SPRING COMMENCEMENT 2023

Honoring the
Class of 2023

SPRING COMMENCEMENT UNIVERSITY OF MICHIGAN

APRIL 29, 2023
MICHIGAN STADIUM

This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

Horace H. Rackham School of Graduate Studies	19
College of Literature, Science, and the Arts.....	29
Medical School	53
Law School	55
School of Dentistry	57
College of Pharmacy	59
Gerald R. Ford School of Public Policy.....	60
College of Engineering	62
Marsal Family School of Education	76
Stephen M. Ross School of Business.....	77
School for Environment and Sustainability	87
School of Music, Theatre & Dance	90
A. Alfred Taubman College of Architecture and Urban Planning	93
School of Nursing	96
School of Public Health	98
School of Social Work	103
University of Michigan-Flint	104
University of Michigan-Dearborn.....	111
School of Information	121
Penny W. Stamps School of Art & Design.....	125
School of Kinesiology.....	126

A preliminary list of August 2023 degree candidates begins on page 129.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

ORDER OF EXERCISES

Honoring the Class of 2023

Class of 2023 Procession

Faculty Procession

***Platform Party Procession**

Grand March

Composed by Clare Grundman

University of Michigan Commencement Band

Richard Frey

Assistant Director of University Bands

***The National Anthem**

The Star Spangled Banner

The University of Michigan Men's Glee Club

The University of Michigan Women's Glee Club

Julie Skadsem

Conductor, Women's Glee Club

Welcome

Laurie K. McCauley

Provost and Executive Vice President for Academic Affairs

Commissioning of Reserve Officers' Training Corps

Katherine E. White

Brigadier General, U.S. Army National Guard

Special Assistant to the Chief, National Guard Bureau

2023 Graduate

Nicholos Daniel

Senior, Penny W. Stamps School of Art & Design

Opening Remarks

Anne Curzan

Dean, College of Literature, Science, and the Arts

Congratulations on Behalf of the Faculty

Allen Liu

Chair, Senate Advisory Committee on University Affairs

2023 Graduate

Byron D. Brooks

Master's Candidate, Marsal Family School of Education

Statement to the Class of 2023

Santa J. Ono

President

Musical Performance

School of Music, Theatre & Dance Jazz Combo

Featuring Caitlyn Bogart

School of Music, Theatre & Dance, 2025

Conferring of Honorary Degrees

Santa J. Ono

Mary Sue Coleman

Doctor of Humane Letters

Wynton L. Marsalis

Doctor of Music

Dominique Morisseau

Doctor of Fine Arts

2023 Graduate

Ayda Qureshi
Senior, College of Literature, Science, and the Arts

Commencement Address

Wynton L. Marsalis
Managing and Artistic Director of Jazz, Lincoln Center
Director of Jazz Studies, The Juilliard School
President, Louis Armstrong Educational Foundation

Conferring of Undergraduate Degrees and Recognition of Graduates of the Class of 2023

Santa J. Ono

Congratulations

Salene Hitchcock-Gear
Board of Directors,
Alumni Association of the University of Michigan

***The Alma Mater**

The Yellow and Blue
Composed by Michael W. Balfe
University of Michigan Commencement Band
and the Audience
(see words on page 152)

Closing

Laurie K. McCauley

***The Fight Song**

The Victors
Composed by Louis Elbel
University of Michigan Commencement Band
and the Audience
(see words on back cover)

***Recession of the Platform Party**

Proud Heritage
Composed by William Latham
University of Michigan Commencement Band

Those who are able are asked to stand for the portions of the program asterisked (). At the conclusion of the program, the audience is asked to remain standing until the platform party has left the field.

REGENTS OF THE UNIVERSITY

Jordan B. Acker	Huntington Woods
Michael J. Behm	Grand Blanc
Mark J. Bernstein	Ann Arbor
Paul W. Brown	Ann Arbor
Sarah Hubbard	Okemos
Denise Ilitch	Bingham Farms
Ron Weiser	Ann Arbor
Katherine E. White	Ann Arbor
Santa J. Ono	<i>ex officio</i>

EXECUTIVE OFFICERS

Santa J. Ono	<i>President</i>
Thomas A. Baird	<i>Vice President for Development</i>
Geoffrey Chatas	<i>Executive Vice President and Chief Financial Officer</i>
Sally J. Churchill	<i>Vice President and Secretary of the University</i>
Rebecca Cunningham	<i>Vice President for Research</i>
Rick Fitzgerald	<i>Interim Vice President for Communications</i>
Martino Harmon	<i>Vice President for Student Life</i>
Chris Kolb	<i>Vice President for Government Relations</i>
Timothy G. Lynch	<i>Vice President and General Counsel</i>
Laurie K. McCauley	<i>Provost and Executive Vice President for Academic Affairs</i>
Ravi Pendse	<i>Vice President for Information Technology and Chief Information Officer</i>
Marschall S. Runge	<i>Executive Vice President for Medical Affairs</i>
Debasish Dutta	<i>Chancellor University of Michigan-Flint</i>
Domenico Grasso	<i>Chancellor University of Michigan-Dearborn</i>

DEANS AND REPRESENTATIVES

Beth Angell	<i>Dean, School of Social Work</i>
F. DuBois Bowman	<i>Dean, School of Public Health</i>
Anne Curzan	<i>Dean, College of Literature, Science, and the Arts</i>
Vicki Ellingrod	<i>Dean, College of Pharmacy</i>
Alec D. Gallimore	<i>Robert J. Vlasic Dean of Engineering, College of Engineering</i>
David A. Gier	<i>Dean, School of Music, Theatre & Dance</i>
Donna Hayward	<i>Interim University Librarian and Dean of University Libraries</i>
Jan Hu	<i>Interim Dean, School of Dentistry</i>
Patricia D. Hurn	<i>Dean, School of Nursing (represented by Associate Dean Dana Tschannen)</i>
Carlos Francisco Jackson	<i>Dean, Penny W. Stamps School of Art & Design</i>
Jonathan Massey	<i>Dean, A. Alfred Taubman College of Architecture and Urban Planning</i>
Sharon F. Matusik	<i>Edward J. Frey Dean of Business, Stephen M. Ross School of Business</i>
Elizabeth Birr Moje	<i>Dean, Marsal Family School of Education</i>
Jonathan T. Overpeck	<i>Samuel A. Graham Dean, School for Environment and Sustainability</i>
Lori Ploutz-Snyder	<i>Dean, School of Kinesiology</i>
Marschall S. Runge	<i>Dean, Medical School (represented by Professor Gil Omenn)</i>
Michael J. Solomon	<i>Dean, Horace H. Rackham School of Graduate Studies and Vice Provost for Academic Affairs–Graduate Studies</i>
Celeste Watkins-Hayes	<i>Interim Dean of Public Policy, Gerald R. Ford School of Public Policy</i>
Mark D. West	<i>David A. Breach Dean of Law, Law School</i>
Elizabeth Yakel	<i>Interim Dean, School of Information</i>

MARSHALS OF THE UNIVERSITY

John D. Pasquale	Mika LaVaque-Manty	Valeria Bertacco
Donald R. Shepherd Associate Professor of Conducting Director of the Michigan Marching and Athletic Bands Associate Director of University Bands Chief Marshal	Arthur F. Thurnau Professor Director of the Honors Program Associate Professor, Political Science and Philosophy College of Literature, Science, and the Arts Chief Marshal	Vice Provost, Engaged Learning Mary Lou Dorf Collegiate Professor Arthur F. Thurnau Professor Professor, Electrical Engineering and Computer Science College of Engineering Assistant Chief Marshal
	Stephen B. West Professor of Music School of Music, Theatre & Dance Assistant Chief Marshal	

HONORARY DEGREE RECIPIENT

Mary Sue Coleman
Doctor of Humane Letters

Mary Sue Coleman is president emerita of the University of Michigan, and former president of the Association of American Universities. Previously, she co-chaired the Lincoln Project of the American Academy of Arts and Sciences, a strategic effort to preserve the strength of public research universities. She is the first woman to lead U-M and, as 13th president, she is considered not only one of its most successful leaders but also its most beloved. A biochemist by training, her research advanced understanding of immune systems and malignancies. She was president of the University of Iowa from 1995-2002, president of U-M from 2002-2014 and again in 2022. In 2009, *Time* magazine named her one of the nation's "10 best college presidents." Known widely as Mary Sue, she navigated the university through the nation's worst financial crisis in 50 years, expanding the entire enterprise — research, teaching, alumni relations, facilities, and overall financial health. In her 2002 inaugural speech, she unveiled a major theme of her presidency: unleashing the power and promise of interdisciplinary research. When Pfizer unexpectedly closed its Ann Arbor research center, she purchased the vast

site and founded the North Campus Research Complex (2009), dedicating the facilities to interdisciplinary research on cancer, heart disease, advanced transportation, bioinformatics among others, as well as public-private research partnerships, to strengthen and diversify Michigan's economy. She helped establish the University Research Corridor (2006), a research partnership between U-M, Michigan State and Wayne State universities to spur innovation and economic development for the state. She launched the Interdisciplinary Junior Faculty Initiative (2007) to hire 100 tenure-track junior faculty in key areas: human health, environmental sustainability, alleviation of poverty and the humanities. Another transformational achievement — controversial at the time — was the Google Books Library Project (2004), an effort by the tech giant to digitize the seven-million volumes that comprised U-M's library. Despite resistance, Coleman called the project a "public good" and, through persuasion, is credited with convincing other major universities to participate. First, however, came the students. Coleman prioritized students' learning and living experiences, investing in improvements and enhancements, including \$650 million in residential hall upgrades (2004). To monitor the heartbeat of the students firsthand, she participated in the U-M Mentorship Program, meeting one-on-one with incoming freshmen each term and serving as faculty advisor. With her husband, Ken, she has been one of the most philanthropic presidents in U-M history, endowing global-experience travel scholarships, undergraduate and graduate scholarships, and a life sciences lecture. She led two capital campaigns: The Michigan Difference (2008), which raised \$3.2 billion, far exceeding its \$2.5-billion fundraising goal, and Victors for Michigan (2018) which set a \$4 billion goal which subsequently raised \$5.28 billion.

