SPRING COMMENCEMENT 2024

Honoring the
Class of 2024

SPRING COMMENCEMENT UNIVERSITY OF MICHIGAN

MAY 4, 2024
MICHIGAN STADIUM

This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies	18
College of Literature, Science, and the Arts.....	29
Medical School	54
Law School	56
School of Dentistry	58
College of Pharmacy	60
Gerald R. Ford School of Public Policy.....	61
College of Engineering.....	62
Marsal Family School of Education	77
Stephen M. Ross School of Business.....	78
School for Environment and Sustainability	88
School of Music, Theatre & Dance	91
A. Alfred Taubman College of Architecture and Urban Planning	94
School of Nursing	96
School of Public Health	99
School of Social Work	103
University of Michigan-Flint	104
University of Michigan-Dearborn.....	112
School of Information	123
Penny W. Stamps School of Art & Design.....	126
School of Kinesiology.....	127

A preliminary list of August 2024 degree candidates begins on page 131.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

Those who are able are asked to stand for the portions of the program asterisked (). At the conclusion of the program, the audience is asked to remain standing until the stage party has left the field.

REGENTS OF THE UNIVERSITY

Jordan B. Acker	Huntington Woods
Michael J. Behm	Grand Blanc
Mark J. Bernstein	Ann Arbor
Paul W. Brown	Ann Arbor
Sarah Hubbard	Okemos
Denise Ilitch	Bingham Farms
Ron Weiser	Ann Arbor
Katherine E. White	Ann Arbor
Santa J. Ono	<i>ex officio</i>

EXECUTIVE OFFICERS

Santa J. Ono	<i>President</i>
Thomas A. Baird	<i>Vice President for Development</i>
Geoffrey Chatas	<i>Executive Vice President and Chief Financial Officer</i>
Martino Harmon	<i>Vice President for Student Life</i>
Richie C. Hunter	<i>Vice President for Communications</i>
Jon Kinsey	<i>Vice President and Secretary of the University</i>
Chris Kolb	<i>Vice President for Government Relations</i>
Arthur Lupia	<i>Interim Vice President for Research and Innovation</i>
Timothy G. Lynch	<i>Vice President and General Counsel</i>
Laurie K. McCauley	<i>Provost and Executive Vice President for Academic Affairs</i>
Ravi Pendse	<i>Vice President for Information Technology and Chief Information Officer</i>
Marschall S. Runge	<i>Executive Vice President for Medical Affairs</i>
Donna Fry	<i>Interim Chancellor University of Michigan-Flint</i>
Domenico Grasso	<i>Chancellor University of Michigan-Dearborn</i>

DEANS AND REPRESENTATIVES

Beth Angell	<i>Dean, School of Social Work</i>
F. DuBois Bowman	<i>Dean, School of Public Health</i>
Lisa R. Carter	<i>University Librarian and Dean of University Libraries</i>
Steven L. Ceccio	<i>Interim Dean, College of Engineering</i>
Anne Curzan	<i>Dean, College of Literature, Science, and the Arts</i>
Vicki Ellingrod	<i>Dean, College of Pharmacy</i>
Andrea Forte	<i>Dean, School of Information</i>
David A. Gier	<i>Dean, School of Music, Theatre & Dance</i>
Patricia D. Hurn	<i>Dean, School of Nursing (represented by Associate Dean Dana Tschannen)</i>
Carlos Francisco Jackson	<i>Dean, Penny W. Stamps School of Art & Design</i>
Kyle Logue	<i>Interim Dean, Law School</i>
Jonathan Massey	<i>Dean, A. Alfred Taubman College of Architecture and Urban Planning</i>
Sharon F. Matusik	<i>Edward J. Frey Dean of Business, Stephen M. Ross School of Business</i>
Elizabeth Birr Moje	<i>Dean, Marsal Family School of Education</i>
Jacques Nör	<i>Dean, School of Dentistry</i>
Jonathan T. Overpeck	<i>Samuel A. Graham Dean, School for Environment and Sustainability</i>
Lori Ploutz-Snyder	<i>Dean, School of Kinesiology</i>
Marschall S. Runge	<i>Dean, Medical School (represented by Professor Gil Omenn)</i>
Michael J. Solomon	<i>Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs–Graduate Studies</i>
Celeste Watkins-Hayes	<i>Joan and Sanford Weill Dean of Public Policy, Gerald R. Ford School of Public Policy</i>

HONORARY DEGREE RECIPIENT

Alexa Canady
Doctor of Science

Dr. Alexa Canady is the nation's first African American woman to be board-certified in neurosurgery (1984). A two-time graduate of the University of Michigan – earning a B.S. (1971) and an M.D. (1975) – she has also significantly advanced neurological research and championed equitable healthcare. She grew up in Lansing and entered U-M at age 16 (having applied without her parent's permission), became active in debate and served as editorial page editor for *The Michigan Daily*. A summer program for minority students introduced her to medicine and a scholarship secured her admittance to U-M's medical school. Yet, as a student, she was discouraged from pursuing neurosurgery because of her gender and race. "The greatest challenge I faced in becoming a neurosurgeon was believing it was possible," she has said. With persistence, she secured an internship at Yale University (1976) and a residency at the University of Minnesota (1981). She centered her training on pediatric neurosurgery, a subspecialty. A fellowship at Children's Hospital of Philadelphia followed (1982). She worked briefly at Henry Ford Hospital. In 1987, she joined Children's Hospital of Michigan in

Detroit as chief of pediatric surgery charged with developing the hospital's pediatric neurosurgery practice. Later she served as chairwoman of the hospital's Board of Trustees. Her patients were children, usually under age 10, who had life-threatening illnesses, gunshot wounds, head trauma, hydrocephaly, and other brain injuries and diseases. Always involved in neurological research, she and two other physicians hold the patent for the invention of a programmable antisiphon shunt to treat hydrocephalus.

While a practicing neurosurgeon, she taught at Wayne State University's medical school, rising to full professor and vice chair of the neurosurgery department. She practiced patient-centered care and promoted equitable healthcare access in the face of daunting racial disparities and childhood poverty. She enlisted charities and organized fundraisers to raise money for families without the means to pay for their children's care. "Before I came through Michigan, neurosurgery was a white man's world," she has said. "A scholarship helped me find my passion and set me on the path to changing that, not just for myself, but for the people who followed in my footsteps." She is a member of the Congress of Neurological Surgeons, the American Association of Neurological Surgeons, the Society of Pediatric Neurosurgery, and the American College of Neurosurgery. In 1989, she was inducted into the Michigan Women's Hall of Fame and featured in Brian Lanker's *I Dream A World: Portraits of Black Women Who Changed America*. The American Medical Women's Association presented her with its President's Award (1993); the U-M Alumnae Council honored her with its Athena Award for professional excellence and service (1995); *The Detroit News* named her a Michiganiaan of the Year (2001), and, in 2023, the American Association of Neurological Surgeons bestowed on her its Humanitarian Award.

HONORARY DEGREE RECIPIENT

Judith and Stanley Frankel

Doctor of Laws

Judith and Stanley Frankel are philanthropists of the highest — and quietest — order. For the past 30 years, they have seeded innovation and offered institutional leadership for the benefit of the University of Michigan, its students, scholars, and the greater community. Many of the Frankel's contributions have been offered anonymously or, at their request, with minimal fanfare. Mr. Frankel, who leads a privately held commercial real estate development and management company, graduated from U-M with an A.B. in economics (1963) and an M.B.A. (1964). Mrs. Frankel, a small business owner, attended U-M (1962-64) and graduated from Wayne State University with a B.A. in speech pathology. By their own admission, Mrs. Frankel is the entrepreneur and Mr. Frankel works in the “people business.” Their complementary professional expertise informs their charitable giving. Since 1995, they have sponsored Global Projects, the international equivalent of the Ross School of Business's signature action-based learning course. Over the decades, some 1,500 students have tackled projects for real-world companies, addressing issues such as market entry, joint ventures,

and strategic alliances while gaining international, entrepreneurial consulting experience. The Frankel's commitment to transformative student learning also prompted investment in a renovation and 7,000-square-foot expansion of U-M's historic Detroit Observatory, making it a universally accessible teaching center for future scientists, scholars, and citizens. The couple's funding of the Samuel and Jean Frankel Cardiovascular Center, named for Mr. Frankel's parents, has supported landmark medical studies and innovative approaches for diagnosis and treatment of patients, improving standards of care and saving lives. In 2023, their generosity created the Stanley and Judith Frankel Institute for Heart and Brain Health, a research community dedicated to discovering the root causes of heart and brain disease and developing new medical treatments. Mr. Frankel served as vice chair of the leadership cabinet for The Michigan Difference, the \$3.1 billion national capital campaign publicly launched in 2004 to support scholarships, endow professorships, and fund academic programs, facilities, and projects. The Frankel's contributions touch all corners of U-M, including the College of Literature, Science, and the Arts' Michigan Institute for Teaching and Research in Economics and its STAR Program; the School of Music, Theatre and Dance; the Life Sciences Institute; the Jean and Samuel Frankel Center for Judaic Studies; and Michigan Hillel, a student support organization. Their philanthropy extends throughout Southeast Michigan as well, most notably to the Detroit Symphony Orchestra. As chair of its board (2009-12), Mr. Frankel guided the orchestra through the Great Recession and subsequent musician's strike to resolution and creation of a blueprint for financial and cultural success. For the past 13 years, Mr. and Mrs. Frankel have been primary sponsors of Classical Roots, the Orchestra's annual concert showcasing the contributions African-American composers and musicians have made to classical music. They also have funded for many years the Orchestra's summer residency at Interlochen Center for the Arts, making it possible for world-class musicians to lead master classes and mentor music students one-on-one.

HONORARY DEGREE RECIPIENT

Photo: Helayne Seidman

Robin D. Givhan

Doctor of Laws

Robin D. Givhan speaks truth to power. A 1988 graduate of the University of Michigan, senior critic-at-large for *The Washington Post*, and winner of the 2006 Pulitzer Prize for Criticism, she is revered for her keen observation and shrewd commentary on American politics, race, business, and the arts. She approaches her subjects through the lens of fashion and is the first fashion critic to win a Pulitzer Prize. "Fashion is an entrée to basically everything," she has said. Her expansive view of the industry enables her to discuss such topics as the politicization of COVID-19 mask mandates, the disintegration of civility in the United States Congress, the transformation of the MAGA hat from swag to tribal identifier, and the appropriate dress for elected officials when representing the U.S. abroad. The Pulitzer Committee praised her "witty, closely observed essays that transform fashion criticism into cultural commentary." Coursing through her writing is respect for her general readership. Her commentary is rendered objectively and explained point-by-point to show readers how she arrived at her conclusions. Following the murder of George Floyd, she wrote "Fashion's Racial Reckoning" (2020),

which documented the industry's discriminatory practices and its efforts to open the fashion design world to people of color. She is a native Detroiter who earned a B.A. in English at Princeton University and an M.A. in journalism at U-M before beginning her career at the *Detroit Free Press* as a music and nightlife reporter. An unexpected opportunity landed her on the fashion beat. Her work has appeared in *Harper's Bazaar*, *Vogue*, *Vogue Italia*, *British Vogue*, *Essence*, *Elle UK*, *New York*, and *The New Yorker*. *Time* magazine named her to its list of "ALL-TIME 100 Fashion Icons." She has contributed to several books, including *Runway Madness*; *No Sweat: Fashion, Free Trade and the Rights of Garment Workers*; and *Thirty Ways of Looking at Hillary: Reflections by Women Writers*. She is the author, along with *The Washington Post* photo staff, of *Michelle: Her First Year as First Lady* (2010). Her first solo book, *The Battle of Versailles: The Night American Fashion Stumbled into the Spotlight and Made History* (2015), is a cultural history of the 1973 Franco-American fashion design competition that elevated the trajectory of American fashion designers and models.

