**SPRING COMMENCEMENT 2026**

Honoring the  
Class of 2026

# SPRING COMMENCEMENT UNIVERSITY OF MICHIGAN

**MAY 2, 2026**  
MICHIGAN STADIUM

This program includes a list of the candidates for degrees to be granted upon completion of formal requirements. Candidates for graduate degrees are recommended jointly by the Executive Board of the Horace H. Rackham School of Graduate Studies and the faculty of the school or college awarding the degree. Following the School of Graduate Studies, schools are listed in order of their founding. Candidates within those schools are listed by degree then by specialization, if applicable.

## HONORARY DEGREE RECIPIENT

**Shirin Ebadi**

*Doctor of Laws*

Shirin Ebadi's relentless pursuit of justice has established her as one of the most vital moral voices of our time. As the first Muslim woman and first Iranian to become a Nobel Peace Prize laureate, she is renowned for her courageous defense of women, children, and political prisoners in Iran, setting a global standard for human rights advocacy. Her career stands as a powerful testament to the role of law in protecting human dignity, even in the face of profound adversity.

Ebadi grew up in Tehran where she attended school, and graduated with her law degree in 1968. She was appointed a judge in 1969 and was named chief justice of a district court six years later, the first woman and youngest lawyer to hold the position. The Iranian Revolution of 1979 changed everything. She was dismissed from her position when the newly formed government forbade women access to higher education, decision-making roles, and, consequently, the ability to serve as judges. Demoted to a clerk in the very court she once presided over and unable to tolerate the discrimination towards herself or her female colleagues, she applied for early retirement. After having her application to practice law rejected for years, she successfully obtained her license in 1992 and established a private law practice devoted to defending human rights. In defiance of Iranian authoritarianism, she took on highly visible, politically sensitive cases, including pursuing justice for an Iranian-Canadian journalist killed in prison; political activists assassinated by security forces; and a student killed during the 1999 Tehran University protests. Authorities arrested her in 1999 for "spreading falsehoods against the Islamic Republic." She served 18 months in prison, including 25 days in solitary confinement, and had her law license suspended for five years. In 2003, the Norwegian Nobel Committee awarded her its Peace Prize for her fearless advocacy for human rights. With funds from receiving the Nobel Prize, she established the Defenders of Human Rights Center, one of the most prominent organizations of its kind in Iran. However, in 2008, the center was raided and closed by security forces. Given the repression and imprisonment of activists and colleagues, she decided, during a trip to Spain in 2009, not to return home. Authorities seized her personal property, including her Nobel award. She lives in London and has authored four books, including *Iran Awakening* and *Until We Are Free*.

## HONORARY DEGREE RECIPIENT

**Ingeborg Hochmair**

*Doctor of Engineering*

Ingeborg Hochmair is an electrical engineer and medical-device manufacturing executive who led the creation of an auditory neuroprosthesis — the cochlear implant, which, for the first time in human history, enabled the deaf to hear. In developing and advancing this tool for one of the five senses, she has made connection and communication possible, expanding opportunities for countless individuals with hearing loss.

Dr. Hochmair, a native of Austria, knew at age 13 that she wanted to be a biomedical engineer. In 1975, she was attending the Technical University of Vienna and was poised to become the first woman in Austria to earn a PhD in electrical engineering when she was invited by her friend (and future husband), Erwin Hochmair, and a surgeon colleague, Kurt Burian, to participate in a project focused on developing a cochlear implant that would become the foundation for her dissertation. Two years later, the first multi-channel device they developed was successfully implanted. Her dissertation began what she describes as an “urgent,” lifelong quest to expand access to sound and communication for those with severe hearing loss. In 1979, after completing her PhD, a Fulbright Fellowship took her to Stanford University’s Institute for Electronics in Medicine. She returned to the University of Innsbruck’s Institute of Applied Physics Electronics in 1986, where she resumed and expanded her research on multichannel cochlear implants, helping advance the technology from experimental development toward clinical application. In 1989, the couple left the university to found MED-EL, a global medical technology company aiming to continue improving hearing devices and create new possibilities for connection and communication. MED-EL now operates in 175 countries and offers solutions for every type of hearing loss. According to the World Health Organization, an estimated 430 million people around the world, including 34 million children, live with disabling hearing loss. Today, because of the pioneering work done by Dr. Hochmair, profoundly and severely deaf children, even those under a year old, have increased access to cochlear implant technology, expanding their options for communication, learning, and participation across a range of educational settings. Dr. Hochmair holds 40 patents and has received numerous honors, awards, and prizes, including the Lasker-DeBakey Clinical Medical Research Award (2013) and the Russ Prize for Bioengineering (2015), both of which recognize the impact she has made on society to improve the human condition.

## HONORARY DEGREE RECIPIENT

**Michael Phelps**

*Doctor of Laws*

Michael Phelps is the most decorated athlete in Olympic history, earning 28 medals overall with 23 of those being gold — the most ever awarded to one individual — and setting 39 world records over the course of his career. As one of the nation's most respected champions, he has long been admired around the world. His magnanimous spirit and enduring drive continue to propel him forward as he advances water safety and healthy living for children and families worldwide.

Phelps, a Baltimore native, trained and studied sports marketing and management at the University of Michigan from 2004–2008. He did not swim for U-M, having already gone professional, but instead served as a volunteer assistant swim coach. Even after gaining worldwide recognition, Phelps has been a steadfast supporter of the University throughout his professional career, serving as honorary football captain for the game against Penn State in 2022 and cheering on fellow athletes on social media. His passion for high-level competition was evident in his consistent success over the course of his swimming career. He participated in five consecutive Summer Olympics from 2000 to 2016: Sydney, Athens, Beijing, London, and Rio de Janeiro. Setting records for the most gold medals in individual events and achieving a singular historical triumph with eight gold medals in Beijing 2008, he redefined the limits of athletic possibility.