HONORARY DEGREE RECIPIENT

Philip R. Hagerman

Doctor of Laws

Philip Hagerman is a visionary entrepreneur and pharmaceutical-industry innovator. He is co-founder and CEO of Forum Health, a national network of integrative and functional medicine clinics; owner of SkyPoint Ventures, a real estate investment and venture firm; and co-founder and former CEO of Diplomat Specialty Pharmacy, a publicly traded company. Hagerman also is president of Hagerman Foundation. A lifelong Michigander and Genesee County champion, he locates his many businesses and focuses his philanthropy in and around the cities of Flint and Fenton. In 1975, Hagerman earned his B.S. degree in pharmacy from Ferris State University. After graduation, he partnered with his father and built the nation's largest independent specialty pharmacy network specializing in diseases such as cancer and multiple sclerosis. Its rapid growth prompted Inc. magazine, in 2013, to name Hagerman one of the top 100 job creators in the United States. The pharmacy's success reflected Hagerman's entrepreneurial skill within a complex and highly regulated industry. In 2014, Diplomat became a publicly-traded company through an initial public offering on the New

York Stock Exchange. That same year he and Jocelyn Hagerman established the Hagerman Foundation to support education, women, children and families. In 2015, Hagerman established the Hagerman Center for Entrepreneurship and Innovation at U-M Flint's School of Management with a \$2 million endowment. The gift included the creation of the Hagerman Professorship of Entrepreneurship and Innovation and inspired a new business major: Entrepreneurship & Innovation Management. The Hagerman Center, which receives ongoing support, has a broad reach, funding summer programs for high-school students, faculty innovation awards, student scholarships, campus-wide innovation competitions, and the Entrepreneurs Society, a student organization. Hagerman engages regularly with faculty and students. SkyPoint Ventures focuses on real estate redevelopment in Flint and Fenton, restoring community assets and turning derelict buildings into gleaming office space. One of Flint's most iconic buildings, now restored, houses 60-plus small businesses as well as co-working space and incubators for start-up businesses. SkyPoint also created the nonprofit 100K Ideas — a new-business idea factory — in downtown Flint. The goal of 100K Ideas is to level the playing field for local entrepreneurs, removing hurdles and providing support services essential for new business development. The nonprofit is an open door for residents interested in pitching business ideas within the tech, retail and service sectors. In 2019, Hagerman co-founded Forum Health, a for-profit company headquartered in Flint with medical clinics in 12 states, to offer functional and integrative medicine and advanced treatments, utilizing technology and data analytics. In 2011, Lawrence Technological University named Hagerman its Grant Thornton Leader & Innovator of the Year. In 2016, he and Jocelyn Hagerman received State Bank's Contribution to Education Award and, in 2018, Hagerman received the U-M Flint Medal of Excellence for Leadership and Service.

Note: Philip R. Hagerman's honorary degree will be conferred at University of Michigan-Flint.

HONORARY DEGREE RECIPIENT

Wynton L. Marsalis

Doctor of Music

Wynton Marsalis is a world-renowned trumpeter, bandleader, composer, music historian, and a leading advocate of American Culture. He presently serves as managing and artistic director of Jazz at Lincoln Center, director of Jazz Studies at The Juilliard School, and president of the Louis Armstrong Educational Foundation. Born in New Orleans, Louisiana in 1961, he is the son of widely celebrated jazz pianist and music educator Ellis Marsalis, Jr. Marsalis started practicing trumpet at age six and grew up playing in marching bands, funk bands, concert bands, symphonic orchestras, and jazz ensembles around New Orleans. Marsalis moved to New York City at age 17 to attend The Juilliard School; one year later, he hit the road with the legendary Art Blakey & The Jazz Messengers.

Since forming his first quintet (1981), Marsalis has performed over 5,000 concerts in 65 countries. In 1987, Marsalis co-founded a summer jazz program at Lincoln Center. The program grew to become a Lincoln Center department with its own orchestra. Within a decade, it transformed into

Jazz at Lincoln Center (1996), a Lincoln Center constituent institution alongside the New York Philharmonic, Metropolitan Opera, and New York City Ballet. The next year, Marsalis and the Jazz at Lincoln Center Orchestra's Octet made its University Musical Society debut, captivating Ann Arbor audiences with a stunning performance. The Jazz at Lincoln Center Orchestra with Wynton Marsalis has become one of the most frequent performers at UMS – 22 times in 25 years. During this time, UMS co-commissioned *Blood on the Fields*, Marsalis' epic jazz oratorio – concert with orchestra, choir, and soloists – that tells the story of two enslaved peoples' journey to freedom and their realization that true freedom is shared. In 1997, Marsalis became the first jazz musician to receive the Pulitzer Prize for Music for *Blood on the Fields*. In 1998, U-M hosted the world premiere of Marsalis' classical composition *A Fiddler's Tale* – his symphonic response to Stravinsky's *The Soldier's Tale*. Most recently, he served as honorary chair of UMS's National Council. When Marsalis is on campus for concerts, he and the orchestra frequently perform for local K-12 schoolchildren. A weeklong residency at U-M in 2022 included two public performances, a performance for school children, involvement with students in the School of Music, Theatre & Dance, and a half-time appearance with the Michigan Marching Band. Marsalis's accolades illustrate the breadth and depth of his contributions. He has received the United States Congressional Horizon Award (2002), The National Medal of Arts (2005), and The National Humanities Medal (2016); honorary membership in Britain's Royal Academy of Music and France's highest distinction, the Chevalier of the Legion of Honor. He has been honored with the Louis Armstrong Memorial Medal, French Grand Prix du Disque, and Algur H. Meadows Award for Excellence in the Arts. In 2001, he was appointed Messenger of Peace by United Nations Secretary-General Kofi Annan.

HONORARY DEGREE RECIPIENT

Dominique Morisseau

Doctor of Fine Arts

Dominique Morisseau is a playwright, a storyteller of the first order, and a University of Michigan Class of 2000 graduate. Through plays, musicals, television series, and spoken-word poems, she puts the life experiences of Black Americans center stage, illuminating the challenges and triumphs of individuals and communities. She is currently a Premiere Resident Writer at the Signature Theatre, an exclusive five-year program that produces the new work of playwrights during their residencies. Morisseau's plays reveal the personal lives of those dealing with social and economic change, both historically and in present day. In 2018, she received a MacArthur Foundation Fellowship — the esteemed Genius Award — for her use of “lyrical dialogue to construct emotionally complex characters who exhibit humor, vulnerability, and fortitude as they cope with sometimes desperate circumstances.” Born and raised in Detroit, many of her characters are residents of her hometown yet universal in their appeal. Her trilogy, *The Detroit Project*, received widespread critical acclaim. *Detroit '67* (2013) explores family tensions during the city's African

American uprising. *Paradise Blue* (2015) contrasts the vitality of the city's 1949 jazz music scene with encroaching “urban renewal.” *Skeleton Crew* (2016) takes place in a struggling automotive stamping plant during the depths of the Great Recession. In 2017, *Skeleton Crew* appeared on 11 stages in the United States. *Detroit '67* earned her the prestigious Steinberg Playwright Award and the Edward M. Kennedy Prize for Drama Inspired by American History. In his review of *Pipeline* (2017), a play that illustrates the school-to-prison pipeline often plaguing young men, *New York Times* theater critic Ben Brantley said the drama “confirms her reputation as a playwright of piercing eloquence.” As an undergraduate at U-M pursuing a bachelor of fine arts degree, Morisseau was initially disheartened by the lack of diversity within the Theatre Department. Then she took a Black Theater class and the breadth of artistic possibility opened wide. As a student, she wrote *The Blackness Blues: Time To Change The Tune — A Sister's Story*. The original three-person cast grew to 20, so interested were other Black students across campus to participate. Morisseau wrote the book on which the 12-time Tony award-nominated musical *Ain't Too Proud*, was based, garnering a nomination for Best Book for a Musical. She was screenwriter and co-producer for three seasons of the Showtime series *Shameless*. She has had work commissioned by Steppenwolf Theatre, Hip Hop Theater Festival, South Coast Repertory, and the Oregon Shakespeare Festival. Her plays have premiered in some of the nation's most prestigious theaters, including Lincoln Center for the Performing Arts, Steppenwolf Theatre, The Public Theatre and the Kennedy Center. Her numerous awards include the U-M Detroit Center Emerging Leader Award, Spirit of Detroit Award, NBFT August Wilson Playwriting Award, two Obie Awards, and a Ford Foundation Art of Change Fellowship.

STUDENT SPEAKERS

Byron D. Brooks

Master of Arts in Diversity and Social Justice in Higher Education, Marsal Family School of Education

Byron D. Brooks of Detroit, Michigan, exemplifies personal triumph over adverse circumstances. Byron, who was born during his mother's incarceration and experienced a period of homelessness, is the first in his family to earn not only a college degree but also an advanced degree — a master of arts from the Marsal Family School of Education in Diversity and Social Justice in Higher Education. He earned an associate's degree from Henry Ford College and a Justice Law certificate from Harvard Divinity School (2018) and a B.S. degree from Ferris State University (2021). As a U-M graduate student, he served as an instructor, anti-racist programming facilitator, and civic and community engagement coordinator. Upon graduation, Byron was named assistant director of Residential Life for the College of Wooster in Ohio.

Nicholas Daniel

Bachelor of Fine Arts in Art & Design, Penny W. Stamps School of Art & Design

Nicholas Daniel of Detroit, Michigan, is a senior in the Penny W. Stamps School of Art & Design, specializing in graphic design and 3D modeling, rigging and animation. He serves as the Polemarch or president of the Sigma Chapter of Kappa Alpha Psi Fraternity and co-marketing chair for EnspiRED Runway, an on-campus fashion organization. Nicholas also has served as co-chair for community outreach and peace officer for the Black Student Union. He worked as in-house content creator for ReliveTheBAR — Black Alumni Reunion — an organization established at U-M that has become a nationwide movement to engage Black alumni and promote collegiate unity. Nicholas currently works as an Apple Campus Leader, assisting students through workshops, events and coding initiatives. Upon graduation, Nicholas plans to pursue a master's degree in animation.

Ayda Qureshi

Bachelor of Science in Neuroscience, College of Literature, Science, and the Arts

Ayda Qureshi of Akron, Ohio, has devoted her time outside the classroom to organizations and programs that support fellow students interested in pursuing careers in medicine. A neuroscience major, she served as a peer facilitator for the University Research Opportunity Program, helping undergraduates find research projects and related resources through biweekly seminars and one-on-one advising. She also served as secretary and physician-shadowing chair for the Pre-Medical Club and held leadership positions at Phi Chi, the pre-medical fraternity. Through MHEAL — Michigan Health Engineered for All Lives — Ayda worked as a global project manager to improve nutrition for Bangladeshi children suffering from cerebral palsy. Ayda has received University Honors and the Red Cross Spirit of Excellence Award for Northern Ohio. After graduation, Ayda plans to attend medical school.

