Graduate Studies

Doctor of Musical Arts

Jean Bernard Cerin, Field of Specialization: Music Performance.

Christine Choi, Field of Specialization: Music Performance.

Nancy J. Deacon, Field of Specialization: Music Performance.

Isaac David Droscha, Field of Specialization: Music Performance.

Jeannette Fang, Field of Specialization: Music Performance.

Sarah Elizabeth Jones-Hayes, Field of Specialization: Music Performance.

Mihyun Kim, Field of Specialization: Music Performance.

Daniel Mikat, Field of Specialization: Music Performance.

Jason Alexander Covert Paige, Field of Specialization: Music Performance.

Britton Lewis Riley, Field of Specialization: Music Performance.

Leann Brouillette Schuering, Field of Specialization: Music Performance.

Betsy Soukup, Field of Specialization: Music Performance.

Doctor of Philosophy

Juliana Marie Abel, Field of Specialization: Mechanical Engineering. Dissertation: Active Knit Actuation Architectures.

Michael Frederick Aldridge, Field of Specialization: Materials Science and Engineering. Dissertation: In Situ Light Scattering Analysis of the Curing Behavior and the Mechanical Properties of Thermoset Polymers.

Heidi Suzanne Alvey, Field of Specialization: Chemistry. Dissertation: Sequence Specificity of Transient Hoogsteen Base-Pairs in Canonical Duplex DNA and Z-DNA Formation.

Hilary Cara Archbold, Field of Specialization: Cellular and Molecular Biology. Dissertation: Understanding the Logic of TCF Target Location in Drosophila Wnt Signaling.

Melissa A. Bathish, Field of Specialization: Nursing. Dissertation: Deliberate Practice In Nursing.

Heather Lauren Beasley, Field of Specialization: Educational Studies. Dissertation: Investigating Opportunities to Develop the Practice of Responding to Students’ Contributions to Mathematical Discourse in Embedded Rehearsal.
Doctor of Philosophy

Elizabeth Anne Becker, Field of Specialization: Health Behavior and Health Education. Dissertation: Methodological Issues in Colorectal Cancer Screening Research: Implications for Researchers, Practitioners and Policymakers.

Sue Anne Bell, Field of Specialization: Nursing. Dissertation: Women’s Mental Health, Reproductive Health, and Agency in Humanitarian Crises.

Anne Shively Berry, Field of Specialization: Neuroscience. Dissertation: Neuroimaging and Genetics Studies of the Role of Right Prefrontal Cortex in Controlled Attention.

Erica Jean Boldenow, Field of Specialization: Toxicology. Dissertation: Group B Streptococcus Infection of the Human Extraplacental Membranes.

Ayanna Sheree Brown, Field of Specialization: History. Dissertation: 'That peace shall always dwell among them and true love be upheld': Charity, the Seven Works of Mercy, and Lay Fellowship in Late Medieval and Early Reformation England.

Tanya S. Byker, Field of Specialization: Economics. Dissertation: Fertility and Women’s Economic Outcomes in the United States, Peru and South Africa.

Doctor of Philosophy

Elizabeth Ann Cameron, Field of Specialization: Microbiology and Immunology. Dissertation: The Structure and Function of the Starch Utilization System in *Bacteroides thetaiotaomicron*.

Jenna Marie Campbell, Field of Specialization: Mechanical Engineering. Dissertation: Transforming Microtubules into Microshuttles for Advanced Immunoassay Applications.

Michael Benjamin Cantor, Field of Specialization: Kinesiology. Dissertation: Sports and Real Estate Development as Tools for Changing Patterns of Regional Economic Activity: Managing the Effects of Teams and Venues on Local Communities.

Wei-qi Shan, Field of Specialization: Mechanical Engineering. Dissertation: Microengineered Biomaterials and Biosystems for Systems Immunology, Cancer Biology, and Stem Cell-based Regenerative Medicine.

Justin Adam Colacino, Field of Specialization: Environmental Health Sciences. Dissertation: Application of Genomic and Epigenomic Methods to Understand Environmental and Dietary Factors in Carcinogenesis.

Diógenes Costa Currais, Field of Specialization: Romance Languages and Literatures: Spanish. Dissertation: Redeeming Realism: Alternate Historicities in Spanish Literature and Film.

Doctor of Philosophy

Sarah Jennings Fick, Field of Specialization: Educational Studies. Dissertation: Middle School Students’ Opportunities for Integration in a Next Generation Science Standards Focused Curricular Unit.

Franklin Fuller, Field of Specialization: Biophysics. Dissertation: Observations of Coherence in Oxygene Photosynthesis.

Shilpa Gadwal, Field of Specialization: Microbiology and Immunology. Dissertation: Sorting Out the Details: The Roles of a Novel GlyGly-CTERM Domain, Rhombosortase, and the Type II Secretion System in Surface Localization of a Vibrio cholerae Serine Protease, VesB.

