

The Yellow and Blue

Sing to the colors that float in the light;
Hurrah for the Yellow and Blue!
Yellow the stars as they ride through the night
And reel in a rollicking crew;
Yellow the field where ripens the grain
And yellow the moon on the harvest wain;
Hail!
Hail to the colors that float in the light
Hurrah for the Yellow and Blue!

The Victors

Hail! to the victors valiant
Hail! to the conqu'ring heroes
Hail! Hail! to Michigan
the leaders and best
Hail! to the victors valiant
Hail! to the conqu'ring heroes
Hail! Hail! to Michigan
the champions of the West!

UNIVERSITY OF MICHIGAN

Rackham Graduate Exercises

April 28, 2017 | Hill Auditorium

RACKHAM GRADUATE EXERCISES UNIVERSITY OF MICHIGAN

April 28, 2017
10:00 a.m.

Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies	18
College of Literature, Science, and the Arts	28
Medical School	29
School of Dentistry	30
College of Pharmacy	30
College of Engineering	30
A. Alfred Taubman College of Architecture and Urban Planning	34
School of Education	35
School of Natural Resources and Environment	35
School of Music, Theatre & Dance	36
School of Public Health	37
University of Michigan-Flint	38
University of Michigan-Dearborn	39
School of Information	42
Penny W. Stamps School of Art & Design	42
School of Kinesiology	42
Gerald R. Ford School of Public Policy	43

A preliminary list of August 2017 degree candidates begins on page 45.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

ORDER OF EXERCISES

Carillon Selections	Tiffany Ng <i>University Carillonist and Assistant Professor of Music School of Music, Theatre & Dance</i>
Prelude	Pièce d'Orgue, BWV 572 <i>Composed by Johann Sebastian Bach</i> James Kibbie <i>University Organist and Professor of Music School of Music, Theatre & Dance</i>

Commencement Address	Damon A. Williams <i>Senior Vice President of Program, Training, and Youth Development Services, Boys & Girls Clubs of America</i>
Remarks on Behalf of the Horace H. Rackham School of Graduate Studies	Carol A. Fierke <i>Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs–Graduate Studies</i>
Candidates for Master's Degrees and Certificates	Mark S. Schlissel Carol A. Fierke

**Presentation and Hooding
of Doctoral Candidates**

Mark S. Schlissel
Carol A. Fierke

Congratulations

Ralph Johnson
Chair of the Board of Directors, Alumni Association

***The Alma Mater**

The Yellow and Blue
Composed by Michael W. Balfé
Accompanied by James Kibbie
(see words on back cover and melody on page 54)

***Recessional**

Toccata from Symphony V
Composed by Charles-Marie Widor
James Kibbie

Those who are able are asked to stand for the portions of the program asterisked (). At the conclusion of the program, the audience will please remain standing until the platform party has left the auditorium.

In consideration of the graduates and other guests in attendance, we kindly request that you mute your cellular telephones and take restless children to the lobby. For your convenience, live audio is provided in the main lobby so you may continue to enjoy the ceremony.

REGENTS OF THE UNIVERSITY

Michael J. Behm	Grand Blanc
Mark J. Bernstein	Ann Arbor
Shauna Ryder Diggs	Grosse Pointe
Denise Ilitch	Bingham Farms
Andrea Fischer Newman	Ann Arbor
Andrew C. Richner	Grosse Pointe Park
Ron Weiser	Ann Arbor
Katherine E. White	Ann Arbor
Mark S. Schlissel	ex officio

EXECUTIVE OFFICERS

Mark S. Schlissel	<i>President</i>
Paul N. Courant	<i>Interim Provost and Executive Vice President for Academic Affairs</i>
Sally J. Churchill	<i>Vice President and Secretary of the University</i>
E. Royster Harper	<i>Vice President for Student Life</i>
Kevin P. Hegarty	<i>Executive Vice President and Chief Financial Officer</i>
S. Jack Hu	<i>Vice President for Research</i>
Timothy G. Lynch	<i>Vice President and General Counsel</i>
Jerry A. May	<i>Vice President for Development</i>
Kallie Bila Michels	<i>Vice President for Communications</i>
Marschall S. Runge	<i>Executive Vice President for Medical Affairs</i>
Kelli Trosvig	<i>Vice President for Information Technology and Chief Information Officer</i>
Cynthia H. Wilbanks	<i>Vice President for Government Relations</i>
Susan E. Borrego	<i>Chancellor</i> <i>University of Michigan-Flint</i>
Daniel Little	<i>Chancellor</i> <i>University of Michigan-Dearborn</i>

DEANS AND REPRESENTATIVES

Daniel G. Brown	<i>Interim Dean, School of Natural Resources and Environment</i>
Susan M. Collins	<i>Joan and Sanford Weill Dean of Public Policy, Gerald R. Ford School of Public Policy</i>
James T. Dalton	<i>Dean, College of Pharmacy</i> (represented by Associate Dean Vicki Ellingrod)
Scott DeRue	<i>Edward J. Frey Dean of Business, Stephen M. Ross School of Business</i> (represented by Senior Associate Dean Francine Lafontaine)
Aaron P. Dworkin	<i>Dean, School of Music, Theatre & Dance</i> (represented by Associate Dean Jason Corey)
Carol A. Fierke	<i>Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs—Graduate Studies</i>
Thomas A. Finholt	<i>Dean, School of Information</i>
Robert L. Fishman	<i>Interim Dean, A. Alfred Taubman College of Architecture and Urban Planning</i>
Alec D. Gallimore	<i>Robert J. Vlasic Dean of Engineering, College of Engineering</i>
James L. Hilton	<i>University Librarian and Dean of University Libraries</i>
Patricia D. Hurn	<i>Dean, School of Nursing</i>
Andrew D. Martin	<i>Dean, College of Literature, Science, and the Arts</i>
Laurie K. McCauley	<i>Dean, School of Dentistry</i> (represented by Associate Dean Russell Taichman)
Elizabeth Birr Moje	<i>Dean, School of Education</i> (represented by Senior Associate Dean Edward Silver)
Gunalan Nadarajan	<i>Dean, Penny W. Stamps School of Art & Design</i> (represented by Associate Dean Elona Van Gent)
Martin Philbert	<i>Dean, School of Public Health</i>
Lori Ploutz-Snyder	<i>Dean, School of Kinesiology</i>
Marschall S. Runge	<i>Dean, Medical School</i>
Lynn Videka	<i>Dean, School of Social Work</i>
Mark D. West	<i>Dean, Law School</i>

COMMENCEMENT SPEAKER

Damon A. Williams

Senior Vice President of Program, Training, and Youth Development Services

Boys & Girls Clubs of America

Author, educator, and scholar Damon A. Williams is a nationally recognized expert in diversity, leadership, and organizational change. As senior vice president of the Boys & Girls Clubs of America (BGCA), he helps develop programs to enhance academic success, good character and citizenship, leadership skills, and healthy lifestyles among the four million young people who participate in the BGCA's 4,000 affiliated clubs. Dr. Williams, an alumnus of the BGCA of Dayton, Ohio, earned B.A. and M.Ed. degrees from Miami University and a Ph.D. (2002) in education from the University of Michigan. Prior to joining the Atlanta-based BGCA, he held faculty and administrative positions at the University of Connecticut and the University of Wisconsin, Madison, where he founded the Division of Diversity, Equity, and Educational Achievement and was vice provost and chief diversity officer. Dr. Williams authored *Strategic Diversity Leadership: Activating Change and Transformation In Higher Education* (2013) and co-authored *The Chief Diversity Officer: Strategy, Structure, and Change Management* (2013). He serves on *The Journal of Negro Education* editorial board and lectures frequently at events and symposia sponsored by the Association of American Colleges & Universities, the American Council of Education (ACE), and other professional organizations. He is a member of the University of California, Berkeley Equity and Inclusion

Advisory Board, the ACE Commission on Inclusion, and the National Diversity Council Executive Board. Among other honors, he received the National Association of Diversity Officers in Higher Education Inclusive Excellence Award for Leadership and a Committee on Institutional Cooperation research commendation for his scholarly contributions.