In 2008, Phelps founded the Michael Phelps Foundation to promote swimming as a means to educate children on water safety, champion mental and physical health, and encourage the pursuit of dreams. As an early advocate for athletes battling mental health challenges, he became one of the strongest voices bringing this critical conversation to the forefront of sports and popular culture. He further advanced this work as Executive Producer and narrator of the HBO documentary *The Weight of Gold*, which explores the mental health challenges Olympic athletes often face. The Foundation's signature IM Program is implemented through partnerships with Special Olympics and the Boys & Girls Clubs of America. After becoming a Special Olympics global ambassador in 2011, Phelps helped expand the IM Program into a global collaboration promoting inclusion, personal growth, and a lifelong love of swimming, reaching thousands across 38 countries.

## HONORARY DEGREE RECIPIENT

### **Jalen A. Rose**

*Doctor of Humane Letters*

Jalen A. Rose, born and raised in Detroit, is a celebrated athlete, media innovator, cultural storyteller, and civic-minded philanthropist. From the moment he stepped onto the national stage as a key member of the University of Michigan's iconic Fab Five, he has exemplified how talent and visibility, matched with purpose, can broaden opportunity and strengthen community.

Rose first captured the nation's attention in the early 1990s, helping define a landmark era in Michigan basketball whose influence extended far beyond the court. In 1994, he was selected in the first round of the NBA Draft and went on to play 13 seasons in the league. Named the NBA's Most Improved Player in 2000, he helped lead the Indiana Pacers to the NBA Finals, distinguishing himself as a difference-maker at the sport's highest level. Since retiring from basketball, Rose has created a blueprint for how athletes can transition their professional sports careers into successful platforms for systemic social change — expanding the very definition of leadership in modern athletics.

Rose has been a driving force behind Detroit's cultural resurgence. In 2011, he founded the Jalen Rose Leadership Academy, an open-enrollment, tuition-free public charter high school located on the northwest side of Detroit. The Academy now serves more than 400 students annually and over 1,000 alumni, with a 95% graduation rate and 100% college and postsecondary acceptance rate. He later co-founded Same Page Entertainment, a multimedia production company that develops, produces, finances, and uplifts stories celebrating culture and sparking conversations that bring communities closer together.

Rose's influence also spans media and entertainment. Before it was common for active athletes to work in broadcasting, he became the first current NBA player to serve as a basketball analyst, appearing on FOX Sports' *The Best Damn Sports Show Period* and covering the NBA Playoffs for TNT. He later helped launch ESPN's *Get Up* as an original host and contributed across *SportsCenter* and *NBA Countdown*. He spent 18 years as a lead analyst for ABC/ESPN, most notably as co-host of the award-winning *Jalen & Jacoby* podcast, and today he continues as a college basketball analyst for TNT Sports with guest appearances on *Inside the NBA*. In 2015, he released the New York Times best-seller *Got to Give the People What They Want: True Stories and Flagrant Opinions from Center Court*. He also produced the critically acclaimed documentary *The Fab Five* for ESPN's 30 for 30 franchise.

A member of the Board of Directors for the National Basketball Players Association Foundation, Rose has been honored with awards including the NBA's Bob Lanier Community Impact Award, the National Civil Rights Museum's Sports Legacy Award, the Inaugural Charter School Trailblazer Award, the Naismith Basketball Hall of Fame's Mannie Jackson Basketball Human Spirit Award, and the University of Michigan's President's Medal of Excellence. He was inducted into the Detroit High School Hall of Fame and the Michigan Basketball Hall of Fame, was named Team ESPN Commentator of the Year, and received the 2025 Naismith Basketball Hall of Fame Ice Cube Impact Award.

## HONORARY DEGREE RECIPIENT

**Kent D. Syverud**

*Doctor of Laws*

Kent D. Syverud is a distinguished university leader, legal scholar, and teacher whose career has strengthened the institutions he has served and widened opportunities for the students and communities they support. A University of Michigan alumnus and longtime member of the Michigan Law faculty, he exemplifies the rare combination of rigorous intellect, steady judgment, and public-spirited leadership that advances academic excellence and the common good.

Syverud's path in law and higher education has been defined by an enduring commitment to principled governance, thoughtful reform, and the humane practice of leadership. After earning his Juris Doctor from Michigan Law in 1981 and a master's degree in economics from the University of Michigan in 1983, he practiced law in both public and private sectors and clerked for the late U.S. Supreme Court Justice Sandra Day O'Connor. He returned to Ann Arbor in 1987 as an assistant professor of law, was promoted to professor in 1992, and served as associate dean for academic affairs from 1995 to 1997—

helping guide Michigan Law with a teacher's care for students and a scholar's respect for the integrity of institutions. An elected member of the American Law Institute, Syverud has advanced expertise in negotiation, civil litigation, dispute resolution, and higher education.