J. Dmitri Gallow, Field of Specialization: Philosophy. Dissertation: The Emergence of Causation.

David J. Gonthier, Field of Specialization: Natural Resources and Environment. Dissertation: Causes and Consequences of Diversity, Complexity, and Autonomous Ecosystem Services in Coffee Agriculture.

Benjamin Jon Graham, Field of Specialization: History. Dissertation: Profile of a Plant: The Olive in Early Medieval Italy, 400–900 CE.

Doctor of Philosophy

Laura Ellen Gultekin, Field of Specialization: Nursing. Dissertation: In Their Own Words: Exploring Family Pathways to Housing Instability.

Linjie Han, Field of Specialization: Chemistry. Dissertation: Developing Ion Mobility-Mass Spectrometry for Measurements of Solution-Relevant Protein Structures.

Angela Rose Harrivel, Field of Specialization: Biomedical Engineering. Dissertation: Monitoring Attentional State with Functional Near Infrared Spectroscopy.

Jennifer Alva Xyna Hartfield, Field of Specialization: Health Behavior and Health Education. Dissertation: Neighborhood Racial Composition and Hypertension Awareness, Treatment, and Control: An Examination of Direct, Mediating and Moderating Effects of Economic and Social Factors.

Gabriel Aumen Horowitz, Field of Specialization: Romance Languages and Literatures Spanish. Dissertation: Fantasies of Independence and Their Latin American Legacies.

Doctor of Philosophy

**Jiexi Huang**, Field of Specialization: Mechanical Engineering. Dissertation: Controlled Cracking and Shape Recovery in Polymers.

**Rui Huang**, Field of Specialization: Chemistry. Dissertation: Structural Study of Interaction between the FMN Binding Domain of Cytochrome P450 Reductase and Its Redox Partners – Cytochrome P450/Cytochrome c by NMR and NMR Characterization of Monomeric and Oligomeric Conformations of Human Calcitonin and Its Interaction with EGCG.

**Lei Jiang**, Field of Specialization: Physics. Dissertation: Mesoscopic Simulations of the Polymer and Microfluidics.

**Alice Davis Keane**, Field of Specialization: English Language and Literature. Dissertation: “Full of Experiments and Reforms”: Bloomsbury’s Literature and Economics.

**Bo Rin Kim**, Field of Specialization: Health Service Organization and Policy. Dissertation: Health and Living Arrangements among Older Adults in Diverse Social and Cultural Contexts.
Doctor of Philosophy

Laura Lynn Kubik, Field of Specialization: Toxicology. Dissertation: Role of Age in Mitochondrial Susceptibility to 1,3-Dinitrobenzene-Induced Neurotoxicity.

Doctor of Philosophy

Sijun Liu, Field of Specialization: Mathematics. Dissertation: Functional Equations Involving Laurent Polynomials and Meromorphic Functions, with Applications to Dynamics and Diophantine Equations.

Kathryn Diane Luderman, Field of Specialization: Pharmacology. Dissertation: Regulation of the D2-Like Dopamine Autoreceptor by the Dopamine Transporter.

Loren Marie Marulis, Field of Specialization: Education and Psychology. Dissertation: Conceptualizing and Assessing Metacognitive Development in Young Children.

Doctor of Philosophy

Erin Margaret Brontë McNerny, Field of Specialization: Biomedical Engineering. Dissertation: Collagen Cross-linking as a Determinant of Bone Quality: The Importance of Cross-linking to Mechanical Properties as Explored by Cross-link Inhibition and Exercise.

Christopher M. Meade, Field of Specialization: Comparative Literature. Dissertation: Writing American Space: History, Fiction and Territory In Cather, Carpentier, Borges and Delany.

Ryan M. Miller, Field of Specialization: Biomedical Engineering. Dissertation: Histotripsy for Pediatric Cardiac Applications.

Eric Ohrn, Field of Specialization: Economics. Dissertation: Corporate Taxation and Investment.

Xingyu Pan, Field of Specialization: Education and Psychology. Dissertation: Students’ Production and Processing of Mathematical Explanations.
Doctor of Philosophy

Hae-Ryung Park, Field of Specialization: Toxicology. Dissertation: Brominated Diphenyl Ether-47 Activates Reactive Oxygen-Mediated Inflammatory Pathways in Human First Trimester Extravillous Trophoblasts In Vitro.

Aditi Ravindranath, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: How a Novel Zinc Finger Domain Improves Target Gene Selection by TCF in WNT/β-Catenin Signaling.