HONORARY DEGREE RECIPIENT

Brad Meltzer
Doctor of Laws

Brad Meltzer is an award-winning, best-selling author in five genres — fiction, non-fiction, advice, children’s books, and comic books — and a lifelong champion for the teaching of history. He believes American history is shaped by ordinary people doing extraordinary things, and he has devoted his life to telling their stories. A first-generation college student, he graduated from the University of Michigan with a B.A. in history (1992). His first novel, written while in law school, was rejected 24 times. His second novel, *The Tenth Justice*, became a *New York Times* best-seller within a week. He has written 13 novels for adults — historically informed legal and political thrillers set in Washington D.C. — and all have been best sellers. Amid the danger and intrigue, ordinary characters take heroic action. He has written 38 children’s books, including 33 in the acclaimed kids book series, *Ordinary People Change the World*, also known as the “I Am” books. Each book introduces children to a real-life hero — *I Am Abraham Lincoln*, *I Am Frida Kahlo*, *I Am I.M. Pei* — and explores the hurdles they faced, including issues of identity and culture not often found in children’s literature. When

a Pennsylvania school board banned two of his books, *I Am Rosa Parks* and *I Am Martin Luther King Jr.*, he turned the episode into an educational opportunity and partnered with local students to advocate on behalf of all banned books. With more than seven million copies in print, his *Ordinary People Change the World* books are considered the number-one series for teaching history to this young age group. The TV show based on his books, *Xavier Riddle and the Secret Museum*, is a four-time Emmy award-nominated program with 28 million viewers. Every episode, children learn about the challenges and actions of historical figures and are guided to find ways to improve present-day life. He also used his TV show on the History Channel to help find the missing 9/11 flag that the firefighters raised at Ground Zero. His comic book, *Justice League of America*, won the Will Eisner Comic Industry Award (2008). His charitable and volunteer activities extend his passion for the teaching of history. He is on the boards of the National Archives Foundation and the Medal of Honor Museum Foundation, where he works to ensure the stories of minority recipients of the nation’s highest and most prestigious military decoration are well represented. He is an ambassador for the Women’s Suffrage National Monument Foundation, an effort led by the nation’s First Ladies to commemorate women’s fight for equality and the vote. He and his wife, Cori, co-founded City Year Miami, a branch of the national leadership and civic-action organization for high-school students, to help fund full-time mentors in Miami’s high-need schools, among other activities.

STUDENT SPEAKERS

Oluwami “Wami” Dosunmu-Ogunbi M.S.E, M.S.

*Doctor of Philosophy in Robotics Candidate
College of Engineering*

Oluwami “Wami” Dosunmu-Ogunbi is the first Black woman at the University of Michigan to earn a Ph.D. in Robotics. This is her third U-M degree; she has M.S. degrees in Mechanical Engineering (2020) and Robotics (2021). Wami’s research involves designing and testing algorithms to advance the bi-pedal locomotion of robots, including a robot’s ability to climb stairs and walk on surfaces that are not flat and not stationary. She also mentors future engineers and scientists, particularly young women and girls, through MUSES, a U-M organization that supports women of color pursuing advanced degrees, and the Detroit Area Pre-College Engineering Program. In 2024, she received the MLK Spirit Award for Mentoring and Inspiration and was inducted into the Bouchet Graduate Honor Society. A member of the National Society of Black Engineers, Wami plans to work in academia.

Theresa Rose Dvorocsik

*Bachelor of Arts in Economics
College of Literature, Science and the Arts
Bachelor of Fine Arts in Theatre Performance: Acting
School of Music, Theatre and Dance*

Theresa Rose Dvorocsik is a James B. Angell Scholar. She has achieved an “A” record for two or more consecutive terms while pursuing dual degrees, a B.F.A. in Theatre Performance: Acting with a minor in dance and a B.A. in economics with a minor in entrepreneurship from the Ross School of Business and the College of Engineering. She studied abroad in Copenhagen, Denmark. A frequent performer on University of Michigan stages, she led efforts to rebuild and maintain the theatre scene on campus during and after the COVID-19 pandemic. She held leadership positions with several student organizations, including artistic director for Blank Space Workshop and marketing director, executive board member, producer, designer, director, and actor for Basement Arts. After graduation, Theresa is moving to New York City.

Adeline Mae Tumolo

*Bachelor of Science in Biomolecular Science
College of Literature, Science, and the Arts*

Adeline Mae Tumolo is graduating from the College of Literature, Science, and the Arts with a B.S. in biomolecular science and a minor in gender and health. A certified clinical medical assistant, she has devoted her time outside the classroom to gaining real-world experience in healthcare. At Michigan Medicine, she worked under the direction of the Charge Nurse as a patient attendant. She provided research assistance at U-M’s Methods, Sex Differences, and Development Lab, and worked as a medical scribe for Trinity Health IHA Medical Group, Urology. For three years, she held volunteer leadership positions at WORTH – Women’s Organization on Rights To Health – to increase healthcare access for people of all classes, genders, races and sexual orientations. Adeline will work as a medical assistant at University of Chicago Medicine’s OB/GYN clinic before applying to medical school.

UNIVERSITY FLAGS AND FLAG BEARERS

The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

College of Literature, Science, and the Arts	Mia Brodeur
Medical School	Alexandra Vita
Law School	Alex Hayden DiLalla
School of Dentistry	Brittney Nasir
College of Pharmacy	Natalya Salganik
Horace H. Rackham School of Graduate Studies	Shantaris D. Brown
Gerald R. Ford School of Public Policy	Ardyansah
College of Engineering	Grace Haller
Marsal Family School of Education	Masa Baghal
Stephen M. Ross School of Business	<i>On stage</i>
President's flag	<i>On stage</i>
University flag	<i>On stage</i>
Regents' flag	<i>On stage</i>
School for Environment and Sustainability	Gautam Mathur
School of Music, Theatre & Dance	Cristina Gonzalez
A. Alfred Taubman College of Architecture and Urban Planning	Beatriz Vezzano Britto
School of Nursing	Autumn Ann Marie Farnum
School of Public Health	Soverno Chen
School of Social Work	Alejandro Villafuerte
University of Michigan-Flint	<i>On stage</i>
University of Michigan-Dearborn	Kayla Leonard
School of Information	Rahat Naseem
Penny W. Stamps School of Art & Design	Grace Dirig
School of Kinesiology	Jamison Nightingale

THE UNIVERSITY MACE

The University's mace is a symbol of academic scholarship, integrity, and authority. It is carried by the chair of the University Senate at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations, representing the connection of all faculty members to important academic rituals. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

ACADEMIC COLORS

Each discipline is represented by a unique color. Mingled colors distinguish combined curriculums.

Architecture and Urban Planning	<i>blue-violet</i>
Business Administration	<i>drab</i>
Dentistry	<i>lilac</i>
Education	<i>light blue</i>
Engineering	<i>orange</i>
Environment and Sustainability	<i>russet</i>
Fine Arts	<i>brown</i>
Information	<i>lemon</i>
Kinesiology	<i>sage green</i>
Law	<i>purple</i>
Literature and Arts	<i>white</i>
Medicine	<i>green</i>
Music	<i>pink</i>
Nursing	<i>apricot</i>
Pharmacy	<i>olive green</i>
Philosophy	<i>dark blue</i>
Public Health	<i>salmon pink</i>
Public Policy	<i>peacock blue</i>
Science	<i>golden yellow</i>
Social Work	<i>citron</i>

ACADEMIC DRESS AND CUSTOM

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

Gowns

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

Hoods

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor's, master's, and doctor's hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor's hood and the widest for the doctor's hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

Caps

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.

SCHOOLS AND COLLEGES OF THE UNIVERSITY

The order of presentation is by the year of founding.

College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 260 doctor of pharmacy and 70 graduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate programs in medicinal chemistry and pharmaceutical sciences; and doctor of philosophy programs in medicinal chemistry, pharmaceutical sciences, and social and administrative sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.

Horace H. Rackham School of Graduate Studies

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

Gerald R. Ford School of Public Policy

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management, and promotes improved public policy through research.

Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

College of Engineering

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people's lives around the world.

Marsal Family School of Education

The Marsal Family School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

Stephen M. Ross School of Business

Formally established in 1924, the Stephen M. Ross School of Business operates on the mission of building a better world through business. Today, at all levels of instruction — undergraduate, graduate, and executive education — its programs rank among the world's top business schools, preparing students to excel and lead in a dynamic world. Each year, as many as 1,600 new Michigan Ross graduates enter careers in business and academia, joining the more than 55,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

School for Environment and Sustainability

The clear-cutting of Michigan's densely forested wilderness was well underway when the University of Michigan began offering courses in forestry in 1881—the first university in the United States to do so. The year 1903 saw the creation of a Department of Forestry, forerunner of today's School for Environment and Sustainability (SEAS). The school's students and faculty organized the famous 1970 Teach-In on the Environment (the prototype of Earth Day), and incubated the scholarly disciplines of Environmental Justice, Environmental Education, and Environmental Informatics. From its inception as a forestry school to the interdisciplinary institution it is today, SEAS has always prepared leaders to understand and solve the major environmental challenges of the era.

School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

A. Alfred Taubman College of Architecture and Urban Planning

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

School of Nursing

The University of Michigan School of Nursing (UMSN) is an international leader in the advancement of nursing knowledge and strategies to improve health care. In addition to the four-year BSN program and the second career in nursing program, UMSN has a robust offering of graduate programs. Students are prepared to be leaders in advanced clinical practice through our M.S.N. and post-baccalaureate Doctorate of Nursing Practice (DNP) programs. Students can also lead and effect change through the M.S.N. or post-masters DNP programs in systems, populations, and leadership. UMSN's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

Founded in 1941 and ranked among the country's top public health schools, the University of Michigan School of Public Health educates more than 1,000 graduate and undergraduate students each year. With over 170 faculty and researchers across six departments and numerous collaborative centers and institutes, the school brings interdisciplinary, innovative solutions to complex health challenges, including chronic and infectious diseases, obesity and food insecurity, health care quality and cost, climate change and environmental factors, and socioeconomic inequalities and their impact on health. Compassion, innovation, and inclusion drive the faculty, staff, students, and 15,000 alumni of Michigan Public Health to pursue positive change and lasting impact on the health of the world.