UNIVERSITY FLAGS AND FLAG BEARERS

The flags behind the platform are arranged in the order in which the schools and colleges they represent were founded. As the audience faces the flags, the arrangement from left to right is the following:

College of Literature, Science, and the Arts	Phimmasone Kym Owens
Medical School	<i>On stage</i>
Law School	Olivia Kathryn Torres
School of Dentistry	Samantha Sciancalepore
College of Pharmacy	Mery Vet George De la Rosa
Horace H. Rackham School of Graduate Studies	Cristian-Paul Bara
Gerald R. Ford School of Public Policy	Zan Rabney
College of Engineering	Caroline Ross
Marsal Family School of Education	<i>On stage</i>
Stephen M. Ross School of Business	Benjamin Levine
President's flag	<i>On stage</i>
University flag	<i>On stage</i>
Regents' flag	<i>On stage</i>
School for Environment and Sustainability	Maria Dozier
School of Music, Theatre & Dance	Emma Carlotta Osterrieder
A. Alfred Taubman College of Architecture and Urban Planning	Joshua Lee Powell
School of Nursing	Dong Ju Lee
School of Public Health	Penny Yang
School of Social Work	Jørgen Robertson Reberg
University of Michigan-Flint	<i>On stage</i>
University of Michigan-Dearborn	Cody R. McCain
School of Information	Arjan Guglani
Penny W. Stamps School of Art & Design	Rachel Grabow
School of Kinesiology	Christopher S. Moy

THE UNIVERSITY MACE

The University's mace is a symbol of academic scholarship, integrity, and authority. It is carried by the chair of the University Senate at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations, representing the connection of all faculty members to important academic rituals. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

ACADEMIC COLORS

Each discipline is represented by a unique color. Mingled colors distinguish combined curriculums.

Architecture and Urban Planning	<i>blue-violet</i>
Business Administration	<i>drab</i>
Dentistry	<i>lilac</i>
Education	<i>light blue</i>
Engineering	<i>orange</i>
Environment and Sustainability	<i>russet</i>
Fine Arts	<i>brown</i>
Information	<i>lemon</i>
Kinesiology	<i>sage green</i>
Law	<i>purple</i>
Literature and Arts	<i>white</i>
Medicine	<i>green</i>
Music	<i>pink</i>
Nursing	<i>apricot</i>
Pharmacy	<i>olive green</i>
Philosophy	<i>dark blue</i>
Public Health	<i>salmon pink</i>
Public Policy	<i>peacock blue</i>
Science	<i>golden yellow</i>
Social Work	<i>citron</i>

ACADEMIC DRESS AND CUSTOM

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

Gowns

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

Hoods

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor's, master's, and doctor's hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor's hood and the widest for the doctor's hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

Caps

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.

SCHOOLS AND COLLEGES OF THE UNIVERSITY

The order of presentation is by the year of founding.

College of Literature, Science, and the Arts

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

Medical School

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

Law School

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

School of Dentistry

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

College of Pharmacy

Established as a department in 1868, Pharmacy became a college in 1876, the first in any university in the United States. Today, the college has an average annual enrollment of 330 doctor of pharmacy, 100 graduate, and 100 undergraduate students, and is consistently ranked among the top pharmacy schools in the nation. The college offers the doctor of pharmacy degree; baccalaureate program in pharmaceutical sciences; master's program in integrated pharmaceutical sciences; and doctor of philosophy programs in clinical pharmacy translational science, medicinal chemistry, and pharmaceutical sciences. Major areas of research include the biological, chemical, clinical, genomic, economic, and social aspects of drugs and therapeutic agents.

Horace H. Rackham School of Graduate Studies

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1912. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

Gerald R. Ford School of Public Policy

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

College of Engineering

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 85,000 alumni provide leadership in various technologies, health care, business, and the sciences, improving the quality of people's lives around the world.

Marsal Family School of Education

The School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

Stephen M. Ross School of Business

Building on faculty and course offerings that began in the latter part of the 19th century, the school was formally established in 1924. Today, at all levels of instruction—bachelor's, master's, doctoral, and executive education—its programs rank in the top five among American institutions. Each year nearly 1,000 new School of Business graduates enter careers as business professionals and teacher-scholars, joining the approximately 37,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

School for Environment and Sustainability

The clear-cutting of Michigan's densely forested wilderness was well under way when the University of Michigan began offering courses in forestry in 1881—the first university in the United States to do so. The year 1903 saw the creation of a Department of Forestry, forerunner of today's School for Environment and Sustainability (SEAS). The school's students and faculty organized the famous 1970 Teach-In on the Environment (the prototype of Earth Day), and incubated the scholarly disciplines of Environmental Justice, Environmental Education, and Environmental Informatics. From its inception as a forestry school to the interdisciplinary institution it is today, SEAS has always prepared leaders to understand and solve the major environmental challenges of the era.

School of Music, Theatre & Dance

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship, and serves the community and State of Michigan through public performances, cultural resources, arts education, and outreach programs.

A. Alfred Taubman College of Architecture and Urban Planning

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

School of Nursing

The University of Michigan School of Nursing (UMSN) is an international leader in the advancement of nursing knowledge and strategies to improve health care. In addition to the four-year BSN program and the second career in nursing program, UMSN has a robust offering of graduate programs. Students are prepared to be leaders in advanced clinical practice through our M.S.N. and post-baccalaureate Doctorate of Nursing Practice (DNP) programs. Students can also lead and effect change through the M.S.N. or post-masters DNP programs in systems, populations, and leadership. UMSN's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

School of Public Health

Founded in 1941 and ranked among the country's top public health schools, the University of Michigan School of Public Health educates more than 1,000 graduate and undergraduate students each year. With over 170 faculty and researchers across six departments and numerous collaborative centers and institutes, the school brings interdisciplinary, innovative solutions to complex health challenges, including chronic and infectious diseases, obesity and food insecurity, health care quality and cost, climate change and environmental factors, and socioeconomic inequalities and their impact on health. Compassion, innovation, and inclusion drive the faculty, staff, students, and 15,000 alumni of Michigan Public Health to pursue positive change and lasting impact on the health of the world.

School of Social Work

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

School of Information

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

Penny W. Stamps School of Art & Design

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

School of Kinesiology

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

CANDIDATES FOR DEGREES AND CERTIFICATES

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. A candidate is listed alphabetically by degree, and in some cases also by field of specialization, under the school or college which awards the degree. In this program, candidates are presented in the order of which their respective schools or colleges were founded.

The Executive Board of Horace H. Rackham School of Graduate Studies awards doctoral, master's, and some graduate professional degrees (e.g., master of public policy, master of urban planning), although most graduate professional degrees, such as doctor of medicine, master of social work, etc., are awarded by the respective schools or colleges. The Horace H. Rackham School of Graduate Studies does not offer course work, and advanced studies are conducted within the school or college of a candidate's area of specialization.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Michael J. Solomon, Dean and Vice Provost for Academic Affairs—Graduate Studies

Doctor of Musical Arts

- Nicholas Thomas Brown Balla**, Field of Specialization: Conducting (Band). Dissertation: Summary of Three Dissertation Recitals.
- Colleen Cole Beucher**, Field of Specialization: Music Performance. Dissertation: Summary of One Opera Role and Two Dissertation Recitals
- Emily Jie Ji**, Field of Specialization: Music Performance. Dissertation: Summary of Dissertation Recitals Three Programs of Clarinet Music.
- Jillian Kouzel**, Field of Specialization: Music Performance. Dissertation: Three Programs of Oboe Music.
- Ryan Elliott Lindveit**, Field of Specialization: Music Composition. Dissertation: Bass Clarinet Concerto.
- Hongyi Mo**, Field of Specialization: Music Performance. Dissertation: Eugene Ysaÿe's Six Sonatas for Solo Violin in Three Recitals.
- Taide Odemaris Prieto Carpio**, Field of Specialization: Music Performance. Dissertation: Summary of Three Dissertation Cello Recitals Russian, Mexican and Female Voices through the Cello.
- Mary Elizabeth Silva-Garza**, Field of Specialization: Music Performance. Dissertation: Two Dissertation Recitals and a Lecture Recital for Horn.
- Jacob Maurice Taitel**, Field of Specialization: Music Performance. Dissertation: Three Dissertation Recitals.