For his commitment to youth and to building diverse, robust organizations, the University of Michigan presents to Damon Williams its Bicentennial Alumni Award.

DISSERTATION CHAIRS

Doctoral dissertation research is conducted in consultation with a committee of faculty members selected by the candidate. The dissertation chair leads the committee and works closely with the student to guide the research. This collaboration is a fundamental relationship in the formation of scholars and so it is fitting that dissertation chairs of the doctoral graduates be asked to attend the ceremony and hood their students.

Assistant Chief Marshal*

Leigh A. Woods

*Professor of Theatre and Drama
School of Music, Theatre & Dance
Assistant Chief Marshal*

ACADEMIC DRESS AND CUSTOM

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

Gowns

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

Hoods

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor's, master's, and doctor's hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor's hood and the widest for the doctor's hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

Caps

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.

UNIVERSITY FLAGS

The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

College of Literature, Science, and the Arts
Medical School
Law School
School of Dentistry
College of Pharmacy
College of Engineering
Horace H. Rackham School of Graduate Studies
A. Alfred Taubman College of Architecture and Urban Planning
School of Education
Stephen M. Ross School of Business
President's flag
University flag
Regents' flag
School of Natural Resources and Environment
School of Music, Theatre & Dance
School of Nursing
School of Public Health
School of Social Work
University of Michigan-Flint
University of Michigan-Dearborn
School of Information
Penny W. Stamps School of Art & Design
School of Kinesiology
Gerald R. Ford School of Public Policy

FLAG BEARERS

Davoud Anoushe Jamshidi
Horace H. Rackham School of Graduate Studies Flag

Kush Upendra Patel
University Flag

ACADEMIC COLORS

The colors of the various disciplines are as follows:

Architecture and Urban Planning	<i>blue violet</i>
Business Administration	<i>drab</i>
Dentistry	<i>lilac</i>
Education	<i>light blue</i>
Engineering	<i>orange</i>
Fine Arts	<i>brown</i>
Information	<i>lemon</i>
Kinesiology	<i>sage green</i>
Law	<i>purple</i>
Literature and Arts	<i>white</i>
Medicine	<i>green</i>
Music	<i>pink</i>
Natural Resources and Environment	<i>russet</i>
Nursing	<i>apricot</i>
Pharmacy	<i>olive green</i>
Philosophy	<i>dark blue</i>
Public Health	<i>salmon pink</i>
Public Policy	<i>peacock blue</i>
Science	<i>golden yellow</i>
Social Work	<i>citron</i>

Mingled colors distinguish combined curriculums.

THE UNIVERSITY MACE

The University's mace, a symbol of authority, is carried at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

SCHOOLS AND COLLEGES OF THE UNIVERSITY

The order of presentation is by the year of founding.

College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.

College of Engineering

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people's lives around the world.

Horace H. Rackham School of Graduate Studies

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

A. Alfred Taubman College of Architecture and Urban Planning

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

School of Education

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

Stephen M. Ross School of Business

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor's, master's, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

School of Natural Resources and Environment

The School of Natural Resources and Environment's overarching objective is to contribute to the protection of the Earth's resources and the achievement of a sustainable society. Through research, teaching, and outreach, faculty, staff, and students are devoted to generating new knowledge and developing policies, techniques, and skills to help practitioners manage and conserve natural resources to meet the full range of human needs on a sustainable basis. The school jointly administers the undergraduate Program in the Environment, and it offers master's and doctoral programs in ecological, social, and design sciences.

School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

School of Nursing

The University of Michigan School of Nursing (UMSN) is an international leader in the advancement of nursing knowledge and strategies to improve health care. In addition to the four-year BSN program and the second career in nursing program, UMSN has a robust offering of graduate programs. Students are prepared to be leaders in advanced clinical practice through our M.S.N. and post-baccalaureate Doctorate of Nursing Practice (DNP) programs. Students can also lead and effect change through the M.S.N. or post-masters DNP programs in systems, populations and leadership. UMSN's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

The history of the School of Public Health dates back to 1881, when the first course in sanitary science was taught in the College of Literature, Science, and the Arts. Established in 1941, the school has awarded master of public health, master of science, master of health services administration, and doctor of public health degrees to more than 13,000 students. Doctor of philosophy programs were established in 1947 and now include concentrations in biostatistics, environmental health sciences, epidemiology, health behavior and health education, and health management and policy. Key areas of research include vaccine development, air and water quality, reproductive and women's health, and health care costs, quality, and access.

School of Social Work

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

**Penny W. Stamps
School of Art & Design**

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

School of Kinesiology

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

**Gerald R. Ford School
of Public Policy**

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management, and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

CANDIDATES FOR DEGREES AND CERTIFICATES

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates are recommended jointly by the school faculty and the Executive Board of the Graduate School, and are listed alphabetically by degree, and in some cases also by field of specialization, under the school or college which awards the degree. The listing begins with doctoral degrees and then in order of founding of the schools and colleges.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Carol A. Fierke, Dean and Vice Provost for Academic Affairs–Graduate Studies

Candidates for degrees granted April 28, 2017

Doctor of Musical Arts

Donia Jarrar, Field of Specialization: Music Composition. Dissertation: Seamstress: A Multimedia Documentary Song-Cycle Based on the Collected Oral Histories of Palestinian Women.

Joshua J. Roach, Field of Specialization: Music Conducting.

Trevor Chartrand, Field of Specialization: Music Performance.

Yi-Ching Chen, Field of Specialization: Music Performance.

Jonathan Harris, Field of Specialization: Music Performance.

Blair Salter, Field of Specialization: Music Performance.

Doctor of Philosophy

Neranga Ishan Abeyasinghe, Field of Specialization: Chemistry. Dissertation: Quantum Confined Noble Metal Monolayer Protected Clusters Investigated Using Linear and Nonlinear Microscopy.

Sandunmalee Nilmini Abeyratne, Field of Specialization: Computer Science and Engineering. Dissertation: Studies in Exascale Computer Architecture: Interconnect, Resiliency, and Checkpointing.

Neha Agarwal, Field of Specialization: Computer Science and Engineering. Dissertation: Paving the Path for Heterogeneous Memory Adoption in Production Systems.

Pedro Antonio Aguilera-Mellado, Field of Specialization: Romance Languages and Literatures Spanish. Dissertation: Archisms in Liberal and Neoliberal Spain: On Death, Dictatorship, and Democracy.

Ramses Alcaide, Field of Specialization: Neuroscience. Dissertation: Evaluating a Novel Brain-Computer Interface and EEG Biomarkers for Cognitive Assessment in Children with Cerebral Palsy.

Margaret Brewster Allison, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Translational Profiling Reveals the Transcriptome of Leptin Receptor Neurons and Genes It's Regulation By Leptin.

Jessica Nicole Ames, Field of Specialization: Applied Physics. Dissertation: Unsnarling Excitation, Relaxation and Scattering Dynamics in Multi-Chiral Distributions of Carbon Nanotubes.

Evan Michael Anderson, Field of Specialization: Materials Science and Engineering. Dissertation: Surface Phase Stability and Surfactant Behavior on InAsSb.

Maria Mercedes Arredondo, Field of Specialization: Psychology. Dissertation: A Bilingual Advantage? The Functional Organization of Linguistic Competition and Attentional Networks in the Bilingual Developing Brain.

Jaehan Bae, Field of Specialization: Astronomy and Astrophysics. Dissertation: Studies of Young, Star-forming Circumstellar Disks.

Denise Elaine Bailey, Field of Specialization: Sociology. Dissertation: Teaching Preschool is Hard: Embodiment, Ideology, Fallibility and Futurity.

Maya Bam, Field of Specialization: Industrial and Operations Engineering. Dissertation: Optimizing Resource Allocation in Surgery Delivery Systems.