School of Social Work

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

Penny W. Stamps School of Art & Design

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

School of Kinesiology

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

CANDIDATES FOR DEGREES AND CERTIFICATES

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. A candidate is listed alphabetically by degree, and in some cases also by field of specialization, under the school or college which awards the degree. In this program, candidates are presented in the order of which their respective schools or colleges were founded.

The Executive Board of the Horace H. Rackham School of Graduate Studies awards doctoral, master's, and some graduate professional degrees (e.g., master of public policy, master of urban planning). However, most graduate professional degrees, such as doctor of medicine, master of social work, etc., are awarded by the respective schools or colleges. The Graduate School does not offer course work, and advanced studies are conducted within the school or college of a candidate's area of specialization.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Michael J. Solomon, Dean and Vice Provost for Academic Affairs–Graduate Studies

Doctor of Musical Arts

- Gabe Condon**, Field of Specialization: Jazz and Contemporary Improvisation. Dissertation: A Constructivist Analysis of Jazz Pedagogy in European Sinti Communities.
- Kenneth Damion Gill II**, Field of Specialization: Jazz and Contemporary Improvisation. Dissertation: A Jazz-centered Transcultural Approach to Improvisational Studies: An Overview for Music Educators at the Middle School, High School, and University Levels.
- Bryan Anthony James**, Field of Specialization: Conducting (Choral). Dissertation: Summary of Dissertation Recitals: Three Choral Programs.

- Daniel Johnson**, Field of Specialization: Conducting (Band). Dissertation: A Summary of Three Dissertation Recitals.
- Siwon Kim**, Field of Specialization: Music Performance. Dissertation: Piano Performance Dissertation.
- Katherine Elizabeth Rohwer**, Field of Specialization: Conducting (Choral). Dissertation: Summary of Dissertation Recitals: Three Choral Programs.
- Bethany Worrell**, Field of Specialization: Music Performance. Dissertation: Notes on Three Dissertation Performances (Two Recitals and an Opera Role).