As dean of Vanderbilt University Law School and later as dean and Ethan A.H. Shepley Distinguished University Professor at Washington University in St. Louis, Syverud demonstrated a capacity to strengthen academic communities while fostering innovation and excellence. In 2014, he became the 12th chancellor and president of Syracuse University, leading the university through a period of transformational progress marked by record applications and enrollment, strategic growth in research and STEM, and expanded pathways for students to thrive. Syverud's leadership has paired vision with measurable results: strengthened financial stability with the endowment more than doubling to over \$2 billion; the successful completion of the Forever Orange Campaign, the largest fundraising effort in the university's history; the hiring of more than 700 faculty since 2018; and major campus projects that enhanced student life, health and wellness, and the vitality of the university's historic campus. Syverud's leadership connected Syracuse's philanthropic momentum to consequential, place-based innovation. Through the campaign, the university strengthened long-term capacity—helping fuel faculty hiring, student-centered facilities, and targeted initiatives that aligned Syracuse's academic strengths with regional and national needs, positioning Syracuse to help build the workforce and research ecosystem required to sustain it, including support for semiconductor-focused programs and the launch of the Center for Advanced Semiconductor Manufacturing. Within the same strategy, Syverud elevated Syracuse's nationally recognized commitment to veterans by supporting skill development, hiring, and the transition into advanced manufacturing roles tied to the region's growth.

## HONORARY DEGREE RECIPIENT

**Ronald N. Weiser**

*Doctor of Laws*

Ronald N. Weiser, a graduate of the Stephen M. Ross School of Business, is a real estate entrepreneur, a regent emeritus of the University of Michigan, a former ambassador to Slovakia, and a strategic philanthropist. The constant that unites these roles is his commitment to public service — to community at the local, state, federal, and international levels and to his alma mater.

Weiser earned his Bachelor of Business Administration in 1966 and pursued graduate work in business and law before founding McKinley Associates two years later. Since then, the Ann Arbor-based firm has become a national real estate investment company. He served as chairman and CEO until 2001 when President George W. Bush appointed him ambassador to the Slovak Republic. At the time, the Central European country was in the process of transitioning to a democracy. As ambassador, he was responsible for the well-being of all Americans in the country, including the intelligence services, the FBI, and the military. He visited all 138 cities to advocate for democracy and guide the nation's admittance to NATO and the European Union. Upon

his return, the Ross School honored him with the David D. Alger Outstanding Alumni Award. He was also named Citizen of the Year by the City of Chelsea, Michigan, and Distinguished Citizen of the Year by the Great Sauk Trail Council of Boy Scouts. In 2016, he was elected a Regent of the University of Michigan and served for eight years. His fellow regents praised him for his leadership, dedication to public service, financial acumen, and generous support of the University. A lifelong philanthropist, he has donated over \$300 million to U-M, supporting specialized medical centers, academic centers and athletic programs — including wrestling, track, and basketball — the engineering program at U-M Dearborn, and scholarship programs at U-M Flint. He has volunteered and/or has led numerous nonprofit organizations, including United Negro College Fund of Washtenaw County and the Purple Rose Theater, Gerald R. Ford Presidential Foundation, and the Michigan Theater Foundation. Currently he is cochair of the campaign to renovate and expand the Ronald McDonald House at Michigan Medicine's Mott Children's Hospital.

At the U-M, he founded the Weiser Centers for Europe & Eurasia, Emerging Democracies, Diplomacy, and Real Estate; at the Medical Center, he founded the Centers for Food Allergy, Prostate Cancer, Breast Cancer, as well as the Diabetes Institute. He was also instrumental in the founding of the Chad Carr Pediatric Brain Cancer Center and the Ginsberg Center for Service & Learning.

## STUDENT SPEAKERS

### **Alicia K. Clark**

*Senior, College of Literature, Science, and the Arts*

Alicia Clark of Tecumseh, Michigan, has written, directed, produced, edited, choreographed, and acted in a variety of productions and media projects during her studies as a Film, Television, and Media major. She will also graduate with a sub-major in Screenwriting and a minor in Performing Arts Management and Entrepreneurship. She has received academic honors for a total of five semesters and has five student films to her credit. At WOLV-TV, the student-run television station, she served as Social Media and Marketing Director and then assumed the role of President. She has studied Managing Global Arts Organizations and studied in France to learn about international and French cinema. Since 2023, she has worked for the School of Kinesiology and has helped build its social media presence. An accomplished dancer, she teaches part-time to students ages two to 17. Upon graduation, Alicia plans to move to New York or Los Angeles to pursue a career within the film and television industry.

### **Liam Bijan Reaser**

*Senior, College of Literature, Science, and the Arts*

Liam Bijan Reaser of Sterling, Virginia, will graduate with Highest Honors in Political Science and Computer Science, and is commissioning as a Second Lieutenant in the United States Space Force. He is a James B. Angell Scholar, having achieved an “A” record across seven consecutive semesters of study, and was a Department of Defense Boren Scholar in Seoul, Republic of Korea, in 2024. He serves as president of the University’s chapter of the Alexander Hamilton Society, a non-partisan, not-for-profit national organization for students pursuing foreign policy and national security careers. Previously, as the University’s Student General Counsel, he oversaw student representation in 41 cases before student government judicial bodies and policy compliance of a \$1.3 million budget. Additionally, as cadet deputy commander of his military training unit, he led training, discipline, and professional development for more than 60 students at seven universities. Following his graduation, Liam will enter active duty service in the U.S. Space Force.