Mahmood Barangi, Field of Specialization: Electrical Engineering. Dissertation: Straintronics: A Leap towards Ultimate Energy Efficiency of Magnetic Memory and Logic.

Christine Lee Barnett, Field of Specialization: Industrial and Operations Engineering. Dissertation: Stochastic Models for Improving Screening and Surveillance Decisions for Prostate Cancer Care.

Christopher Neil Barot, Field of Specialization: Physics. Dissertation: The Motion and Control of a Chaplygin Sleigh with Internal Shape in an Ideal Fluid.

Jessica Beauchamp, Field of Specialization: Microbiology and Immunology. Dissertation: Localization of the Natural Transformation Machinery and Mechanisms of DNA Selection in *Campylobacter jejuni*.

Jonathan Caird Bennion, Field of Specialization: Chemistry. Dissertation: Multicomponent Crystallization of Energetic Materials.

Aaron Matthew Beville, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Uncertainty Quantification in Emission Quantitative Imaging.

Monica P. Bhatt, Field of Specialization: Educational Studies. Dissertation: Evaluating the Impact of Statewide Supports to Reduce Within-School Achievement Gaps: A Mixed Methods Study of Focus Schools in Michigan.

James Bodiford, Field of Specialization: Music Musicology. Dissertation: Sharing Sounds: Musical Innovation, Collaboration, and Ideological Expression in the Chilean Netlabel Movement.

Erin Danielle Bogan, Field of Specialization: Education and Psychology. Dissertation: Beyond Supportive Parenting: The Mediating and Moderating Role of Preschoolers' Self-Regulatory Competencies in the Relation Between Supportive Parenting and Academic Readiness Outcomes Among Families Participating in Head Start.

Austin Harold Boles, Field of Specialization: Earth and Environmental Sciences. Dissertation: Clay Neomineralization and the Timing, Thermal Conditions and Geofluid History of Upper Crustal Deformation Zones.

Steven Taylor Brown, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Time-Encoded Thermal Neutron Imaging using Large-Volume Pixelated CdZnTe Detectors.

- Charles Denis Bussy-Virat**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Spacecraft Collision Avoidance.
- Nicole Marie Camasso**, Field of Specialization: Chemistry. Dissertation: Design, Synthesis, and Reactivity of High-Valent Nickel and Palladium Complexes.
- Kayla Marie Capper**, Field of Specialization: Cancer Biology. Dissertation: Targeting DNA Repair Mechanisms in MYC-Driven Cancer.
- Jeremy Marc Francois Castaing**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Scheduling Under Uncertainty: Applications to Aviation, Healthcare and Aerospace.
- Joanne Ting-Chu Chang**, Field of Specialization: Epidemiological Science. Dissertation: Characterizing the Temporal Aspects of Tobacco Use and Its Related Diseases.
- Wesley Aaron Chapkin**, Field of Specialization: Materials Science and Engineering. Dissertation: Electrostatically Induced Carbon Nanotube Alignment for Polymer Composite Applications.
- Lei Chen**, Field of Specialization: Mechanical Engineering. Dissertation: Cylindrical Machining Workpiece Temperature and Bore Cylindricity.
- Yajing Chen**, Field of Specialization: Computer Science and Engineering. Dissertation: Designing Flexible, Energy Efficient and Secure Wireless Solutions for the Internet of Things.
- Yang Chen**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: A Velocity Decomposition Approach for Three-Dimensional Unsteady Viscous Flow at High Reynolds Number.
- Long Chen**, Field of Specialization: Applied Physics. Dissertation: Nanoengineered Functional Structures for Photonic and Microfluidic Applications.
- Xiaomei Chen**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Influence of PEPT2 on the Regional Distribution Kinetics of Cefadroxil in Brain Using Intracerebral Microdialysis in Rats, Wildtype and PEPT2 Knockout Mice.
- Albert Tzong-Yang Chen**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Critical Genes Regulated by FoxO Transcription Factors in Life Span Control.
- Sarah Thirou Cherng**, Field of Specialization: Epidemiological Science. Dissertation: Applied Computational Modeling Approaches in Cigarette Smoking Epidemiology: Expanding Statistical Associations to Convey Theoretical Pathways.
- Alana Michelle Chin**, Field of Specialization: Cell and Developmental Biology. Dissertation: Elucidating a novel WNT/ β -CATENIN Signaling-Independent Environment that Precedes Villus Morphogenesis in the Embryonic Intestine.
- Jihyun Cho**, Field of Specialization: Electrical Engineering. Dissertation: CMOS Sensors for Time-Resolved Active Imaging.
- Marvin Chochotte**, Field of Specialization: History. Dissertation: The History of Peasants, Tonton Makouts, and the Rise and Fall of the Duvalier Dictatorship in Haiti.
- Jihun Choi**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Miniaturized Antenna and Wave Propagation Studies Enabling Compact Low-Power Mobile Radio Networks at Low VHF.
- Jong Soo Choi**, Field of Specialization: Mechanical Engineering. Dissertation: Thin-Film PZT Scanning Micro-actuators for Vertical Cross-sectional Imaging in Endomicroscopy.
- Paul John Christine**, Field of Specialization: Epidemiological Science. Dissertation: Bridging the Gap: Biologic, Behavioral, and Environmental Contributions to the Development of Type 2 Diabetes.
- Jennifer Chudy**, Field of Specialization: Political Science. Dissertation: Racial Sympathy in American Politics.
- Kristen Louise Cibelli**, Field of Specialization: Survey Methodology. Dissertation: The Effects of Respondent Commitment and Feedback on Response Quality in Online Surveys.
- Elizabeth Sara Cogan**, Field of Specialization: Psychology. Dissertation: Modifying Memories: Parsing Motivational and Predictive Value.
- Silvia Cordero-Sancho**, Field of Specialization: Natural Resources and Environment. Dissertation: A Closer View of Smallholder Agriculture in Congo Basin Forests: Use of High Resolution Imagery to Quantify Spatial Relationships of Agriculture with Roads and Land Management after Recent Intensification of Commercial Logging Operation.
- Anna Karolina Dabrowski**, Field of Specialization: Neuroscience. Dissertation: Fibroblast Growth Factor Receptors Sculpt Excitatory and Inhibitory Synapses in the Hippocampal Neural Circuit.
- Johann Paul Schwind Dahm**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Toward Accurate, Efficient, and Robust Hybridized Discontinuous Galerkin Methods.