Doctor of Philosophy

- Saghar Adler**, Field of Specialization: Electrical and Computer Engineering. Dissertation: On the Importance of Inherent Structural Properties for Learning in Markov Decision Processes.
- Maria Luisa Adrover Castellano**, Field of Specialization: Chemical Biology. Dissertation: Chemoenzymatic Synthesis of Macrolides and Directed Evolution of the Pikromycin Thioesterase.
- Andy Rafael Aguilera**, Field of Specialization: History. Dissertation: In the Shadow of Mexico: Mexican and Mexican American Conservatives during the Eras of U.S. Conquest and the Mexican Revolution, 1848-1940.
- Maymona Al Hinai**, Field of Specialization: Nutritional Sciences. Dissertation: Essential Nutrients for Serene Nights: Exploring the Role of Iron and Vitamin D on Sleep Across Life Stages and Demographics.
- Michelle Maria Al-Ferzly**, Field of Specialization: History of Art. Dissertation: 'A Receptacle for Every Good Thing': The Art of Medieval Islamic Dining, Eighth to Fifteenth Centuries.
- Nana-Yaw Appegyei Andoh**, Field of Specialization: Urban and Regional Planning. Dissertation: Informal Settlements: The Intersection of Social Networks, Livelihoods, and the Built Environment in Johannesburg, Nairobi, and Accra.
- Kanat Anurakparadorn**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Design and Optimization of the Periodic Porous Polymer Composite Metamaterial Electromagnetic Absorbers.
- Roxana-Maria Aras**, Field of Specialization: Anthropology and History. Dissertation: Orthodoxy as a Way of Living: Religion, Sect, and Crisis in Lebanon.
- Grace Argo**, Field of Specialization: History and Women's and Gender Studies. Dissertation: Incest and the American Family.
- Maiko Judy Askari**, Field of Specialization: Chemistry. Dissertation: Electrochemical Nitrate Reduction to Ammonium by Electropolymerized Molecular Catalyst Films.
- Judy Jiyeon Baek**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Metabolic Regulation in Diabetic Kidney Disease.
- Joseph Lawrence Basalla**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Connecting a Bacterial Organelle to Its Positioning System.
- Kelsey Michelle Bates**, Field of Specialization: Physics. Dissertation: Multidimensional Coherent Spectroscopy: Probing the Strain Tensor in Diamond and the Effects of Correlated Dephasing.
- Robert Benisch**, Field of Specialization: Chemical Biology. Dissertation: Biochemical Characterization of Novel Encapsulin Systems Involved in Microbial Sulfur Metabolism and Gluconeogenesis.
- Andrew B. Bernard**, Field of Specialization: Anthropology. Dissertation: Primate Distribution Dynamics and the Effects of Contemporary Climate Change Along an Elevational Gradient in Indonesian Borneo.
- Leah Bernardo-Ciddio**, Field of Specialization: Classical Art and Archaeology. Dissertation: Ceramics, Craft Communities, and Cultural Interactions in the First Millennium Adriatic: Production and Trade of Apulian Matt-Painted Pottery.
- Xhulja Biraku**, Field of Specialization: Mechanical Engineering. Dissertation: Investigation of Nanoparticles Incorporation During Plant Growth to Improve Natural Fiber Properties.
- Sasha Gabrielle Davidka Bishop**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Floral Evolution Beyond Phenology: Adaptive Dynamics in Plant-Pollinator Interactions Under Global Change.
- Daniel Robert Blakemore**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Applications of Laser Ablation Inductively Coupled Plasma Mass Spectrometry to Problems in Mineral Resource Geology.
- Katherine Bonefas**, Field of Specialization: Neuroscience. Dissertation: Soma-To-Germline Transition and Sexually Dimorphic Transcription in a Chromatin-Linked Neurodevelopmental Disorder.
- Monica E. Bonilla**, Field of Specialization: Cancer Biology. Dissertation: Mapping the Metabolic Landscape of the Healthy Human Pancreas and the Pancreatic Tumor Microenvironment.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Taylor G. Brandt**, Field of Specialization: Materials Science and Engineering. Dissertation: Liquid-Feed Flame Spray Pyrolysis Synthesized Active Material Nanopowders: Toward Co-free, High-Energy Density, and Low-Cost Li-Ion Batteries.
- Emma Rose Brannon**, Field of Specialization: Chemical Engineering. Dissertation: Leveraging Neutrophil-Particle Interactions to Develop Therapeutics for Acute Inflammatory Diseases.
- Leila Braun**, Field of Specialization: English Language and Literature. Dissertation: Everyday Apocalypse: Minor Realism in the Contemporary Climate Novel.
- Hannah Bredar**, Field of Specialization: English Language and Literature. Dissertation: The Affects of Critique: Women and Satire in Early Modern England.
- Joseph M. Breeden**, Field of Specialization: Aerospace Engineering. Dissertation: Constrained Control and Online Safety Filtering for Autonomous Space Systems.
- Ethan Brooks**, Field of Specialization: Computer Science and Engineering. Dissertation: Explorations of In-Context Reinforcement Learning.
- Anna Brosowsky**, Field of Specialization: Mathematics. Dissertation: The Cartier Core Map and F-graded Systems.
- Zachariah Alexander Brown**, Field of Specialization: Aerospace Engineering. Dissertation: Small-scale Instability Driven Electron Transport in Hall Thrusters.
- Yingzi Bu**, Field of Specialization: Pharmaceutical Sciences and Scientific Computing. Dissertation: Machine Learning Guided Drug Discovery: Comprehensive Application in Janus Kinase Inhibitor Design.
- Marshall Calvin Buchanan**, Field of Specialization: Classical Studies. Dissertation: Narratives of Decline in Roman and Chinese Historiography.
- Elli Merisa Buchert**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Encoding Cell Cycle Regulatory Information in the Genome.
- Gwendolyn Erin Burgess**, Field of Specialization: Pharmacology. Dissertation: Behavioral Effects of Opioid Analgesics in the Presence or Absence of Chronic Neuropathic Pain.
- Ryan E. Burton**, Field of Specialization: Information. Dissertation: Augmenting Interactive Information Seeking with System-Level Assistance.
- Brandon Butler**, Field of Specialization: Chemical Engineering and Scientific Computing. Dissertation: On the Development of Tools for the Study of Colloidal Self-Assembly.
- Averill Perrault Cantwell**, Field of Specialization: Psychology. Dissertation: The Evolutionary Origins of Executive Function in Primates: An Individual Differences Approach.
- Jie Cao**, Field of Specialization: Bioinformatics. Dissertation: Development and Validation of Transportable, Clinically Applicable and Scalable Machine Learning Models for Acute Kidney Injury.
- Varun Chakrapani**, Field of Specialization: Mechanical Engineering. Dissertation: Experimental Studies Identifying and Minimizing Sources of Pollutant Emissions from Advanced Engines and Light Duty Vehicles.
- Elias Hazen Chandarlis**, Field of Specialization: Psychology. Dissertation: Examining the Relationship between Social Trust, Empathic Concern, the Principle of Care, and Low-cost and High-cost Prosocial Behaviors in Sociodemographic Contexts.
- Kai-Wei Chang**, Field of Specialization: Biomedical Engineering. Dissertation: Photoacoustic Imaging of Evoked Cortical and Subcortical Responses in Small Animal Brain.
- Hsiang-Wen Chen**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Advanced Noise-Shaping SAR ADC Techniques.
- Kuan-Yu Chen**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Design and Implementation of Domain-Specific Programmable Spatial Accelerators.
- Zhongzhu Chen**, Field of Specialization: Industrial and Operations Engineering and Scientific Computing. Dissertation: On Algorithmic Advances for Maximum-Entropy Sampling.
- Hayoung Cheon**, Field of Specialization: Business Administration. Dissertation: Two Essays on the Impact of Healthcare Policies.
- Tae Ho Cho**, Field of Specialization: Mechanical Engineering. Dissertation: Nanomanufacturing of Electronic and Battery Materials and Devices using Atomic Layer Deposition.
- Jeffrey Choy**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Studies in Financial Frontiers: Robo-Advising and Interconnected Markets.
- Chloe Anne Clarke**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: The Physical Representation of Bare Ice Albedo in Radiative Transfer Models and the Implications on Greenland Ice Sheet Albedo and Surface Mass Balance.
- Shelby Cox**, Field of Specialization: Mathematics. Dissertation: Algebraic Structures into Phylogenetics: Insights from Tropical Convexity and Likelihood Geometry.
- Justin Tyler Craft**, Field of Specialization: Linguistics. Dissertation: The Effect of Listener Experience and Social Expectation on Illusory Percepts.
- Kristen Cummings**, Field of Specialization: Higher Education. Dissertation: Exploring the Role of Tuition-Free Community College for Rural Communities: A Mixed Methods Approach.
- Allison Nicole Curley**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Applications of Carbonate Clumped Isotopes in Paleoclimate and Paleophysiology: Demystifying Biologically Driven Isotopic Fractionations in Class Bivalvia.
- Rana S. Dabaja**, Field of Specialization: Mechanical Engineering. Dissertation: Design and Manufacturing of Spatially Distributed and Interconnected Porous Architectures for Smart Dental Implants.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Liuhan Dai**, Field of Specialization: Chemistry. Dissertation: Advancing Quantitative DNA Biomarker Detection through Single Molecule Fluorescence Kinetic Fingerprinting.
- Derek Dang**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: Beyond the Warburg Effect: A Study of Metabolic Alterations in Malignancies of the Posterior Fossa.
- Prathamesh Madhav Datar**, Field of Specialization: Chemistry. Dissertation: Mechanistic Studies on the Prenylated- Flavin-Dependent Phenazine-1-Carboxylic Acid Decarboxylase.
- Mena K. Davidson**, Field of Specialization: Psychology. Dissertation: Influences of Affiliative Behavior in a Socially Monogamous Mammal.
- Devon Danielle Dennison**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Exploring the Mechanics of Golgi-localized Tull Selective Degradation.
- Karan Prakash Desai**, Field of Specialization: Computer Science and Engineering. Dissertation: Language Supervision for Computer Vision.
- Rucheng Diao**, Field of Specialization: Bioinformatics. Dissertation: Local Chromatin Environments Shape Transcription and Adaptive Immunity in Bacteria.
- Sean M. Donovan**, Field of Specialization: Film, Television, and Media. Dissertation: Queer Analog Pleasure and Digital Ambivalence: LGBTQ Media Worlds in Nostalgic Times.
- John Downing**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: High-Resolution Experiments of Flow Phenomena in Dead-ended Branch Lines for the Validation and Advancement of Computational Fluid Dynamics Modeling.
- Mark Dulchavsky**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Characterization and Improvement of a Nicotine-Degrading Flavoenzyme.
- James T. Duvall**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Development and Application of Hypernetworks for Discretization-Independent Surrogate Modeling of Physical Fields.
- Mohamed El Banani**, Field of Specialization: Computer Science and Engineering. Dissertation: Learning Visual Representations from Cross-Modal Correspondence.
- Christopher Robert Emproto**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Isotope Geochemistry and Mineralogy Applied to Energy-Critical Mineral Deposit Geology.
- Nizar Ezroua**, Field of Specialization: Physics. Dissertation: Probes of Supersymmetric Black Holes in AdS.
- Chongxing Fan**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: The Importance of Accurate Physical Parameterization for Radiative Transfer in Global Climate Simulations and Remote Sensing: Examples of Cloud Longwave Scattering and Solar Farm Modeling.
- Xinyu Fei**, Field of Specialization: Industrial and Operations Engineering and Scientific Computing. Dissertation: Optimization Methods for Mixed-Integer Control Problems in Complex Systems.
- Alex Feleo**, Field of Specialization: Aerospace Engineering. Dissertation: On the Adequacy of Global Pressure Gain as the Performance Metric for Rotating Detonation Combustors.
- Fan Feng**, Field of Specialization: Bioinformatics. Dissertation: Deciphering the Knowledge of Human Genome with Graphs.
- Ben Finkel**, Field of Specialization: Anthropology. Dissertation: The Challenges of Senescence for Adult Male Chimpanzees.
- Dillon Fitzgerald**, Field of Specialization: Physics. Dissertation: Studying Gluon Correlations and Nuclear Effects through Transverse Single-Spin Asymmetry Measurements at PHENIX and Promoting an Open Research Infrastructure in High Energy Physics.
- Thomas Michael Flanagan**, Field of Specialization: Business Administration. Dissertation: Essays on the Measurement and Detection of Risk in Banks.
- Garrett Fogo**, Field of Specialization: Neuroscience. Dissertation: Investigating the Interplay of Mitochondrial Dynamics and Proteostasis during Neuronal Ischemia/Reperfusion Injury using Integrated Imaging and Modeling Approaches.
- Bo Fu**, Field of Specialization: Robotics. Dissertation: A Learning and Planning Framework for Robust Task Allocation for Heterogeneous Robot Teams.
- Xun Fu**, Field of Specialization: Robotics. Dissertation: Modeling and Control of Continuum Appendages.
- Mallory Roberta Fuhst**, Field of Specialization: Applied Physics. Dissertation: Atomic-Scale Simulations of Solvent Decomposition and Solid-State Ion Transport in Alkaline-based Batteries.
- Noam Gannot**, Field of Specialization: Oral Health Sciences. Dissertation: A Neural Control Circuit for Cough-Like Defensive Behaviors in Mice.
- Mingjie Gao**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Advances in Image Reconstruction for Digital Breast Tomosynthesis.
- Chao Gao**, Field of Specialization: Bioinformatics. Dissertation: Computational Methods for Single-Cell and Spatial Multimodal Data Integration.
- Tate Marlow Gill**, Field of Specialization: Aerospace Engineering. Dissertation: Fundamental Limitations of Rotating Magnetic Field Thrusters.
- Elana Robyn Goldenkoff**, Field of Specialization: Movement Science. Dissertation: Optimizing Repetitive Transcranial Magnetic Stimulation Protocols for Motor Function.
- Robert Scott Goldsmith**, Field of Specialization: Pharmacology. Dissertation: Characterizing the Role of Palmitoylation in Cardiac Fibroblast Activation and Fibrosis.
- Xianliang Gong**, Field of Specialization: Naval Architecture and Marine Engineering and Scientific Computing. Dissertation: A Computational Framework for Quantifying Extreme-Event Statistics in Nonlinear Systems with Stochastic Input.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Yiming Gong**, Field of Specialization: Physics. Dissertation: Quantum Interference Control (QuIC) of Currents in Semiconductors.
- Gabriel A. Gonzalez**, Field of Specialization: Chemistry. Dissertation: Studies on the Development of Palladium-Catalyzed Alkene Difunctionalization Reactions for the Synthesis of Nitrogen-Containing Heterocycles.
- Fernando Gorab Leme**, Field of Specialization: Classical Studies. Dissertation: Hymen Will Light Up Our Torches: The Significance and Transformation of the Wedding Song in Greco-Roman Antiquity.
- Wenjin Gu**, Field of Specialization: Bioinformatics. Dissertation: Development of Human Papillomavirus Integration Analysis Technologies for Human Papillomavirus-Associated Cancer Research.
- Audrey R. M. Gutierrez**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Geometric and Plasmonic Effects in Radiative Heat Transfer.
- Steve Derek Guzman**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Aging, Oxidative Stress, and Schwann Cell Regulation: Implications for Neuromuscular Health.
- James Robert Haggerty-Skeans**, Field of Specialization: Cellular and Molecular Biology. Dissertation: PTEN Hemizygoty Drives Lower DNA Methylation, Immune Suppression, and Aggressive Behavior in IDH1-Mutant Astrocytomas.
- Rakesh Halder**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Data-Driven Surrogate Models for Computational Fluid Dynamics.
- Brian David Hall**, Field of Specialization: Information. Dissertation: Understanding, Communicating, and Reducing Analytical Uncertainty: Theory, Visualization Designs, and an Augmented Presentation System to Support Validation and Interpretation of a Multiverse Analysis.
- Ian Hall**, Field of Specialization: Chemistry. Dissertation: Characterization of non-coding regulatory RNA from *Listeria monocytogenes*
- Felicia A. Hardi**, Field of Specialization: Psychology. Dissertation: Heterogeneity in the Neural Mechanisms of Adversity: Implications for Developmental Risk and Resilience.
- Jeremiah Michael Axtell Hauth**, Field of Specialization: Mechanical Engineering and Scientific Computing. Dissertation: Advances in Intuitive Priors and Scalable Algorithms for Bayesian Deep Neural Network Models in Scientific Applications.
- Wenjia He**, Field of Specialization: Computer Science and Engineering. Dissertation: Towards Query Processing in Video Database Management Systems.
- Rosemary Elizabeth Henn**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Obesity Induced Microglial Activation and its Role in Hippocampal Dysfunction.