### **Cassandra “Cassie” D. Turner**

*PhD Candidate, Horace H. Rackham School of Graduate Studies*

Cassandra “Cassie” Turner of Chicago, Illinois, merges scientific computing with deep knowledge of healthcare and learning systems to fundamentally improve access to treatments and effectiveness of medical care for prevention and management of metabolic health conditions. A Wolverine through and through, she holds a bachelor of business administration from the Stephen M. Ross School of Business (2005) and a master of social work (2009). Her career arc began as a business analyst for a strategic consulting firm. She then worked as a licensed clinical therapist and behavioral health administrator for several years. Before beginning her doctoral program, she worked as a research associate in Michigan Medicine’s Department of Internal Medicine and at the Veterans Administration Ann Arbor Center for Clinical Management Research. At each stage of her education, she has garnered awards, including membership in Sigma Xi, the Scientific Research Honor Society. Post PhD, Cassie will catch up on much-needed rest before beginning a tenure-track faculty position this July at the University of Michigan Medical School.

## THE UNIVERSITY MACE

The University's mace is a symbol of academic scholarship, integrity, and authority. It is carried by the chair of the University Senate at the head of academic processions on such important ceremonial occasions as commencements, convocations, and inaugurations, representing the connection of all faculty members to important academic rituals. The mace being used today was given to the University in 1968 by the Senior Board, representing all the undergraduate schools and colleges. Crafted of red oak and trimmed with silver, the mace features the seals of the University and of the State of Michigan. Also engraved on the mace are the names of the University Presidents.

## THE UNIVERSITY SEAL

The lantern represents liberal learning and symbolizes enlightenment. The banner, "Artes, Scientia, Veritas," encourages each student to commit to in-depth and systematic study, through disciplinary and professional knowledge. The rays of the sun represent personal growth. The outer rings symbolize social responsibility.

## ACADEMIC COLORS

Each discipline is represented by a unique color. Mingled colors distinguish combined curriculums.

Architecture and Urban Planning	<i>blue-violet</i>
Business Administration	<i>drab</i>
Dentistry	<i>lilac</i>
Education	<i>light blue</i>
Engineering	<i>orange</i>
Environment and Sustainability	<i>russet</i>
Fine Arts	<i>brown</i>
Information	<i>lemon</i>
Kinesiology	<i>sage green</i>
Law	<i>purple</i>
Literature and Arts	<i>white</i>
Medicine	<i>green</i>
Music	<i>pink</i>
Nursing	<i>apricot</i>
Pharmacy	<i>olive green</i>
Philosophy	<i>dark blue</i>
Public Health	<i>salmon pink</i>
Public Policy	<i>peacock blue</i>
Science	<i>golden yellow</i>
Social Work	<i>citron</i>

## **ACADEMIC DRESS AND CUSTOM**

The colorful gowns and hoods worn by faculty members at commencement and other academic ceremonies represent the degrees, disciplines, and alma maters of the wearers. The American academic costume tradition, imported from England, dates to Colonial days.

### **Gowns**

Bachelor's or master's degree gowns traditionally are black, as are many doctoral gowns in the United States. Some universities prescribe that their graduates wear gowns of another solid color such as blue, crimson, or green. Gowns differ in sleeve cut and trim. For example, the bachelor's gown has long, pointed sleeves while the master's gown has oblong sleeves. Doctoral gowns, with their distinctive bell-shaped sleeves, feature velvet panels down the front and around the neck, as well as crossbars of velvet on the sleeves. Colored trim denotes the field or discipline in which the degree was earned. Usually only a single degree from one institution is indicated by a garment. If more than one degree is held, the gown and hood of the higher or highest degree usually are worn.

### **Hoods**

The hood most precisely describes the wearer's level of degree earned, the major field of learning, and the alma mater. The level of the degree held is indicated by the hood's shape and size and the width of its velvet or velveteen trimming. The bachelor's, master's, and doctor's hoods are 36 inches, 42 inches, and 48 inches long, respectively. The velvet trim is two, three, and five inches wide, with the narrowest being for the bachelor's hood and the widest for the doctor's hood. The color of trim on the hood, as on the gown, identifies the major field of learning in which the degree was awarded. The hood is lined with the official colors of the college or university conferring the degree.

### **Caps**

Caps vary in style from the traditional black mortarboard to eight-, six-, and four-corner tams, and Elizabethan-style caps. The mortarboard may be of any appropriate material, such as cotton, poplin, rayon, or silk, to match the gown. Velvet is reserved for holders of doctorates.

## **SCHOOLS AND COLLEGES OF THE UNIVERSITY**

The order of presentation is by the year of founding.

### **College of Literature, Science, and the Arts**

The College of Literature, Science, and the Arts, founded in 1841, was the first duly constituted college of the University of Michigan. Today, with more than 15,000 undergraduate and 2,000 graduate students, LSA is the largest of the University's schools and colleges, and it is still the heart of the campus. Distinguished in the humanities since its earliest years, the college became preeminent in the natural sciences during the early 20th century and went on to become a world leader in social science research. The college has always been dedicated to providing a richly diverse liberal arts education that prepares students to lead fulfilling lives as responsible citizens within a wide range of professional careers.

### **Medical School**

Since opening its doors in 1850, the Medical School has been a leader in medical education, patient care, and biomedical research. In addition to its professional doctor of medicine program, the Medical School offers master's and doctoral degrees in the basic medical sciences. The school established the nation's first university-owned and -operated teaching hospital and created the first departments of pharmacology and human genetics in the United States. It also played an important role in the development of the electrocardiogram and in the development of iodized salt as a goiter preventive. The Medical School was among the first major American medical schools to graduate women and African Americans; today there are more practicing M.D.s from the University of Michigan than from any other medical school in the United States.

### **Law School**

Founded in 1859, the Law School awarded its first bachelor of laws degrees in 1860. In 1870, the school became the second in the nation to confer a law degree on an African American candidate and the first major law school to admit a woman. In 1871, one of the school's graduates became the first woman with a law degree to be admitted to the bar. A national law school from its earliest years, the school's graduates work in every state of the union and in more than 73 countries, in business, as practitioners and professors, as legislators and members of Congress, and as distinguished civil servants and members of the judiciary.