Laura Lynn Rees, Field of Specialization: Business Administration. Dissertation: The Influence of Perceived Authenticity and Honor on Interpersonal Relations in Organizational Life.
Doctor of Philosophy

Mark T. Reppell, Field of Specialization: Biostatistics. Dissertation: Using Rare Genetic Variation to Understand Human Demography and the Etiology of Complex Traits.

Lei Shao, Field of Specialization: Mechanical Engineering. Dissertation: Active Acoustic Emission From a Two-dimensional Electron Gas.

Melissa Monét Smarr, Field of Specialization: Environmental Health Sciences. Dissertation: Air Pollution and Repeated Ultrasound Measurements of Fetal Growth in Mexico City.

Michael James Smietana, Field of Specialization: Biomedical Engineering. Dissertation: Development and Manufacturing of Scaffold-less Constructs for Tendon/Ligament Repair.

Lauren Marie Soblosky, Field of Specialization: Chemistry. Dissertation: Molecular Interactions between Various Model Cell Membranes and Membrane Active Peptides Studied by Sum Frequency Generation Vibrational Spectroscopy.

Doctor of Philosophy

Mark Robert Taylor, Field of Specialization: Biological Chemistry. Dissertation: The Role of Divalent Metal Ions in Enzymatic DNA Ligation.

Laura Marjorie Thoma, Field of Specialization: Chemistry. Dissertation: Activity and Mode of Action for Methacrylate Polymers as Antimicrobial Agents against Staphylococcus aureus.

Christie Toth, Field of Specialization: English and Education. Dissertation: Locally Responsive Composition Pedagogy: A Tribal College Case Study.

Shama Virani, Field of Specialization: Toxicology. Dissertation: Environmental Carcinogenesis: Characterization of Rising Incidence and Discovery of Novel Biomarkers of Pathogenesis and Prognosis.

Anupam Viswanath, Field of Specialization: Electrical Engineering. Dissertation: Precision and Scalability in Ultrasonic Machining for Microscale Features.

Doctor of Philosophy

Anna Michelle Wagner, Field of Specialization: Chemistry. Dissertation: Controlling Site-Selectivity in Palladium and Platinum-Catalyzed C-H Arylation Reactions and A Novel Method to Prepare Aryl Sulfides from Thioethers.

Elisabeth Walezak, Field of Specialization: Cellular and Molecular Biology. Dissertation: The Role of Wnt Signaling in Adrenocortical Homeostasis.

Lori Robbin Wallace, Field of Specialization: Health Behavior and Health Education. Dissertation: Risk of Trauma Exposure and Posttraumatic Stress Disorder: An Examination of the Separate and Combined Effects of Race, Gender, and Social Context.

Cheng Wang, Field of Specialization: Psychology. Dissertation: Exploring the Neural and Genetic Substrates of Reading Ability.

Noah Ariel Wolfson, Field of Specialization: Biological Chemistry. Dissertation: Determining HDAC8 Substrate Specificity.

Lauren Katherine Wood, Field of Specialization: Biomedical Engineering. Dissertation: Mechanical and Structural Adaptations of Tendon with Aging.

Mary Katherine Wootters, Field of Specialization: Mathematics. Dissertation: Any Errors in this Dissertation are Probably Fixable: Topics in Probability and Error Correcting Codes.

Doctor of Philosophy

Zhengzheng Wu, Field of Specialization: Electrical Engineering. Dissertation:
Microelectromechanical Systems for Wireless Radio Front-ends and Integrated Frequency
References.

Jianping Xiao, Field of Specialization: Atmospheric, Oceanic and Space Sciences and Scientific
Computing. Dissertation: Periodized Radial Basis Functions (RBFs) and RBF-Vortex Method
for the Barotropic Vorticity Equation.

Lindsay Marie Yager, Field of Specialization: Psychology. Dissertation: Individual Variation in
the Extent to Which Drug Cues Acquire Control Over Motivated Behavior.

Shan Yang, Field of Specialization: Chemistry. Dissertation: Determination of Population-
Weighted Dynamic Ensembles of RNA Using NMR Residual Dipolar Couplings.

Si Yang, Field of Specialization: Chemistry. Dissertation: Study of Nitrite Sensors Based on
Co(III)/Rh(III)-Ligand Complexes as Selective Ionophores.

Tiffany Cheng-Shitian Yang, Field of Specialization: Nutritional Sciences. Dissertation:
Peripubertal Weight Status and Growth: Associations with Preterm Birth and Exposures to
Environmental Endocrine-Disrupting Compounds.

Muharrem Soner Yorgun, Field of Specialization: Atmospheric, Oceanic and Space Sciences.
Dissertation: An Object-Based Approach for Quantification of GCM Biases in the Simulation
of Orographic Precipitation.

Bo Yu, Field of Specialization: Mechanical Engineering. Dissertation: Interaction Dynamics in
Oscillator and Human-in-the-loop Systems.