Doctor of Philosophy

- Mojtaba Abdolmaleki**, Field of Specialization: Civil Engineering. Dissertation: Real-time Operations Management for Emerging Mobility Systems.
- Hannah Abraham**, Field of Specialization: Cancer Biology. Dissertation: From Population to Protein: A Characterization of Inflammatory Breast Cancer via Epidemiology and Molecular Biology
- Alexander Lee Adams**, Field of Specialization: Chemical Engineering. Dissertation: Computational Study of Plant Cell Wall Syntheses.
- Madison J. Adkins**, Field of Specialization: Psychology. Dissertation: Visualizing a Pandemic: Lessons from COVID-19 About Data and Decisions.
- Bader AlBader**, Field of Specialization: Architecture. Dissertation: Spatializing the Knowledge Economy: The Campus as a Discursive Project, Parallel Project, and More-than-Institutional Project.
- Rawan Hussein Almallahi**, Field of Specialization: Chemical Engineering. Dissertation: Designing Catalysis Beyond the Active Site: Overcoming Limitations in Propane Dehydrogenation Using Multicomponent Catalyst/Membrane Systems.
- Eunhye An**, Field of Specialization: Mechanical Engineering. Dissertation: Compressible and Geometrical Effects on Shearless Turbulent Mixing.
- Brady Anderson**, Field of Specialization: Chemistry. Dissertation: Liquid Chromatography - Mass Spectrometry Improvements for Metabolomics.
- Emily Andrus**, Field of Specialization: Epidemiological Science. Dissertation: Invisible Information, Unseen Connections: An Exploration of the Hidden Relationships that can Shape Data.
- Josh Anibal**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Aerodynamic Shape Optimization of Heat Exchangers
- Abdul Rahim Ansari**, Field of Specialization: Applied Physics. Dissertation: Femtosecond Laser Pulses and Thin Metallic Films: Mixing in the Vapor Dome and the Solid State.
- Touheed Anwar Atif**, Field of Specialization: Electrical and Computer Engineering. Dissertation: From Compression to Communication: Performance Limits for Quantum Networks.
- Yifan Bai**, Field of Specialization: Aerospace Engineering and Scientific Computing. Dissertation: Shock Capturing for High-Order Computational Fluid Dynamics.
- Cristian-Paul Bara**, Field of Specialization: Computer Science and Engineering. Dissertation: Theory of Mind in Situated Communication for Collaborative Tasks.
- Patrick Michael Barnes**, Field of Specialization: Physics. Dissertation: Dark Matter and Baryogenesis.
- Luisa Barrera**, Field of Specialization: Mechanical Engineering. Dissertation: (Photo)Electrochemical Performance Predictions and Electrocatalytic Measurements for Wastewater Nutrient Recovery and Solar Hydrogen Production.
- Nathan E. Bauer**, Field of Specialization: Higher Education. Dissertation: The Influence of Price Changes on Enrollment: Research Designs to Examine Price Responsiveness in Graduate and Professional Schools.
- Jorge Becerra**, Field of Specialization: Chemical Biology. Dissertation: Modulation of NF-kB Activity with Synthetic Inhibitors of NEMO.
- Bethany Genelle Beekly**, Field of Specialization: Neuroscience. Dissertation: Sex-Specific Roles for Melanin-Concentrating Hormone Neurons Linking the Neuroendocrine Reproductive Axis and Sleep.
- Sofia Bento**, Field of Specialization: English and Women's Studies. Dissertation: Not a Flower to Be Smelled: And Other Badly Translated Portuguese Adages for Budding Feminists.
- Eric Adair Bettis**, Field of Specialization: Urban and Regional Planning. Dissertation: If They're Riding It, We're Not Voting for It: Assessing the Role of Racial Threat on Voter Support for Regional Public Transit in Atlanta and Detroit.
- Kaustav Bhadra**, Field of Specialization: Mechanical Engineering. Dissertation: Co-optimizing Engine Hardware and Fuel Chemistry for Improving Thermal Efficiency and Reducing Pollutant Emissions of Gasoline Fueled Direct Injection Internal Combustion Engines.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Mitchell Kenneth Black, Jr.**, Field of Specialization: Aerospace Engineering. Dissertation: Toward Safe Control under Uncertainty: Adaptation and Prediction for Control Barrier Functions.
- Katherine Perry Blumstein**, Field of Specialization: Psychology. Dissertation: Parents' Ethnotheories of the Nature and Causes of Positive Development and Maladjustment in Young Children: A Comparison of Spain and the United States.
- Charles Bowers**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: The Local and Global Effects of Magnetic Reconnection at Mars.
- Pavel Brunssen**, Field of Specialization: Germanic Languages and Literatures. Dissertation: "The Making of Jew Clubs": Performing Jewishness and Antisemitism in European Soccer and Fan Cultures.
- Karen Aleksandra Butt**, Field of Specialization: Mathematics. Dissertation: Closed Geodesics and Stability of Negatively Curved Metrics.
- Elizabeth Gay Callison**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Demonstration of Turbulent Drag Reduction on a Towed Body and Two-phase Mixing Through a Narrow Gap.
- Yulong Cao**, Field of Specialization: Computer Science and Engineering. Dissertation: Toward Secure and Safe Autonomous Driving: an Adversary's Perspective.
- Guangye Cao**, Field of Specialization: Economics. Dissertation: Essays on Cryptocurrency.
- Avery Lachlann Carlson**, Field of Specialization: Environmental Engineering. Dissertation: Advanced Analytical Methods for Assessing Biological Nutrient Removal in Membrane Wastewater Treatment Systems.
- Megan Garver Carlson**, Field of Specialization: English and Education. Dissertation: The Art and Practice of Developing an Anxiety and Depression Literacy.
- Stephen Vincent Carney**, Field of Specialization: Cancer Biology. Dissertation: Epigenetic Reprogramming in Mutant IDH1 Glioma Influences Radioresistance and Neural Lineage Differentiation.
- Veronica L. Caro**, Field of Specialization: Materials Science and Engineering. Dissertation: Comparative III-As-Bi Surface Morphologies and Microstructure and Disciplinary Literacy in MSE.
- Sofia Carrera**, Field of Specialization: Psychology. Dissertation: Challenges to Female Reproduction and Survival in Wild Primates.
- Brandon Alen Carter**, Field of Specialization: Materials Science and Engineering. Dissertation: A Multi-Faceted Approach to Advancing Materials Science: Investigations in Materials Research and Education.
- Attilio Ernesto Castano**, Field of Specialization: Mathematics. Dissertation: A Berkovich Approach to Perfectoid Spaces.
- Christopher Castro**, Field of Specialization: Bioinformatics. Dissertation: Investigating the Role of Noncoding De Novo Single-Nucleotide Variants in Autism Spectrum Disorder.
- Peter A. Cerda**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Toxic Forms Most Beautiful: The Evolutionary Dynamics of Rear-Fanged Snake Venoms.
- Brian Javier Cevallos Fujiy**, Field of Specialization: Economics. Dissertation: Essays on International Economics.
- Christine Marie Chalifoux**, Field of Specialization: Anthropology. Dissertation: Betrayal and Belonging: Kinship, Ethnicity, and Cosmopolitanism in Kampala.
- Lili Chen**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Fully Integrated Sub-Terahertz Frequency Stabilized Sources and Transceivers for 5G Communications and Beyond.
- Yu Chen**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Low-Power Localization Systems with Hardware-Efficient Deep Neural Networks.
- Mo Chen**, Field of Specialization: Chemistry. Dissertation: Nickel Catalyzed C-H Functionalization: Development, Application and Mechanistic Investigation.
- Ziyuan Chen**, Field of Specialization: Biophysics. Dissertation: Single-Molecule Mapping and Heterogeneous Dynamics of Epigenetic Modifications in Live Microbes.
- Ciao-Sin Chelsea Chen**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Identification and Validation of Pre-treatment Nutritional Predictors of Sensory and Motor Paclitaxel-induced Peripheral Neuropathy.
- Long Cheng**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Saturation Effects and Thermal Balance in Laser-Cooled Solids.
- Randy Cheng**, Field of Specialization: Materials Science and Engineering. Dissertation: Investigation of Acoustic Softening and Its Application in Ultrasonic Assisted Incremental Sheet Forming.
- Sang Won Choi**, Field of Specialization: Biomedical Engineering. Dissertation: Preoperative Image-guided Transcranial Histotripsy for Brain Cancer Treatment.
- Christine Choi**, Field of Specialization: Business Administration. Dissertation: Beyond the Dyad: A Portfolio Perspective of Interfirm Relationships.
- John Joon Young Chung**, Field of Specialization: Computer Science and Engineering. Dissertation: Steerable AI-powered Art-making Tools.
- Seokhyun Chung**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Collaborative and Distributed Data Analytics for Smart and Connected Systems.
- Shane Xavier Coffing**, Field of Specialization: Applied Physics. Dissertation: Modeling Hydrodynamic Instabilities, Shocks, and Radiation Waves in High Energy Density Physics.
- Yossi Cohen**, Field of Specialization: Mechanical Engineering. Dissertation: Augmented Intelligence for Fault Diagnosis in Advanced Manufacturing.
- Sheira Cohen**, Field of Specialization: Classical Art and Archaeology. Dissertation: Beyond Ethnicity: Connectivity and Community in Western Central Italy 800-350 BCE.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- James Anthony Collier**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: A Novel Framework for Investigating Design Process Failures with Nuisance Parameters using Influence Structure Diagrams.
- Alex Commisso**, Field of Specialization: Chemical Engineering. Dissertation: Generation and Rearrangement of Thioethers for Self-Reinforcing Thermosets and Semi-crystalline Thermoplastic Photopolymers.
- Madelyn Karman Cook**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Sources of Element/Ca Variability in Foraminifera: From Genesis to Diagenesis to Signal Extraction.
- Miranda Nicole Cosman**, Field of Specialization: Anthropology. Dissertation: Trabecular and Cortical Skeletal Correlates of Locomotor Ontogeny in Pan with Comparisons to Skeletal Variation and Adaptation in Gorilla and Pongo.
- Christina Naegeli Costa**, Field of Specialization: Psychology. Dissertation: Teacher Well-Being: Investigating Barriers and Facilitators Using the Job Demands-Resources Framework.
- Alexandra Lauren Creola**, Field of Specialization: Classical Art and Archaeology. Dissertation: Roman Nymphs and the Underworld: Place, Landscape, and Religion in Roman Italy.
- Elizabeth Rose Crowther**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Using Mercury Stable Isotopes to Identify Sources and Track Biogeochemical Cycling of Mercury in Freshwater Ecosystems.
- Khoi T. Dang**, Field of Specialization: Chemistry and Scientific Computing. Dissertation: Computational and Theoretical Advances in Accurately Modeling Molecular Wave Functions.
- Patricia McCoy DeLacey**, Field of Specialization: Psychology. Dissertation: Causes and Consequences of a Sexually Selected Signal, the Chest Patch, in Male Geladas.
- Min Deng**, Field of Specialization: Civil Engineering. Dissertation: Advancing Management and Control of Enclosed Spaces through Human-Centered Artificial Intelligence.
- Luke DeRoos**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Managing Chronic Health Conditions with Limited Resources.
- Gloria Elizabeth Diaz**, Field of Specialization: Chemistry. Dissertation: Leveraging the Power of Droplets Microfluidics to Profile the Epigenome.
- Bradley Dirks**, Field of Specialization: Mathematics. Dissertation: Using Mixed Hodge Modules to Study Singularities.
- Zhe Du**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Learning, Control, and Reduction for Markov Jump Systems.
- Derek Robert Du Bois**, Field of Specialization: Chemistry. Dissertation: Exploration of Metal-Organic Framework Phase Formation and Design.
- Emily Lauren Eberhardt**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Biochemical and Structural Studies of the Outer Mitochondrial Membrane Protein, Miro1.
- Nosakhare Edoimioya**, Field of Specialization: Mechanical Engineering. Dissertation: Modeling and Feedforward Vibration Compensation of Advanced Manipulators for Extrusion-Based Additive Manufacturing.
- Belquis Aminah Elhadi**, Field of Specialization: American Culture. Dissertation: Precarious Exceptions: Representations of Visibly Muslim Women in Western Media.
- Rachel Cassidy Elias**, Field of Specialization: Chemical Engineering. Dissertation: Mapping the Non-Thermal and Photothermal Energy Landscape in Plasmonic Photocatalysts.
- Mel K. Englund**, Field of Specialization: Genetics and Genomics. Dissertation: Identification and Characterization of Cis-Regulatory Elements in the Human Genome.
- Bolaji Paul Eniwaye**, Field of Specialization: Applied Physics and Scientific Computing. Dissertation: Cholinergic Modulation of Network Activity and Applications in Sleep, Memory and Anesthesia.
- Maria Del Mar Estrada Rebull**, Field of Specialization: Educational Studies. Dissertation: Exploring the Potential of an Inquiry and Disciplinary Literacy Approach to History and Social Science Education in a Public High School in Mexico.
- Timothy D. Everhart**, Field of Specialization: Anthropology. Dissertation: A Study of Scioto Hopewell Monuments and Monumentality.
- Fang Fang**, Field of Specialization: Biostatistics. Dissertation: Bayesian Approaches to Compare Dose Levels From Small N Sequential Multiple Assignment Randomized Trials (snSMART).
- Lloyd Steven Fisher, Jr.**, Field of Specialization: Chemistry. Dissertation: A Spectroscopic Investigation into the Photophysics of Donor-Acceptor Emitters Intended for Use in Thermally Activated Delayed Fluorescence Based Optoelectronic Systems: A Comparison of Excited State Dynamics in Solution and Solid-State.
- Johanna Fleischman**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Interplay Between Nutrition, Metabolism, and Cardiorespiratory Fitness in a Rat Model.
- Christian Anthony Flores Carreras**, Field of Specialization: Civil Engineering. Dissertation: Improving the Seismic Performance of Steel Moment Resisting Frames through Advanced Approaches.
- Aaron Michael Frutos**, Field of Specialization: Epidemiological Science. Dissertation: Pediatric Coronavirus Infection and Immunity: Common Cold Coronaviruses and SARS-CoV-2.
- Ashley Munie Gardner**, Field of Specialization: Immunology. Dissertation: Epigenetic and Environmental Regulation of Myeloid Cells during Inflammatory Demyelinating Disease.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Mario Andres Gaviria**, Field of Specialization: Chemistry. Dissertation: Enantioselective and Unifying Entry into Arcutane Natural Products.
- Andrew John Broaddus Gayle**, Field of Specialization: Mechanical Engineering. Dissertation: Nanostructured Architectures for Solar Thermal and Photocatalytic Applications.
- Elsbeth Rene Geiger**, Field of Specialization: Anthropology. Dissertation: Power and Provisions in Anishinaabewaki: Re-Contextualizing Human-Environment Interactions During the Great Lakes Fur Trade.