### **School of Dentistry**

Established in 1875, the School of Dentistry first granted the professional degree, doctor of dental surgery, the following year. A national leader in the training of professional dentists and long active in oral and craniofacial research, the school offers the doctor of dental surgery, master's degrees, and graduate clinical programs in several dental specialties and general dentistry. A doctoral degree is offered in oral health sciences and in an interdepartmental program in biomaterials. The School of Dentistry also offers baccalaureate and master's programs in dental hygiene.

### **College of Pharmacy**

As the first College of Pharmacy in the United States at a public institution, it was first established as a department in 1868 and later a college in 1876. The college is consistently top-ranked nationally and has a distinguished history of leading at pharmacy's edge, making significant discoveries that have advanced the field and improved health outcomes. A long history of innovators, including the Upjohn, Lilly, and Walgreens family members have graduated from the college. It also founded Rho Chi, the Pharmacy Honor Society, Phi Delta Chi, pharmacy's professional fraternity, and the first hospital residency program. Today, the college has an average annual enrollment of ~600 students: 125 bachelors in pharmaceutical sciences, 325 doctors of pharmacy, and 140 masters in integrated pharmaceutical sciences and doctors of philosophy across three programs with research expertise in drug discovery, drug development, drug utilization, and health outcomes.

### **Horace H. Rackham School of Graduate Studies**

The Horace H. Rackham School of Graduate Studies oversees and coordinates graduate education, bringing together graduate students and faculty from across the institution to experience and take full advantage of the University as a scholarly community. The University awarded its first master of arts degree in 1849, first master of science degree in 1859, and first doctor of philosophy degree in 1876. Organized as a department in 1892, the School of Graduate Studies became an autonomous unit in 1913. In 1935, a generous gift from Horace H. and Mary A. Rackham included the site and construction of the Rackham Building for graduate studies and a substantial endowment for carrying on graduate work and research.

## **Gerald R. Ford School of Public Policy**

The School of Public Policy prepares graduates for distinguished careers in policy analysis and management, and promotes improved public policy through research. Its curriculum combines rigorous grounding in contemporary social science, opportunities to develop expertise in a variety of policy domains, and practical experience. Graduates work in government and the private and nonprofit sectors, using their knowledge, judgment, and new ideas to solve social problems, both domestic and international. The school traces its history to the Institute of Public Administration, established in 1914 as one of the first programs in municipal administration in the United States. In 1999, the regents approved the naming of the school in honor of Gerald R. Ford, the 38th President of the United States and a 1935 graduate of the University.

## **College of Engineering**

Instruction began with a class in civil engineering in 1854. Historically, the College of Engineering has been a leader in establishing departments in emerging fields, including metallurgical engineering, naval architecture and marine engineering, electrical engineering, chemical engineering, aeronautical engineering, nuclear engineering, and computer engineering. Today, the college and its 60,000 alumni provide leadership in various technologies, healthcare, business, and the sciences, improving the quality of people's lives around the world.

## **Marsal Family School of Education**

The Marsal Family School of Education was founded in 1921, 42 years after the University established the first chair in any United States collegiate institution devoted to the "science and art of teaching." The school prepares students for professional careers in teaching and administration, and offers advanced training for researchers and practitioners at all levels of education. Teacher diplomas were first offered in 1874; the first master's degree in education was conferred in 1891, the first Ph.D. in 1902, and the first Ed.D. in 1938.

## **Stephen M. Ross School of Business**

Formally established in 1924, the Stephen M. Ross School of Business operates on the mission of building a better world through business. Today, at all levels of instruction — undergraduate, graduate, and executive education — its programs rank among the world's top business schools, preparing students to excel and lead in a dynamic world. Each year, as many as 1,600 new Michigan Ross graduates enter careers in business and academia, joining the more than 55,000 who already serve in leadership positions in business, government, and academic institutions throughout the world.

## **School for Environment and Sustainability**

The clear-cutting of Michigan's densely forested wilderness was well underway when the University of Michigan began offering courses in forestry in 1881—the first university in the United States to do so. The year 1903 saw the creation of a Department of Forestry, forerunner of today's School for Environment and Sustainability (SEAS). The school's students and faculty organized the famous 1970 Teach-In on the Environment (the prototype of Earth Day), and incubated the scholarly disciplines of Environmental Justice, Environmental Education, and Environmental Informatics. From its inception as a forestry school to the interdisciplinary institution it is today, SEAS has always prepared leaders to understand and solve the major environmental challenges of the era.

## **School of Music, Theatre & Dance**

Consistently ranked among the top performing arts schools in the nation, and one of the oldest, the School of Music, Theatre & Dance is committed to creating an environment of educational and artistic excellence, nurturing creativity, academic integrity, and professionalism in its students and faculty. With degrees offered at the bachelor's, master's, and doctoral levels, the School is deeply engaged in the creation, practice, scholarship, and pedagogy of music, theatre, and dance. It fosters a spirit of social responsibility and principled entrepreneurship and serves the community and state of Michigan through public performances, cultural resources, arts education, and outreach programs.

## **A. Alfred Taubman College of Architecture and Urban Planning**

Michigan offered its first courses in architecture in 1876. The program became a department in 1913, and by 1931, the College of Architecture was established as a separate entity. During the 1940s, the college was one of the few schools in the country to consider research a necessary part of architectural education, and in 1946 it became the first to introduce a graduate program in urban planning. The college offers master of architecture, master of urban planning, and master of urban design degrees; bachelor of science and master of science degrees in architecture; and doctoral programs in architecture and in urban and regional planning. In 1999, the college was named in honor of A. Alfred Taubman, founder and chairman of The Taubman Company, Inc., and a longtime friend, supporter, and adviser to the college.