- Qingyun Dan**, Field of Specialization: Biological Chemistry. Dissertation: Structural and Biochemical Characterization of the Early Steps in Fungal Indole Alkaloid Biosynthesis.
- Erin Marie Deda**, Field of Specialization: Materials Science and Engineering. Dissertation: The Effect of Aluminum Content and Processing on the Tensile Behavior of High Pressure Die Cast Mg Alloys.
- Brandon Jay Demory**, Field of Specialization: Electrical Engineering. Dissertation: Making Semiconductor Single Photon Emitters Faster and Brighter.
- Yan Dong**, Field of Specialization: Materials Science and Engineering. Dissertation: Correlations between Oxide Structure, Iron Distributions, and Zirconium Oxide Growth.
- Chao Du**, Field of Specialization: Electrical Engineering. Dissertation: Metal Oxide Memristors with Internal Dynamics for Neuromorphic Applications.
- Xiyu Duan**, Field of Specialization: Biomedical Engineering. Dissertation: MEMS-Based Endomicroscopes for High Resolution in vivo Imaging.
- Paulina Magdalena Duda**, Field of Specialization: Slavic Languages and Literatures. Dissertation: Between Auteur and Advocate: Polish Film and the Legacy of Romantic Nation Building.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Chate Eamrungrroj**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Analysis and Evaluation of Efficient Dispatching Rules for Multi-Device Handling Systems with Random Move Requests.
- Sebastian Alfonso Richard Ellis**, Field of Specialization: Physics. Dissertation: Phenomenological Aspects of Supersymmetry with Heavier Scalars.
- Dondi Jay Ellis, Jr.**, Field of Specialization: Mathematics. Dissertation: Motivic Analogues of MO and MSO.
- Sarah Elizabeth Erickson**, Field of Specialization: Communication. Dissertation: Teenage Dreams: An Examination of Adolescent Romantic Parasocial Attachments.
- Sina Esteky**, Field of Specialization: Architecture and Business Administration. Dissertation: Architecture of Choice: Exploring the Impact of Built Environments on Consumer Behavior.
- Jordan Bernard Everson**, Field of Specialization: Health Service Organization and Policy. Dissertation: Hospital Networks of Shared Patients and Engagement in Health Information Exchange.
- Zishaan Ahmed Farooqui**, Field of Specialization: Environmental Health Sciences. Dissertation: Latent Effects of Exposure to Lead and the Association with Neurological Outcomes via Epigenetics and Genetics.
- Jeffrey Robert Fein**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Mitigation of Hot Electrons from Laser-Plasma Instabilities in Laser-Generated X-ray Sources.
- Huan Feng**, Field of Specialization: Computer Science and Engineering. Dissertation: Regulating and Securing the Interfaces Across Mobile Apps, OS and Users.
- Earlence Tezroyd Fernandes**, Field of Specialization: Computer Science and Engineering. Dissertation: Securing Personal IoT Platforms through Systematic Analysis and Design.
- Uditha Piyumindri Fernando**, Field of Specialization: Biomedical Engineering. Dissertation: Development of an Artificial Membrane Lung.
- Joseph A. Ferrar**, Field of Specialization: Chemical Engineering. Dissertation: Self-Assembly and High-Rate Production of Colloids and Microprisms.
- Laura Fick**, Field of Specialization: Electrical Engineering. Dissertation: Neuromorphic Computation Circuits for Ultra-Dense Mobile Platforms.
- Ann-Marie Katherine Frankini**, Field of Specialization: Nursing. Dissertation: Cognitive Function, Self-care, and Glycemic Control in Rural Adults with Type 2 Diabetes.
- Jonathan Jay Fuentes**, Field of Specialization: Political Science. Dissertation: Exploring the Dynamics of Representation, Institutional Rules, and Policy Outcomes in the U.S. States.
- Sherry Jeanette Funches**, Field of Specialization: History. Dissertation: Finding Sanjo Genshi: Women's Visibility in Late Medieval Japanese Aristocratic Journals.
- Zachary John Garlets**, Field of Specialization: Chemistry. Dissertation: New Developments in Metal-Mediated Heterocycle Synthesis.
- Xinyi Ge**, Field of Specialization: Mechanical Engineering. Dissertation: Frequency Domain Based Analysis and Design of Norm-Optimal Iterative Learning Control.
- William James Giblin, Jr.**, Field of Specialization: Human Genetics. Dissertation: A Role for Sirtuins in Maintaining Mammalian Lifespan and Healthspan.
- Feven Mesele Girmay**, Field of Specialization: Higher Education. Dissertation: African Immigrant and International Students: A Qualitative Study on the Socio-Cultural Adjustment of Students Into U.S. Universities.
- Athina Gkrizi**, Field of Specialization: Civil Engineering. Dissertation: Characterization of Pile Driving Induced Ground Motions.
- Yue Gong**, Field of Specialization: Mechanical Engineering. Dissertation: Microscale Phase Transformation in Shape Memory Alloy Actuators.
- Mark L. Greene**, Field of Specialization: Mechanical Engineering. Dissertation: Momentum Near-wall Region Characterization in a Reciprocating Internal-combustion Engine.
- Kristjan Herbert Greenewald**, Field of Specialization: Electrical Engineering-Systems. Dissertation: High Dimensional Covariance Estimation for Spatio-Temporal Processes.
- John Lee Guittar**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Trait-Based Community Assembly in a Changing Climate: Dispersal Dynamics and Ecological Filtering In a Grassland Metacommunity.
- Xiaoxiao Guo**, Field of Specialization: Computer Science and Engineering. Dissertation: Deep Learning and Reward Design for Reinforcement Learning.
- Yun Han**, Field of Specialization: Social and Administrative Sciences. Dissertation: Medication Adherence Outcomes in Elderly Patients with Hypertension and Chronic Kidney Disease: A Geographical Approach.
- Julia Hecker Hansen**, Field of Specialization: English Language and Literature. Dissertation: Transatlantic Vividness: Imagining at a Distance in Nineteenth-Century Poetry.
- Yan Hao**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Regulation of Regenerative and Degenerative Responses to Axonal Injury.
- Elizabeth Ann Harmon**, Field of Specialization: American Culture. Dissertation: The Transformation of American Philanthropy: From Public Trust to Private Foundation, 1785-1917.
- Jordan Marie Harrison**, Field of Specialization: Nursing. Dissertation: Functional Status, Quality of Life, and Long-Term Survival in a Cohort of Women with Breast Cancer and Heart Failure: Results of the Medicare Health Outcomes Survey.
- Syed Feroz Hassan**, Field of Specialization: Screen Arts and Cultures. Dissertation: Surviving Politics: Andre Bazin and Aesthetic Bad Faith.