Fangting Yu, Field of Specialization: Chemistry. Dissertation: De novo Designed Metallopeptides
with a Type 2 Copper Center: A Structural and Functional Model for Copper Nitrite
Reductase.

Huai-Te Yu, Field of Specialization: Aerospace Engineering. Dissertation: Unsteady
Aerodynamics of Pitching Flat Plate Wings.

Higgs Boson in $ZH \mu^+\mu^-$ bb Production at DØ and Evidence for the $H bb$ Decay at the
Tevatron.

Marek Zapletal, Field of Specialization: Business Administration. Dissertation: Three Essays on
Regulation and Entrepreneurship.

Colin Zarzycki, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation:
Variable-resolution Frameworks for the Simulation of Tropical Cyclones in Global
Atmospheric General Circulation Models.

Chi Zhang, Field of Specialization: Chemistry. Dissertation: The Development and Applications
of Nonlinear Vibrational Spectroscopy for Material and Biological Studies.

Yao Zhang, Field of Specialization: Civil Engineering. Dissertation: Thermal-Hydro-Mechanical
Model for Freezing and Thawing of Soils.

Hanzhi Zhou, Field of Specialization: Survey Methodology. Dissertation: Accounting for Complex
Sample Designs in Multiple Imputation Using the Finite Population Bayesian Bootstrap.

Xia Zhou, Field of Specialization: Mathematics. Dissertation: Asymptotics of Equivariant
Syzygies.

Andrew Martin Zimmer, Field of Specialization: Mathematics. Dissertation: Rigidity in Complex
Projective Space.

Dear Graduate:

On behalf of the Alumni Association of the University of Michigan, congratulations on your momentous achievement.

You may be leaving the University of Michigan, but the ties that bind alumni—across the miles and the years—are strong and enduring. Whether you are on the other side of the country or the other side of the world, you are part of something greater than yourself. You are now part of a community of more than 535,000 Michigan alumni in 180 countries across the globe.

The Alumni Association is your connection to U-M. As a graduation gift, we give you a complimentary one-year membership to help you maintain the bonds you’ve created over the course of your time on campus. Use it to remind yourself of the place that you hail from, the place that has shaped you into the person you are today. Visit umalumni.com to keep the spirit of U-M close and connect to the powerful global network of U-M alumni.

So as you toss your mortarboard and venture out into the world, celebrate all that you have achieved and remember that you are never far from the University of Michigan.

Again, our congratulations and very best wishes for your future.

Sincerely,

Janey Lack, ’62
Chair of the Board of Directors
Alumni Association of the University of Michigan

Steve Grafton
President and CEO
Alumni Association of the University of Michigan
Statement on Freedom of Speech and Artistic Expression

Thank you for attending this program. The University of Michigan strives to create a truly open forum, one in which diverse opinions can be expressed and heard.

It is the right of members of the University community, speakers, artists, and other invited guests to express their views and opinions at the University. We will protect the right of individuals to speak or perform, and the rights of those members of the University community who wish to hear and communicate with an invited speaker or artist.

Protesters also have a right to express their opposition to a speaker in appropriate ways, both within the confines of this building and outside the facility. However, protesters must not interfere unduly with communication between a speaker or artist and members of the audience.

If the hosts of this event or University representatives believe that protesters are interfering unduly with a speaker or performer's freedom of expression, those protesters will be warned. If the warnings are not heeded and the interference continues, then the individuals responsible may be removed from the building.

We reaffirm these policies in order to most fully protect the rights of free expression for speakers, performers, and protesters alike, as set forth by our Civil Liberties Board in our Student Handbook, and in accordance with the U-M Standard Practice Guide; Regents' Ordinance Article XII, Section 1; and state statutes.

Nondiscrimination Policy Statement

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of Michigan is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be addressed to the Senior Director for Institutional Equity, and Title IX/Section 504/ADA Coordinator, Office for Institutional Equity, 2072 Administrative Services Building, Ann Arbor, Michigan 48109-1432, 734-763-0235, TTY 734-647-1388, institutional.equity@umich.edu. For other University of Michigan information call 734-764-1817.
The Yellow and Blue

Sing to the colors that float in the light;
Hurrah for the Yellow and Blue!

Yellow the stars as they ride thro’ the night,
And reel in a rollicking crew;

Yellow the fields where ripens the grain,
And Yellow the moon on the harvest wain;

Hail!

Hail to the colors that float in the light;
Hurrah for the Yellow and Blue!

The Victors

Hail! to the victors valiant,
Hail! to the conqu’ring heroes,
Hail! Hail! to Michigan
the leaders and best.

Hail! to the victors valiant,
Hail! to the conqu’ring heroes,
Hail! Hail! to Michigan
the champions of the West.