## **School of Nursing**

The University of Michigan School of Nursing (UMSN) is an international leader in the advancement of nursing knowledge and strategies to improve health care. In addition to the four-year BSN program and the second career in nursing program, UMSN has a robust offering of graduate programs. Students are prepared to be leaders in advanced clinical practice through our M.S.N. and post-baccalaureate Doctorate of Nursing Practice (DNP) programs. Students can also lead and effect change through the M.S.N. or post-masters DNP programs in systems, populations, and leadership. UMSN's prestigious Ph.D. and postdoctoral programs prepare nurse scientists to develop the knowledge necessary to support and advance nursing practice.

## **School of Public Health**

Founded in 1941 and ranked among the country's top public health schools, the University of Michigan School of Public Health educates more than 1,000 graduate and undergraduate students each year. With over 170 faculty and researchers across six departments and numerous collaborative centers and institutes, the school brings interdisciplinary, innovative solutions to complex health challenges, including chronic and infectious diseases, obesity and food insecurity, health care quality and cost, climate change and environmental factors, and socioeconomic inequalities and their impact on health. Compassion, innovation, and inclusion drive the faculty, staff, students, and 15,000 alumni of Michigan Public Health to pursue positive change and lasting impact on the health of the world.

## **School of Social Work**

The program in social work began in 1921, and was granted the status of a school in 1951. Faculty maintain high research productivity while teaching an innovative curriculum. At the master's level, the school prepares professional practitioners for work with individuals, children and their families, the aged, organizations, and communities. Students may focus their studies in the fields of substance abuse, mental health, education, child welfare, program evaluation, and public policy. The joint doctoral program in social work and social science is one of a kind and prepares students for academic and research careers. Graduates of both programs are found in leadership positions around the world. The School of Social Work consistently ranks as one of the best in the nation.

## **School of Information**

A formal program began in 1926, when the Department of Library Science was created in the College of Literature, Science, and the Arts. In 1948, offerings became entirely graduate and a doctoral program was inaugurated. Establishment of an independent school, committed to the interdisciplinary study of information and library principles, came in 1969. In response to the rapid change brought on by present technology, the school broadened significantly further in the 1990s. It now pursues a highly interdisciplinary approach to educate professionals who will serve as leaders in the information age. Recognizing this broader mission, the school was renamed the School of Information in 1996.

## **Penny W. Stamps School of Art & Design**

The Penny W. Stamps School of Art & Design traces its history at the University to visual arts education in the late 19th century, awarding its first degree in 1960, and becoming a University of Michigan school in 1974. In 2002, the school launched a unique curriculum that prompted the National Association of Schools of Art and Design to report, "The School of Art & Design and the University of Michigan have created an opportunity to lead the academic conversation in art and design in this country." The school prepares graduates for a broad range of creative professions through its undergraduate and graduate programs. Commitment to the integration of art and design, community engagement, international experience, connections to the academic resources of the University, interdisciplinary pursuit, and public presentation of creative work are required of all majors.

## **School of Kinesiology**

Kinesiology has been part of the University of Michigan curriculum since the turn of the 20th century and joined the ranks for the schools and colleges as an independent unit in 1984. Concentrations have the common thread of human movement and span a wide range including movement science, physical education, sport management, and athletic training. Kinesiology prepares undergraduates for careers as diverse as medicine and physical therapy to athletic administration, marketing, and law. Master's and doctoral students expand their opportunities in higher education, research, health care, public health or medicine, business, and law.

## **CANDIDATES FOR DEGREES AND CERTIFICATES**

The following is a list of the candidates for degrees to be granted upon completion of formal requirements. A candidate is listed alphabetically by degree, and in some cases also by field of specialization, under the school or college which awards the degree. In this program, candidates are presented in the order of which their respective schools or colleges were founded.

The Executive Board of the Horace H. Rackham School of Graduate Studies awards doctoral, master's, and some graduate professional degrees (e.g., master of public policy, master of urban planning). However, most graduate professional degrees, such as doctor of medicine, master of social work, etc., are awarded by the respective schools or colleges. The Graduate School does not offer course work, and advanced studies are conducted within the school or college of a candidate's area of specialization.

This program presents as complete and accurate a record of candidates for degrees as is possible as of the publication date.

## HORACE H. RACKHAM SCHOOL OF GRADUATE STUDIES

Founded in 1912, Michael J. Solomon, Dean and Vice Provost for Academic Affairs–Graduate Studies

### Doctor of Musical Arts

- Catherine Goode**, Field of Specialization: Music Performance. Dissertation: Considering the Classical Music Canon: Exploring, Expanding, and Embracing Vocal Repertoire from a Feminist Perspective.
- Ye Mee Kim**, Field of Specialization: Music Performance. Dissertation: Three Dissertation Recitals and Document.
- Zuhao Liu**, Field of Specialization: Music Performance. Dissertation: Piano Performance Dissertation.
- Paige Yvette Madden**, Field of Specialization: Music Performance. Dissertation: Summary of Percussion Dissertation Recitals.
- Nathan Joseph Shook**, Field of Specialization: Music Performance. Dissertation: Three Programmatic Recitals of Tuba and Euphonium Music.
- Rong Sui**, Field of Specialization: Music Performance. Dissertation: Cultural Expression and Musical Design in Chinese Piano Music: History, Analysis, and Pedagogical Approaches.
- Mira Carole Walker**, Field of Specialization: Music Performance. Dissertation: The Pedagogical Legacy of Margaret Allison Bonds.
- Rachel Elizabeth Zephir**, Field of Specialization: Conducting (Band). Dissertation: Three Dissertation Recitals.