- Johann Alexander Hauswald**, Field of Specialization: Computer Science and Engineering. Dissertation: System Design for Intelligent Web Services.
- Mónica Hernández**, Field of Specialization: Public Policy and Economics. Dissertation: The Role of Out of School Factors on Student Performance and Educational Attainment.
- Paul Andrew Hernley**, Field of Specialization: Chemical Engineering. Dissertation: Mechanisms for Enhancing the Efficiency of Composite Semiconductor/Metal Photocatalysts.
- Joseph Wei Ho**, Field of Specialization: History. Dissertation: All Things Visible and Invisible: Photography, Filmmaking, and American Christian Missions in Modern China.
- Alexander Matthew Holtz**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Novel Mechanisms that Antagonize Hedgehog Signaling at the Cell Surface During Vertebrate Embryogenesis.
- Emily Anne House**, Field of Specialization: Educational Studies. Dissertation: Finding the Best Fit: Exploring Postsecondary Undermatch in Tennessee.
- Joshua Adam Hubbard**, Field of Specialization: History and Women's Studies. Dissertation: Reproductive Subjects: The Global Politics of Health in China, 1927-1964.
- Ala Iaconi**, Field of Specialization: Social and Administrative Sciences. Dissertation: Psychosocial Determinants of Statin Medication Adherence.
- Benjamin Hiramatsu Ireland**, Field of Specialization: Romance Languages and Literatures French. Dissertation: The East Asian Métis in Francophone Literatures of the South Pacific, Indian Ocean, and North America.
- Rhonda Martha Jack**, Field of Specialization: Chemical Engineering. Dissertation: The Study of Pancreatic Circulating Tumor Cells via Isolation with an Integrated Microfluidic Immunomagnetic (IMI) Device.
- Taehee Jang**, Field of Specialization: Electrical Engineering. Dissertation: Transparent and Flexible Radio Frequency (RF) Structures.
- Supreet Jeloka**, Field of Specialization: Electrical Engineering. Dissertation: Cross-point Circuits for Computation, Interconnects, Security and Storage.
- Seok Hyeon Jeong**, Field of Specialization: Electrical Engineering. Dissertation: Ultra-low Power Circuits for Internet of Things (IOT).
- Evelyn Mawunyo Jiagge**, Field of Specialization: Cancer Biology. Dissertation: Understanding the Biology of Triple Negative Breast Cancer and Breast Cancer Stem Cells in Patients of Diverse Ethnicities.
- Ray Morris Joe**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Insight into the Brain-Specific Alpha Isoform of the Scaffold Protein SH2B1 and its Rare Obesity-Associated Variants.
- Taylor Kathryn Johnson**, Field of Specialization: Medicinal Chemistry. Dissertation: Combining Active Site and Allosteric Inhibitors to Study Protein Tyrosine Kinases.
- Cassandra Marie Joiner**, Field of Specialization: Chemistry. Dissertation: Evaluation and Utilization of Photo-Activatable Unnatural Amino Acids for The Study of Protein-Protein Interactions.
- Komal Kishor Kampasi**, Field of Specialization: Biomedical Engineering. Dissertation: Implantable Low-Noise Fiberless Optoelectrodes for Optogenetic Control of Distinct Neural Populations.
- Neha Kaushal**, Field of Specialization: Biomedical Engineering. Dissertation: Development of Nanomedicine for the Treatment of Breast Cancer Metastases.
- Shamitha Keerthi**, Field of Specialization: Natural Resources and Environment. Dissertation: Regional Differences in Water Quality Impacts from the Bioenergy Mandate: A Scenario-Based Approach to Quantifying the Impacts from RFS2.
- Muhammad Murshed Khadija**, Field of Specialization: Classical Art and Archaeology and Anthropology. Dissertation: The Nabataean Rock Carving Technique in Petra.
- Laura Marie Kiefer**, Field of Specialization: Chemistry. Dissertation: Ultrafast Spectral Dynamics of a Rhenium Photocatalyst.
- Hyunsoo Kim**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Organic Photodiodes and Their Optoelectronic Applications.
- Jaeyoung Kim**, Field of Specialization: Electrical Engineering. Dissertation: Ultra Low-power Wireless Sensor Node Design for ECG Sensing Applications.
- Bradley Phillip Klemm**, Field of Specialization: Biological Chemistry. Dissertation: Substrate Recognition by Protein-only Ribonuclease Ps.
- Neveser Koker**, Field of Specialization: Political Science. Dissertation: Gendering East and West: Transnational Politics of Belonging in the Ottoman Empire and France, 1718-1905.
- Aasheesh Kolli**, Field of Specialization: Computer Science and Engineering. Dissertation: Architecting Persistent Memory Systems.
- Kyle James Korshavn**, Field of Specialization: Chemistry. Dissertation: Mechanistic and Structural Insights into the Chemical Modulation of Amyloid Aggregation.
- Cyrus Joseph Robert Kosztowny**, Field of Specialization: Aerospace Engineering. Dissertation: Unitized Stiffened Composite Textile Panels: Manufacturing, Characterization, Experiments, and Analysis.
- Joseph Richard Krieger**, Field of Specialization: Natural Resources and Environment. Dissertation: Habitat Utilization and Early Life History Characteristics of Larval, Young-of-Year, and Juvenile Lake Sturgeon (*Acipenser fulvescens*) in the Great Lakes Connecting Channels.
- Jonathan Frederick Kucharyson**, Field of Specialization: Chemical Engineering. Dissertation: Structure-Function Relationships of Metal Coordination Complexes for Non-Aqueous Redox Flow Batteries.
- Robert Kuo**, Field of Specialization: Chemical Engineering. Dissertation: Administration of Chemically-Modified Poly(lactide-co-glycolide) Nanoparticles to Engineer the Immune Response for Tolerance Induction.
- Sibu Philip Kuruvilla**, Field of Specialization: Materials Science and Engineering. Dissertation: Development of Targeted, Enzyme-Activated Nano-Conjugates for Hepatic Cancer Therapy.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Aaron Louis Lamoureux**, Field of Specialization: Materials Science and Engineering. Dissertation: Origami and Kirigami Design Principles for Optical Tracking, Energy Harvesting, and Other Applications.
- Peter Anthony Larson**, Field of Specialization: Human Genetics. Dissertation: Molecular Mechanisms of LINE-1 Retrotransposition Inhibition.
- Jae Sang Lee**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Lifetime and Efficiency of Blue Phosphorescent Organic-Light Emitting Diodes.
- Jason Lee**, Field of Specialization: Computer Science and Engineering. Dissertation: Improving Usability of Mobile Applications Through Speculation and Distraction Minimization.
- Shin-jung Lee**, Field of Specialization: Survey Methodology. Dissertation: Adaptive Design to Adjust for Unit Nonresponse Using an External Micro-level Benchmark.
- Jake Andrew Levinson**, Field of Specialization: Mathematics. Dissertation: Foundations of Boij-Söderberg Theory for Grassmannians.
- Charles Roger Lhermitte**, Field of Specialization: Chemistry. Dissertation: Kinetics of Competing Reactions on Metal Oxide Semiconductors during the Course of Photoelectrochemical Water Oxidation.
- Linze Li**, Field of Specialization: Materials Science and Engineering. Dissertation: Atomic-scale Polarization Structures and Domain Dynamics in BiFeO₃ Thin Films.
- Yunzi Li**, Field of Specialization: Chemical Engineering. Dissertation: Continuous Microfluidic Viscometers for Biochemical and Diagnostic Analysis.
- Jiaxing Li**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Restraint of the Wallenda/DLK MAP Kinase cascade by the Kinesin-3 motor regulates the assembly of synapses.
- Keng-Han Lin**, Field of Specialization: Biostatistics. Dissertation: Statistical Methods for Detecting Rare Variant Associations in Family-Based Designs.
- Jiechao Liu**, Field of Specialization: Mechanical Engineering. Dissertation: High-Speed Obstacle Avoidance at the Dynamic Limits for Autonomous Ground Vehicles.
- Xiaojian Liu**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Surface Energy and Mass Balance Model for Greenland Ice Sheet and Future Projections.
- Xu Liu**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Molecular Mechanisms of Autophagosome-Vacuole Fusion and Degradation of Peroxisomes by Autophagy.
- Jamie Yun Liu**, Field of Specialization: Nutritional Sciences. Dissertation: A Study of the Impact of Environmental Chemicals and Micronutrients on Pubertal Development in a Mexican Population.
- Airan Liu**, Field of Specialization: Public Policy and Sociology. Dissertation: Family SES, Non-cognitive Skills and Achievement Inequality in Children's Early Life.
- Shusheng Lu**, Field of Specialization: Chemistry. Dissertation: Microfluidic Assays for Perfusion Culture and Chemical Monitoring of Living Cells.
- Brandon D. Lucas**, Field of Specialization: Applied Physics. Dissertation: Nanoimprint Lithography and its Applications in Photonics, Biotechnology and Energy Conversion Devices.
- Luyao Ma**, Field of Specialization: Chemistry. Dissertation: Low-temperature Electrodeposition of Crystalline Semiconductor Nano/Microstructures & Application of As-prepared Materials in Li-ion Batteries.
- Kayse Trine Lee Maass**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Mitigating Hard Capacity Constraints in Facility Location Modeling.
- David Frank Malewski**, Field of Specialization: Social and Administrative Sciences. Dissertation: Attitude and Intention to Abuse Controlled Prescription Drugs: A Conditional Indirect Effects Model.
- Rabia Malik**, Field of Specialization: Cell and Developmental Biology. Dissertation: Insight into Mechanisms of Multiplicity of GPCR-G protein Signaling.
- Biruk Wendimagegn Mammo**, Field of Specialization: Computer Science and Engineering. Dissertation: Reining in the Functional Verification of Complex Processor Designs with Automation, Prioritization, and Approximation.
- Jonathon Andrew Martin**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Model-Predictive Control for Alleviating Transmission Overloads and Voltage Collapse in Large-Scale Electric Power Systems.
- Stefanie Eva Mayer**, Field of Specialization: Psychology. Dissertation: Examining the Relationships Between Chronic Stress, HPA Axis Activity, and Depression in a Prospective and Longitudinal Study of Medical Internship.
- Louise Lu McCarroll**, Field of Specialization: Mechanical Engineering. Dissertation: One-dimensional Differential Newtonian Analysis for Applications in Saliva Rheology.
- Alexandra Talarico McLaughlin**, Field of Specialization: Greek and Roman History. Dissertation: Christian Pedagogy and Christian Community in the Fifth- and Sixth-Century Mediterranean.
- Ashley B. McQuarters**, Field of Specialization: Chemistry. Dissertation: Model Complexes for Reactive Intermediates in Cytochrome P450 Nitric Oxide Reductase (P450_{nor}).
- Jifa Mei**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Modeling of Multi-Axial Fatigue Damage Under Non-Proportional Variable-Amplitude Loading Conditions.
- Corey Nathan Melnick**, Field of Specialization: Mechanical Engineering. Dissertation: The Phonovoltaic Cell: Harvesting Optical Phonons in Order to Approach the Carnot Limit.
- Stephanie Anne Miller**, Field of Specialization: Physics. Dissertation: Optical Measurements of Strong Radio-Frequency Fields Using Rydberg Atoms.
- Shankar Mohan**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Control of Lithium-Ion Battery Warm-up from Sub-zero Temperatures.