- Elizabeth U. Gensterblum-Miller**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Molecular Analysis of Recurrent Translocations in Mucoepidermoid Carcinoma.
- Mery Vet George De la Rosa**, Field of Specialization: Pharmaceutical Sciences. Dissertation: L-carnitine as a Probe to Assess Mitochondrial Drug Toxicity.
- Rohan Ghuge**, Field of Specialization: Industrial and Operations Engineering. Dissertation: The Power of Adaptivity for Decision-Making under Uncertainty.
- Isabelle Gillet**, Field of Specialization: History of Art. Dissertation: Figures of Conformity, Gestures of Distinction: Civility and Portraits of Women in France (1815-1848).
- Austin Glass**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Plasma Dynamics at Mercury: Characteristics of the Dayside, Nightside, and Foreshock.
- Pavel Majer Godfrey**, Field of Specialization: English Language and Literature. Dissertation: Proto-Modern Morris: Divine Possession, Inhuman Force, and Eternal Return in William Morris's Epic Poems.
- Evan Sebastian Gonzalez**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Multi-Level Methods for Monte Carlo Reactor Kinetics.
- Michael Anthony Gonzalez**, Field of Specialization: Robotics. Dissertation: Closing the Loop: How Sensation Impacts Prosthetic Function and Control.
- Alan M. Gorchov Negron**, Field of Specialization: Atmospheric, Oceanic and Space Sciences. Dissertation: The Climate Impact of US Offshore Oil and Gas Production.
- Rachael Gordon**, Field of Specialization: Educational Studies. Dissertation: Pre-Service and Beginning In-Service Teachers' Development of Antiracist and Socially Just STEM Teaching: An Exploration of an Embedded, Extended, and Place-Based Model of Teacher Education.
- Vidushi Goyal**, Field of Specialization: Computer Science and Engineering. Dissertation: Building User-Driven Edge Devices.
- Josh Greenberg**, Field of Specialization: Economics. Dissertation: Essays on Health, Human Rights, and Social Development.
- Joseph R. Groele**, Field of Specialization: Mechanical Engineering. Dissertation: Plasma-based Decomposition of Per- and Polyfluoroalkyl Substances in Water: Plasma Source Exploration, Batch Kinetics, Effects of Water Conductivity, and an Architecture for Continuous Flow Processing.
- Kuan Han**, Field of Specialization: Electrical and Computer Engineering. Dissertation: From Brain Science to AI and Back: Using Deep Neural Networks to Represent and Decode Brain Activity Linked to Behavior.
- Nicholas George Hartman**, Field of Specialization: Biostatistics. Dissertation: Risk-Adjustment Models for Healthcare Provider Profiling.
- Mara Calypso Harwood**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Human Papillomavirus Hijacks the Dual Endosome-Golgi Membrane Systems During Cell Entry.
- Kevin Patrick Thomas Haughn**, Field of Specialization: Aerospace Engineering. Dissertation: Intelligence for Morphing Aircraft.
- Michael Caleb Helton**, Field of Specialization: Applied Physics. Dissertation: Numerical Algorithms for Light Transport in Layered Turbid Media and Other Special Mathematical Functions.
- Chelsea Marie Hendrus**, Field of Specialization: Physics. Dissertation: A Polarimetry Measurement for the Nab Experiment.
- Aidan Herderschee**, Field of Specialization: Physics. Dissertation: Novel Structures in Scattering Amplitudes and Other Boundary Correlators.
- Mana Heshmati**, Field of Specialization: Business Administration. Dissertation: Essays on Cognition and Firm Performance.
- Tamarae Marie Hildebrandt**, Field of Specialization: Linguistics. Dissertation: The Relationship between Online and Offline Measures of Gradient Sentence Acceptability.
- Nadhira Yasmin Hill**, Field of Specialization: Classical Art and Archaeology. Dissertation: De-centering the Symposium: Characterizing Commensality in Late Classical Olynthos, Greece.
- Rebecca Hixon**, Field of Specialization: English Language and Literature. Dissertation: "Tell it again, but different": Gender, Race, and Adaptation in The Taming of the Shrew and Othello.
- Michael J. Hoffman**, Field of Specialization: English and Education. Dissertation: Trained to Care: The Role of Obligation in Military Experience.
- James Hotchkiss**, Field of Specialization: Mathematics. Dissertation: Hodge Theory of Twisted Derived Categories and the Period-index Problem.
- Chin-Wei Hsu**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Robust Wireless Communications for Low Power Short Message Internet-of-Things Applications.
- Qiu hao Hu**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Model Predictive Control for Robust Power and Thermal Management of Connected and Electrified Vehicles.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Hsiangyu Hu**, Field of Specialization: Molecular and Cellular Pathology. Dissertation: The Role of the YEATS Epigenetic Reader in MLL-r Fusion Proteins.
- Wenkang Huang**, Field of Specialization: Mechanical Engineering. Dissertation: Investigation of Metal Mixing in Laser Keyhole Welding of Dissimilar Metals.
- Landon David Hughes**, Field of Specialization: Health Behavior And Health Education. Dissertation: Moral Panic, Backlash, and the Noxious Effects of Transphobia: Assessing the Structural Drivers of Trans Health.
- Daniel Iong**, Field of Specialization: Statistics. Dissertation: Inference Algorithms for Probabilistic Models With Applications in Epidemiology and Space Weather Forecasting.
- Gayatri Iyer**, Field of Specialization: Bioinformatics. Dissertation: Applications of Data-Driven Network Analysis in Metabolomics.
- Mason Jabbari**, Field of Specialization: English Language and Literature. Dissertation: The Poetics of Archaism: Victorian Translators of Old Norse and Persian Legends.
- Fatima Javed**, Field of Specialization: Cell and Developmental Biology. Dissertation: Role of Cytosolic Phospholipase A2 β in Neutrophil Chemotaxis.
- Kwanghui Je**, Field of Specialization: Chemical Engineering. Dissertation: Assembly Behavior and Thermodynamic Stability of Complex Colloidal Superstructures.
- Theodore Jennaro**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Identifying Altered Metabolic Signatures in Septic Shock: Steps Toward Precision Pharmacotherapy.
- Goun Ji**, Field of Specialization: Sport Management. Dissertation: Professional Sports Teams' Community Engagement during an Environmental Jolt: Shifting Activities and State Differences amid the COVID-19 Pandemic.
- Jaesung Jo**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Investigation of p-type Oxide Semiconductor Thin Film Transistors for Complementary Metal Oxide Semiconductor Technologies.
- Stephanie Andrea Karol**, Field of Specialization: Public Policy and Economics. Dissertation: Three Essays on the Economics of Charity.
- Rafail Kartsioukas**, Field of Specialization: Statistics. Dissertation: Topics on Anomaly Detection, High Dimensional Testing and Spectral Inference for Functional Data.
- Spiridon Kasapis**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Processing Image Data from Unstructured Environments.
- Gurcharan Kaur**, Field of Specialization: Biomedical Engineering. Dissertation: Evaluation of Autoregulated RUNX2 Suppression on Mesenchymal Stem Cell-based Cartilage Regeneration in Complex Pathological Environments.
- Sean Thomas Kelly**, Field of Specialization: Mechanical Engineering. Dissertation: Data-Driven Models of Blisk Structures.
- Kamruzzaman Khan**, Field of Specialization: Materials Science and Engineering. Dissertation: Growth and Characterization of InGaN Films by Plasma-assisted Molecular Beam Epitaxy.
- Hyeonsoo Kim**, Field of Specialization: Architecture. Dissertation: Economic Feasibility of Achieving Net-Zero Energy in Residential Buildings in the USA.
- Sung Min Kim**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Exploiting Reconfiguration and Co-Design for Domain-Agnostic Hardware Acceleration.
- Stephanie Hane Kim**, Field of Specialization: Immunology. Dissertation: The Early Secretory Pathway in Immunity.
- Patrick Kinnunen**, Field of Specialization: Chemical Engineering. Dissertation: Computational and Experimental Methods for Cancer Cell Decision Making and Antibody Optimization.
- Joe Richard Klaver**, Field of Specialization: Political Science. Dissertation: Cancelled Contests: Mediating Election Disputes Through Institutions.
- Jackie M. Kleinsasser**, Field of Specialization: Earth and Environmental Sciences. Dissertation: Sulfur Content and Speciation in Dacitic Silicate Melts as a Function of Oxygen Fugacity and the Genesis of Fe-Ti Oxide-Bearing Ultramafic Intrusions of the Duluth Complex, MN.
- Luke Korley**, Field of Specialization: Physics. Dissertation: The Veto System of the LZ Dark Matter Experiment.
- Victoria Koski-Karell**, Field of Specialization: Anthropology. Dissertation: Following Water in the Wake of Cholera: Relation, Coloniality, and the Poetics of Osmosis in Haiti's Artibonite Valley.
- Prince Elfrey Kuevor**, Field of Specialization: Robotics. Dissertation: Magnetic Field Mapping for Indoor Aerial Navigation.
- Renuka Kumar**, Field of Specialization: Computer Science and Engineering. Dissertation: Exploiting App Differences for Security Analysis of Multi-Geo Mobile Ecosystems.
- Esther Ladkau**, Field of Specialization: History. Dissertation: Life, Death, and the Construction of Space on the Kamo River.
- Emily Lamond**, Field of Specialization: Greek and Roman History. Dissertation: Disability and the Ancient Roman Familia.
- Stephen Volosov Langellotti**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Multipactor in Coaxial Transmission Lines.
- Amy Langhorst**, Field of Specialization: Materials Science and Engineering. Dissertation: Improvement of Natural Fiber Mechanical Properties for Structural Polymer Composites.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Jacqueline Adelaide Larouche**, Field of Specialization: Biomedical Engineering and Scientific Computing. Dissertation: Understanding and Rewriting Cellular and Molecular Programs to Restore Skeletal Muscle Homeostasis.
- Salar Latifi**, Field of Specialization: Computer Science and Engineering. Dissertation: Efficient and Dependable Deep Learning Systems.
- Christina Lee**, Field of Specialization: Biomedical Engineering. Dissertation: Assessing Movement Control, Coordination, and Performance in Upper Limb Prosthesis Users.
- Tyler Jacob Lefevre**, Field of Specialization: Chemical Biology. Dissertation: Molecular Mechanisms of G α i Signaling Selectivity.
- Stephan John Lemmer**, Field of Specialization: Robotics. Dissertation: Hazy Oracles in Deep Learning.
- Kristina Marie Lenn**, Field of Specialization: Chemistry. Dissertation: Generalized Quantum Master Equations for Simulating Electronic Dynamics in Molecular Systems.
- Boqi Li**, Field of Specialization: Mechanical Engineering. Dissertation: Modeling and Planning for Connected, Cooperative, and Automated Mobility Systems.
- Tong Li**, Field of Specialization: Mechanical Engineering. Dissertation: Miniaturized Fabry-Perot Polymer Film Ultrasound Sensor for Photoacoustic Endoscope System.
- Zidong Li**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Exciton Transport Properties and Devices.
- Jay Li**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Dystonia: Pathophysiology and Targeted Therapy.
- Jihun Lim**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Extending the Leverage of Air-Bridge Thermophotovoltaic Architecture: Design, Modeling, and Experimental Demonstration.
- Jinsun Liu**, Field of Specialization: Robotics. Dissertation: Deterministic and Chance-Constrained Real-Time Motion Planning Using Reachability Analysis.
- Rui Liu**, Field of Specialization: Computer Science and Engineering. Dissertation: Sequential Decision Making for Large Scale Machine Learning.
- Yudan Liu**, Field of Specialization: Chemistry and Scientific Computing. Dissertation: Electronic Energy and Charge Transfer Dynamics via Quasi-Classical Methods.
- Elaine Anna Liu**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Mechanisms of Neurodegeneration in Niemann-Pick Type C Disease.
- Morgan Michelle Loechli**, Field of Specialization: Applied Physics. Dissertation: Constraining Northern Carbon Fluxes with Atmospheric Carbon Dioxide Observations.
- Sheng Long**, Field of Specialization: Anthropology. Dissertation: Numbering Land: The Mathematics of Geography and Subjectivity in Agrarian Reforms.
- Charles Lu**, Field of Specialization: Biomedical Engineering. Dissertation: Precision Neuromodulation of Sensorimotor Systems.
- Eric John Madsen**, Field of Specialization: Oral Health Sciences. Dissertation: Cell and Material Specific Dual-Functional Peptides for Enhancing Mesenchymal Stem Cell Migration for Bone Tissue Engineering.
- Emily Kathryn Makowski**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Multi-Objective Engineering of Therapeutic Antibodies.
- Ahmed Malik**, Field of Specialization: Neuroscience. Dissertation: Matrn 3 Regulation in Physiology and Neurodegenerative Disease.
- Emily Ashley Margolis**, Field of Specialization: Biomedical Engineering. Dissertation: Engineering Hierarchical Vasculature for Regenerative Medicine.
- Larissa Marie Markwardt**, Field of Specialization: Astronomy and Astrophysics. Dissertation: Characterizing Trojan Asteroids Throughout the Solar System.
- Jessy Darwin Martinez**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Sleep as an Essential Modulator for Plasticity and Cognition During Atypical Neurodevelopment.
- Brooke E. Mason**, Field of Specialization: Civil Engineering. Dissertation: Advancing Autonomous Green Stormwater Infrastructure.
- Mariana Masteling Pereira**, Field of Specialization: Biomedical Engineering. Dissertation: On the In Vivo Viscoelastic Properties of the Human Lower Birth Canal During the First Stage of Labor: Secondary Analysis of Data from the EASE Trial.
- Delvon Mattingly**, Field of Specialization: Epidemiological Science. Dissertation: Psychosocial Drivers of Racial/Ethnic Disparities in Tobacco and Cannabis Use Among Youth and Adults in the United States.
- Marc Randall McCann**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Determining the Mechanistic Plausibility for Acetyl-L-Carnitine as a Prognostic Biomarker in Sepsis.
- Connor Nicholas McGlothlin**, Field of Specialization: Chemical Engineering. Dissertation: Bioinspired Manufacturing: Photoinduced Self-Replication of Metal Nanoparticles in Solution and on Surfaces.
- Sean McSherry**, Field of Specialization: Chemical Engineering. Dissertation: Spectral Control of Thermal Radiation at High Temperatures and in the Near Field.
- Ashley Faith Melnick**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Cdc73 Protects Notch-Induced Leukemia Cells From DNA Damage and Mitochondrial Stress.
- Nicolas Mesyngier**, Field of Specialization: Mechanical Engineering. Dissertation: Developing a Droplet-Based Phase Grating for use as a Label-Free, High-Throughput Analytical Platform.
- Tamara Farrell Milton**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Investigating Neutral and Niche Contributions to Species Dominance and Rarity in the Amazon Basin, With a Focus on the Brazil Nut Clade (Lecythydaceae).