- Esmeralda Ana Hernandez - Hamed**, Field of Specialization: Higher Education. Dissertation: Tempered Actions in the Face of Tempered Resistance: Practitioners' Role in Change in Support of Undocumented Students in California Community Colleges.
- Matthew Todd Hershey**, Field of Specialization: History. Dissertation: Inclination Toward Death: Suicide, Sacrifice, and State Collapse in First World War Germany.
- Alexandra Eileen Herzog**, Field of Specialization: Oral Health Sciences. Dissertation: Chemoresistance of Head and Neck Cancer Stem Cells.
- Alex Paul Hoffmann**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Signal Processing Techniques for Spaceflight Magnetometry: Advanced Algorithms for Boomless Magnetic Field Measurements.
- Kristen Wai Yan Hong Dorsey**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Evaluation of Lipid-Based Nanoparticles for the Treatment of Cardiovascular Diseases.
- Yen-Yu Hsu**, Field of Specialization: Mechanical Engineering. Dissertation: Mechanosensitive Biological Functions: From Membrane Tension to Synthetic Exocytosis.
- Xiaheng Huang**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Monolithic Integration and Advancement of Micro-gas chromatography From Components to Systems and From 1D to 2D.
- Yiqiao Huang**, Field of Specialization: Materials Science and Engineering. Dissertation: Development of Metal Selenide Semiconductor Nanocomposites through Cation Exchange at Room Temperature.
- Maheen Humayun**, Field of Specialization: Epidemiological Science. Dissertation: Characterizing Socio-Demographic Tuberculosis Disparities and their Underlying Drivers across Subpopulations in both Low and High Burden Settings.
- William Hurst**, Field of Specialization: Business Administration and Political Science. Dissertation: Diversity, Polarization, and Recruiting.
- Sarah Ann Smith Inendino**, Field of Specialization: Music: Music Education. Dissertation: The Learning Experiences of Musical Theatre Teaching Artists in a Performing Arts High School.
- Mike Ion**, Field of Specialization: Educational Studies. Dissertation: Beyond the Classroom: Exploring Mathematics Engagement in Online Communities with Natural Language Processing.
- Safa Jabri**, Field of Specialization: Mechanical Engineering. Dissertation: Advancing IMU-based Automated Balance Assessment and Rehabilitation through Applied Machine Learning.
- Christian Scott Jacobsen**, Field of Specialization: Aerospace Engineering. Dissertation: Enhancing Physical Modeling with Interpretable Physics-Aware Machine Learning.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Nishant Mangesh Jalgaonkar**, Field of Specialization: Mechanical Engineering. Dissertation: Preemptive Interventions for Carsickness Mitigation and Their Effects on Passenger Task Performance.
- Boonjae Jang**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Mechanism Study of PVA-based Self-healing Adhesive and Its Applications.
- Ariba Javed**, Field of Specialization: Materials Science and Engineering. Dissertation: Light at the End of the Funnel: Fluorescence-Detected Two-Dimensional Electronic Spectroscopy to Probe Photosynthesis in Bacteria.
- Ebony Desiree Johnson**, Field of Specialization: Sociology. Dissertation: Understanding Healthy Aging Trajectories: The Role of Adverse Life Events, Sociodemographics, and Measurement Strategies.
- Kaylin Jones**, Field of Specialization: Environmental Engineering. Dissertation: The Influence of Local Hydrodynamics on Fish Movement in Fluvial Infrastructure.
- Padma Kadiyala**, Field of Specialization: Immunology. Dissertation: Cellular Crosstalk in Pancreas Cancer Microenvironment: Mechanisms of Tumor Immune Evasion and Immune Suppression.
- Vaishnav Kameswaran**, Field of Specialization: Information. Dissertation: Help Facilitates Accessibility: Understanding the Social and Technology-mediated Experiences of People with Visual Impairments in India.
- Sarah A. Katz**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Andean Interglacial Climate and Hydrology Over the Last 650,000 Years.
- Metin Kayitmazbatir**, Field of Specialization: Mechanical Engineering. Dissertation: Laser Processing of Aluminum Alloys: Hypereutectic Al-Si Surface Remelting and Al6061- RAM2 Additive Manufacturing.
- Ashkan Kazemi**, Field of Specialization: Computer Science and Engineering. Dissertation: Human-Centered Natural Language Processing for Countering Misinformation.
- Bobby N. Kent III**, Field of Specialization: Biomedical Engineering. Dissertation: Spatiotemporal Control of Tendon Healing through Modular, Injectable Hydrogel Composites.
- Sayantana Khan**, Field of Specialization: Mathematics. Dissertation: Dynamics on the Moduli Space of Non-Orientable Surfaces.
- Joseph Taehyung Kim**, Field of Specialization: Robotics. Dissertation: Enhancing Safety, Efficiency, and Resilience in Advanced Air Mobility Through Geofencing, Contingency Landing Management, and Optimized Network Strategies.
- Renaud B. Kim**, Field of Specialization: Bioinformatics. Dissertation: Applications of Machine Learning in Pharmacology and Clinical Decision Support.
- Wesley King**, Field of Specialization: Health Behavior And Health Education. Dissertation: Critical Race Approaches to Understanding Health Inequities Impacting Trans People of Color in the United States.
- Hadrian Kinnear**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Reproductive Impact of Testosterone Therapy in a Transgender Mouse Model.
- Daniel James Knister**, Field of Specialization: Mechanical Engineering. Dissertation: Experimental Study of Cavitation Inception During Vortex-Vortex Interaction and Investigation of Constrained Volumetric Velocimetry Methods.
- Carissa B. Knox**, Field of Specialization: Environment and Sustainability. Dissertation: Using Participatory Modeling to Understand and Manage Complex Adaptive Systems.
- Eunah Ko**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Flexible, Multi-color Michigan Optoelectrodes for Advanced Neuroscience Studies.
- Venkata Nirupama Sumangala Korada**, Field of Specialization: Biophysics. Dissertation: Studies on Steroidogenic Human Aromatase: Exploring Membrane Composition and Alternative Substrates.
- Rebecca Paige Krosnick**, Field of Specialization: Computer Science and Engineering. Dissertation: Improving Web Automation Tools through UI Context and Demonstration.
- Florian Krüger**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Modeling and Optimization of High Aspect Ratio Plasma Etching.
- Molly Elizabeth Kuo**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Defining the Role of CysteinyI-tRNA Synthetase (CARS1) in Human Recessive Disease.
- Brandon Douglas LaFleur**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Development and Assessment of Machine Learning Techniques for Non-Intrusive Probabilistic Surrogate Modeling of High-Fidelity Nuclear Reactor Simulations.
- Virginia Ann Larson**, Field of Specialization: Chemistry. Dissertation: Earth Abundant Transition Metal Molecular Complexes for Water Splitting.
- Matthew Richard Lasky**, Field of Specialization: Chemistry. Dissertation: Development of Photocatalytic Methods for the Construction of Aryl Carbon-Nitrogen Bonds.
- Jonathan Lee**, Field of Specialization: Chemical Engineering. Dissertation: Application of Hydrogel-Based Materials for Vascular Targeted Drug Delivery.
- Bomi Lee**, Field of Specialization: Political Science. Dissertation: Perception of Economic Standing and Political Participation in Urban Neighborhoods.
- Abbie Diane Leino**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Home-based Therapeutic Drug Monitoring for Patient-Centric Precision Dosing of Immunosuppression after Solid Organ Transplantation.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Ashley Erin Lenhart**, Field of Specialization: Chemistry. Dissertation: Development of Microfluidic, Immunoassay, Liquid Chromatography, and Mass Spectrometry Methods for Analysis of Islet Cell Secretions.
- Yifan Li**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Model Based Work Assessment: Combining Spatial and Temporal Modeling for Structured Proactive Work Analysis.
- Zongyu Li**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Solving Poisson Inverse Problem with Application to Phase Retrieval and Single Photon Emission Computerized Tomography.
- Zun Li**, Field of Specialization: Computer Science and Engineering. Dissertation: Artificial Intelligence Algorithms for Large Economic and Computer Games.
- Siqi Li**, Field of Specialization: Chemistry. Dissertation: Electrochemical Oxidation of Bio-derivable Alcohols Using Inorganic Materials and Mediators.
- Yuan Li**, Field of Specialization: Microbiology and Immunology. Dissertation: Evolutionary Constraints and Potential of the Influenza A Virus RNA-dependent RNA Polymerase.
- Chengyi Li**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Immuno-therapeutics Modulating B Immunity Against Cancer.
- Jiwon Lim**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Polydopamine Chemistry: Adhesion Mechanism, Copolymerization, and Application.
- Ju Won Lim**, Field of Specialization: Materials Science and Engineering. Dissertation: Calorimetric Systems to Explore Radiative Thermal Transport and the Thermodynamics of Hydrogen (H₂) Reactions for Energy Utilization.
- Ting Lin**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Elucidating the Interfacial Molecular Interaction Mechanisms of Silicone Adhesive, Polymer Degradation and Polymer Bio-applications Using Advanced Spectroscopy.
- Wei-Kuan Lin**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Optical Resonators for Photoacoustic Applications.
- George Robert Lindemann**, Field of Specialization: Materials Science and Engineering. Dissertation: In Situ Studies of Pattern Formation and Evolution in Complex, Multi-Phase Alloys.
- Bowen Liu**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Deep Signal Compression with Feature Representation Learning.
- Zexiang Liu**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Exploiting Structure in Safety Control.
- Meichen Liu**, Field of Specialization: Earth and Environmental Sciences and Scientific Computing. Dissertation: Insights on Earthquakes and Thermochemical Heterogeneity in Earth's Deep Interior: Generation and Propagation of Seismic Waves.
- Qian Mauro Liu**, Field of Specialization: Romance Languages and Literatures Italian. Dissertation: Urban Exergue: On Blackness, Spectrality, and the Poetics of Landscape in Contemporary Italy.
- Shuhan Liu**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Engineering Precision Drug Dosing Models for Patients with Obesity.
- Rachel Naomi Logue Cook**, Field of Specialization: Movement Science. Dissertation: Untangling Complex Factors Influencing the Understanding of Age-Related Hand Impairments.
- Julisa Lopez**, Field of Specialization: Psychology. Dissertation: The Omission of Contemporary Native Peoples: An Ongoing Form of Settler Colonialism
- Ana I. Lopez Medina**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Prescription Medications and Abnormal Heart Rhythms: Understanding Genetics of Drug-Induced Long QT Syndrome.
- Nathan Louis**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Improving Articulated Pose Tracking and Contact Force Estimation for Qualitative Assessment of Human Actions.
- Haochang Luo**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Observed Convective and Moist Dynamics in Extratropical and Tropical Synoptic-scale Circulation during Boreal Summer.
- Chloe Leigh Luyet**, Field of Specialization: Chemical Engineering and Scientific Computing. Dissertation: A Computational Characterization of Nanoscale Interactions of Biological Systems.
- Jiacheng Ma**, Field of Specialization: Computer Science and Engineering. Dissertation: Systems and Debugging Supports for Hardware Designs.
- Kevin Hao Ma**, Field of Specialization: Mechanical Engineering. Dissertation: Electron Thermal Transport Modeling of Laser-Plasmas.
- Cheng Ma**, Field of Specialization: Statistics. Dissertation: Statistical Latent Space Models for International Classification of Diseases (ICD) Codes.
- Sicong Ma**, Field of Specialization: Biophysics. Dissertation: Structure and Targeting of Precursor MicroRNA-31: From Mechanism to Application.
- Marco Mangano**, Field of Specialization: Aerospace Engineering. Dissertation: High-Fidelity Aerostructural Design Optimization of Wind Turbine Rotors.
- Alexander D. Manohar**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Enabling Self-Adaptive Health Monitoring Systems on Crewless Vessels via a Network of Tensor Networks.
- Jiaxin Mao**, Field of Specialization: Nuclear Engineering and Radiological Sciences and Scientific Computing. Dissertation: Experimental and Computational Study on Flow Measurement and Mixing Characterization in High-Temperature Gas-Cooled Reactors.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Hancheng Mao**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: The Role of SEL1L-HRD1 Endoplasmic Reticulum-Associated Degradation in Hypothalamic Regulation of Metabolism and Beyond.
- Estefanía Martínez Valdivia**, Field of Specialization: Chemical Biology. Dissertation: Lipopeptidomimetics are Selective and Modifiable Coactivator Protein-Protein Interaction Inhibitors.
- Ava Kerrigan Mauser**, Field of Specialization: Biomedical Engineering. Dissertation: Engineered Protein Nanoparticles as Therapeutics for Gliomas.
- Erin L. McAuliffe**, Field of Specialization: Sociology. Dissertation: Undocumented Immigrant Youths and Special Immigrant Juvenile Status (SIJS): At the Crossroads of Child Welfare and Immigration Policy.
- Samantha Jane McGoldrick**, Field of Specialization: Biomedical Engineering. Dissertation: Inhibition of Ectopic Mineralization with Mineral-Binding Peptide.
- Andrew McGrath**, Field of Specialization: Medicinal Chemistry. Dissertation: The Development of Unorthodox Amine-Acid Coupling Reactions and Their Applications Towards Complex Molecules for a Systems Approach to Chemistry.
- Clinton Cheyenne McKenna**, Field of Specialization: Psychology. Dissertation: Self-Awareness Processes in Motivated Reasoning.
- James Meador**, Field of Specialization: Anthropology. Dissertation: Making Chinese Orthodox: Imperial Religion in Sino-Russian Contact.
- Matt J. Mender**, Field of Specialization: Biomedical Engineering. Dissertation: Improving Dexterity and Reliability of Restored Hand Movements Using a Brain-Machine Interface and Functional Electrical Stimulation.
- Fan-Hsuan Meng**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Neural Network Implementations on Titled Compute-In-Memory Systems.
- Wilson Nemoto Merrell**, Field of Specialization: Psychology. Dissertation: Conspicuous Experiences as Unique Social Signals of Both Status and Warmth.
- Krista Meserve**, Field of Specialization: Chemistry. Dissertation: Diagnostic and Prognostic Profiling of Infectious Diseases Through Multiplexed Protein Assays.
- Daniel Meyerend**, Field of Specialization: Communication. Dissertation: Whose Black is it Anyway?: Television, Competing Claims, and Conditions of Possibility in the Black Digital Popular.
- Stephanie Marie Miller**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Studies for the Laser Preheating Stage of Magnetized Liner Inertial Fusion.
- Peter Dominic Mitrano**, Field of Specialization: Robotics. Dissertation: Data-Efficient Robotic Manipulation of Deformable One-dimensional Objects with Unreliable Dynamics.
- Sriram Mohan**, Field of Specialization: Communication. Dissertation: The Digital Popular: Media Entertainment and Cultural Politics in Contemporary India.
- Thomas David Morgan**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Cichlids Model the Role of Riverine Connectivity in Shaping the Biogeography, Diversification, and Population Structure of Fishes in the Guiana Shield, South America.
- Jonathan Richard Morris**, Field of Specialization: Environment and Sustainability. Dissertation: The Community Ecology and Management of Natural Pest Control: Investigating Interaction Complexity and Local Farm Perturbations in Coffee Agroecosystems.
- Nicholas D. Moses**, Field of Specialization: Design Science. Dissertation: Design Across Distance and Difference: Characterizations of Remote Stakeholder Engagement and Designer Perceptions of Positionality During Front-End Engineering Design.
- Malavika Mukundan**, Field of Specialization: Mathematics. Dissertation: Transcendental Thurston Theory and Dynamical Approximations.
- Margaret Eva Wangari Mungai**, Field of Specialization: Mechanical Engineering. Dissertation: Towards a Fall-Tolerant Framework for Bipedal Robots.
- Ariana Munoz-Salgado**, Field of Specialization: Psychology. Dissertation: Do They Understand Me? Discrepancies in Faculty Advisors' Race-based Empathy Diminish Graduate Students of Color's Academic, Professional and Well-being Outcomes.
- Roz Murray**, Field of Specialization: Health Service Organization and Policy. Dissertation: Changes in Hospital Prices, Enrollee Out-of-Pocket Spending, and Hospital Behavior After Two Years of the Oregon State Employee Plan's Hospital Payment Cap.
- Naveen Narasimha Murthy**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Advances in Myelin Water Imaging and Stack-of-Spirals MRI: Image Reconstruction and Parameter Estimation.
- Suhyun Nam**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Multifunctional Ferroelectrics based Devices for Next Generation RF Front-ends.