Adaleena Mookerjee, Field of Specialization: Mechanical Engineering. Dissertation: Coherent Backscatter Enhancement from Finite Sized Aggregations of Scatterers.

Rohan Ravindra Morajkar, Field of Specialization: Aerospace Engineering. Dissertation: Role of Secondary Flows on Flow Separation Induced by Shock/boundary-layer Interaction in Supersonic Inlets.

Nicholas Anton Moroz, Field of Specialization: Materials Science and Engineering. Dissertation: Engineered Transition Metal Chalcogenides for Photovoltaic, Thermoelectric, and Magnetic Applications.

Mary Grace-Eileen Morris, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Remote Sensing of Tropical Cyclones: Applications from Microwave Radiometry and Global Navigation Satellite System Reflectometry.

Bryan Moyers, Field of Specialization: Bioinformatics. Dissertation: On Gene Age, Gene Origins, and Evolutionary Trends.

Charles Munson, Field of Specialization: Physics. Dissertation: Technology Development for Cosmic Microwave Background Cosmology.

Nisha Bharat Nagarsheth, Field of Specialization: Immunology. Dissertation: Immune-Associated Epigenetic Regulation in the Tumor Microenvironment.

Regev Nathansohn, Field of Specialization: Anthropology. Dissertation: Living in a Mixing Neighborhood: Reflexive Coexistence and the Discourse of Separation.

Kevin Joseph Neitzel, Field of Specialization: Aerospace Engineering. Dissertation: Thermochemical Modeling of Nonequilibrium Oxygen Flows.

Cameron Robert Nelson, Field of Specialization: Electrical Engineering. Dissertation: Coherent Nonlinear Optical Spectroscopy of In-GaN Disks in GaN Nanowires.

Joseph Alexander Nichols, Field of Specialization: Pharmacology. Dissertation: Cocaine Esterase: A Pharmacokinetic Approach to Treating Cocaine Addiction.

Karen Emily Nielsen, Field of Specialization: Statistics. Dissertation: Selecting and Evaluating Models to Reflect Underlying Scientific Principles: Using Basis Sets to Parameterize Hypotheses.

Vir Singh Nirankari, Field of Specialization: Materials Science and Engineering. Dissertation: Short Fatigue Crack Growth and Durability Modeling of Resistance Spot Welded 5754 and 6111.

Nicolette Nevena Ognjanovski, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Hippocampal Network Mechanisms Underlying Sleep-Dependent Memory Consolidation.

Sechang Oh, Field of Specialization: Electrical Engineering. Dissertation: Low-Noise Energy-Efficient Sensor Interface Circuits.

Madeline Li Xuan Ong, Field of Specialization: Business Administration. Dissertation: Understanding Recidivism in the Aftermath of Wrongdoing.

Michael Mark Oppen, Field of Specialization: Linguistics. Dissertation: Phonological Contrast in Bai.

Nicholas David Orlofsky, Field of Specialization: Physics. Dissertation: Probing Models of Dark Matter and the Early Universe.

Jenny Elizabeth Ostergren, Field of Specialization: Health Behavior And Health Education. Dissertation: Perceived Threat of Alzheimer's Disease and Help-seeking Behavior in Older Adults with Memory Complaints.

Ania Beata Owczarczyk, Field of Specialization: Molecular and Cellular Pathology. Dissertation: The Role of Sirtuin 1 in the Regulation of Autophagy and Respiratory Syncytial Virus-induced Immune Responses.

Marc Gerrit Paff, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Organic Scintillation Detectors for Spectroscopic Radiation Portal Monitors.

Christopher Michael Parsons, Field of Specialization: English and Education. Dissertation: Ideologies about Gender and Literacy in the Academic Lives of Young Men: A Qualitative Study in Three High School English Classrooms.

Matthew David Pauly, Field of Specialization: Microbiology and Immunology. Dissertation: The Mutation Rate of Influenza Virus.

Nicholas James Perlongo, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Hemispheric Asymmetries of Magnetosphere-Ionosphere-Thermosphere Dynamics.

Shelby Claire Peterson, Field of Specialization: Cellular and Molecular Biology. Dissertation: Neural Promotion of Hedgehog-Driven Skin Cancer.

John Joseph Pitre, Jr., Field of Specialization: Biomedical Engineering. Dissertation: Ultrasound Methods for Quantitative Edema Monitoring.

Gang Kai Poh, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Mercury's Magnetospheric Cusps and Cross-Tail Current Sheet: Structure and Dynamics.

Daniel J. Porter, Field of Specialization: Psychology. Dissertation: Using Compassionate Language: Faking It with Others or Directing It toward Oneself.

Sean Pradhan, Field of Specialization: Kinesiology. Dissertation: How You Like Me Now? The Influence of Athlete Behavior on Fan Group Dynamics and Sports Consumption.

Andrew Conley Pratt, Field of Specialization: Medicinal Chemistry. Dissertation: Functional Analysis of Early Core Region Modification in the LPS of Gram-negative Bacteria.

Patrick Pruitt, Field of Specialization: Neuroscience. Dissertation: Anticipatory and Hedonic Reward Response in Major Depression: Underlying Molecular Correlates and Relationship with Treatment Outcome.

Connie Qiu, Field of Specialization: Electrical Engineering-Systems. Dissertation: Composite Adaptive Internal Model Control: Theory and Applications to Engine Control.

Susanne A. Quallich, Field of Specialization: Nursing. Dissertation: Investigation of Clinical Characteristics of Men with Chronic Unexplained Orchialgia.