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Dipika R. Mohan**, Field of Specialization: Cancer Biology. Dissertation: Aberrant Epigenetic Patterning Defines an Aggressive Molecular Subtype of Adrenocortical Carcinoma and Exposes a Tissue-Specific Therapeutic Vulnerability.
- Nima Mohseni**, Field of Specialization: Aerospace Engineering. Dissertation: Retrospective and Predictive Cost Adaptive Control of Space Systems.
- Karen Montoya**, Field of Specialization: Chemistry. Dissertation: Direct Identification and Counting of MicroRNAs in Single Cells by Transient Binding and Kinetic Fingerprinting.
- Andrew Thomas-James Moos**, Field of Specialization: English and Education. Dissertation: The Language Ideologies of White First-Year Composition Instructors: Exploring Intersections between Writing Pedagogy, Attitudes toward Language, and White Identity.
- Robert Jerome Morrissey**, Field of Specialization: History of Art. Dissertation: Chigo Icons: Representations of Sacred and Sexualized Male Youths in Medieval Japanese Buddhism.
- Kati Moug**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Sequential Decision Making in Crisis: Mitigating Risk in Marginalized Communities with Stochastic Optimization.
- Molly Carter Mulcahy**, Field of Specialization: Nutritional Sciences. Dissertation: Chrononutrition and Endocrine Contributors to Gestational Glycemic Control and Infant Birth Weight.
- Negin Nadvar**, Field of Specialization: Biomedical Engineering. Dissertation: Resting-State Functional Organization of the Brain in Blindness and Sight Recovery.
- Sierra Aigné Nance**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: The Role of Adipose Tissue Macrophages in Obesity-Associated Insulin Resistance.
- Ramya Narahariseti**, Field of Specialization: Epidemiological Science. Dissertation: Data-driven Approaches to Understand the Implications of Social Processes for Infectious Disease Risk.
- Deepika Natarajan**, Field of Specialization: Computer Science and Engineering. Dissertation: Enabling Practical Deployments of Privacy-Preserving Secure Technologies.
- Simeon J. Newman**, Field of Specialization: Sociology. Dissertation: Mass Clientelism: Urban Growth and the Dialectic of Nation-Building in 20th Century Latin America.
- Natalie Ngai**, Field of Specialization: Communication. Dissertation: The Mass Seduction of Cuteness in the Past and Present: America's Sweethearts, Kawaii Girls, and Cute Cyborgs.
- Minh Hoang Nguyen**, Field of Specialization: Aerospace Engineering. Dissertation: A Novel Computational Framework for High-Fidelity Probabilistic Progressive Failure Analysis of Composite Laminates.
- Christopher Roger Nicholson**, Field of Specialization: Philosophy. Dissertation: Essays on Belief, Decision, and Learning.
- Minha Noh**, Field of Specialization: Sociology. Dissertation: Essays on Perceived Racial Discrimination among Asian Americans and the Link between Health and Residential Moves into Different Housing Tenure Among U.S. Older Adults.
- Pedro Orozco del Pino**, Field of Specialization: Biostatistics. Dissertation: Transferability of Polygenic Risk Scores Across Ancestral Populations and Data Integration Methods for Improving Prediction on Small Sample Studies.
- Zoe Roxanne Ortiz**, Field of Specialization: Classical Art and Archaeology. Dissertation: The Sculptures and Urban Landscapes of Imperial Gabii: A City in Transition.
- Daniel Felipe Otero Leon**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Medical Policies in the Context of Primary Prevention for Cardiovascular Disease.
- Juan Augusto Paredes Salazar**, Field of Specialization: Aerospace Engineering. Dissertation: Adaptive Control of Self-Excited Systems with Application to a Gas Turbine Combustor.
- Won Park**, Field of Specialization: Computer Science and Engineering. Dissertation: Crafting Machine Learning Defenses against Adversaries.
- Emory Morris Payne**, Field of Specialization: Chemistry. Dissertation: Advances in Droplet Microfluidics for High-Throughput Experimentation.
- Robin Pearce**, Field of Specialization: Bioinformatics. Dissertation: Deep Learning and Physics-Based Methods for Macromolecular Structure Prediction and Design.
- Ramona Genovev Perry**, Field of Specialization: Social Work and Psychology. Dissertation: Black During COVID-19: A Mixed-Methods Exploration of Adoption of COVID-19 Risk Reduction Behaviors among Black Adults.
- Carsten Peterson**, Field of Specialization: Mathematics. Dissertation: Quantum Ergodicity on Bruhat-Tits Buildings.
- Matthew Petryk**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: Algorithms and Electronics for Processing Data from Pixelated Semiconductor Gamma-Ray Detectors.
- Chelsea Marie Phillips**, Field of Specialization: Neuroscience. Dissertation: The 20 Kilodalton Isoform of Connexin 43: A Multifaceted Contributor to Cerebral Cavernous Malformation Type 3 Pathogenesis.
- Rinav Raveendran Pillai**, Field of Specialization: Mechanical Engineering. Dissertation: Modeling and Predicting Heavy-Duty Vehicle Nitrogen Oxide Emissions Using Deep Learning.
- Alejandro Javier Pineda**, Field of Specialization: Political Science and Scientific Computing. Dissertation: Capturing Political Communication Online Using Image and Text Data: A Deep Learning Approach.
- Ghasidit Pornnoppadol**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Development of a Bispecific Shuttle for Efficient and Long-Lived Brain Delivery of Antibodies.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Anthony Michael Provenzano**, Field of Specialization: Health Infrastructures and Learning Systems. Dissertation: Cross-Sector Care Activities and Technological Capabilities of Federally Qualified Health Centers in Michigan.
- Lisa T. Pulianmackal**, Field of Specialization: Microbiology and Immunology. Dissertation: The Role of ParA/MinD ATPases in the Spatial Regulation of Bacterial Organelles.
- Meredith Kathleen Purchal**, Field of Specialization: Chemical Biology. Dissertation: The Molecular Basis of Improbable Enzymatic Chemistries.
- Torben Lennart Purz**, Field of Specialization: Physics. Dissertation: Ultrafast Coherent Imaging Spectroscopy of Van-der-Waals Materials.
- Sinéad Gráinne Redmond**, Field of Specialization: Public Policy and Political Science. Dissertation: The Impact of the Federal Appellate Courts on State Abortion Policymaking.
- Elizabeth Ashlyn Reese**, Field of Specialization: English Language and Literature. Dissertation: Forms Less Solid: Duration and the Romantic Long Form.
- Laura I. Romaine**, Field of Specialization: English Language and Literature. Dissertation: An Asset-Based Approach to Literature and Composition Studies.
- Brittany Rupp**, Field of Specialization: Chemical Engineering. Dissertation: Isolation and Molecular Characterization of Single Circulating Tumor and Immune Cells to Examine Heterogeneity.
- Jorge Sandoval**, Field of Specialization: Chemical Biology. Dissertation: Probing the Chemical Space for Non-Promiscuous Nucleic Acid Binders.
- Tuba Sarwar**, Field of Specialization: Electrical and Computer Engineering. Dissertation: On-Chip UV/VIS Optical Spectrometer.
- Ashley Marie Schubert**, Field of Specialization: Anthropology. Dissertation: Tradition and Transformation: Mississippian Households and Communities in the Appalachian Summit, AD 1200-1600.
- Richard Edward Schutzman**, Field of Specialization: Pharmaceutical Sciences. Dissertation: Mechanistic Evaluation of Early Phases of Drug Release From Polymer Microparticles Prepared by Atomization Techniques.
- Sharmi Sen**, Field of Specialization: Anthropology. Dissertation: Dispersal and Male Reproductive Strategies in Wild Gelada (*Theropithecus gelada*).
- Adrienne Niederriter Shami**, Field of Specialization: Human Genetics. Dissertation: Molecular and Functional Characterization of Conserved and Divergent Features of Mammalian Spermatogenesis.
- Liuxing Shen**, Field of Specialization: Physics. Dissertation: Theoretical Examination of Charge Transport Effects in Particle-In-Binder Mercuric Iodide (PIB-HgI₂) on X-ray Detector Performance.
- Yuning Shen**, Field of Specialization: Medicinal Chemistry. Dissertation: High Throughput Experimentation Facilitated Development of Amine-Acid Cross Coupling Reactions.
- Yihui Sheng**, Field of Specialization: Asian Languages and Cultures. Dissertation: "Performative Reading" and "Close Listening" in Early Modern China: Chuanqi Song-Drama as Multimedia Form, 1550-1750".
- Joshua Joseph Shepard**, Field of Specialization: Aerospace Engineering. Dissertation: Experimental Characterization of Rotating Detonation Engine Loss Mechanisms.
- Margaret Arden Showalter**, Field of Specialization: History. Dissertation: "Teach Your Children Well:" Imagining Interracial Harmony in a Post-Civil Rights Act United States, 1964-1978.
- Kevin Mendonca Silva**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: A Computational Fluid Dynamics Driven Machine-Learning Framework for Observation and Quantification of Extreme Ship Reponses.
- Taylor Anne Sims**, Field of Specialization: History. Dissertation: Everyday Women and the English Reformation: Gender and Religion in the Diocese of Salisbury, 1450-1600.
- Anshul Singhal**, Field of Specialization: Materials Science and Engineering. Dissertation: Improved Extraction of Natural Fibers for Sustainable Polymer Composites.
- Kendon Smith**, Field of Specialization: English and Education. Dissertation: Characterizations of Readers in College Composition Courses: Language Ideologies and Inequitable Shifts in the Communicative Burden.
- Richard Edgar Smith II**, Field of Specialization: Psychology. Dissertation: Examining the Protective Role of Social Reconnection on Black People's Sense of Belonging and Mental Health Following the "Acting White" Accusation.
- Victor Sosa Alfaro**, Field of Specialization: Chemistry. Dissertation: Modification of Heme Proteins for Reactivity and Mechanistic Studies.
- Greyson Eric Stocker**, Field of Specialization: Biomedical Engineering. Dissertation: Systems and Methods for Efficient Histotripsy Volume Ablation.
- Anna Kathleen Stuhlmacher**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Optimal Scheduling and Control of Uncertain Coupled Power-Water Distribution Networks.
- David Patrick Sweeney**, Field of Specialization: Climate and Space Sciences and Engineering. Dissertation: Development of Radio Science Techniques and a Planetary Mission Concept.
- Sakura Takahashi**, Field of Specialization: Social Work and Psychology. Dissertation: Emotion Regulation and Culture: The Case of Substance Use.
- James Yi Tan**, Field of Specialization: Chemical Engineering. Dissertation: Characterizing and Utilizing Droplet-enabled Co-cultivation to Elucidate Interactions in Microbiomes.
- Vi To Ba Tang**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: Specificity and Functional Conservation of COPII Components.
- Gloria Elena Toriche**, Field of Specialization: Educational Studies. Dissertation: Pedagogies of The Movement: Malaquias Montoya and Chicano Public Art.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