- Yves Frantz Nazon II**, Field of Specialization: Mechanical Engineering. Dissertation: Estimation of Knee Joint Impedance During Walking and Its Implications for Robotic Control and Beyond.
- Emily Elizabeth Norwine**, Field of Specialization: Chemistry. Dissertation: Borane-Appended Ligand Design Strategies for Small Molecule Capture and Reactivity.
- Trevor James Odelberg**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Low-Power RF Integrated Circuit Receivers for Cellular IoT and OFDM.
- Wami Ogunbi**, Field of Specialization: Robotics. Dissertation: Ascending New Heights: Enhancing Bipedal Robotic Locomotion through Stair Climbing.
- Sungjin Oh**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Power-Efficient Neural Interface Circuits for Multi-Channel Deep-Brain Opto-Electrophysiology.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Maribel Esele Kiana Okiye**, Field of Specialization: Chemistry. Dissertation: Exploring the Metabolic Diversity of the Human Oral Microbiome for the Discovery of Novel Bioactive Secondary Metabolites Using Anaerobe Culturomics, Metabolomics, and High-Throughput Screening.
- Elizabeth Olson**, Field of Specialization: Robotics. Dissertation: Counter-Hypothetical Evidential Reasoning for Mobile Manipulation Robots.
- Stephen Andrew Olson**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Creating a Multi-Model Artificial Intelligence Framework to Predict the Operational Availability of a Laboratory-Scale Ship Machinery Plant.
- Meghan Elizabeth Orr**, Field of Specialization: Chemistry. Dissertation: The Investigation of Ultrafast Charge Dynamics within Conjugated Organic Ladder Semiconducting Materials for Optoelectronic Applications.
- Erkin Ötles**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Machine Learning for Healthcare: Model Development and Implementation in Longitudinal Settings.
- Yeori Park**, Field of Specialization: Anthropology. Dissertation: Tasteful Old Age: The Identity of the Aged Middle-Class, Nursing Home Tours, and Marketized Eldercare in China.
- Jun I. Park**, Field of Specialization: Cell and Developmental Biology. Dissertation: Novel Protamine Biology and its Regulatory Mechanisms in *Drosophila* Spermatogenesis.
- Tiani Perkins**, Field of Specialization: Psychology. Dissertation: Contributions Of Evaluative Feedback And Stereotype Threat For Black Americans' Causal Attributions.
- Olivia Pifer Alge**, Field of Specialization: Bioinformatics. Dissertation: Dynamic Machine Learning using Signal Processing and Tensor-Based Methods to Predict Clinical Outcomes.
- Michael Reginald Pitter**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: The Role of Peptidyl Arginine Deiminases in Regulating Anti-tumor Responses in Immune Cells.
- Charles Evans Powell**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Structures of Error Covariance in Global Navigation Satellite System Reflectometry.
- Sarah Alexandria Probst**, Field of Specialization: Psychology. Dissertation: Origins and Implications of Prosocial Behavior in Early Development.
- Matthew Pun**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Investigation of Epigenomic, Transcriptomic, and Metabolic Vulnerabilities in Rare Tumors of the Brain and Spine.
- Exequiel Punzalan**, Field of Specialization: Chemistry and Scientific Computing. Dissertation: Computational Investigations of Conformational Effects in Organometallic Polymerization Catalysts.
- Zack J. Quirk**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Investigating Leaf Adaptation and Evolution in Living and Fossil Non-woody Monocot Flowering Plants.
- Hrishikesh Vinay Rao**, Field of Specialization: Information. Dissertation: Understanding the Opportunities For Introducing Multimodal Tactile Graphics in Classrooms.
- Siddharth Rath**, Field of Specialization: Mechanical Engineering. Dissertation: On the Zeros of Flexible Systems.
- Julianna M. Richie**, Field of Specialization: Biomedical Engineering. Dissertation: Exploration and Realization of Sub-Neuronal Carbon Fiber Electrodes for Recording and Stimulation in the Nervous System.
- Benjamin Riley**, Field of Specialization: Mathematics. Dissertation: Self-Conjugate Cobordism and the Rectified Adams-Novikov Spectral Sequence.
- Kevin Enrique Rivera Cruz**, Field of Specialization: Chemistry. Dissertation: Modulating CO₂ Reduction Activity by Systematically Modifying the Molecular Catalyst Electronic Structure.
- Kazandra Rodriguez**, Field of Specialization: Movement Science. Dissertation: Operant Conditioning of Corticospinal Pathways Following Anterior Cruciate Ligament Reconstruction and Total Knee Arthroplasty.
- Bec Roldan**, Field of Specialization: Chemistry. Dissertation: Leveraging the Persistent Radical Effect in the Synthesis of Resveratrol Natural Products.
- Behnoush Rostami**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Technological and Computational Approaches for Large Count High-Density Neural Probes.
- Rohit Rajendra Rothe**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Energy Efficient Circuit Design Techniques and Beyond CMOS Exploration for Internet of Things (IoT).
- Bosun Abbas Roy-Layinde**, Field of Specialization: Chemical Engineering. Dissertation: Demonstrating High Performing Thermophotovoltaic Systems Using Novel Cell-Side Architectures.
- Harry Rubin-Falcone**, Field of Specialization: Computer Science and Engineering. Dissertation: Data-Driven Solutions for Blood Glucose Management.
- Ryan Rutkoski**, Field of Specialization: Medicinal Chemistry. Dissertation: Development of Solid Supported Glycosyl Phosphonates and their Application Towards the Synthesis of Bioactive Cardiotonic Steroids.
- Tayebeh Sahraeibelverdi**, Field of Specialization: Mechanical Engineering. Dissertation: Miniaturized Three-Axis Two-Photon Imaging System for Moving Mammals based on Micro-optical Systems.
- Peter Nipat Sajjakulnukit**, Field of Specialization: Cancer Biology. Dissertation: Defining the Nutrient Inputs that Support Pancreatic Cancer Metabolism.
- Brittany Salazar**, Field of Specialization: Cancer Biology. Dissertation: Mitotic Spindle Microtubule Bundling Promotes an Alternate Assembly Pathway.
- Iman Samani**, Field of Specialization: Aerospace Engineering. Dissertation: Active Flux Methods with Gradient Degrees of Freedom.
- Kannappan Sampath**, Field of Specialization: Mathematics. Dissertation: A p-adic Jacquet-Langlands Correspondence.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Darian Jay Santana**, Field of Specialization: Microbiology and Immunology. Dissertation: A Candida auris-Specific Adhesin, Scf1, Governs Surface Association, Colonization, and Virulence.
- Musawer Ahmad Saqif**, Field of Specialization: Civil Engineering and Scientific Computing. Dissertation: Inelastic Behavior of UHPC Material and Structures.
- Robert Saskowski**, Field of Specialization: Physics. Dissertation: Explorations in Precision Holography and Higher-derivative Supergravity.
- Patrik Thomas Schuler**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Navigating Imperfect Automation: Automation's Impact on Operator Dependence Behaviors, Response Strategies, and Adaptations.
- Oskar Fick Searfus**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Characterization of a ^4He Scintillation Detector and its Applications in Nuclear Material Assay.
- Sabet Seraj**, Field of Specialization: Aerospace Engineering. Dissertation: Aerodynamic Design Optimization of a Supersonic Transport Aircraft Considering Low-Speed Stability.
- Christopher Lee Sercel**, Field of Specialization: Aerospace Engineering. Dissertation: Characterization of Performance and Current Drive Mechanism for the Rotating Magnetic Field Thruster.
- Bilal Sharqi**, Field of Specialization: Aerospace Engineering. Dissertation: Ground Vibration Testing and Finite Element Model Updating of Very Flexible Aircraft.
- Jiaqi Shen**, Field of Specialization: Chemistry. Dissertation: Designing Chemical- and Light-Activated Protein Switches for Regulating Peptide Functions.
- Lirong Shi**, Field of Specialization: Chemistry. Dissertation: Spectroscopic and Electrochemical Study on Interfacial Structure and Interactions of Nonionic Surfactants and Self-assembled Monolayers for Various Applications.
- Sarah Rivero Skolnick**, Field of Specialization: Epidemiological Science. Dissertation: Lung Cancer Epidemiology and Prevention in Black Americans: Insights from Computational Models.
- Julia Marianne Smith**, Field of Specialization: Psychology. Dissertation: "If Only" in America: Counterfactual Thinking in Response to Politicized Negative Events.
- Emma K. Soberano**, Field of Specialization: English Language and Literature. Dissertation: Racialized Ecologies and the Literary Afterlives of the British Empire.
- Samuel Aaron Stern**, Field of Specialization: Economics. Dissertation: Empirical Essays on Firm Operations and Labor Economics.
- Richard Andrew Stewart**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Investigating Novel Beta-Catenin Interactions in Wnt Target Gene Regulation in Human and Drosophila Cells.
- Danny Stoll**, Field of Specialization: Mathematics. Dissertation: Dynamical Varieties.
- Alex Sundt**, Field of Specialization: Civil Engineering. Dissertation: Enhancing Ride-Pooling Operations: Algorithms, Heuristics and Simulation-Based Approaches.
- Harini Suri**, Field of Specialization: Psychology. Dissertation: Auditory Cortical Ensemble-Mechanisms Facilitating Auditory-Driven Behaviors and Perception.
- Ben Swanson**, Field of Specialization: Oral Health Sciences. Dissertation: Regenerative Engineering in the Bone Microenvironment: Towards Reestablishing Homeostasis and Function Using Implantable Biomaterial Scaffolds.
- Kimberly Leigh-Anne Swisher**, Field of Specialization: Anthropology. Dissertation: The Averett Culture: Migration, Mississippianization, and Community Practice in the Lower Chattahoochee River Valley.
- Kamolnat Tabattanon**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Bridging the Gap Between Mobility Perception and Performance for Aging Manual Wheelchair Users.
- Jessica Leigh Tami**, Field of Specialization: Chemistry. Dissertation: Developments in Aqueous and Nonaqueous Organic Redox Flow Batteries.
- Hongmei Tang**, Field of Specialization: Electrical and Computer Engineering. Dissertation: The Measurement and Optimization of Direct Laser Acceleration.
- Jingwen Tang**, Field of Specialization: Industrial and Operations Engineering and Scientific Computing. Dissertation: Online and Offline Learning Algorithms in Operations Management.
- Caleb José Tardío**, Field of Specialization: English Language and Literature. Dissertation: The Cry of The Machine: Sonic Technology, Postmodern Fiction, and the Analog Humanities.
- Ellen Patricia Thompson**, Field of Specialization: Environmental Engineering. Dissertation: Enhancing Predictions of Carbonate Dissolution Behavior Using Quantitative Heterogeneity Metrics from XCT Data.
- Elizabeth D. Tidwell**, Field of Specialization: Biophysics. Dissertation: Developing Methods for the Rapid Identification of FMN Riboswitch Binding Small Molecules.
- Kevin Patrick Toolan**, Field of Specialization: Genetics and Genomics. Dissertation: ASH1L is Necessary for Normal Development of Upper Layer Cortical Neurons.
- Jessica Trombley**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: The Cooperation of Condensin, Histone Methylation, and Nuclear Lamina Tethering Maintains X Chromosome Repression after the Establishment of Dosage Compensation.
- Meng-Ju Tsai**, Field of Specialization: Physics. Dissertation: Studies of Four-Top-Quark Production in Proton-Proton Collisions at the LHC With The Same-Sign Dilepton and Multilepton Final States.
- Chien-Wei Tseng**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Narrowband RF Localization Circuits and Systems.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Ruowen Tu**, Field of Specialization: Aerospace Engineering. Dissertation: Additive Manufacturing of High-Performance Engineering and Piezoelectric Polymers through Precipitation Printing.
- Wenbin Tu**, Field of Specialization: Medicinal Chemistry. Dissertation: Development of Potent and Selective Small-Molecule PROTAC Degradable SMARCA2 Protein.
- Tzu-Yun Tung**, Field of Specialization: Linguistics. Dissertation: Prediction and Memory Retrieval in Dependency Resolution.
- Saqib Ali Usman**, Field of Specialization: Anthropology. Dissertation: Blindness and Water Divination in the Saharan West.
- Mislael Valentin-Cortes**, Field of Specialization: Epidemiological Science. Dissertation: The Public Health Consequences of Compounding Disasters and Colonialism in Puerto Rico: A Mixed-Methods Investigation.
- Juan J. Valentín Goyco**, Field of Specialization: Pharmacology. Dissertation: Mechanistic and Pharmacological Studies of 11 β -hydroxylase (P450 11B1) and Aldosterone Synthase (P450 11B2).
- Thomas Valenza**, Field of Specialization: Materials Science and Engineering. Dissertation: High-Temperature Oxidation Mechanisms of Titanium and Titanium Alloys.
- Kathryn A. Van Zanen**, Field of Specialization: English and Education. Dissertation: Rhetoric and Networked Religious Identity: Raised-Evangelical Social Media Users Writing Back in 2020.
- Carlos Vivaldo**, Field of Specialization: Psychology. Dissertation: Sensing Movement: Encoding of Self and External Motion by Auditory Cortical Neuronal Ensembles.
- Guangyu Wang**, Field of Specialization: Materials Science and Engineering. Dissertation: Development of Polymer Based Composite and Organic-Inorganic Hybrid Materials for Application as Single Ion Conducting Solid-State Electrolytes.
- Hao Wang**, Field of Specialization: Mechanical Engineering. Dissertation: Conflict Analysis for Cooperative Maneuvering using Vehicle-to-everything (V2X) Communication.
- Kelly Wang**, Field of Specialization: Macromolecular Science and Engineering. Dissertation: Quasicrystal Growth Mechanisms and Generalized Defect Detection in Crystals.
- Ziyu Wang**, Field of Specialization: Electrical and Computer Engineering. Dissertation: High-Performance Process-in-Memory Architectures Design and Security Analysis.
- Shiyuan Wang**, Field of Specialization: Biophysics. Dissertation: Investigating the Regulatory Pathways of the Mitotic Oscillator Via a High-Throughput Droplet-Based System.
- Sidi Wang**, Field of Specialization: Biostatistics. Dissertation: Bayesian Methods for snSMART Designs with External Controls and Dynamic Prediction of Landmark Survival Time in Cancer Clinical Trials.
- Elisa Villaflores Warner**, Field of Specialization: Bioinformatics. Dissertation: Advancing Clinical Outcome Prediction through Innovative Multimodal and Domain-Generalized AI that Accommodates Limited Data.
- Emily Rose Wearing**, Field of Specialization: Chemistry. Dissertation: Development of New Visible-Light-Mediated Methods to Access Azetidines and Azetines.
- Hannah Weiss**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Evaluation of Augmented Reality and Wearable Sensors to Assess Neurovestibular and Sensorimotor Performance in Astronauts for Extravehicular Activity Readiness.
- Qiannan Wen**, Field of Specialization: Applied Physics. Dissertation: Lightwave, Phonon, and Charge-Transfer Dynamics in Quantum Semiconductors.
- Andrew Weng**, Field of Specialization: Mechanical Engineering and Scientific Computing. Dissertation: Lithium-Ion Battery Formation Modeling and Diagnostics.
- Christine Michelle Weston**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Design Techniques for Scalable Fully Integrated CMOS Digital Beamforming Receivers.
- Andrew Wilhelm**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Measurement and Application of Topological Information in Physically and Virtually Segmented Scintillators.
- Catherine Anne Wilhelm**, Field of Specialization: Chemistry. Dissertation: Substrate Recognition and Specificity of a Minimal Protein-Only RNase P.
- Anthony J Wing**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Viral Community Dynamics and Implications for the Fate of cHABs.
- Declan James Winship**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Arrayed Integrated Photoionization Detectors for Highly Integrated Microscale Gas Chromatography Systems.
- Andrew Richard Wintenberg**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Privacy and Utility in Dynamic Systems: Verification and Enforcement.
- James Aldine Wortman**, Field of Specialization: Chemical Engineering. Dissertation: Designing Synergy between Catalytic Methane Activation and Membrane Oxygen Transport to Promote Selective Oxidative Coupling of Methane.
- Man I Wu**, Field of Specialization: Robotics. Dissertation: Characterizing Human-Exoskeleton Fluency for Co-Adaptive Control of Ankle Exoskeletons.
- Henry Wu**, Field of Specialization: Chemistry. Dissertation: Electrodeposition of Intermetallic Compounds via Electrochemical Liquid-Liquid-Solid Method.
- Haokui Xu**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Electromagnetic Modelling for the Active and Passive Remote Sensing of Polar Ice Sheet and Signal of Opportunity (SoOp) Land Observation.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Zimu Yang, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Plasma Self-organized Pattern and the Coupling Processes at Plasma-liquid Interface.