Yousaf Rahman, Field of Specialization: Aerospace Engineering. Dissertation: Intercalated Injection, Target Model Construction and H2 Performance of Retrospective Cost Adaptive Control.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Amir Rahmati**, Field of Specialization: Computer Science and Engineering. Dissertation: Attacking and Defending Emerging Computer Systems Using The Memory Remanence Effect.
- Biswarathan Ramani**, Field of Specialization: Neuroscience. Dissertation: Toward Understanding the Polyglutamine Disorder Spinocerebellar Ataxia Type 3 Using Mouse Models of Disease.
- Amirreza Rastegari**, Field of Specialization: Mechanical Engineering and Scientific Computing. Dissertation: Computational Studies of Turbulent Skin-Friction Drag Reduction with Super-Hydrophobic Surfaces and Riblets.
- Danielle Zoe Rivera**, Field of Specialization: Urban and Regional Planning. Dissertation: Questioning as We Walk: Case Analysis of Community Organizing in Rio Grande Valley Colonias.
- Benjamin Roberts**, Field of Specialization: Environmental Health Sciences. Dissertation: Improved Methods for Evaluating Noise Exposure and Hearing Loss.
- Douglas Richard Roehler**, Field of Specialization: Health Behavior and Health Education. Dissertation: Exposure to Violence: An In-Depth Analysis from Adolescence to Early-Adulthood.
- Samuel Brewer Roland**, Field of Specialization: Physics. Dissertation: Sterile Neutrino Dark Matter.
- Sanae Leah Madeleine Rosen**, Field of Specialization: Computer Science and Engineering. Dissertation: Improving Mobile Network Performance Through Measurement-driven System Design Approaches.
- Latisha L. Ross**, Field of Specialization: Education and Psychology. Dissertation: Perspective Matters: Concordance in Parental Academic Socialization in Black Parent-Adolescent Dyads.
- Rebecca Susan Rothwell**, Field of Specialization: Biostatistics. Dissertation: Statistical Methods in Population Genetics for Next-Generation Sequencing Data.
- David James Rowland**, Field of Specialization: Biophysics. Dissertation: Improving the Scope and Quality of Single-Molecule Data Analysis.
- Napong Rugkhaman**, Field of Specialization: Urban and Regional Planning. Dissertation: Technopolitics of Historic Preservation in Southeast Asian Chinatowns: Penang, Bangkok, Ho Chi Minh City.
- Anirban Sahu**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: The Role of Long Noncoding RNA SCHLAP1 in Prostate Cancer.
- Richard Anthony Sampson II**, Field of Specialization: Computer Science and Engineering. Dissertation: Architectural Support for Medical Imaging.
- Logan Scherer**, Field of Specialization: English Language and Literature. Dissertation: Beyond Curiosity: Late-Nineteenth-Century American Women's Narratives of Obsession.
- Kristin Anne Schroeder**, Field of Specialization: History of Art. Dissertation: How to Look Sachlich: Fashion and Objectivity in Weimar Germany.
- McKenna Michelle Schroeder**, Field of Specialization: Chemical Biology. Dissertation: Immobilized Enzymes: Activity, Orientation, and Stability.
- Jinwoo Seok**, Field of Specialization: Aerospace Engineering. Dissertation: Resource Management in Constrained Dynamic Situations.
- Yue Shao**, Field of Specialization: Mechanical Engineering. Dissertation: Bioengineered in vitro Model for Peri-implantation Human Embryogenesis.
- Guangsha Shi**, Field of Specialization: Materials Science and Engineering and Scientific Computing. Dissertation: First-Principles Calculations of Electronic, Optical, and Transport Properties of Materials for Energy Applications.
- Yuhui Shi**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Optimization Models and Algorithms for Prototype Vehicle Test Scheduling.
- Farhad Shirani Chaharsooghi**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Structural Results for Coding Over Communication Networks.
- Yinsi Shou**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: Modeling the Cometary Environment using a Fluid Approach.
- Andrew Sikkema**, Field of Specialization: Biological Chemistry. Dissertation: Structural and Biochemical Studies of the Initiation Steps in Three Natural Product Biosynthetic Pathways.
- Michael Joseph Skoumal**, Field of Specialization: Chemical Engineering. Dissertation: Localized Tolerance and Development of an Alternative Transplant Site to Treat Type 1 Diabetes.
- Mitchell Lee Smith**, Field of Specialization: Chemistry. Dissertation: Expanding the Utility of Catalyst-Transfer Polymerization.
- Chauncey Delorian Smith**, Field of Specialization: Education and Psychology. Dissertation: Defensive Strategies & Counternarratives: Middle Class Black Boys? Critical Social Analysis of Their School Experiences.
- Emily Elisabeth Speakman**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Volumetric Guidance for Handling Triple Products in Spatial Branch-and-Bound.
- Jacqueline Jeannine Stimson**, Field of Specialization: Classical Studies. Dissertation: Killing Romans: Legitimizing Violence in Cicero and Caesar.
- Justin Gordon Storms**, Field of Specialization: Mechanical Engineering. Dissertation: Modeling and Improving Teleoperation Performance of Semi-Autonomous Wheeled Robots.
- Amir Syed**, Field of Specialization: Anthropology and History. Dissertation: Al-Hajj Umar Tal and the Realm of the Written: Mastery, Mobility and Islamic Authority in 19th Century West Africa.
- Christina Jaeun Synn**, Field of Specialization: Business Administration. Dissertation: Aggregate Disclosure and Sentiment.
- Shurun Tan**, Field of Specialization: Electrical Engineering. Dissertation: Multiple Volume Scattering in Random Media and Periodic Structures with Applications in Microwave Remote Sensing and Wave Functional Materials.

- Weihan Tang**, Field of Specialization: Mechanical Engineering. Dissertation: Reduced-Order Modeling of Mistuned Bladed Disks in Contact with Dry Friction Ring Dampers.
- Nithiwadee Thaicharoen**, Field of Specialization: Physics. Dissertation: Spatial Imaging of Strongly Interacting Rydberg Atoms.
- Hope Farrior Thompson**, Field of Specialization: Public Policy and Economics. Dissertation: The Expansion of Renewable Energy Technologies and Their Impact on Household Energy Portfolios and Sustainable Development: A Study Of Nepal.
- Sölver Ingi Thorsson**, Field of Specialization: Aerospace Engineering. Dissertation: Experimental and Numerical Investigation of Fiber Reinforced Laminated Composites Subject to Low-Velocity Impact.
- David Paul Todd**, Field of Specialization: Chemistry. Dissertation: Development of Nickel-Catalyzed Methods for Deoxygenation Processes.
- Bao Qui Tran**, Field of Specialization: Biostatistics. Dissertation: Multi-Stage Statistical Models for Cancer in Observational Studies and SMARTs.
- Anna Marie Trump**, Field of Specialization: Materials Science and Engineering. Dissertation: Recrystallization and Grain Growth Kinetics in Binary Alpha Titanium-Aluminum Alloys.
- Lai Yu Leo Tse**, Field of Specialization: Mechanical Engineering. Dissertation: Physics-Based Printhead Designs for Enhanced Electrohydrodynamic Jet Printing.
- Roberto Vezzani**, Field of Specialization: Romance Languages and Literatures Italian. Dissertation: Reframing Italianness: Circulation of Italian Fiction Films in the United States During the 1930s.
- Andrew Douglas Vonberg**, Field of Specialization: Immunology. Dissertation: The Importance of CD19+ Cells from Pre-diabetic NOD Mice in Delaying Onset of Disease in an Adoptive Transfer Model of Type 1 Diabetes Mellitus.
- Carol Marie Vos**, Field of Specialization: Nursing. Dissertation: Physical Activity in Assisted Living Facility Residents.
- Timothy Michael Wabel**, Field of Specialization: Aerospace Engineering. Dissertation: An Experimental Investigation of Premixed Combustion in Extreme Turbulence.
- Sarah Marie Walker**, Field of Specialization: Earth and Environmental Sciences. Dissertation: The Atomic and Electronic Structure of Contaminants at the Mineral-Fluid Interface.
- Weimin Wang**, Field of Specialization: Materials Science and Engineering. Dissertation: Materials Development for All-Solid State Battery Electrolytes.
- Zhijie Wang**, Field of Specialization: Civil Engineering. Dissertation: Contact Maturing and Aging of Silica Sand.
- Shengtao Wang**, Field of Specialization: Physics. Dissertation: Applications of Atomic Systems in Quantum Simulation, Quantum Computation and Topological Phases of Matter.
- Hayley Warsinske**, Field of Specialization: Microbiology and Immunology. Dissertation: Understanding the Role of TGF- β 1 in Interstitial Lung Disease Using a Multi-Scale Systems Biology Approach.
- Dan Wei**, Field of Specialization: Civil Engineering. Dissertation: Enhancement of Steel Moment Connections through Non-Traditional Sections and Materials.
- Tao Wen**, Field of Specialization: Geology. Dissertation: Development of Noble Gas Techniques to Fingerprint Shale Gas and Trace Sources of Hydrocarbon in Groundwater.
- Shinuo Weng**, Field of Specialization: Mechanical Engineering. Dissertation: To Be, or Not to Be: Cellular Homeostasis to Mechanical Perturbations.
- Xin Weng**, Field of Specialization: Mechanical Engineering. Dissertation: A Simplified Phase Display System for 3D Surface Measurement and Abnormal Surface Pattern Detection.
- Abigail Brittany Williams-Butler**, Field of Specialization: Social Work and Psychology. Dissertation: The Role of Relational Permanence in Positive Outcomes among African American Adolescents in Foster Care.
- Jesse Winters**, Field of Specialization: Neuroscience. Dissertation: Form and Function in the Scn1b-null Cerebellar Cortex: Implications for Epileptic Encephalopathy.
- Yaqi Wo**, Field of Specialization: Chemistry. Dissertation: S-Nitroso-N-acetylpenicillamine (SNAP)-Based Antithrombotic and Antimicrobial Polymers for Biomedical Applications: Nitric Oxide (NO) to the Rescue.
- Fan Wu**, Field of Specialization: Biostatistics. Dissertation: Analysis of Complex Survival and Longitudinal Data in Observational Study.
- Jiawen Xie**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Analytical and Numerical Modeling of Delamination Evolution in Fiber Reinforced Laminated Composites Subject to Flexural Loading.
- Zhao Xu**, Field of Specialization: Electrical Engineering. Dissertation: Terahertz (THz) Waveguiding Architecture Featuring Doubly-Corrugated Spoofed Surface Plasmon Polariton (DC-SSPP): Theory and Applications in Micro-Electronics and Sensing.
- Danny Yang**, Field of Specialization: Human Genetics. Dissertation: RNA- and Chromatin-binding Proteins in Small RNA-mediated Gene Silencing.
- Eongyu Yi**, Field of Specialization: Materials Science and Engineering. Dissertation: Aerosol Combustion Synthesis of Nanopowders and Processing to Functional Thin Films.
- Yalcin Yilmaz**, Field of Specialization: Electrical Engineering. Dissertation: Bio-inspired Hardware Architectures for Memory, Image Processing, and Control Applications.
- Xiang Yin**, Field of Specialization: Electrical Engineering-Systems. Dissertation: Property Enforcement for Partially-Observed Discrete-Event Systems.
- Brian Zamarron**, Field of Specialization: Immunology. Dissertation: Metabolic Abnormalities and Adipose Tissue Leukocyte Dynamics in a Murine Model of Obesity, Weight Loss, and Weight Regain.
- Chunyang Zhai**, Field of Specialization: Electrical Engineering. Dissertation: Building Blocks for Sampling and Digitization in High-speed Communication Systems.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Linjun Zhang, Field of Specialization: Mechanical Engineering. Dissertation: Hierarchical Design of Connected Cruise Control: Perception, Planning, and Execution.