- Rachel Torrez**, Field of Specialization: Medicinal Chemistry. Dissertation: Structural and Functional Analysis of Human Dicer.
- Christopher Tossas-Betancourt**, Field of Specialization: Biomedical Engineering. Dissertation: Computational Hemodynamic Modeling of Pediatric Cardiovascular Diseases.
- Ursula Anna Trigos-Raczowski**, Field of Specialization: Applied and Interdisciplinary Mathematics. Dissertation: Coexistence Through Life-History Variation Revisited in Tractable Models With Explicit Patch Aging And/or Size-Structure.
- Chatura Vaidya**, Field of Specialization: Ecology and Evolutionary Biology. Dissertation: Urban to Agro Ecosystems: Effects of Land Use on Pollinators and Ecosystem Services.
- Andrew Luke Valesano**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Using Intrahost Genetic Diversity to Understand Rna Virus Evolution and Transmission.
- Sarah Van Cleve**, Field of Specialization: English Language and Literature. Dissertation: Misreading Maps: Maps and the British Novel in the Age of the Ordnance Survey.
- Matthew Campbell Vedrin**, Field of Specialization: Environmental Engineering. Dissertation: Investigating Full-Scale Distribution System Flushing Practices for Better Drinking Water Quality Management.
- Alejandro Vigo Camargo**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Quantitative Models for Managing Multi-Node Store Replenishment Logistics in the Fast-Food Supply Chain.
- Emily Hong-Nhi Vu**, Field of Specialization: Nuclear Engineering and Radiological Sciences. Dissertation: A Condensed History Model for Photon-Electron Transport in Binary Markovian-Mixed Media.
- Nicky Wakim**, Field of Specialization: Biostatistics. Dissertation: Methods for Summarizing and Imputing High-Frequency Digital Biomarkers in the Context of Longitudinal Data Analysis.
- Logan Alexander Walker**, Field of Specialization: Biophysics. Dissertation: A Microscopy and Bioinformatics Toolkit for High-Throughput Connectomics Studies.
- Xinpeng Wang**, Field of Specialization: Mechanical Engineering. Dissertation: Scenario-based Safety Evaluation of Highly Automated Vehicles.
- Jessica Jo Waninger**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Targeting RAS and EGFR Driven Cancers.
- Valerie Nicole Washington**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Examining the Influence of Natural Hazards on Human Behavior.
- Kathryn Amanda Wataha**, Field of Specialization: History. Dissertation: The Inaudible Sounds of Science: Animals and Media from the Galton Whistle to Bat Echolocation.
- Field Watts**, Field of Specialization: Chemistry. Dissertation: Investigating Instructional Strategies To Support and Elicit Organic Chemistry Students' Reasoning.
- Nicholas Graham Wawrykow**, Field of Specialization: Mathematics. Dissertation: Higher Order Representation Stability and Disk Configuration Spaces.
- Kristina Weaver**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: From Food to Phenotype: How Hungry Flies Eat and Age.
- Chris R. Wentland**, Field of Specialization: Aerospace Engineering. Dissertation: Robust and Scalable Projection-based Reduced-order Models for Simulations of Reacting Flows.
- Mathew Whittlesey**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Advanced Techniques for Spectral and Temporal Ultrashort Pulse Synthesis in Coherent Pulse Stacking Amplification.
- Andrew Ross Willmer**, Field of Specialization: Pharmaceuticals. Dissertation: Impacts of the Immune System on Small Molecule Pharmacokinetics.
- Jesse William Wotring**, Field of Specialization: Medicinal Chemistry. Dissertation: Rapidly Translational Drug Discovery Using High Content Imaging: Applications to Non-Alcoholic Fatty Liver Disease and the COVID-19 Pandemic.
- Neil Wu**, Field of Specialization: Aerospace Engineering. Dissertation: Practical Appropriate Fidelity Optimization for Large-scale Multidisciplinary Aircraft Design.
- Nadab Habtamu Wubshet**, Field of Specialization: Mechanical Engineering. Dissertation: Mechanophenotyping Actin Networks in Minimal Cell Models.
- Zhen Xu**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Ultrafast Charge Separation and Relaxation in Novel Nanostructures.
- Yishu Xu**, Field of Specialization: Chemistry. Dissertation: Boron-Catalyzed Regio- and Stereoselective Glycosylation via Fluoride Migration.
- Dongxiao Yan**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Flexible Neural Interfaces: Reconfigurable Multimodal Origami Probe and Microneedle Electrode Array.
- Shen Yan**, Field of Specialization: Mechanical Engineering. Dissertation: Exploring Nanoscale Energy Transport and Conversion with Advanced Scanning Probe Microscopy.
- Benjamin Albert Yang**, Field of Specialization: Biomedical Engineering and Scientific Computing. Dissertation: Towards Defining Principles of Cell Fate Plasticity.
- Kelly Zhu Young**, Field of Specialization: Molecular and Integrative Physiology. Dissertation: NOTCH3 Protein Processing and Aggregation in Inherited Cerebral Small Vessel Disease.
- Shuzhou Zhang**, Field of Specialization: Physics. Dissertation: Observation of Electroweak VBS ZZ Production and Search for New Gauge boson Z' in four-lepton Final State with the ATLAS Experiment.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Doctor of Philosophy

Boya Zhang, Field of Specialization: Epidemiological Science. Dissertation: The Association of Long-term Air Pollution with Incident Dementia and Loss of Independence in Late Life.