Yao Yao, Field of Specialization: Oral Health Sciences. Dissertation: Electrohydrodynamic Jetted Biomaterials with Cell/Tissue Specificity for Gene Therapy and Regenerative Medicine.

Ellen Michelle Yeats, Field of Specialization: Biomedical Engineering. Dissertation: Acoustic Aberration and Methods for Correction in Transabdominal Histotripsy.

Iman YeckehZaare, Field of Specialization: Information. Dissertation: Harnessing Micro-Topics Arranged in Learning Pathways for Spaced Retrieval, Reading, and Collaborative Note-taking.

Runxue Yu, Field of Specialization: Physics and Scientific Computing. Dissertation: Self-Consistent Ab Initio Embedding Results for Real Materials.

Ray Zhang, Field of Specialization: Robotics. Dissertation: Spatial-Semantic 3D Robot Perception with Computational Symmetries.

Sam Zhang, Field of Specialization: Chemistry. Dissertation: Developing Methods for Reaction Informatics and Automation.

Yinying Zhang, Field of Specialization: Physics. Dissertation: Low-Temperature Physical Properties of Topological Semimetals.

Boya Zhang, Field of Specialization: Pharmacology. Dissertation: Erythrocyte Targeted IdeS - A Novel Therapeutic for Antibody-Mediated Hemolysis.

Hanrui Zhang, Field of Specialization: Bioinformatics. Dissertation: Predicting Drug Responses by Machine Learning.

Yun Zhang, Field of Specialization: Cancer Biology. Dissertation: Characterizing and Targeting Isoform Switching in Esophageal Adenocarcinoma Progression and Treatment Responsiveness.

Li Zhang, Field of Specialization: Chemical Biology. Dissertation: Mechanistic Insights Into the Regulation of PIKfyve.

Xintao Zhao, Field of Specialization: Electrical and Computer Engineering. Dissertation: Long-Term Non-Bleaching Nanoscale Imaging by Plasmonic Nanoscope.

Guanwei Zhou, Field of Specialization: Chemical Biology. Dissertation: Designing Genetically Encoded Reporters for Recording Signaling Processes in Living Cells.

Yingjie Zhu, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: New Insights into the Coronal Heating Problem: Analysis of Spectral Line Widths in the Solar Corona.

Sara Racheal Zobl, Field of Specialization: Sociology. Dissertation: Three Essays Linking Life Path Commonness to Women's Depressive Symptoms in Older Age.

Jiaren Zou, Field of Specialization: Biomedical Engineering. Dissertation: Data-Driven Joint Optimization of Acquisition and Reconstruction of Quantitative MRI.

Certificate of Graduate Studies

Computational Discovery and Engineering

A. Westley McMillan

Survey and Data Science

Sandy Beach
Ying He

Master of Science

UNIVERSITY OF MICHIGAN GRADUATES

AUGUST 2024

The following is a preliminary list of the candidates for degrees
to be granted upon completion of formal requirements.