Shuyi Zhang, Field of Specialization: Materials Science and Engineering. Dissertation: In-situ and Ex-situ Microscopy and Spectroscopy Study of Catalytic Materials.

Tim Zhang, Field of Specialization: Chemistry. Dissertation: Analyses of Electrochemical Phenomena at Hg Ultramicroelectrodes.

Chumin Zhao, Field of Specialization: Electrical Engineering. Dissertation: High Resolution Active Pixel Sensor X-Ray Detectors for Digital Breast Tomosynthesis.

Sheng Zheng, Field of Specialization: Chemical Engineering. Dissertation: Wax Deposition from Single-Phase Oil Flows and Water-Oil Two-Phase Flows in Oil Transportation Pipelines.

Xin Zhou, Field of Specialization: Mechanical

Engineering. Dissertation: Battery State of Health Monitoring via Estimation of Health-Relevant Electrochemical Variables.

Yiying Zhu, Field of Specialization: Biomedical Engineering. Dissertation: Assessment and Control of a Cavitation-Enabled Therapy for Minimally Invasive Myocardial Reduction.

UNIVERSITY OF MICHIGAN GRADUATES

August 2017

The following is a preliminary list of the candidates for degrees
to be granted upon completion of formal requirements.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Carol A. Fierke, Dean and Vice Provost for Academic

Certificate of Graduate Studies

Computational Discovery and Engineering
Young-Chae Hong

Spatial Analysis
Sara Anne Meerow

Master of Science

Chemical Biology
Shardae Herriford

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Founded in 1841, Andrew D. Martin, Dean

Master of Arts

Applied Economics
Rusa Nuhroj Izol
Tomohiro Niimi

Asian Studies: Japan
Christian Jaime Garcia

Russian, East European and Eurasian Studies
Janna Marie Waters

Master of Science

Chemistry
Kexin Zhang

Aaron Shawn Colborn
Corbin Cox Kuntze

Ecology and Evolutionary Biology
Susanna K. Campbell

Mathematics
Young-Chae Hong

MEDICAL SCHOOL

Founded in 1850, Marschall S. Runge, Dean

Master of Science

Biological Chemistry
Liu Liu
Fernando Miguel Nuñez

Pharmacology
Ruizhuo Chen
Yuda X. Chen
Aulina Chowdhury
Zachary Alexander Popovich
Benjamin Wasserman
Dorothy Wong
Seungbae Yang
Boya Zhang
Xujia Zhou

Physiology
Sabrina Maria Barretta
Christian James Bolton
Adam J. Bruderick
Brandon Ian Castor
Pauline Marie Devlin
Geoffrey Moore Ginter
Batoul Harissa
Annie Huang
Adam Matynowski
Elizabeth Anne Nesbitt
Andrew Chase Noah
Molly Nicole Pantelic
Ronak Patel

Alexander J. Piszker
Corbin Pontious
Niki Persia Sabetfakhri
Justine Jacqueline Savage
Abigail Nicole Simone
David Norman Storck
Jeffrey Richard Talarek
Anh-Dao Thi Tran
Phillip Luis Wachowiak
Aaron Wasserman
Caroline Little Wight

SCHOOL OF DENTISTRY

Founded in 1875, Laurie K. McCauley, Dean

Master of Science

Dental Hygiene

Sally Khalil Ammar
Elizabeth Idell Pitts

Orthodontics

Sarah Syklawer Howle
Inna Sydorak

Periodontics

Carlos Andres Garaicoa Pazmino
James Christian Mailoa
Pimchanok Sutthiboonyapan

Endodontics

Anna Malgorzata de Graft-Johnson

Pediatric Dentistry

Erin Ealba Bumann

The Yellow and Blue

Michael W. Balfe

4 Sing to the col-ors that float in the light; Hur-rah for the Yel-low and

7 Blue! Yel-low the stars as they ride thro' the night, And

10 reel in a rol-lick-ing crew Yel-low the fields where

13 rip-ens the grain, And yel-low the moon on the har-vest wain; Hail!

Hail to the col-ors that float in the light; Hur-rah for the Yel-low and Blue!

Statement on Freedom of Speech and Artistic Expression

Thank you for attending this program. The University of Michigan strives to create a truly open forum, one in which diverse opinions can be expressed and heard.

It is the right of members of the University community, speakers, artists, and other invited guests to express their views and opinions at the University. We will protect the right of individuals to speak or perform, and the rights of those members of the University community who wish to hear and communicate with an invited speaker or artist.

Protesters also have a right to express their opposition to a speaker in appropriate ways, both within the confines of this building and outside the facility. However, protesters must not interfere unduly with communication between a speaker or artist and members of the audience.

If the hosts of this event or University representatives believe that protesters are interfering unduly with a speaker or performer's freedom of expression, those protesters will be warned. If the warnings are not heeded and the interference continues, then the individuals responsible may be removed from the building.

We reaffirm these policies in order to most fully protect the rights of free expression for speakers, performers, and protesters alike, as set forth by our Civil Liberties Board in our Student Handbook, and in accordance with the U-M Standard Practice Guide; Regents' Ordinance Article XII, Section 1; and state statutes.

Nondiscrimination Policy Statement

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of Michigan is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be addressed to the Senior Director for Institutional Equity, and Title IX/Section 504/ADA Coordinator, Office for Institutional Equity, 2072 Administrative Services Building, Ann Arbor, Michigan 48109-1432, 734-763-0235, TTY 734-647-1388, institutional.equity@umich.edu. For other University of Michigan information call 734-764-1817.