### Doctor of Philosophy

- L'Emir Pierre Abillama**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Algorithm-Hardware Co-Design for Artificial Intelligence: From Energy-Efficient Edge Processing to High-Performance GPU Acceleration.
- Sebastian Abisleiman**, Field of Specialization: Aerospace Engineering. Dissertation: Numerical Simulation of High-Speed Combustion: Supersonic Deflagrative Combustors and Oblique Detonation Waves.
- Armen Alex Abkarian**, Field of Specialization: History. Dissertation: Forging the Armenian Crown: Mediating Kingship Across the Mediterranean and Eurasia.
- Samantha Lamont Adams**, Field of Specialization: English and Women's and Gender Studies. Dissertation: 'A Body of Water Inside Me': Insurgent Waterscapes Shaping African American Life and Literature from the Great Migration into the Twenty-First Century, 1919-2019.
- Alexander Ahn**, Field of Specialization: Movement Science. Dissertation: Impact of Endurance Exercise on Gene Expression and Regulation in Skeletal Muscle.
- Eva Albalghiti**, Field of Specialization: Environmental Engineering. Dissertation: Microbial Carbonate Precipitation for Subsurface Permeability Reduction.
- Nuha Alfahham**, Field of Specialization: Environmental Engineering. Dissertation: Innovative Solutions for Emerging Challenges in Water and Wastewater Disinfection.
- Adam Alfrey**, Field of Specialization: Applied Physics. Dissertation: Optical Spectroscopy of Excitonic States in Transition-Metal Dichalcogenides: Insights from Hyperspectral Imaging and Two-Dimensional Coherent Spectroscopy.
- Radin Alikhani**, Field of Specialization: Clinical Pharmacy Translational Sciences. Dissertation: Biological Age in Kidney Function Models: A Framework for Age-Informed Precision Dosing.
- Abdullah Abdulaziz M. Allothman**, Field of Specialization: Electrical and Computer Engineering. Dissertation: Highly Resonant Nonlinear Wireless Power Transfer for Dynamic Charging.
- Sam Ankenbauer**, Field of Specialization: Information. Dissertation: Skimming the Deep Keel: How Older Adults Coordinate Trust and Redress in the Aftermath of Technology-Mediated Scams.
- Brandon Kiwon Apodaca**, Field of Specialization: Robotics. Dissertation: Human-aware In-Orbit Space Structure Inspection Trajectory Generation.
- Bailey Nicole Apollonio**, Field of Specialization: Film, Television, and Media. Dissertation: Kidult Media Culture: Children's Media Industries and Their Adult Fans.
- Connor William Arrigan**, Field of Specialization: Naval Architecture and Marine Engineering. Dissertation: Enabling the Investigation of Encoded and Non-Encoded Relations in Design Tools: A Causality and Ontological Commitment Inspired Statistical Physics Tensor Network Framework.
- Cassandra Samantha Arroyo**, Field of Specialization: Higher Education. Dissertation: *Nuestra Realidad*: Colonial Oversight, Fiscal Control, and the Fight for Financial Stability in Puerto Rico's Higher Education System.
- Raymond-Christian Cottman Asare**, Field of Specialization: Chemical Engineering and Scientific Computing. Dissertation: Physics-Informed Frameworks for Analyzing Structural Order in Nanoscale Biological Assemblies.
- Mitre Athaiya**, Field of Specialization: Neuroscience. Dissertation: Myeloid HIF1 $\alpha$  Orchestrates Immunometabolic Reprogramming and Promotes Peripheral Nerve Regeneration in a Non-Cell Autonomous Manner.
- Christopher Ayala**, Field of Specialization: Applied Physics. Dissertation: High Harmonic Generation in Wide-Gap Semiconductors.
- Ruth D. Azaria**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Modulating Protein Folding in Niemann-Pick Type C Disease.
- Joonho Bae**, Field of Specialization: Business Administration. Dissertation: Optimizing Battery Use for a More Sustainable Energy System.
- McKenna Pomeroy Bailey**, Field of Specialization: Business Administration. Dissertation: The Effect of Audit Partners' Prior Record on Post-Retirement Board Opportunities.
- Lillia Baird**, Field of Specialization: Immunology. Dissertation: The Role of Neutrophils in Amyotrophic Lateral Sclerosis.