Shiyu Zhang, Field of Specialization: Survey and Data Science. Dissertation: Combining Adaptive Survey Design with Post-Survey Weighting Adjustment.

Xiangyu Zhao, Field of Specialization: Electrical and Computer Engineering. Dissertation: Monolithic Microscale Gas Chromatographs with Integrated Gas Pumps.

Xiaoyang Zhong, Field of Specialization: Materials Science and Engineering. Dissertation: Mechanistic Studies into Interfacial Interactions via Chemical Vapor Deposition Polymerization.

Wenbo Zhou, Field of Specialization: Civil Engineering. Dissertation: Vegetation Distribution and Biophysics, Permafrost, and Feedback Mechanisms to Arctic Change.

Bradley Zykoski, Field of Specialization: Mathematics. Dissertation: A Polytopal Decomposition of Strata of Translation Surfaces.

Certificate of Graduate Studies

Computational Discovery and Engineering

Tse-Shao Chang
Nicholas Joseph Galioto
Tryaksh Gupta

A. Westley McMillan
Seonho Woo

Extended Reality

Zelda Hu
Zejun Wu

Survey and Data Science

Ying He
Suzy Bernice McTaggart

Master of Science

Chemical Biology

Jiying Liu
Junyao Ma
Miguel Angel Nieves Santiago
Merlinda-Loriane Deladem Sewavi
Thaarini Swaminathan
Rebecca Suzanne Taylor
Jessica Grace Thomashow
Katherine Rose Wormmeester

Survey and Data Science

UNIVERSITY OF MICHIGAN GRADUATES

AUGUST 2023

The following is a preliminary list of the candidates for degrees
to be granted upon completion of formal requirements.

HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Michael J. Solomon, Dean and Vice Provost for Academic Affairs–Graduate Studies

Certificate of Graduate Studies

Extended Reality

Chengxiang Li

Master of Science

Chemical Biology

Matt DeMaio

Shuqi Zhao

COLLEGE OF LITERATURE, SCIENCE, AND THE ARTS

Founded in 1841, Anne Curzan, Dean

Bachelor in General Studies

Dylan Amaro
Razaq Anibaba
Jonathan James Browne
Stanley Browning

Quareese Duane Calhoun
Hanna Lonia Hearn
Steven Jacovitch
Justin Robert Kasieta

Daniel K. Min
Dalton Robert Pelath

Bachelor of Arts

Aasem Abdulrazzak
Ali Hasan Al-Ogaili
Mustafa Al-Ogaili
Nusrat Atika
Laurel Elizabeth Baty
Cayden J. Beardslee
Ruhena Begum
Christian Berends
Kayla Marie-Gayle Bertrand
Matthias Tanner Black
Zoe Ilse Grace Brown
Anna Margaret Campbell
Ruth M. Carranza
Edra Cela
Michael Anthony Celsi
Ellen Chaney
Siyu Chen
Haneul Chun
Lucy Benson Clarke
Zoi Rk Crampton
Charles Trevor Cross
Joya A. Dardashti
Prahaz Pranav Dave
Kailana Flora Dejoie
Leah Joy DeVries
Jessica Doernte
Dania Elsiddig
Alica K. Finley
Madison Katrina Flood
Marie Louise Gallagher
Kaleigh M. Garrish
Megan Elizabeth Glassner
Sara Victoria Gleason
Abigail Joana Gonzalez
Cari Michelle Griffin
Catrina Alexis Guenther
Ciara Rebecca Harris
Keshawn Jaivon Harris

Nina Jo Hashbarger
Makenzie Elizabeth Hazard
Spencer P. Hellier
Jennifer Hernandez
Andrea Lynn Herrmann
Megha Jain
Brock David Jones
Nia Jones
Nadia Kaur Judge
Dionisis Kefalonitis
Joohyun Kim
Sara Kim
Kevin Patrick Kresnak

Nader Ridn M. Almutairi
Rehab Saud S. Alreddadi
Khawlah Ali A. Faydhi
Myrian Kashima

COLLEGE OF PHARMACY

Founded in 1876, Vicki Ellingrod, Dean

Bachelor of Science in Pharmaceutical Sciences

Jaylyn Kelley
Amy Mawi
Melanie Vocelle

Doctor of Pharmacy

Meg Catherine Chen
Levi Timothy Hooper

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Master of Science

Integrated Pharmaceutical Sciences

Shalaka Ravindra Abhyankar
Jaynab Ruksana Akhtar

Yue Cheng
Hao-Ping Chiang
Ruisi Leng
Ziyi Lu

Gaocong Lyu
Lingwei Lyu
Nicholas Brandon Tong Yang

GERALD R. FORD SCHOOL OF PUBLIC POLICY

Founded in 1914, Celeste Watkins-Hayes, Interim Dean

Bachelor of Arts in Public Policy

Sharifa Mohamed Doudi

Minor in Public Policy

Kailana Flora Dejoie
Nicole Lee France

Recommended jointly by the school faculty and the Executive Board of the Graduate School

Certificate of Graduate Studies

Science, Technology and Public Policy

Sarah Elizabeth Ackenhusen

Master of Public Policy

Public Policy

Aissa Laouan Wandarama

COLLEGE OF ENGINEERING

Founded in 1915, Alec D. Gallimore, Robert J. Vlasic Dean of Engineering

Bachelor of Science in Engineering

Biomedical Engineering

Lis Roxana Martinez-Bernal
Jared Matthew Pavlick
Sydney Jayne Smith
Jayanth Sannuti Tatikonda

Chemical Engineering

Emily Jacqueline Diehl
Elizabeth Jane Hoyt
Austin Tauber

Computer Engineering

Hanna Dale Chapin

Computer Science

An alum of the University of Michigan.

It's a title that will stick with you from this day forward. On behalf of the Alumni Association of the University of Michigan, welcome. We are so glad to have you among our ranks.

Today is a momentous day. Celebrate it. Relish in it. But tomorrow, when you begin to figure out what comes next, we are here for you.

As a graduation gift, we are giving each of you a complimentary one-year membership to our organization. Keep an eye on your inbox for a message on how to access it.

We'll help you stay connected to our powerful network of more than 655,000 alums in 180 countries around the world. As a member, you'll have access to nearly 115 local clubs, dozens of Go Blue Rewards discounts with brands like The M Den, access to our beloved Camp Michigania, a subscription to the Michigan Alum magazine, and so much more. Visit alumni.umich.edu to explore our resources and programming.

But perhaps most importantly at this point in your life, we have a deep well of career resources to help you get started on your professional journey. **Scan the QR code below to learn more about our offerings, including access to career coaches, webinars to learn how to write killer resumes, a job board, and more.**

Congratulations and welcome to our Michigan alum community! Forever, Go Blue!

Kathleen Wilson-Thompson, '79
Chair of the Board of Directors
Alumni Association of the
University of Michigan

Ayanna McConnell
Acting President and CEO
Alumni Association of the
University of Michigan

Let us help you land your dream job.

The Yellow and Blue

Michael W. Balfe

4 Sing to the col-ors that float in the light; Hur-rah for the Yel-low and

7 Blue! Yel - low the stars_ as they ride thro' the night, And

10 reel in a rol - lick - ing crew Yel - low the fields where

13 rip - ens the grain, And yel - low the moon on the har - vest_ wain; Hail!

Hail to the col-ors that float in the light; Hur-rah for the Yel-low and Blue!

Nondiscrimination Policy Statement

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action. The University of Michigan is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be addressed to the Senior Director for Institutional Equity, and Title IX/Section 504/ADA Coordinator, Office for Institutional Equity, 2072 Administrative Services Building, Ann Arbor, Michigan 48109-1432, 734-763-0235, TTY 734-647-1388, institutional.equity@umich.edu. For other University of Michigan information call 734-764-1817.

Freedom of Expression Statement

Thank you for attending this program. The University of Michigan strives to create a truly open forum, one in which diverse opinions can be expressed and heard.

It is the right of members of the university community, speakers, artists and other invited guests to express their views and opinions at the university. We will protect the right of individuals to speak or perform, and the rights of those members of the University community who wish to hear and communicate with an invited speaker or artist.

Protesters also have a right to express their opposition to a speaker in appropriate ways, both within the confines of this building and outside the facility. However, protesters must not interfere unduly with communication between a speaker or artist and members of the audience.

If the hosts of this event or university representatives believe that protesters are interfering unduly with a speaker or performer's freedom of expression, those protesters will be warned. If the warnings are not heeded and the interference continues, then the individuals responsible may be removed from the building.

We reaffirm these policies in order to most fully protect the rights of free expression for speakers, performers and protesters alike, as set forth by our Civil Liberties Board in our Student Handbook, and in accordance with the U-M Standard Practice Guide; Regents' Ordinance Article XII, Section 1; and state statutes.

THE YELLOW AND BLUE

Sing to the colors that float in the light;
Hurrah for the Yellow and Blue!
Yellow the stars as they ride thro' the night,
And reel in a rollicking crew;

Yellow the fields where ripens the grain,
And yellow the moon on the harvest wain – Hail!

Hail to the colors that float in the light;
Hurrah for the Yellow and Blue!

THE VICTORS

Hail! to the victors valiant,
Hail! to the conqu'ring heroes,
Hail! Hail! to Michigan
the leaders and best.

Hail! to the victors valiant,
Hail! to the conqu'ring heroes,
Hail! Hail! to Michigan
the champions of the West!