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Founded in 1841, Anne Curzan, Dean

Bachelor in General Studies

Donovan Edwards
Megan D. Edwards

Dylan Joshua Glatt
Stone Alexander Kemp

Nicholas J. LeBlanc
Quinzel Eric Perry

Bachelor of Arts

Majidah Abdulkadir
Mercedes Ariel Aderman
Batool Altamimi
Riley Suiter Angileri
Rhea Manoj Babani
Noah L. Baylis
Ardiana Berishaj
Lennox La-Shawn Best Thomas
Kimberly Monique Briceño
Jessica Nicole Bright
Lane Brodzik
Autumn Lynn Bryant
Jailyn Alexis Charise Burks
Anthony Benjamin Castelucci
Breanna Raven Castillo
Bryce Anthony Chamberlain
Yiyou Chen
Zhennan Chen
Anthony Breice Carter Clark II
Lucy Elana Cosgrove
Aricka Elise Croxton
Nicholas Philip Daddona
Timothy Robert DeGrand
Sydney E. Diller
Mahalina Dimacali
Jacob Tumu Dominski
Lex Doty
Nia Rae' Echols
Richard Riley Eusey
Astana E. Gaffney
Maya Eliana Gamer
Esli Gaytan
Lydia Louise Glashouwer
Charles-Alexandria Makenna
Goodrum
Christopher A. Gray
Ava Rose Green
Noah Green
Luke Joseph Guitar
Yasmeen Ayah Hafeez
Michael L. Hammer
Emma Bassam Hammoud
Zahraa F. Hassoun
Hongxun He

Brittany Chanel Hull-Dennis
Fatima Idrees
Zena Issa
Allison Ann Jacobs
Iman Jamison
Amani Misbah Javaid
Alisha Ellen Jawad
Audrey Claire Jeffords
Melvin A. Johnson IV
Luke Daniel Jones
Portia Noel Juarez
Roni Bryanne Kane
Zoe Kantner
Andy Kimball
Morgan Ann King
Camryn Joy Klint
Meera S. Kumar
Nicholas Raymond Lachajewski
Janice Lee
Jiyoon Lee
Elizabeth Li
Mckenzie Olivia Liberi
Allyson M. Licht
Aidan Lin
Merrila Liu
Haille Gabrielle Lopez-McDonald
Claudia J. Lozon
Nico Magana
Legacee Mayes
Melanie Renae McNamara
Cassandra D. Mcdaniel
Ashley Lynne Measel
Breanna Nicole Merlino
Dalayna Caitlin Miller
Lillia Estelle Montemarano
Naomi Morrison
Janani Murugesan
Megan Marie Ocelnik
Sun Ik Park
Ashleigh Anne Paulik
Kaila Joy Pelton-Flavin
Michael Joseph Polizzi
Moria L. Reardon
Siboney Rebolledo

Luke G. Rinehart
Andrea Marie Roberts
Andrea Rodriguez
Mia Roh
Nathan Bryant Rosenberg
Peyton Alynn Rundell
Vimukthi Kanchana Rupasinghe
Marissa Marie Margaret Russo
Lynn A. Samman
Mia Jane Samson
Ana Maria Sanchez-Castillo
Brendan Wayne Schroder
Barbara Margaret Nansasi Scott
Rabecca Shah
Sophia Marie Shampine

Yueyu Gu	Robert Siddhartha Mohabeer	Manar M. Zoulfikar
Sana Ahmad Hameed	Danielle Moon	
Hannan Hanek	James Diller Murphy	

Bachelor of Science in Chemistry

Sahil Mani Kapila

RESIDENTIAL COLLEGE

Bachelor of Arts

Alma Marie Hearin
Hannah Marguerite Hook
Marian Pan

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Bachelor of Science

Miriam Noelle Bartleson
Eva Meryl Bugnaski
Zoe Ayla Bugnaski

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Certificate of Graduate Studies

Science, Technology, and Society

Elana Khanem Maloul

Master of Arts

Sociology

Levity Arthur Smith

Master of Science

Chemistry

Nicole Kathleen Orwat

Ecology and Evolutionary Biology

Anah Soble

MEDICAL SCHOOL

Founded in 1850, Marschall S. Runge, Dean

Recommended by the school faculty and the Executive Board of the Graduate School

Master of Science

Bioinformatics

Jenna H. Veenstra

Health and Health Care Research

Erin Elizabeth Isenberg

Health Infrastructures and Learning Systems

Maryyam Durrani
Jalen Cameron Fleming
Deidre Murch
Caleb Dean Riddering
Mark Wu

Pharmacology

Xinye Wang

Physiology

Hassan Ajrouche
Lorelei Baron
Selena Batista
Bridget Hannah Brady
Justin William Darragh
Arjun Kundan Jha
Krishna Sai Koka
Devon Grace Krasner
Bo Ryung Lee
Kristen M. Machado Diaz

Abdullah Masri
Mariam Nazjoo
Jenni T. Nguyen
Helly Rakesh Patel
Nicole Pereira
Logan Przysiecki
Mohammed Abdul Rasheed
Tilly Simpson
Katlyn Strong
Andrew Ryan Witty
Shuang Di Zhang
Shengyi Zhou

SCHOOL OF DENTISTRY

Founded in 1875, Jacques Nör, Dean

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Restorative Dentistry

Ghaida Raja H. Althebeti
Hiba Usman
Jeremy Wade

COLLEGE OF PHARMACY

Founded in 1876, Vicki Ellingrod, Dean

Bachelor of Science in Pharmaceutical Sciences

Saatvik R Vaishnav

Doctor of Pharmacy

Zaid Ahmad Khan
Jinsun Ryu
Jeanne Brynn Matilda Wallace

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Integrated Pharmaceutical Sciences

Zhiling Guo
Yuan Hang
Yuxin Huang

Ruohan Liu
Tao Liu
Andrea Maser
Maisa Nazzal
Ethan Malcom Roberts

Maira Ashif Vahora
Benyu Yang

Pharmaceutical Sciences

Ziyun Xia

GERALD R. FORD SCHOOL OF PUBLIC POLICY

Founded in 1914, Celeste Watkins-Hayes, Joan and Sanford Weill Dean of Public Policy

Bachelor of Arts in Public Policy

Kyle Monet Hill

Minor in Public Policy

Payton Reanne Aper

COLLEGE OF ENGINEERING

Founded in 1915, Steven L. Ceccio, Interim Dean

Bachelor of Science in Engineering

Aerospace Engineering

Kion Young

Biomedical Engineering

Akhil Ramesh

Chemical Engineering

Annelise Catherine Lemaire

Matthew Kai De Poon

Computer Engineering

Nathan Nakkapalli

Justin Yang

Jason K. Zheng

Data Science

Luke Brusseau

Electrical Engineering

Gharam Alsnayyan

Eleanor Jane Desmond

Environmental Engineering

Mary Claire Hess

Industrial and Operations Engineering

Thomas Aaron Adelman

Megan Beemer

Jaidyn Chauhan

Daniel N. Colón

Kate Olivia Howard

Alvin R. Li

Jack Smith Naidrich

Materials Science and Engineering

Vincent George Bouwhuis

Mechanical Engineering

Tori C. Caracciolo

Daisy Alexandra Guzman-Peña

Nam Hoang Le

Jared M. Liebetreu

Christian Joseph Nunez

Dylan G. Rich

Nuclear Engineering and Radiological Sciences

Joseph Scott Kopke

Julia Lynn Marshall

Certificate of Advanced Studies in Engineering

Innovation and Entrepreneurship

Anj Natalio

Master of Engineering

Automotive Engineering

Justin David Lueck

Energy Systems Engineering

Rabellais Dylan Mbomgnin

Sonja Eves Sorbye

Dakota Stowers

Global Automotive and Manufacturing Engineering

Alexandra Hannah Hamlock

Mindy Marie Heading

Systems Engineering and Design

Dani Adamson

Maya Hamka

Matthew Yinchun Tsang

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Biomedical Engineering

Emily Bence

Design Science

Anshiq A Agrawal

Jamie Fayne Blatnikoff

Khush Kapadia

McKenna Owens

Electrical and Computer Engineering

Yongmo Park

Robotics

Michael Guertler

Alyssa Tamvakis

COLLEGE OF ENGINEERING

Master of Science in Engineering

Biomedical Engineering

Mary Elaine Dickenson
Wutt Hmone Thin Kyi
Liam Matthews
Eleanor Marie Plaster
Nicole Marie Racca

Ingrid Lawton Rosko
Taylor Therese Schissel
Delaney Snow Sinko
Sydney Noelle Wheeler

Industrial and Operations Engineering

Rachel Divinagracia

MARSAL FAMILY SCHOOL OF EDUCATION

Founded in 1921, Elizabeth Birr Moje, Dean

Bachelor of Arts Education

Tasneem Madani
Christine Martínez

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Arts

Educational Leadership and Policy

Carina Huang
Xiaohui Wang

An alum of the University of Michigan.

It's a title that will stick with you from this day forward. On behalf of the Alumni Association of the University of Michigan, welcome. We are so glad to have you among our ranks.

Today is a momentous day. Celebrate it. Relish in it. But tomorrow, when you begin to figure out what comes next, we are here for you.

As a graduation gift, we are giving each of you a one-year membership to the Alumni Association. Keep an eye on your inbox for a message on how to access it.

No matter where you call home tomorrow, you'll never be far away from the University of Michigan as long as you are a part of the Alumni Association. No other organization knows that Wolverine state of mind better. The Maize and Blue that runs through your veins. That kindred spirit you feel when you see someone in a place as far away as China wearing a U-M T-shirt. We know that feeling. In fact, there are more than 672,000 of us who know that feeling.

The Alumni Association is the best way to maintain the tie with a place that has been woven into your DNA.

As you get started on your professional journey, we are alongside you as well. **Scan the QR code below to learn more about our services, including access to career coaches, webinars to learn how to write killer resumes, a job board, and so much more.**

Congratulations and welcome to our Michigan alum community! Forever, Go Blue!

Mary Kay Haben, MBA'79
Chair of the Board of Directors
Alumni Association of the
University of Michigan

Ayanna McConnell
President and CEO
Alumni Association of the
University of Michigan

Let us help you land your dream job.

Nondiscrimination Policy Statement

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of Michigan is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be addressed to the Senior Director for Institutional Equity, and Title IX/Section 504/ADA Coordinator, Office for Institutional Equity, 2072 Administrative Services Building, Ann Arbor, Michigan 48109-1432, 734-763-0235, TTY 734-647-1388, institutional.equity@umich.edu. For other University of Michigan information call 734-764-1817.

Freedom of Expression Statement

Thank you for attending this event.

Along with many other college campuses, we occasionally encounter disruptions during campus events. When that happens we strive to de-escalate the disruption and continue with the event. We appreciate your cooperation and understanding.

As a public university and an institution committed to diversity of thought and freedom of expression, the University of Michigan has many forums where members of the University community, speakers, artists, invited guests, and/or the general public can express their views and opinions. Yet not all University spaces or events are forums where everyone is invited to speak, perform, or gather.

No one is entitled to substantially disrupt the lawful speech or activities of others.

If the hosts of this event or university representatives believe that disruptions are interfering unduly with an event, they will, typically, warn the disruptors, and if the warnings are not heeded, then the disruptors may be removed from the event.

THE YELLOW AND BLUE

Sing to the colors that float in the light;
Hurrah for the Yellow and Blue!
Yellow the stars as they ride thro' the night,
And reel in a rollicking crew;

Yellow the fields where ripens the grain,
And yellow the moon on the harvest wain – Hail!

Hail to the colors that float in the light;
Hurrah for the Yellow and Blue!

THE VICTORS

Hail! to the victors valiant,
Hail! to the conqu'ring heroes,
Hail! Hail! to Michigan
the leaders and best.

Hail! to the victors valiant,
Hail! to the conqu'ring heroes,
Hail! Hail! to Michigan
the champions of the West!