### Doctor of Philosophy

- Jillian Baker**, Field of Specialization: Epidemiological Science. Dissertation: Exploring a Phenotype of Accelerated Aging in Midlife to Older Adult Women Survivors of Intimate Partner Violence.
- Ginette T. Balbin Cuesta**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Reactivation of  $\gamma$ -globin Expression in  $\beta$ -Hemoglobinopathies.
- Emily Ann Balczewski**, Field of Specialization: Bioinformatics. Dissertation: Information Management Tools for Clinician Education and Practice in the Data Era.
- Vinodh Balendran**, Field of Specialization: Neuroscience. Dissertation: Structural and Behavioral Links Between Entorhinal Cortex Somatostatin-Expressing Interneurons and Sleep-Dependent Memory.
- Leia Barrowes**, Field of Specialization: Physics. Dissertation: Ensuring Nonperturbative Particle Production in the Early Universe.
- Amna Batool**, Field of Specialization: Information. Dissertation: From Global Platforms to Local Realities: Understanding and Theorizing Non-Consensual Image-Disclosure Abuse Across Contexts.
- Justin Daniel Hollands Berman**, Field of Specialization: Physics. Dissertation: Aspects of the Perturbative S-matrix Bootstrap.
- Shreyas Naveenchandran Bhat**, Field of Specialization: Industrial and Operations Engineering. Dissertation: Enabling Effective Human-Robot Collaboration via Trust-Driven Decision-Making.
- Christopher Edward Bidlack**, Field of Specialization: Cellular and Molecular Biology. Dissertation: Deep Mutational Scan of *SERPINC1* to Identify Variants Affecting Thrombosis Risk.
- Shuhaib Bin Haji Nawawi**, Field of Specialization: Environment and Sustainability. Dissertation: U.S. Residential Decarbonization: Systems Thinking Insights Across Technological, Infrastructural, and Socio-Behavioral Levers.
- Matthew Stephen Blacksmith**, Field of Specialization: Genetics and Genomics. Dissertation: The Effects of LINE-1 Mediated Retrotransposition on Canine Genomes.
- Anne Blackwell**, Field of Specialization: Astronomy and Astrophysics. Dissertation: The Origin of Metals in Galaxy Clusters - Characterizing the Early Enrichment Population.
- Mia Bonini**, Field of Specialization: Biomedical Engineering. Dissertation: Patient-Specific Computational Modeling of Cardiovascular Interventions and Pathologies.
- Maya Louise Bose**, Field of Specialization: Bioinformatics. Dissertation: Using High-Throughput and Single-Nucleus Multi-Omic Sequencing Technologies to Understand Cardiometabolic Disease.
- Catherine Brist**, Field of Specialization: English and Women's and Gender Studies. Dissertation: Unsettling Testimony: Readers' Responses to Controversial Narrators of Sexual Violence.
- Lindsay Kathryn Brown**, Field of Specialization: Information. Dissertation: Interpersonal Information Behavior: How Families Seek, Share, and Use Information in the Long-Term Management of Chronic Illness.
- Katie Burkhard**, Field of Specialization: Biomedical Engineering. Dissertation: Three-dimensional Bioengineered Models of Cellular Interactions in the Microenvironments of Ovarian Cancer and its Fallopian Tube Precursor Lesions.
- Jordan A. Byrne**, Field of Specialization: Molecular, Cellular and Developmental Biology. Dissertation: Identifying Specificity Determinants of Organelle Positioning in Bacteria.
- Nicole Marie Cady**, Field of Specialization: Microbiology and Immunology. Dissertation: Indole Lactic Acid and *Bifidobacterium*: Mechanisms, Species Variation, and Clinical Potential in Preserving Colonic Barrier Function.
- Lingrui Cai**, Field of Specialization: Bioinformatics. Dissertation: Advancing Medical Image and Report Analysis with Artificial Intelligence: Applications in Inflammatory Bowel Disease and Traumatic Brain Injury.
- Yidan Cao**, Field of Specialization: Health Infrastructures and Learning Systems. Dissertation: Precision Feedback to Support Social and Pediatric Primary Care Integration.
- Spencer Clark Carmichael**, Field of Specialization: Robotics. Dissertation: Leveraging 3D Geometry for Place Recognition and Image Restoration in Visual and Thermal SLAM.
- Sabrina Nobrega Carneiro**, Field of Specialization: Chemistry. Dissertation: Exploring Applications of Aminocyclopropenium Ions in Organic Synthesis.
- Taniet Chahwan**, Field of Specialization: Film, Television, and Media. Dissertation: Star Bodies and National Melodrama: Gender, Stardom, and Postcolonial Modernity in 1950s Egypt.

# An **alum** of the University of Michigan.

It's a title that will be part of you from this day forward. On behalf of the Alumni Association of the University of Michigan: welcome. We are so glad to have you among our ranks. You are now among the **1 million Wolverines** to have earned a degree from the greatest university in the world.

Today is a momentous day. Celebrate it. Relish in it. But tomorrow, when you begin to figure out what comes next, we are here for you.

**As a graduation gift, we are giving each of you a complimentary one-year membership to our organization.** Keep an eye on your inbox for a message on how to access it.

We'll help you stay connected to our powerful network of 700,000 alums in 180 countries around the world. As a member, you'll have access to nearly 115 local clubs, dozens of Go Blue Rewards discounts, our beloved Camp Michigania, Michigan Alum magazine, and so much more. Visit [alumni.umich.edu](http://alumni.umich.edu) to explore our resources and programming.

But perhaps most importantly at this point in your life, we have a deep well of career resources to help you get started on your professional journey. Scan the QR code below to learn more about our offerings, including access to career coaches, webinars to learn how to write your best resume, a job board, and more.

Congratulations and welcome to our Michigan alum community! Forever, Go Blue!

## **THE YELLOW AND BLUE**

Sing to the colors that float in the light;  
Hurrah for the Yellow and Blue!  
Yellow the stars as they ride thro' the night,  
And reel in a rollicking crew;

Yellow the fields where ripens the grain,  
And yellow the moon on the harvest wain – Hail!

Hail to the colors that float in the light;  
Hurrah for the Yellow and Blue!

## **THE VICTORS**

Hail! to the victors valiant,  
Hail! to the conqu'ring heroes,  
Hail! Hail! to Michigan  
the leaders and best.

Hail! to the victors valiant,  
Hail! to the conqu'ring heroes,  
Hail! Hail! to Michigan  
the champions of the West!
